Irma Graduation Exercises Held

On Friday evening, May 9th, nineteen grade twelve students graduated. The School Auditorium, which was tastefully decorated for the occasion, was filled to capacity for the exercises.

With Charlie Allen as chairman, the event opened at 7:30 p.m. by singing O'Canada, accompanied by the band. The invocation was given by Mr. E. Neufeld. The Graduates were introduced by the School Principal, Mr. R. Milton amidst much laughter. He had a few humorous remarks for each of the young ladies and gentlemen. He also had praise for each and said that in his twelve years of teaching, they were the best class he had ever had the pleasure of teaching. They were co-operative and always in good humor.

As Mr. Milton introduced the students, Mr. Allen presented them with their diplomas.

The Valedictory address was delivered in a very able manner by Miss Barbara Smith. There were several items by the band under the direction of Mr. Dan Nash. These were enjoyed and loudly applauded. The class received a standing ovation. The class will be read by

Miss Susan Creasy; the class prophecy by Miss Sharon Lockhard and Miss Lynn Keen.

The Students' Union message was ably given by Miss Lori Prior.

Miss Denise Withnell entertained with two vocal solos which were much appreciated.

The guest speaker was Mrs. Barbara Frohnd who gave an excellent and well thoughtout and inspiring address. The ceremonies concluded with "God Save The Queen", accompanied by the band.

Lunch was served, followed by a dance. The music was supplied by "Canadian Thistle".

Those graduating were: Bobby Douglas Allen, Marjorie Lynette Baras, Kenneth Roy Burton, Susan Olive Creasy, Ian Charles Currie, James Robert Dunbar, Linda Elaine Erickson, Renita Louise Firkus, Ruth Darlene Ford, Gladys Maria Ganie, Charles Jay Hall, Sharon Delores Johnson, Sharon Lynn Lockhart, Delora Joy Mackler, Carol Lynn McKee, Gary Allen Urabeski, Nora Diane Pierre, Lori Lynn Prior, and Barbara Bessie Smith.

Tennis Meeting To Be Held

On Thursday, May 29 at 7:00 p.m. in the Town Hall (Civic Building) a meeting is going to be held in an effort to organize a tennis club so that tennis can be offered in the Carons again this summer.

We have been given a rental fee by the Carons Management Committee, and the club hopes to get sufficient membership to

charge "season tickets". These will entitle members of the club to play tennis at any time, with no charge as they will have paid the fee in advance. Also, this will entitle them to play on club nights, or nights when the courts will be available to members only, perhaps once or twice a week. Other nights the courts are open to the public is invited to come

out and play for a nominal charge as follows: Adults - \$1.00/day, Children - .50 cents/day. The cost of the season tickets will depend upon club membership.

With the club format we hope to be able to cover most or all of the rental fee at the outset of the program, and get all members of the club involved in the operation and supervision of the courts, as it is too large a task for only one or two people.

In the event that outdoor courts are completed this summer (a possibility with the pads which will be constructed on the school grounds) the unused portion of the season ticket will be refunded, or if the holder opts to let the club keep the money, it will be put towards the new courts. We plan to operate the courts for the months of June, July and August with a chance of continuing into September if feasible.

We would ask all interested people to attend, for if there is not sufficient interest shown at this meeting, there will be no tennis in the Carons this summer.

Irma Now Open All Day Wednesday

After more than thirty years of Wednesday afternoon closures, many Irma businesses are now open all day Wednesday.

Other businesses to follow suit were the Irma Co-op, and Irma Medical Supplies.

The move was instigated by Ross McFarland, owner-operator of McFarland and Co. Mr. McFarland made an independent decision to remain open all day Wednesday because he felt he could provide better service for the Irma district by remaining open six days a week.

Milt Fahner, manager of the Irma Co-op said the Co-op is now open all day Wednesday on a trial basis, and he hopes to decide whether to remain open all day Wednesday in a couple of weeks.

Irma Medical Supplies will now be open Tuesday through Saturday from 8:30 to 5:30, but will be closed all day Monday.

Village administrator, and owner-operator of Creasy Agencies, Don Creasy, said there will be no change in his office hours as he is already open on Wednesdays.

The sunny weather has encouraged many area golfers to enjoy the Lakeshore Golf course just northeast of Viking. Staff Photo

Northlands Announces Photography Contest

Edmonton Northlands is sponsoring a photography contest in conjunction with the Design For Living Program during the 1980 Klondike Days Exposition.

In keeping with the 1980 Klondike Days Theme, "Edmonton Northlands Salutes Alberta's 75", the contest is

called "Images of Alberta". A panel of judges will select the top 50 photographs, which will be on display throughout Klondike Days, in Northlands Pavilion.

Prize money will be awarded as follows: 1st prize \$100.00, 2nd prize \$75.00, and third prize \$50.00. The remaining top 47 photographs will be awarded \$25.00 each.

Photographs must be at

least 8" x 10" in size. Both color and black and white photographs are eligible. Entries close June 4, 1980. Applications for the 1980 Klondike Days Exposition Parade are now being accepted by Edmonton Northlands.

The theme of the parade is "A Salute to Alberta's 75th". The parade will begin at 6:30 p.m. on Wednesday, July 16, 1980. For more information and entry forms contact: Edmonton Northlands, P.O. Box

1480, Edmonton, Alberta, T5J 2N5.

Marching Bands who wish to participate in the Klondike Days Parade should contact the Klondike Days Association, #310 McLeod Building, 10134-100 Street, Edmonton, Alberta.

Applications for all other categories can be obtained from Edmonton Northlands, P.O. Box 1480, Edmonton, Alberta, T5J 2N5. All entries must be received on or before June 2, 1980.

The prolonged dry spell has allowed for frequent fires along the C.N. railroad tracks. Last Thursday afternoon, the Bruce Cemetery Hill (picture above) was extensively burned as was a large grass area between Bruce and Holden. Staff Photo

Control wild oats with Carbyne

Year after year, farmers report success with Carbyne post-emergent herbicide. And Your Pioneer Elevator Manager has a good stock on hand. And he can help you use it to get the best results with your crop.

Use Carbyne when wild oats are in the leaf stage of the weed.

Rely on Carbyne and your Pioneer Elevator Manager's know-how in your fight against wild oats!

N.B. Carbyne is a registered trademark of Gulf Agricultural Chemicals Ltd. Always read label directions before use.

To Florida And Back In Twenty-One Days

By Irene Toverud

Continued from May 7, 1980

Because New Orleans is below sea level and much of the land has been reclaimed from the swamps, there are no basements and no underground cemeteries. The city has an elaborate maze of drainage systems underground, constructed and paid for from estates inherited from some of the wealthy land owners.

In the cemeteries we surveyed the above ground tombs—the elaborate mausoleums type of the wealthy and the small humble grey square toms of the poor, all standing in ghastly silence, creating a hushed atmosphere as we strolled among them.

The afternoon was spent cruising down the Mississippi River on an old renovated sternwheeler. We saw many countries standing at anchor, each waiting its turn at the wharves. To illustrate how busy this port of call is, New Orleans has thirty-three miles of wharf line, along which are situated many warehouses, still the boats have to wait sometimes up to three weeks for their turn.

Our riverboat cruise was cut short because Governor Reagan had booked the sternwheeler for an evening

party. As we disembarked we saw many trays of elaborate goodies being prepared for his coming.

It is interesting to note that New Orleans boasts the largest cemetery in the world with a twenty-four mile span across adjacent Lake Pontchartrain.

The city goes wild at Mardi Gras time in March with a week of colorful parades, dancing and many bands.

Before we leave New Orleans I did not mention the night club tour. We visited there—a jazz concert first, a burlesque show next proved very entertaining when the dancers stripped as they gyrated to a three man dance band...I wouldn't call it dancing. The icing was put on the cake when one invited one of our party, Jack, to turn at the wharves. To illustrate how busy this port of call is, New Orleans has thirty-three miles of wharf line, along which are situated many warehouses, still the boats have to wait sometimes up to three weeks for their turn.

ripe oranges. There didn't seem to be much activity with fruit picking, but apparently there isn't the hurry that we thought was necessary, for it can take up to three months to pick oranges. The fruit must be handpicked and there is a perennial shortage of labor.

We spent a day at Silver Springs, Florida where we encountered one of our few really warm days. Fountains, fountains and fountains were in full bloom. We saw Palm trees and banana trees (exotics). The annual hatching plants such as we are familiar with were all set out in colorful arrays.

For our leisure, we saw a beautiful selection of antique cars, restored to their original beauty. There was a variety of shows from the Heptile Institute with its many species of snakes and alligators to a glass bottomed boat ride where we observed schools of submarine fish, unbelievably colored underwater plants and old shaped caverns and rock formations.

One day was spent in the Wonderful World of Disney with its Magic Kingdom, Enchanted, Fantasyland, Tomorrowland, Main Street, Adventureland, Frontierland, Liberty Square; a day, truly from the outside world. I enjoyed most the free show presented by Monsanto—a circle vision 360 where we viewed scenic and historic tour of the world on a screen that completely surrounded us.

It was breathtaking as we seemed to be moving with the tour and seeing a lady of the people. We came away with a truly a magnificent panorama of camera work.

One day was spent at Cypress Gardens which was very similar to Silver Springs, other than it featured a water ski show, the worlds first and finest ski show according to the brochures. It certainly was a spectacular sight with a human pyramid jumping, clouds and Delta kite flyers.

Sea World consisted of dolphins and killer whale performances. An upcoming shark show is in the making and should prove intriguing in the future to view a real shark at close quarters.

"I hope no one falls victim to Jaws" quipped a spectator.

The much awaited tour of the Kennedy Space Centre was up to expectations. We saw at first hand the mind expanding wonders of space travel. There were actual space capsules, blacked-out from wearing heat on display and many types of space equipment that was beyond our comprehension.

We saw the buildings that were used to receive, check out test, launch and land the newest in the space program; also the building where space training is carried out. The program of space shuttle where by the U.S. hopes to initiate transportation through a space shuttle program which they plan to have going by the end of 1980.

It here also that the culmination of space work from all over the world is brought together and readied for

Wednesday, May 21, 1980

launching into outer space. We viewed various models of missiles in addition to seeing the actual space craft used in the Apollo missions, all of it beyond our understanding.

The Saturn V rocket was so immense that our bus looked like a very tiny toy beside it. It was mind boggling to think of the tremendous amount of power required to life something as immense past the gravity of the earth. We saw the huge powerful crawler tractors used to transport it to the launching pad. We were told that it took eighteen gallons of fuel for every twenty feet of transportation. Unbelievable. The reality what man is now capable of was suddenly brought home to me and I wondered for a moment if he has a tape by the tail and can't let go. The benches there are coming out of space travel is just a baby but then can it get into the hands of the wrong people and mean total destruction. Who knows?

We finished out the day by stopping at a agate mall for a few hours of shopping. That was it did understand. There really wasn't too much to get excited about I found, for though it was large I didn't see anything different than what we can get in Edmonton. There were some good sales but how much can a person carry on a bus?

Pool packs the HOE-GRASS punch!

Four good reasons to buy Hoe-Grass from POOL.

1. Early post-emergence pay-off.
If wild oats and other grassy weeds before they have time to root, yields in wheat, barley, rye and flax.

2. Direct weed-killing action. Walk your fields, plant your Hoe-Grass and kill problem weeds, not just stun them.

3. The Hoe-Grass/POOL tank-mix. It may be the only herbicide application you'll need in wheat, barley and flax.

4. POOL Service. This year, your POOL Manager has an even larger supply of Hoe-Grass to serve you better. Ask your POOL Manager about the various discounts available. And make POOL your one-stop supplier of farm services.

*except Klages & Betzes

Alberta Emergency Stop-Loss Program For Hogs Announced

The following Ministerial Statement by Dallas W. Schmidt, Minister of Agriculture for the province of Alberta, was released recently.

I am pleased to announce today the details of an Alberta Emergency Stop-Loss Program for Hogs. In response to the emergency situation in the hog industry and in recognition of the hardships confronting producers this Government will institute a temporary, Stop-Loss Stabilization Program for Hogs of Alberta origin.

The program will be effective from April 1, 1980 to March 31, 1981 and payments by this Government will represent a commitment of \$52 Million dollars to Alberta's hog industry. It was decided this action was necessary to restore confidence and prevent erosion of the industry due to the negative impact of low producer prices and increased production costs. I wish to emphasize that this is a short-term program, and that Alberta will continue to work with the Federal Government and with other provinces with respect to the development of a meaningful level of stabilization on a national level which will involve producer participation.

Holden And District News

senior sale. Mr. Bruce Budd is feeling better and is home after spending a while at the Viking Hospital.

Mr. Alex Tymchuk is also feeling much better after spending some time in the Edmonton hospital.

For good evening entertainment, watch the baseball game at Holden on May 22. Holden will do their best when Tofield will be playing here.

There will be a combined 4-H sale for Ryley and Holden at Holden on June 4. Holden residents are pleased that another street will be paved this year. Border paving of Centre Avenue has started making preparations for paving east of the Holden Hotel.

Preparations have also started for a better road passing the Holden Campsite, where the Senior Citizens Lodge is to be constructed possibly starting in August of 1980.

The Performance Of Soil Incorporated Herbicides Under Dry Conditions

Have you used or are you planning to use soil-incorporated herbicides this Spring? Shafteck All, weed control specialist with Alberta Agriculture, says that

the performance of some commonly used soil-incorporated herbicides may be affected by the low level of moisture, which has resulted from this spring's abnormally warm, dry weather. He points out, for example, that the wild oat herbicide, Avadex BW, requires a minimum of 5 per cent available soil moisture

to become activated, and that if this moisture is not present, the wild oats that germinate below the two inch layer of treated soil could grow through it with no adverse effects. On the other hand, if the soil receives moisture before the wild oats emerge, the herbicide will be activated and provide effective control.

Although Treflan, another commonly used soil-incorporated herbicide, does not need moisture to become activated, the fact that it has to be incorporated to a depth of four inches will cause a significant loss in soil moisture. The result could be difficulties in establishing a firm seedbed and soil drifting.

Mr. All warns against using soil incorporated herbicides in areas that are prone to soil drifting, especially if drifting has been a problem the past. Under this spring's conditions, soil incorporation will make the soil in such areas even more susceptible to drifting.

Mr. All says present conditions are likely to be less critical for farmers who incorporated their herbicides last fall if they keep their cultural operations to a minimum this spring. He stresses that it is most important to conserve moisture in the top two or three inches of the soil. If no moisture is received before seeding time, farmers who have not already used soil incorporated herbicides might be wise to consider post-emergent herbicides.

Tanya Jane Curken of Vegreville shows off her winning entry in the Alberta Dental Health Month Poster Contest. Sponsored by the Dental Health Professionals of Alberta, the poster contest was open to children as a featured activity of Dental Health Month.

Bruce And District News

Sympathy is extended to Joan Stanhaugh who recently received word of her mother's death. Joan left for England on Monday evening, May 12, to attend the funeral and spend three weeks with her sisters and their families.

The Bruce Stampers played two games last week. On Wednesday, May 14th, they journeyed to Ryley to be defeated by a score of 9-0 and on Friday, May 16th, they were victorious over Kinsella by a score of 30-14. The Kinsella game was played here. The next game will be at Irton on May 23.

Members of the Bruce Senior Citizens' Club enjoyed a social evening at the

Drop-In Centre on Wednesday, May 14. The evening began with a supper at 6:00 p.m. which was followed by a short film. Prizes went to Sigrid Erickson and Tom Dwyer while Gladys Kadz and Bert Sigel received consolation prizes. The evening ended with coffee and cake.

Viking Comets Active In Highway 14 League

The Highway #14 Ladies Football League is once again underway. This league consists of six individual teams with two entries from Viking, two from Tofteld, one from Splitedad and the Viking Comets.

The Viking team has played two games to date. They played their first game against the Ryley Blue-Jays who they defeated last year to win the league. Their second game was played against Splitedad, a team which is new to the league. Viking won both games.

The first game against

Ryley was an exciting game from behind win in the final inning with Viking on top 15-12. The second game was won to exciting at Viking led 16-0 after one inning and finished the game ahead 49-9. The Viking Comets have eight games remaining in league play.

Following is a schedule of remaining games for the Comets.

May 21
Viking at Tofteld Titans
May 28
Viking at Ryley Blue-Jays
May 28
Tofteld Titans at Viking June 2

Irma Minor Softball Action

Irma Minor Softball is well underway with the following games and results being forwarded:

May 12 found the B.N. Bears defeated the Blue Jay by three runs for a 12-9 score.

On the 13th of May the Steelers defeated the Cardinals by a 29 to 22 score while the 14th found the Blue Jays with a single run

lead to outscore the B.N. Bears 20-19.

On May 19th, the Cardinals met the Steelers and the game resulted in the Cardinals tallying 23 runs while the Steelers complete 8. Points accumulated by the teams are as follows: Blue Jays 4 points, Steelers 4 points, B.N. Bears 4 points and the Cardinals 2 points.

Buyers Beware

As consumers it is our job to pick and choose merchandise that suits our needs, and disregard the rest. But first we need the necessary information.

In the past few months I have been seeing flyers and commercials for furniture sales. The new styles seem to be floral, patterned and made of cotton. Before buying a cotton living room suite, read on.

Different fibers have different wearing abilities. Synthetic or man made fibers are stronger and will last longer than natural fibers. Thus cotton does not wear nearly as well as nylon.

For example, cotton is only rated fair for durability and poor as far as soil and stain resistance. Further more if you try to clean it with a damp cloth, the material may shrink. Cotton rates poor-fair on resistance to light fading and yellowing.

If you want furniture that can handle some wearing and will last a while, avoid cotton. A better choice would be nylon, polypropylene or acrylic.

Viking Day Care Centre Gets Reprieve

Staff Photo

Prior to the rainy weather, work in the new subdivision on the northwest side of Viking was progressing rapidly. The self-propelled forming machine pictured here pours the sidewalk, curb and gutter all in one operation.

Devonian Crew Conducts Spring Clean-Up

Members of the maintenance crew of the Devonian Foundation were in Viking on Tuesday, May 27, conducting a spring clean-up.

Quite a number of new trees and shrubs were planted following the removal of the dead ones. As part of the spring program, numerous annuals were set out.

Devonian crew co-ordinator, Dan Dammann stated that more care should be taken in watering and general maintenance of the Devonian Foundation.

In fact, Mr. Dammann stated that Viking is fortunate to have recent replacements this spring.

The crew co-ordinator told that although many of the planters may have been well maintained throughout the growing season the replacement of some shrubbery may have been due to insufficient watering late in the fall before freeze-up. He also stated that early spring watering is a must and this area also seems to have been neglected in some cases.

Funding for the initial installation of the planters, trees, plants, garbage receptacles and street furniture was provided through the Devonian Group of charitable Foundations. In addition funding for the spring clean-up and replacement of trees and shrubs was funded through the foundation. This beautification program has not been passed on to the tax payer.

Mr. Dammann advised that the Devonian crew will return to Viking sometime during the month of July to complete a park project at the end of main street. The final design for the park has to be altered and is still subject to the approval of Town Council.

In concluding, Mr. Dammann stated that the street beautification program in Viking seems to have escaped major damage and the street furniture and planters remain in somewhat better condition than that of many towns.

Irma 75th Grant Monies Allocated

Canadian Legion \$1250.00
Irma School (Essays, posters etc.) \$500.00
Irma Golf Club \$400.00
Irma Area \$900.00
Sharon Lutheran Church \$900.00

The President, Ron Thurston, stated that the Jimmy Arthur Orde contract had been signed and his group will entertain on Saturday evening, August 2nd, in the Irma Arena.

Letters were received and read from the M.P. and the Village Council giving their approval on the applications from the various Irma organizations asking for grant money. We now are waiting for final approval from the Regional Office in St. Paul after which we hope to be able to release this money so that the projects can be completed as soon as possible.

The following is a list of the monies allocated:
Anniversary Committee Expenses \$2226.00
Chamber of Commerce \$2468.00

Partially as a result of these discussions, the Wainwright Administrators Association (four local organizations) and the Wainwright School Division returned to compulsory Grade XI examinations for the ensuing year, 1980-81.

If the board approves this recommendation at its next meeting in June, then the Irma students next year will write departmental examinations in all academic subjects - English, Social Studies, Mathematics, Chemistry, Biology and French. The final mark awarded to a student in each subject will be based equally on the student's course work recommended by the teacher and on the exam result. This represents a 50-50 split, compared to the general school split of 60 per cent on the course work and 40 per cent on the final exam.

The Child Development Centre has been granted a temporary reprieve. The Parish Council of Holy Heart of Mary Roman Catholic Church has granted the Child Development Society permission to operate the Centre in the basement of their church until the end of September.

The Centre is being forced to relocate because the housing it is presently located in does not meet government standards for a day care facility.

Evening Carrington, President of the Child Development Society, said that government inspectors will have to inspect the Church basement before the Centre is moved. She noted that there should be few problems with the inspection as the Church is an existing public building.

Arrangements have also been made to relocate the activities of the Child Development Centre when special need arises in the Catholic Church. On special occasions such as weddings or funerals when the basement will be used, the Centre will relocate to the Education Centre of the Golden Valley Lutheran Church for the afternoon or day.

The Child Development Centre is presently staffed by Linda Quilton and Marilyn Rokas. Both staff members are qualified in early childhood education. Besides the two full time staff members, many hours of volunteer work are put in by the mothers.

At a meeting of the P.S.S. Advisory Board on May 14, approval in principle to try to obtain capital funds for the construction of a permanent child development facility. The Child Development Society will be preparing plans and getting estimates for the construction of the facility.

These plans and estimates will be presented to the Preventive Social Services Advisory Board for approval and then to the Viking Town Council. If the Council approves the plans and the Viking Child Development Society will then attempt to acquire any and all available government grants for the construction of the new facility.

The P.S.S. Directors gave approval in principle to try to obtain capital funds for the construction of a permanent child development facility. The Child Development Society will be preparing plans and getting estimates for the construction of the facility.

These plans and estimates will be presented to the Preventive Social Services Advisory Board for approval and then to the Viking Town Council. The Homemaker

By Maureen Bauman, District Home Economist

What are you doing in July this year? Why not attend Alberta Women's Week, an educational and fun week put on by Alberta Home Economists. This year it will be held July 21, 22, 23, and 24 at Olds College.

This year is the 50th Anniversary of Women's Week. It all started with Farm Women's Rest Week in 1930. A variety of speakers will be featured this year such as Dale Berg, on "The Family in the '90's"; Arlene Morris on "Women - A Precious Resource"; and

Vernia McLaughlin, on about "Looking Good, Feeling Good".

A variety of fun sessions are also offered, such as dining, gardening series, gifts to make at home, fitness for the unfit, and more. You will also want to take in the sing-along, a formal banquet, and make-your-own-fun-nie, chapel and morning exercises.

Room and board is provided by Olds College and our registration fees are still

only \$5. Child care service is available for children 3-9 years, at a small cost as well.

Register early to ensure yourself a place in this week of fun and learning! Registration deadline is June 23, 1980. For registration forms or more information call your local District Home Economist, Maureen Bauman at 663-3555 right away.

SUMMER SAFETY

Some simple suggestions for your outdoor safety are:

1. Keep electrical equipment away from damp areas.

2. Store all electrical power tools in dry areas.

3. Never carry electric equipment by the cord or yank the cord from the outlet. Grasp the plug not the cord.

4. Use extension cords that are rated for outdoor use.

5. Before you dig, check for underground power lines and gas pipelines. If you are unsure of their location call the utility company.

Parkland Nursing Home News

Get well wishes to Mr. Mike Piowar and Mr. Roy Harris who are in hospital.

In to visit Gail Gustafson were her daughter Mab of Strathin and Amy and Clifford Hogstrom of Edmonton.

Lloyd and Walter Campbell visited with their mother Mrs. Edna Campbell.

Honey Curtis visited with brother Charlie Auburn.

Chris Scott visited with his grandmother, Mrs. Nellie Clagg on Tuesday, also daughter Zerah Candlish

visited with her mom, Joe and Betty Kawaikali visited with grandma Kawaikali.

Oliver Good and Jason and Shelly Lusk called on Lars Nilsson.

The Lutheran Sunday School came in and sang for us Sunday morning. This was very nice and we enjoyed your singing. Please come again.

Summer is here. Mr. Benson and his orange "bomber" are on the road again.

Letter To The Editor

Viking Beaver Colony Closes

The Viking Beavers closed their season with a picnic on May 21. We all loaded in "Laws Tax" and headed out to Leif's farm. Every one enjoyed seeing all the animals and also a ride on the Merry-Go-Round. The picnic concluded with a winner's roast. We would like to

thank Mr. Leif for having us and Mrs. Laws for her last service.

We also toured the R.C.M.P. station. The Beavers really enjoyed it. Thank you to Corporal Leif for his service.

It is hoped that more boys in kindergarten and grade one will join next fall. We only had three join from kindergarten this year. I'm sure there are more little Beavers around than that. It is really a worthwhile program and the boys really seem to enjoy the games, stories, projects and lessons.

I would really like to thank my helpers - Brad, Dale, and Mrs. Leif. Your assistance was very much appreciated.

And thank you to all the Beavers. I really enjoyed working with you and getting to know you all.

D. Hodgins

Weekly Police Report

This week we introduce the first in a series of reports from the Viking R.C.M.P. Detachment, documenting complaints handled through their office on a weekly basis.

A break-in was reported at a house trailer located one-quarter mile west of town on Monday, May 19th. Minor personal belongings were taken. The incident is still under police investigation.

Two motor vehicle accident reports were received, both involving "pet-holes" which have resulted in man-hole covers protruding above street level in the

vicinity of a very successful hockey year for the Sutter family of Viking came on Saturday when the New York Islanders won the Stanley Cup as champions of the N.H.L. Duane, fourth son of Louis and Grace, is a rookie member of the Islanders who he has played since.

The Islanders' victory is their first championship win in the N.H.L. and the Islanders are the first hockey team on which Duane has played that has won a championship.

Darryl Sutter as well made it to the N.H.L. with the Chicago Black Hawks. Along with Brian, captain of the St. Louis Blues, that made three Sutter brothers in the N.H.L. Darryl spent most of the year with the New Brunswick team for the A.H.L. league trophy but lost to Hershey in the playoffs. Darryl was called up to the Chicago club on a number of occasions and played in the early round of the N.H.L. playoffs.

Yet, there was more! The three youngest sons, Brent, Richard and Ronald, played on the Centennial Cup winning Red Deer Rustlers. The Centennial Cup is emblematic of Tier Two Junior A hockey supremacy.

As well as setting a league record for points in a single season in the Alberta Junior Hockey League, Brent was selected as one of the finalists as the best Tier Two Junior A hockey player in Canada. At the Centennial Cup tournament, Brent was chosen as the Most Valuable Player in the tournament. As captain of the Rustlers, he also accepted the Centennial Cup.

With three brothers in the N.H.L., one a member of the

They Don't, Do They?

One very worthwhile aspect of life in a rural community is the generosity which many, many people show by way of donations to the large number of memorial funds in operation. Over the years, a great many projects have been funded by this type of generosity. Donations are made regularly to the Cancer Fund, various cemetery funds, hospital funds, etc. These donations are a source of income very often badly needed by the organizations which receive them.

Yet there is a very fascinating side to the donating of money to memorial funds. The vast majority of people who give do so with the sincerest and most honest intentions. These people are to be commended for the concern which they show, both for the deceased individual and for the project to which the money is being donated. Money given with these intentions and concern is most welcome at any time.

The fascinating aspect involved in the donating of money lies not with these people, but with those people who donate in order to get their names published in the newspaper. Granted, this may be an incentive to have "some" people give, but this is a poor incentive. At times, individuals have donated \$100, yes \$1,000, to one of the funds and then asked that their name be placed with as many as four different "In Memoriams". Also, at times, those people who unselfishly operate the funds have been faced with irate donors when their name has inadvertently been left off the list in the newspaper.

It seems to appear that some people donate simply to have their names appear in print. This is a sad reason for giving to memorial funds. Perhaps the funds should start setting a minimum donation requirement in order for a name to be printed, and then for only one "In Memoriam". Those who are not concerned with the public relations aspect of their donations will feel free to give as they please. Those who do feel their image needs help through the "In Memoriams" column in the paper will just have to donate more in order to have their name published.

The virtue of giving, freely and honestly, is one of the greatest virtues we can have. Let's not put expectations on our giving.

AGENTS AT YOUR SERVICE

Schmidt Opens Law Office

As of early May of this year the residents of Viking and district have been provided with access to a second legal council, that of Ken Schmidt of Camrose. Mr. Schmidt has opened a law office in Viking on a two day per week basis. His office is operated from the inner office of Ritchie Agencies, previously occupied by the Viking Branch of the Credit Union.

Prior to entering law school Ken Schmidt graduated with a Bachelor of Science degree in Microbiology and taught Medical-Lab Science at Nait. During this time he also managed a girls group home for the Department of Social Services. Two years later he entered the field of life insurance and in a short time became top salesman. He was promoted to Branch, District and then Regional manager positions. Following a successful career in this field he entered the retail merchandising trade for a time. In 1973 he returned to university with the intention

Cement Dust In Livestock Rations

Using cement kiln dust in animal feeds may sound like a crazy idea, but it could be an effective and inexpensive way to improve livestock performance.

In feeding experiments conducted at Agriculture Canada's Fredericton Research Station, rates of gain for animals fed cement kiln dust were increased by up to 22 per cent in sheep and nine per cent for some cattle.

The best results were for finishing lambs and young Holstein heifers. Yearling beef heifers and dairy cows did not respond to the cement additive.

O'Leary P.E.I. - Viking's Twin

The following article was

researched and written by

John Week of Viking.

O'Leary, a small typically

conservative town on Prince

Edward Island, has a popu-

lation of about 800 to 1,000

people. The ocean is nine

miles away. The closest

town around O'Leary are

Summerside, 40 miles away

and Charlottetown, about 80

miles. The roads are straight

for 20 miles on a

stretch, and there is only

one paved road.

O'Leary is a mixed farm-

ing area. About half the

people farm and the other

half are fishermen. Here you will find the biggest carrot farms in P.E.I. The crops are planted in the middle of June, and harvesting takes about two to three weeks in October. During those weeks you will not find many students attending school, since everyone here is harvesting. The farming is done by the whole community getting together and helping each other.

There are few businesses in the town, since main street is only a block long. They have a general store, the Co-op, a hospital, a veterinary clinic, and seven gas stations. It has a train station but trains only come through twice a week. Tues-

days and Thursdays at 4 p.m. This town doesn't have a mayor, but instead a country warden. Their member in parliament is Mr. George Henderson.

There are 183 students attending the school at O'Leary. 30 of these students will be graduating in the spring. The principal of this school is Bill Costain. Right now the town is in the process of building a composite school. Many students are not really interested in their studies, since most of them know that they will be farming or fishing; perhaps another indication of their conservative upbringing.

There is a lot of community spirit in O'Leary. The people participate in square dancing, hockey and curling are also big. They have a horse and pony club. A potato blossom festival is held at the end of July; their big community event of the year.

The main background of the people is Scottish and French. The religious background therefore, tends to lean towards an obscure mix of the united faith.

The wild animals in this country are mostly small animals like the rabbits and skunks. You will not find large animals like the deer and bear. Actually the town gets its origins from brown silver fish that may all be found today.

Your P.S.S. Board In Action

The members of the Preventive Social Services Board in Viking are: Marie Rankin, President; Marie Hanson, Secretary; Inge Brower; Pastor Tim Johnson, Ministerial Representative; Debbie Forsal; W.R. Taylor, Town Council Representative; and John Rasmussen, Youth Representative.

Purpose: An administrative committee to oversee the operation of a Preventive Social Services program for the benefit of the citizens of the Town of Viking. Policy: One of a number of Board policies is to stimulate and promote citizens awareness of the importance of prevention and the Preventive Services being established and available.

Meetings: Regular meetings are held in the Meeting Room of the P.S.S. Office at 7:00 p.m. on the second Wednesday of each month. Since the first meeting in September this volunteer Board has held twelve regular and special meetings.

Recent Activities: February: Selection and purchase of equipment and supplies for the P.S.S. office and meeting room in the Carina Living quarters.

March: Several Board members attended the Regional P.S.S. Boards and Director's meeting in Vegreville.

April: Three Board members with the Director attended a Three day Board Members Regional Conference at Westridge Park Lodge.

Marie Hanson attended a Board Members meeting in Edmonton for the purpose of preparing a Provincial Brief which was submitted to the P.S.S. Review Board.

Members prepared and submitted a brief to the Review Board, outlining the particular situation and position of the Viking P.S.S. Support letters from several individuals and organizations accompanied this brief. The public is invited to make representations to the Board regarding projects deemed desirable in the community.

For further information contact: Gloria Leraand, HOME CARE COORDINATOR, VEGREVILLE HEALTH UNIT, VEGREVILLE, 632-3331, or your local Health Unit office.

Dmetro Arychuk Laid To Rest

Mr. Dmetro Arychuk of Viking, Alberta passed away suddenly on Tuesday, April 15, at the age of 61. He was born in Beavallion, Alberta on October 20, 1918. He is survived by his loving wife Lena, and four children, Harley, Lorraine, Danny and Jeannette, all of Viking; four brothers and three sisters, Nick of Edmonton, Harold of Leduc, Dave of Viking, Steve of Gunn, Mrs. Jean Tannos of Willingdon, Mrs. Mary (John) Parkes of Mission, B.C., Mrs. Lena (Zig) Farnach of Stouy Plain, many relatives, neighbors and friends. He was predeceased by his father on August 13, 1963, and his mother on April 25, 1970.

Dmetro grew up on a farm and loved it. At the early age of 13 he was stricken with rheumatic fever, thus remaining with a heart condition. As a young man he demanded assistance from all circumstances, he was no exception, but assisted in all aspects with chores including field work. Later on in his early 20's he was drafted into the army, regardless of his health. He remained there for four years. Being obedient and respecting his parents' instructions in life, he was spared many heartaches and disappointments of a child, rugged life he had seen others experience. He learned many necessary skills in life, from polishing shoes, tidying his room, to washing dishes for 200 people, to being watchman at the sea base in Eastern Canada (with many fears), to being a driving instructor to finally recruiting into the shops where he was taught mechanics. Upon discharge from the army, he gladly came home to Viking, where the family bought the farm in the early forties. He faithfully and lovingly cared for his parents until their

death. Somehow life was incomplete. Although he was living in a Christian home, he felt his incapability of living up to the standards still finally one day while watching a T.V. program, he surrendered to the Lord and accepted him as his Lord and Saviour and Master of his life, in 1962. Though life was hard at times, he felt the love, mercies, assurance and presence of God with him. Through it, and above it, he saw "God is Sovereign". Meditating upon good old fashioned goodness, he experienced the presence of the Lord while tending chores and in field work. He enjoyed life regardless of health circumstances.

He loved people. Appreciating his knowledge in mechanics, he enjoyed helping others. Dmetro was a tough, tender and wise man. His corrective instructions were for one's good, thus acquiring the respect of the community. He will be missed by his family, friends, neighbors, and acquaintances.

The funeral for Dmetro Arychuk was held on April 19, 1980 at 1:00 p.m. from the United Church with Pastor Bennett from Calgary in attendance. Dmetro's family officiated. Rev. Makynchuk read the scripture, eulogy, obituary and followed with a most helpful Ukrainian language. With Tim Arychuk residing at the home, the heart touching hymn "Does Jesus Care?" followed by Natalie Kurka's singing "Coming to the Waters". Rev. and Mrs. Hunter led the congregational song service with two hymns, "Amazing Grace" and "The Old Rugged Cross". Rev. and Mrs. Hunter, the early forties, offered service with the message, and an appeal to surrender one's life to Christ.

The pallbearers were John Parkes, Zig Farnach, ex. Ernie Merita, Herb Holmstrom, Ralph Child, and Albert Spang.

Ushers were George Chornash and John Fraser.

Interment took place in the Viking Cemetery, with Rosengaph Funeral Services in charge.

The new variety, Johanson, was developed at Agriculture Canada's Brandon Research Station in Manitoba. It is superior in yield to all barley varieties now grown in the Prairie Provinces.

Limited quantities of commercial seed should be available next spring.

On Saturday, May 24, 1980 Carla Hoeller, daughter of Mr. and Mrs. Earl Hoeller and Doug Williams, son of Mr. and Mrs. Ken Williams were united in marriage in the Viking United Church. Wesley Photo

Irma News & Views

been pain since grade four.

Jim Jackson took one of his Irish visitors, Jack O'Meara to meet the Armitage family last week. Jim also introduced him to Clifton and Betty Holt. Clifton took Jim, Jack O'Meara and Bert Armitage for a drive north and east through the hills to get a look at the oil fields around Albert, Jack who is a farmer, raising cattle and sheep, was much impressed by the rolling landscape and the immensity of some of the fields. He was also impressed by the many oil wells, most of which were pumping. He was slightly shocked by the plentiful supply of large round straw bales in some places, many of which were strewn carelessly around. He also commented on the great number of people who were overweigh.

The weather is generally a subject of conversation, and many times in recent weeks, I have been asked "Do you think it will rain?" I have invariably said "Yes, it will rain," but I never said when. Well last night, (Sunday May 25), it stormed. The wind blew from every point of the compass, from time to time lightning flashed and rain poured, and finally it rained.

Most people when I talked to agreed that Irma got one inch. South of town some people report getting one and a half inches of rain, and the sky this evening looks as if we may get heavy showers in the near future.

Irma got one inch. South of town some people report getting one and a half inches of rain, and the sky this evening looks as if we may get heavy showers in the near future.

Intermediate Boys
Larry Kryka: 1st Shot Put

Kinsella W.I. Meet

The May meeting of the Kinsella W.I. opened at 8:15 p.m. with 15 members and 6 visitors present.

The secretary read the minutes of the last meeting, and the treasurer report was read. Correspondence was then dealt with. Gwen Daugherty gave a report on the Cemetery. Clean up day will be held on Wednesday June 11. The W.I. ladies held a very successful Cancer Drive this year, collecting \$297.00. One delegate will go to the Ods convention on June 9. Resolutions which will be dealt with at the convention were then read.

A delicious lunch was then served by Jean McKie and Virginia Welch.

Alberta 75th Birthday Souvenir Spoons were then distributed to ladies who had ordered them.

Marlene Nordstrom gave a very interesting talk on the heart and its functions, diet, exercise, etc. We then had our plant exchange, so that everyone went home with someone else's plant.

The birthday draws were won by Jean McKie and Pat Rutledge.

A delicious lunch was then served by Jean McKie and Virginia Welch.

The birthday draws were won by Jean McKie and Pat Rutledge.

Hoe-Grass is the two-in-one herbicide.

Hoe-Grass, the double duty herbicide, controls both wild oats and wild millet, and your Pioneer Elevator Manager has a good stock on hand now. He can help you use Hoe-Grass to increase your yields.

Hoe-Grass, by Hoechst, works early to control the problem before the crop is affected. Hoe-Grass also controls Persian Dandelion and Barnyard Grass in growing crops.

Use Hoe-Grass in wheat, flax, rapeseed, mustard, barley (except Hages and Bettes), lentils and buckwheat.

Rely on Hoe-Grass and your Pioneer Elevator Manager's knowledge in your weed control program.

Hoe-Grass is a registered trade mark of Hoechst Ag. Read label instructions before using.

Viking 4-H Clubs Hold Joint Achievement Day

Grand Champion Calf of the 1980 Viking 4-H Beef Sale was owned and shown by Kevin Maxwell of Viking. The calf had a gross weight of 1190 lbs. and sold for \$1.00 per pound to Russell Hanson Contracting at Viking. (See more pictures on pages 9, 10 and 11.) Staff Photo

As another year of progress for 4-H members draws to a close, we find three active clubs participating in a joint endeavour on 4-H Day.

The Viking Dairy Club now under the leadership of Mr. Norman Withers of Lavoey, dates back to 1967 with Achievement Day highlighting the year's progress. The eight members of the club began the day with their cattle on display at the Caravan. The members then took part in a "Judging Competition", making their selections from a choice of four and recording their reasons for their selection. Results of this competition have not yet been released.

In the afternoon, judging of the 4-H projects was conducted. Gordon "Duck" Vegreville headed the judging in the Showmanship and judging categories under the Gordon Patriquin of New Sarepta was Show judge. Lisa Lang's 4-H entries were a strong favorite with the judges. Lisa received

over all Grand Champion and Reserve Grand Champion as well as securing first place in the calf class and Reserve Grand Champion with her 2 year old.

Mary-Lynn Lang was awarded first place honors for her yearling 4-H project. Following the grooming and showmanship portion of the program, the judges announced Lisa Lang as winner of the Showmanship category while brother Stephen Lang won the judging approval in the Grooming category.

The relatively new 4-H Light Horse Club joined in the day's activities by setting up a display which featured a number of items of tack, various bridles, saddles, bits, etc. Of interest to the auctioneers duties, it is interesting to note that only four clubs need to buyers outside the Viking area this year.

In the Junior Division, Colin These won the Junior Championship, while Kelly Ruzicka took the Reserve Championship.

Coleen These won the Junior Showmanship award, while the Junior Grooming award went to Jason Place. In the judging competition which also took place on Monday, Kevin Maxwell won the Senior award, and Elizabeth Roddick took the Junior award.

This year's judge was Dave Deric of Lavoey. Grooming and Showmanship judges were Ben Lotz of Holden, and Maurice Erickson of Bruce. Veronica Serich handled the M.C. duties for the entire show.

A sale followed the show, with Mike Zowchuk handling the auctioneers duties. It is interesting to note that only four clubs need to buyers outside the Viking area this year. All awards were presented at the banquet which followed on Monday evening. The Junior Grooming award was presented to Jason Place. The Junior Showmanship award was presented to Colin These. The Junior Championship award was presented to Kelly Ruzicka. The Senior Championship award was presented to Kevin Maxwell. The Senior Showmanship award was presented to Elizabeth Roddick. The Senior Grooming award was presented to Coleen These. The Reserve Junior Championship award was presented to Kelly Ruzicka. The Reserve Junior Showmanship award was presented to Elizabeth Roddick. The Reserve Junior Grooming award was presented to Jason Place. The Reserve Senior Championship award was presented to Kevin Maxwell. The Reserve Senior Showmanship award was presented to Elizabeth Roddick. The Reserve Senior Grooming award was presented to Coleen These.

Viking High School Graduation Held

A banquet, exercises and a dance were held in the Community Hall last Saturday evening to honor the graduates of the Viking High School for 1980. The banquet began at 6:30 p.m. with M.C. Perry Ruzicka welcoming the graduates and their guests. Mr. Ruzicka introduced the head table which included Mr. and Mrs. Fred Reitholt, Mr. and Mrs. Dennis Watson, and Pastor and Mrs. Tim Johnson. Following Grace by Carolyn Klein, Perry Ruzicka read a toast to the Queen. The large gathering then enjoyed a feast of the evening by thanking everyone for coming, and by thanking the Graduates for having invited him to be their banquet M.C. Shortly after 8:00 p.m., Mr. Dick Morris opened the Exercises. As the Stage

band played, the graduates moved to the stage as their names were called. A total of 36 students made their way up the aisle. Following the singing of the O'Canada, led by Mr. Dennis Watson, Mr. Earl Kindley offered the invocation. Principal Dennis Watson was then called on to give his message to the graduating class. Mayor Selmer Haiso next brought greetings from the Town of Viking and offered some thoughts on the significance of the ceremony. Mr. Fred Reitholt, Superintendent of Education for the County of Beaver, then brought best wishes to the graduates on behalf of the Board of Education. Following this, Councilor Gordon Holmes presented two pairs

of graduates to the stage. The first pair consisted of the graduates of the Viking High School for 1980, and the second pair consisted of the graduates of the Viking High School for 1979. The graduates of the Viking High School for 1980 were: Kevin Maxwell, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1979 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1978 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1977 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1976 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1975 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1974 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1973 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1972 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1971 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1970 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1969 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1968 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1967 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1966 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1965 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1964 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1963 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1962 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1961 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1960 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1959 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1958 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1957 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1956 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1955 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1954 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1953 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1952 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1951 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1950 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1949 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1948 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1947 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1946 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1945 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1944 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1943 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1942 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1941 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1940 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1939 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1938 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1937 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1936 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1935 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1934 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1933 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1932 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1931 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1930 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1929 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1928 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1927 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1926 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1925 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1924 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1923 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1922 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1921 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1920 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1919 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1918 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1917 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1916 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, and the graduates of the Viking High School for 1915 were: Colin These, Kelly Ruzicka, Coleen These, Jason Place, Elizabeth Roddick, We Need A Law

A major law missing from Canadian society today is one dealing with the regulation and control of hazardous materials. At the present time, the federal government is supposedly working on a bill which would demand greater safety precautions in the use, transport and disposal of such materials. The provincial governments seem to be waiting for the federal government to act, then simply use the federal legislation. And municipal governments either aren't concerned or are waiting for the provincial government to act.

But what happens if there is an accident while everyone is waiting for everyone else. Webster's Dictionary defines "accident" as "an event occurring by chance or arising from unknown causes". An accident is an accident because no one expects it to happen. Yet we are able to decrease the "chances" that an accident will occur. People who smoke near a gas pump are increasing the chances of an accident. Because of this, we are requested to refrain from smoking while filling our vehicles with gasoline. Daily we are faced with situations in which we try to decrease the chances of an accident.

Yet we often seem to ignore the serious potential danger in the transport of hazardous materials. In our rural communities, anhydrous ammonia is in abundant supply for use on the farms. Generally the storage and transport of these materials is done safely and on the outskirts of the towns. Yet we have no laws to prevent truckloads of this very dangerous chemical from being parked on residential streets in our towns and villages.

An inquiry into this matter by Constable Bileodau of the Viking R.C.M.P. on our behalf revealed that there were no laws of any kind covering the parking of anhydrous ammonia tanks anywhere in the Town of Viking. Constable Bileodau said that the only thing stopping such actions is a moral or ethical responsibility on the part of residents.

And yet these tanks have been parked on our residential streets for periods of longer than an hour. At any time an accident can happen. Another vehicle could hit these tanks and rupture them, releasing the deadly gas into a neighborhood.

If moral or ethical responsibility, or the federal or provincial governments, cannot or will not decrease the chances of an accident happening by putting stringent controls on the transport of dangerous materials, then our municipal governments should. It may be the only way to ensure a safe neighborhood.

Letter To The Editor

Dear Sir,
The separatists in Quebec say they will try again after three, four, or five years. Someone told them that long before that, a new Constitution and new Canada will have given them all of their demands, and there will be no need to separate.

The P.Q. believes that no such constitution will come into being, ever. But I am sure to say that I am very much afraid that such a constitution and a new Canada are just around the corner as a rejuvenated Trudeau sees

his lifetime goal within grasp. Both Conservative provinces and Liberal Ottawa are committed and already dancing and cheering. But what I want to point out to the nine provinces is that when the Constitution in all its beauty is written in stone, ensuring that French is entrenched in English Canada, Quebec and Trudeau will finally feel free to separate to meet their desire of self-determination and statehood. Both had the aim of staying in Canadian politics only long enough to

imprint French among the deceived English provinces where the pressure groups can pursue their French aggressiveness and eventually (indeed very, very soon with the help of the willing promoters) "Frenchify" English Canada, just as much as if Quebec were still here to be appeased. Already an M.L.A. in bigoted Alberta has said he would give his speech in French before the May 30 vote, to show the French will be in store in the future.

Isn't it queer that the

French should be proud of their culture, which is so natural, but the English should be proud of the aggressiveness and eventually of repudiating their own? There is a name for this.

AGT
GOOD NEWS PARTY LINE

Now is the time to start thinking about the Family Picnic planned for Viking on July 1st - Canada's Birth day. The day will include Bingo, Firemen's Competition, Log Sawing, Tag-Along, War, Pin Eating, Races, Novelty Races, Nail Driving Contests and many others. Why not get a team together and be ready to offer challenges to the other groups that are already planning their strategy.

The Kinsella United Church Clean - Up will be held on June 18 from 10 a.m. to 2:30 p.m. Bring your own tools. All willing hands are welcome.

The Kinsella W.I. will be holding their annual "Clean-up" day at God's Acre Cemetery on Wednesday, June 11th at 9:30 a.m. Pot Luck Dinner at noon.

Don't forget to take in the Annual Holden Farmer's Day Sports event on Friday June 13th. Something for everyone.

The Iron 4-H Beef Club Show and Sale will be held on Wednesday June 11.

Viking High School Graduation Continued From Page 1

The 1980 graduating class of the Viking High School consisted of: Front row: left to right - Wanda Robinson, Faye Oakes, Carolyn Klein, Debbie Hanson, Melanie Mattinson, Sheila Hanson, Sandra Erickson, Suzanne Ceder, Marie, Ann Stefank, Connie Fontaine, Donna McDonald, Darlene Lukosky. Middle row: left to right - Alma Penta, Kathy Miller, Karin Brandt, Carole Dennett, Brenda Petrus, Laura Simmons, Debbie Stobbe, Jackie Vitok, Sandra Hagelund, Marie Surveaux, Karen Thies, Margaret Peltier. Back row: left to right - Kevin Martin, Glen Maxwell, Wayne Erickson, Jean Rusicka, Colleen Rusicka, Karin Otto, Helen Peiras, Grace Lanning, Betty Thomson, Kanny Laford, David Jakubec, Harold Brundt, John Rasmussen.

Doors and Good-byes" The song was written by Viking music teacher Mr. Everett Norris especially for the graduation. Mr. Norris and Good-byes" to look at the past and speculate on the future for her classmates. Following the valedictory speech, a slide show was presented which had been put together by the graduating class. The slides depicted the graduates at their school years.

The guest speaker at the graduation was Pastor Tim Johnson of Golden Valley Lutheran Church. Pastor Johnson said:

The Viking 4-H Beef Club would like to thank everyone for all their support, which helped make this year's Achievement Day such a success.

Edwin Klein was the recipient of a very special award this year, as he was presented with a 15 Year Leadership pin.

And when He had spoken these things, while they beheld, He was taken up and a cloud received Him out of their sight, Act 1:9.

Forty days after Christ's resurrection, He and the disciples climbed a hill outside Jerusalem called the Mount of Olives. He had told them previously that the Holy Spirit would soon come to dwell and empower them. Then having instructed them to be His witnesses throughout the world, He was taken up into heaven.

It was necessary that Christ should return to Paradise to complete His glorification, for then he could send His followers another Comforter (John 16:7) who would abide with them forever (John 14:16).

The indwelling Spirit that He promised would further reveal the truth of God to them (John 14:26). The Lord Jesus also descended to appear as our representative and great high priestly intercessor at the Father's right hand (Heb. 7:25; Rom. 8:34). Another important reason why He returned to heaven was to prepare a

place for each sinner who receives Him as Saviour and Lord during His absence. (John 14:2-3).

Since we are brought into a mystical union with the Saviour through faith, everything that happened to Christ is looked upon by God as though it happened to us personally. This includes His ascension. Therefore, we are said to be crucified with

him (Gal. 2:20). Buried with him (Rom. 6:4). Raised with him (Col. 3:1), and seated with him in the Heavens with Him right now (Eph. 2:6). Our Salvation has been completed, and positionally we are already in Glory. Because we are united with Christ our head, our standing is forever established. May we as Christians give hearty thanks for all these

blessings of the ascension!

There for sinners Thou art pleading, There dost our place prepare. Ever for us interceding, Till in glory we appear.

The work Christ accomplished for us, His Spirit will now accomplish in us!

What a wonderful Lord, and a wonderful salvation available for everyone who will accept Him.

One of the many field trips enjoyed by the Viking Kindergarten classes was their tour of an Edmonton Fire Station. Viking School Photo

Kinsella Rose Senior Citizens

The Kinsella Rose Senior Citizens monthly card party will be held on May 31, with good attendance considering how busy everyone was. First prize for the ladies went to Jean McKie, and second prize to Edna Pike. Men's first prize winner was Pete Molier, and second Bert Cormack.

Everyone has been very busy quilting on the quilt to be raffled at the homecom-

ing. The men have been busy on the school houses which are to be auctioned off at the same time.

The next meeting will be on June 11, which will be a business meeting at which time much will be discussed re the Homecoming. Then on June 25 will be the card party for this season at which time the Grand Prize for the season will be awarded.

Vialta Lodge News

Our greetings to Mr. Coster, Mr. Lanson and Mrs. Ash, who at present are in hospital.

Our Strawberry Tea will be held at the Vialta Lodge on Saturday June 7th, from 2 p.m. to 4 p.m. All are welcome.

Mr. and Mrs. Nick Nord-

ish of Mannville called to say hello to the ladies.

Calling on Mr. Hoyle and George and Carol and Olund, and Brad and Patrick of Sherwood Park.

George and Jeanette Ferguson, and Nicole Bryden of Vegreville visited with Mrs. Ferguson.

Cherrie Falls of Edmonton called to see Edna Johnson and Albert Whiteford.

Mr. Thompson had her granddaughter, Sheila Thompson, of Nova Scotia visiting her. Also visiting her were niece Ina Barnum of Vancouver, and Alice McKenzie of Edmonton.

"Wishing"

Following are the thoughts of a student from Manitoba. They were written down by his mother. Although the student has a learning disability which makes learning to read "very hard," he is a "bright boy in general" with "perceptible above average" potential according to his teacher.

WINNING... I feel different sometimes. My Mom and Dad say I'm not different, my teachers say I'm not different but I still feel different, sometimes. I feel dumb sometimes. Mom and Dad say I'm not dumb, my teachers tell me I'm not dumb but I still feel dumb, sometimes.

Every day, at school, I wish that all the work I do will be right. I wish I could get a star on my spelling. Lots of other kids do but I never do. It seems as though I'm the only kid in my class that has never gotten a star.

I wish I could read better. I go to a special class for reading. Some other kids go to that class too. They're my friends, and my reading teacher is real nice, she helps me read better. I like that class the best.

What I don't like is when the other kids - the kids that read good and don't have to go to the special class - tease me. They tell me that class is for dumbies and that I'm going to fail. I hate that. It hurts my feelings. I don't really think it's true. I just wish they didn't think it either.

My parents and teachers told me that sometimes I see things different and so I have to learn in a different way. Mom says just because I learn things in a different way doesn't mean that I'm different. She says I'm special 'cause I have to

work so hard to learn. She always says she's very proud of me. I like that. It makes me feel real good.

She told me that the other kids tease me because they don't understand and that's their problem. I'm sure she's right but I still get upset and that makes me feel like it is my problem.

You know, it's pretty hard for me to understand this business of having a learning disability. I don't know what it means. I just know what it makes me feel in

side. Sometimes I wish there was no such thing as school.

And at times, when Mom and Dad and my teachers tell me I'm not different or dumb, I wish they understood why I feel that way. It's nice of them but when I'm kinda down in the dumps, it just doesn't help.

My dad says it's tough being a kid. Boy, is he right! But it sure would be a lot easier if everyone had a reading problem - or if no one had a problem. There I go wishing again...

Square Dance Club Hosts Spring Jamboree

Our square dance season ended officially on April 28th and reviewing the year we find that we had a very good winter and most times a good attendance.

On March 21, we had a "big night" with new in cut-offs and the ladies in various styles of bloomers. On April 15th we had a "Beds night". Some of the members have travelled to other clubs and square dance gatherings so there was quite a variety of bodes. These special nights keep the

dances interesting and help provide a great time for all of us.

On April 21, Glen Naden and his wife Doris called for us and we were sorry to hear that it would be their last visit to our club. We have all enjoyed his calling throughout the years.

We had been asked to host the spring jamboree on May 4th. It was quite short notice and involved a lot of work and planning. The event was held at Bruce and thanks to the hard work of the var-

ious committees the afternoon and evening went very smoothly. Firstly the weather was co-operative and we had a beautiful day. There was over 100 people in attendance from the surrounding areas. The workshop started at 2:30 p.m. and continued until 6:30.

A group of ladies from Bruce served a delicious roast beef supper from 6:30 until 7:00. The rest hour was spent enjoying short skits etc., put on by some of the visiting clubs. Following

this we enjoyed square dancing until 11:00.

The feature caller for the day was Art Acorn of Lloydminster. Will West of Dayland, Art Ziegler of Vegreville and Allan Zwischke of Holden.

The Lou Ann Square Dance from Edmonton brought a varied selection of dresses, shoes and accessories and appeared to do a good business throughout the afternoon and evening.

The Thrush Club are planning a big weekend for the 7th and 8th of June. Several of our members expect to attend. There are a number of other functions to look forward to during the summer.

We also elected the new executive for the 1980-81 year. The president is Jack Brooks, vice-president - Roy Peterson, treasurer - Bert Lange, and secretary - Ida Doward.

We hope to see you all next season which begins on October 27th at Bruce with Art Ziegler calling.

How Does Your Child Learn Today

The world is changing very quickly these days. If we stop and think about it, we can see how much has changed in the world around us. Reading the newspaper, watching television, talking on the phone, driving a car. Because it's part of our lives, we hear and do, and we take it all in. Learning comes naturally to us. It's part of our daily routine.

Children learn the same way. But too often, we, as adults, try too hard to give children what they must gain for themselves from their own experiences. Children learn naturally at play.

Classroom learning should also come naturally. What children are taught and the way they're taught must make sense to them if they're going to add this new information to their own developing catalogue of experiences.

But there's a great deal more to learn today than when we went to school, so much more knowledge or gained into many more fields of study.

Thirty years ago, we were taught that 90 elements existed on earth. Twenty years ago, we were told that there were 101. Ten years ago, the number was 102. As the facts changed, we had to learn what had gone before.

For all we know, our children may be living on the moon when they grow up. A curious mind, the ability to explore for themselves and to store information, will be far greater use to them on

the moon than the knowledge that there is a certain number of elements on earth.

The curriculum has changed because what was fact yesterday may not be fact today and almost certainly won't be fact tomorrow.

The world has changed and children have changed with it. What they learn may be different, but their approach to learning hasn't really changed at all. Children still learn best through their play.

Learning to count, or to read, or to write, or to tell colours are still very much a part of going to school today. But children are learning more because teachers have learned more about how children learn.

The basic reason for school remains the same as always. To help children discover information and develop skills. To help them understand the society to which they belong. To help them form a set of personal values and a sense of worth.

A teacher's job today is to provide children with the opportunity to organize and apply what they've already learned for themselves and to guide them to new discoveries that won't end the day they leave the classroom.

School today is made up of all these things that happen to children while they're in class and while they're at play. It's a place where they can bring their questions and be helped to find answers.

Reserve Grand Champion of the Viking 4-H Dairy Club was shown by Lisa Lang and also to from the Collin Lang Dairy Farm near Viking.

Quality 2,4-D's and MCPA's in quantity

Count on consistently getting only top quality 2,4-D's and MCPA's when they're made by Shell.

And count on getting them in a range of formulations. So that one of them is sure to solve your broadleaf problem. At a competitive price.

Blagal* -
For control of problem broadleaf weeds

This is the broadleaf herbicide you need to control the broadleaves that 2,4-D's have been leaving behind in your crop. Blagal was specially developed to control today's problem broadleaves. Like Canada thistle, mustard, chick weed, hempnettle, corn spurry and buckwheat. It's safe to use on all cereal crops. And it's effective. So make sure Blagal's working for you.

*T.M. Reg'd, Shell Canada Limited

Mataven* wild oat herbicide

It's worth more because it delivers more

Ask for Mataven post-emerge and this year, get virtual 100% wild oat control in wheat. More application flexibility. With more crop safety. More wheat yield and less dockage.

Beautification Project Changes School Grounds

Irma School Photo

Irma Students were involved last week working on the grounds around the school as part of a school beautification project.

Mr. Nash's outdoor education class have spent the last month planning and preparing the area west of the school to create a mini-park. Much of the area will be in lawns, with trees and a fish pond as focal points. At the same time, Mr. Coffin has had his home-

room (grade six students) working on the flowerbeds south and east of our school. Bedding plants will go in this week.

Students and staff are to be commended for their efforts and the pride that is taken in making our school surroundings more attractive.

With Mr. Allen's grade nine class doing the ground-work on the flowerbeds and a canteen, Mr. Ray Lewis, prepared to keep the beds in good condition throughout the summer months, we will have a great looking school. Now, if only we could repeat that blousy green...

Mr. and Mrs. Hooper are visiting their son Larry and his wife at Calgary.

Echo Rodino Report

Claudia Williams had the pleasure of helping with the chaperoning of the grade 1, 2 and 3 school children from Irma on a trip through Port Edmonton.

Terri Greenwood spent the weekend at the home of her parents, Mr. and Mrs. Bruce Greenwood.

Mr. and Mrs. Freeman Greenwood of Irma visited at the Everett Greenwood home.

Ray Johnston and sons traveled to Edmonton to visit Mr. D. Johnston, who is presently still in hospital.

Irma School News

With our usual skill and luck at planning events, we picked a miserable cold, blustery day for our track and field meet with Edgerton and Chauvin. Despite the weather, it was an excellent event and we really enjoyed being with the staff and students of our visiting schools. The co-operation by everyone on the day was excellent, with some very exciting events. The final points were divided as follows: Irma, 857, Edgerton 763, and Chauvin 622.

Winners in the individual groups found Allan Chatterman of Edgerton on top in the Senior boys events with a total of 40 points.

In Senior Girls, Vicki Bayard of Edgerton also took top points with 30. In the Intermediate class we find Maurice Girard of Chauvin capturing the boys' event with 34 points and Valerie Jell of Irma leading the girls with 30 points and her counter-part from Edgerton, Jackie Leskau equalling the score with 30 in share top spot.

Junior Boys individual high points were awarded to Frances (Islands) of Edgerton while Brenda Kaplaya of Chauvin claimed top points for Chauvin in Junior Girls. Irma school came through for top points in the Midgett section with Blaine Lovig in share top spot.

Orientation night will be held on Thursday June 12th. The purpose of the evening is two-fold. We wish to acquaint both students and parents with the programs we offer in senior high school and to plan individual student programs for the coming year. We have found such evenings most worthwhile and the teaching staff will be available for information and advice.

Another big service Price & Dwyer will offer on June 18 - National Day. Price & Dwyer will offer a special discount on all new and used cars.

Dated at the Town of Wainwright, in the Province of Alberta, this 24th day of March, 1980.

HERBERT A. McDONOUGH,
Municipal Administrator.

Irma News And Views

"For a Change", little Erin LePage spent a night in hospital because she had swallowed a quarter.

Mr. and Mrs. Russell Copeland are now living in Hardy.

Tom and Ruth Copeland are pleased to announce the birth of their second son Randolph Ernest, a brother for Tommy and third grandson for Tom and Lillian Copeland.

Mrs. Myrna LePage is recovering extremely well after her most unfortunate accident. As of last week she had only one leg in a cast and was taking things a little more some time yet. It was previously reported that she was at home but she only has weekend passes.

Albert Copeland finished his first year at N.A.I.T. and has gone to work in the oil field in Fort McMurray for the summer.

We have been told that the storm last weekend

when it is alleged that three inches of rain fell in two and a half hours) did considerable damage south and west of Irma, by causing erosion in some fields. Some fields may have to be reseeded.

On Friday afternoon, Louis, Eddie, and Howard Jackson, Mable and Jim, and Grace Archibald left for Regina, to attend the reunion exercises at the R.C.M.P. depot on June 2, of Troop Seven, which includes Eddie and Lora's son, Charles Edward. Upon graduation, Charles is being posted to a point in northeast Saskatchewan.

Miss Joyce Bartholomew is visiting her sister and family at Bowden, and her parents at Sudre.

Mrs. Francis Williams, from Ireland, travelled by the Rail to Brandon, Manitoba, where she was met by Phyllis Hammond (see Jack-

son, Phyllis drove her to Souris to visit her brother John Whittier and family. Later Phyllis put her on the plane at Brandon for a flight to Vancouver, where she is visiting her brother, Bob and family, and other relatives.

Wayne Larson and Gordie Lovig are busy remodeling the house for Mrs. Allie Bacon.

Mary and Bob Dempsey, and their Irish visitors spent Wednesday evening with Mable and Jim Jackson. There was much reminiscing, as the Dempseys and Jacksons have been within half a mile of each other in Ireland. There was much local news to get caught up on, such as deaths, births, marriages, etc.

Congratulations to Lauris and Renee Nord (see Drewick) on the arrival of their baby boy, who arrived over the long weekend, weighing 6 pounds 12 ounces. Congratulations also to Irene and

Barrels Of Co-operation

With the Compliments of Don Manakowski, M.P. Tupperville

With the emphasis so heavily on conflict between Alberta and the federal government on energy issues, one might get the idea that Alberta has missed an opportunity to make things more comfortable for the rest of the country.

In fact, the opposite was the case in the past year. While conflict was talked, co-operation was practiced.

Amidst grave uncertainties about the supply of international oil, Alberta quietly permitted a 15 per cent increase in production of oil at fast-declining reserves

of conventional oil last year. This spared Eastern Canada from almost certain shortages of oil during the fall and winter heating season.

It also saved the country from an additional half billion dollars in payments due by subsidizing Alberta oil for almost twice as costly imported oil. But it helped run Alberta's reserves down day after day.

Alberta's reserves down day after day. Alberta's reserves down day after day. Alberta's reserves down day after day.

Weekly Police Report

The Viking Detachment of the R.I.M.P. report having received three separate complaints of Willful Damage over the past week, one at the Kinross Gas Plant, number south of the hamlet of Kinross and a third in the Town of Viking.

Two charges of Illegal Possession were laid during the week.

The Viking Detachment investigated a total of 6 motor vehicle accidents which occurred within their jurisdiction.

Members of the Detachment were called to inter-

vene at three separate domestic disputes within the Town.

Theft of gasoline from a location north of Viking, one reported theft from an abandoned farm site north of Viking are currently under investigation.

Corporal Duncan Will of the local Detachment again reminds residents to use "Zenith 5000" should there be no answer at the Viking office when assistance is needed. Dial the operator and ask for "Zenith 5000" which is a number located at Alberta Division Headquarters.

Organizations such as community leagues, home and school associations, recreation departments, service clubs, or any interested persons might wish to consider Padel Pushers as a valuable training program for young bicyclists.

Since its beginning in 1960, it is estimated that well over 200,000 youngsters have graduated from Padel Pushers.

Steps have been taken to keep the price of the program as low as possible. A maximum of \$1.50 per child should cover local organization expenses. For further information you are encouraged to contact the Alberta Safety Council at 10525 Jasper Avenue, Edmonton.

Holden And Ryley Hold Joint 4-H Achievement Day

The Holden and Ryley 4-H Clubs combined last Wednesday, June 4, in their annual 4-H Achievement Day. The day included separate judging of calves from each 4-H club, with an interclub winner being selected at the conclusion. Following the judging, Mike Zerkow handled the sale portion of the day's events. The interclub Championship ribbon was won by Dale Bratrud of Ryley. Reserve honors in the interclub competition went to the Holden Grand Champion winner, Tracy Dewart.

Viking Land Use By-Law Approved

Prior to the regular meeting of the Viking Town Council on June 4th, a public hearing was held on the new Town Planning By-Law. The by-law designated the proposed land usage for all areas within the Town. As no objections were voiced to the hearing, the by-law was given third and final reading.

to make money from that product or service.

Most business failures in Canada are the result of management problems, those anyone starting or buying a business must recognize their own strengths and weaknesses, to be able to compensate for the latter.

Basic to success are a commitment to hard work and a willingness to take some risks. These risks include psychological failure, with subsequent loss of self-confidence; career interruption; with loss of income; and the strain of family relationships since operating a small business is a full-time job.

Following the hearing, Council held its regular June meeting. Council decided to commit up to a total of \$6,500 to the construction of an asphalt pad in the school grounds.

A proposal on the project from the Viking Recreation Board was to be heard on June 10th by the County of Beaver Board of Expenditure. The proposal was offering a 50-50 cost split on the construction of a pad large enough for two tennis courts. The pad will also be used for other outdoor court activities by the school and the community.

Disatisfaction with Alta Pro Services in their handling of enforcement of the Animal Control By-law has led Council to terminate their contract. A presentation by B. Lach of Canada Dog Control Ltd. convinced the councillors to hire the new firm on a trial basis beginning in July.

Official word was received from the County of Beaver that the Town will receive \$150,000 from the County for 75th Anniversary projects. This money will be used for the \$20 per capita grant which the County received for each rural resident.

Council decided to contact Kuske Trucking of Viking concerning their intentions to open a new station next to the fast-food restaurant. Council hopes to arrange for disposal of the station, possibly through a

Two-bid fourmone and put back sugar is planned for June 12th at 7:30 p.m. in the Council Chambers to clarify details and finalize plans for the picnic for Viking's 75th Anniversary. All groups who have been invited are requested to send a representative to the meeting.

Remember the Viking School music department presentation at the Ground floor suite 101 on June 11th commencing at 7:30 p.m.

Viking and District News Items

The Viking Lakeshore Golf Club are sponsoring a "Two-Ball Fourmone" on Thursday evening, June 11th, commencing at 6:00 p.m. and followed up with a potluck supper. The winners of the tournament held two weeks previous were Dick and Margaret Maxwell.

The Further Education Council of the County of Beaver advised that following the resignation of Viking's two representatives, they are looking for volunteers to fill both positions. Elaine Forsyth, program coordinator for the Further Education Council advised that it is essential for Viking to have representation in order to be included in the setting up of future courses, workshops and instructional programs. Mrs. Jenny Bird has served the community of Viking for a term of two years and Mrs. Joan Forsyth represented Viking for a period of one year. Mrs. Forsyth suggested that this type of position may be just right for one of the active seniors in the area. For anyone interested the number to call is 663-3780 in Ryley. Mrs. Forsyth is in the office from 10 a.m. to 2 p.m. on Tuesdays and Thursdays.

A joint meeting was held in the Viking Legion Hall on Friday, June 6th with representatives of Viking's six service clubs in attendance. The meeting was called to discuss the possibility of all groups utilizing the Legion Hall as a lodge room or meeting hall. The various possibilities were discussed and dealt with. Following this meeting, each representative is to take the proposal to their organization. It is hoped that each organization will reach their decision by the end of June, at which time each representative is to report to Mrs. Bill Giroux, Committee Chairman. From there, a final decision is to be made.

The Viking Farmers Market had a very successful opening last Thursday. The market plans to be open every Thursday, from now until the end of the season.

This year you can come in and have your coffee, and

Passenger vehicles with modified bumpers will not be permitted on Alberta highways after May 2, 1981. Transportation Minister Henry Kruger announced on June 4.

The government is granting the one-year grace period to owners of such vehicles, to allow them time to return the bumper protection systems to the original configuration. This grace period is also in accordance with the provisions of the recently passed Highway Traffic Amendment Act.

Mr. Kruger stressed that these provisions apply only to passenger cars, not to trucks or other multi-purpose vehicles.

Bumper systems are designed to provide full protection in impacts up to 6 km/h for lighting equipment, brake systems, the fuel tank and fuel lines. In addition, the bumper systems are a contributing factor in controlling the damage to vehicles in impacts above 6 km/h.

Mr. Kruger said the government is concerned not only with the potential harm the operators of modified vehicles pose to themselves, but to other drivers as well. He stressed that modification to the bumper system, including altering bumper height, is no longer permitted. A small bumper height tolerance has been granted to permit heavy-duty suspension systems, changes in tire size, or suspension sag.

Mr. Kruger said the government is concerned not only with the potential harm the operators of modified vehicles pose to themselves, but to other drivers as well. He stressed that modification to the bumper system, including altering bumper height, is no longer permitted. A small bumper height tolerance has been granted to permit heavy-duty suspension systems, changes in tire size, or suspension sag.

Motorcycle Accident Injures One

A motorcycle accident on the Main Street of Viking sent one man to hospital last Thursday night.

The motorcycle which was operated by Gerald Tweedochil of Viking was north-bound on Main Street, when the operator lost control and skidded the motorcycle for some distance down the pavement.

The accident occurred at about 12:15 a.m. in front of the Viking Hotel. The Police report on the accident lists

that only one vehicle, the motorcycle, was involved in the accident.

Mr. Tweedochil was taken to the Viking hospital on Friday morning.

The operator suffered a broken right leg and injuries to his right arm. Damage to the motorcycle was extensive.

Corporal Will of the Viking Police, in a statement, said that no charges have been laid in this accident yet.

On Thursday, June 5, Kevin Kindy, son of Mr. and Mrs. Earl Kindy, received his degree in Dentistry from the University of Alberta.

The University of Calgary conferred ceremonies on Mr. and Mrs. John Penner, son of Mr. and Mrs. Gail Haydon of Viking, received the Degree of Bachelor of Social Work.

On Wednesday, June 4, at the U of C convocation ceremonies, three former Viking students received their degrees.

Those graduating were: Lane Glavin Francis, son of Mr. and Mrs. Art Francis; Myrna Lillian Schuler-Barber, daughter of Mr. and Mrs. L. Schuler; and Mr. and Mrs. John Penner, son of Mr. and Mrs. Gail Haydon of Viking, received the Degree of Bachelor of Social Work.

On Thursday, June 5, Kevin Kindy, son of Mr. and Mrs. Earl Kindy, received his degree in Dentistry from the University of Alberta.

Modified Bumpers Disallowed

Passenger vehicles with modified bumpers will not be permitted on Alberta highways after May 2, 1981. Transportation Minister Henry Kruger announced on June 4.

The government is granting the one-year grace period to owners of such vehicles, to allow them time to return the bumper protection systems to the original configuration. This grace period is also in accordance with the provisions of the recently passed Highway Traffic Amendment Act.

Mr. Kruger stressed that these provisions apply only to passenger cars, not to trucks or other multi-purpose vehicles.

Bumper systems are designed to provide full protection in impacts up to 6 km/h for lighting equipment, brake systems, the fuel tank and fuel lines. In addition, the bumper systems are a contributing factor in controlling the damage to vehicles in impacts above 6 km/h.

Mr. Kruger said the government is concerned not only with the potential harm the operators of modified vehicles pose to themselves, but to other drivers as well. He stressed that modification to the bumper system, including altering bumper height, is no longer permitted. A small bumper height tolerance has been granted to permit heavy-duty suspension systems, changes in tire size, or suspension sag.

Mr. Kruger said the government is concerned not only with the potential harm the operators of modified vehicles pose to themselves, but to other drivers as well. He stressed that modification to the bumper system, including altering bumper height, is no longer permitted. A small bumper height tolerance has been granted to permit heavy-duty suspension systems, changes in tire size, or suspension sag.

Holden And District News

der lost to the Viking girls 20 to 8 at Viking.

In home games the 10 and under girls defeated the Telford girls 25 to 12.

Holden Ladies of the Royal Purple entertained the Holden Senior Citizens at a dance at the Senior Drop In Centre. Bingo and lunch was enjoyed by about 45 senior citizens.

The Ryley and Holden 4-H Beef Club Sale was a great success on June 4. Even the rainy weather stopped to provide a beautiful sunny day. A good size crowd attended the show at the Holden Centre. About 30 calves were entered, all grown and ready for the show, judging and sale. Each member also appeared

to be ready and well trained for this day. Prices for calves sold ranged from \$1.05 per pound to \$7.15 cents per pound. 4-H members and their parents who like to thank everyone who helped make this day so successful. Ladies who helped with the show, the auctioneers and anyone else who assisted reported a very busy day. The Holden area is also very pleased that the Ryley 4-H club joined us.

The United Farmers extends a warm welcome to all members to help with appreciation in a personal way by attending Hilmer Olsen's Anniversary Banquet, which will be held at the U.F.A. Agency in Holden on Wednesday June 11 from 10:00 a.m. to 4:00 p.m. There will be free hamburgers, refreshments, and door prizes. Hilmer Olsen has been a United Farmers Petroleum Agent for 30 years. The Holden and District Chamber of Commerce held their regular meeting on Tuesday June 8. The chamber urges members who have not paid their dues to please do so, in order that their names will be on the new membership list. This was the last meeting of the Chamber before the summer break. The chamber will notify members and others of their fall meetings. The chamber members wish to thank all attending their meetings, and the Ladies of the Royal Purple for preparing and serving supper at each meeting.

The Holden Junior High School Rocket Club recently held a contest for the enjoyment of its members. School time was kindly allowed by Principal O. Skykora. Members of the Rocket Club from left to right are: Terry Dolson, Michael Sobrows, Keith Laube, Russell Giebelhaus, Rene Wiesbeck (kneeling), Dale Lutz, Daniel Shikhandi and Grant Maxwell (not present). The winner was Dale Lutz with a total of 320 points. His rocket flew to a height of 514 metre (1686 feet) and remained in the air for 3 minutes, 15 seconds.

Viking Unity Committee Pleased With Response

The Canada Unity Committee is very pleased with the community response so far to the community picnic. A number of groups have volunteered to be in charge of various events. They are as follows: Lions - pig eating contest; Hospital Auxiliary - pillow fight; Quinte W.I. - spike driving (for women); Elks - Log sawing (men partners); Recreation Board - T-Ball; Royal Purple - Bingo; Senior Citizens - Horseshoes; Shady Cove W.I. - Foot Race; Luther League - Kids Relay; Gas Kings - Tug-of-war; Alliance Women's Missionary Society - Ballon Bowling; United Church Women and Lutheran Church Women - organizing the potluck; Fireman - demonstration and beer brigade; Swing Beavers Competition; Square dancing de-

monstration; Child Development Centre - refreshment booth.

Each group is in charge of their own activity, so if you have questions, or would like to volunteer to help, please contact the group directly, or P.S.S. at 336-4024.

A meeting will be held on June 12, at 7:30 p.m. in the Council Chambers to clarify details and finalize plans for the picnic. All groups, who are involved are requested to send a representative or two to the meeting.

The Homemaker

By Maureen Bauman, District Home Economist

CANOLA

A more familiar name for Canola, is rapeseed. It's the crop that turns our fields into a sea of yellow. Because of genetic advances and improved quality the rapeseed industry has decided to use the name Canola to identify the crop and products made from it.

Canola is a versatile, all-purpose oil. It differs from other oils though. Canola oil is grown in Alberta and processed in Alberta.

Its light color and delicate flavor make canola an excellent salad oil. It has good frying properties, with a high smoke point. Canola has also found widespread use in making margerines and shortenings.

If you buy cooking oil, margarine, vegetable shortening or salad dressing, it's likely that you already use products using canola oil.

Canola is not listed on the labels of these products, however, the label lists just "vegetable oil".

For a list of brand names using Canola oil you may contact the District Home Economist in Ryley at 663-1111.

Another way to support local producers is attending the Farmers Market in your area.

The market in Telford runs year-round, offering an extensive selection of fresh foods, baking cream, and handicrafts. Visiting Farmers Market has just opened its doors for the season. It's a great way to stock the shelves as well as meet with your neighbours.

I plan to attend both markets this week, so hope to see you there!

Viking Fair Board Meets

The Fair Board met on June 4, with 12 members present.

The Fair Books have been printed and can be picked up at several business places in town. Our compliments to the Weekly Review for creating an impressive Fair Book, and a special thank you to all of our sponsors.

The correspondence received this past month includes further confirmation of judges, several people and display entries, and a letter from the Farm Safety Council advising us of grant money available for Farm

Safety related floats, demonstrations and displays. Because we are unable to host a Horse Pull Competition this year, we are looking into the possibility of several other types of entertaining competitions between individuals and groups within our own community, of a variety to appeal to all age groups.

Details will be provided after our next meeting. Fair plans are quickly taking shape, and we look forward to an interesting day of fun and entertainment on August 7.

The next meeting will be at 8 p.m., July 2, at the Community Hall. We expect to see all directors present so we can complete the last minute details.

"Help us find a special young Albertan."

If you know a special young Albertan, or a group of young Albertans, between the ages of 16 and 18, whose selflessness, resourcefulness or responsibility has contributed to the betterment of our province or community, we'd like to know about it. In fact, we'd like all of Alberta to know about it. So, in every year for the past 10, Alberta's Investor Control Board

will honor these young Albertans with the "Alberta Junior Citizens of the Year" award. To nominate someone special in your community, complete and send the nomination form below to the editor of this newspaper.

(Please Print)
I am proud to nominate: _____ as an Alberta Junior Citizen of this Year because: _____
Birthdate: _____ Sex: _____ Address: _____
Phone number: _____ Parent's full name: _____
My name is: _____ of _____ Phone number: _____
Reason of this nomination: _____
Please, on a separate sheet of paper, tell me why you have nominated this person/young person as an Alberta Junior Citizen of the Year. Send to: _____

Deadline for nominations is June 30

Canadian Wheat Board News

Producers have marketed to the week ending May 14, about 1.1 percent more grain than last year. The target for a 20 percent increase may not be possible, if no serious bottlenecks develop.

An interchange of cars between CNR and CPR on the BC railway may be negotiated. Supplementary quotas on the lower grades of wheat were introduced to meet export commitments and to assist producers with stocks of these grains. Repeated continues to face severe competition on the world market. Soybeans from the United States are affecting rapeseed sales to Japan and continues to depress prices.

Producers have delivered only 56 percent of their rapeseed so far in this crop year.

More barley deliveries are required by the Board to meet export sales. The board estimates sufficient stocks of barley for both export and domestic use. The Board may experience some difficulty in getting delivery of sufficient barley for export sales because of the present Feed Grain Policy.

Under this policy the Board is forced to supply feed grain to both Eastern and Western Domestic Markets at the same price. The Board's price is lower than the present world price. If the non-board price is high, then the Board's price, feed grain users may buy the lower priced grain.

The present Feed Grain Policy puts a ceiling on Board grain for domestic use but does not include a ceiling on export. It may also interfere with the delivery of grain to the Board for making use in the coming months.

Haas Argue, minister in charge of the Canadian Wheat Board, announced a new low-price system for domestic human consumption with a floor of \$6 and a ceiling of \$7. The policy will be in effect for two years but could be reviewed in one year.

It would appear that the embargo on grain sales to the USSR is not very effective. Canada has imposed a restriction of about three million tonnes until September on sales to the USSR. Prices declined sharply on

North American grain after the embargo.

Canada is affected by the lower price and volume because of the embargo-on-the-other hand. Argentine has increased sales and received about a \$50 per tonne premium. Australia has also increased sales and there are many reports of US grain reaching the USSR through a third country.

When the embargo was imposed, farmers were assured they would not be financially because of it; so far no compensation has been forthcoming.

Instant Indexes For R.O.P.

A small magnetic card that slides into a programmable pocket calculator is making life a lot easier for the people who operate the livestock Record of Performance (R.O.P.) program.

The card contains a program that can quickly process information gathered by the inspectors.

This way a breeder can learn an animal's rate of growth and its rank within the herd, without having to wait for a computer analysis to be made.

Swine program technicians got their program running on the spring. Beef and sheep facilities get theirs this summer.

Pictured above are three winners of a Nutrition Poster Competition run at Holden School. (L to R) Sandra Wilkinson - Grade 6; Lori Kraus - Grade 1; and Evelyn Komarnitsky - Grade 5. With the group is Maureen Bauman - District Home Economics supervisor who supervised the program and awarded trophies. Other winners were: Tracy Weisbeck - Integration Room; Lynnette Wray - Grade 2; Ashley Van der Torre - Grade 3; and Phillip Wray Grade 4. Shykora Photo

Irma News And Views

The Irma Co-op will sponsor their annual picnic at Gullbra Lake on June 29th. Watch for our ad, outlining further particulars.

Manie and Jim Jackson and Jack O'Meara visited with Muriel and George Jackson and Gary and Debbie Swanson on Thursday, June 5th. They enjoyed the road construction just north of the Lutheran Church on the Kinella-loughpeth road. Due to the recent heavy rain it was almost impassable and they just made it through.

The program at the Academy on Saturday evening was a well acquainted session, slides, presentations etc. On Sunday a beautiful service was conducted in the oldest church building in Regina.

Irma 4-H Food Club Holds Achievement Day

On Saturday, May 24, the 4-H Food Achievement Day was held.

Each member of Units 1, 2, and 3 baked two items which they brought to the school gym by two o'clock, where the judges worked until 2, then the public could also inspect the "goodies".

At 6 o'clock, a beautiful cold plate turkey supper was enjoyed by 4-Hers and family.

This year a sewing course was offered to Unit 1, under the leadership of Stella and Evelyn. Their items were brought for display purposes only but proved very interesting.

Presentation of trophies followed supper. Trophies were given out for best project book and highest marks scored in baking.

A program of piano playing and singing concluded by a 4-H film depicting the

scope of 4-H brought a successful afternoon to a close.

A quilt with all the names of 4-H families in it was raffled and won by a former 4-H'er in 4-H beef. Three cash prizes were raffled.

A theatre ticket was given each member in place of ribbons.

A special thank you to the 4-Hers goes to our leader, Mary Newton, and each unit leader. Mary informed us she was no longer carrying on as leader, so the doors are open come September for a new leader.

Let's not let 4-H Food die because of no leader, so the challenge of 4-H "Learn to Do By Doing" is awaiting someone for the fall of 1980.

Irma 4-H Beef Club Hold Regular Meeting

The final regular meeting of our club was held June 2, at the home of Brich Fitch.

At our meeting we decided to have our Achievement day start at 9:00 a.m., with the heifers being shown first, followed by the two-year-olds with calves. The steers will be shown and judged after this, and if possible a slave auction will follow. At 3:00 p.m. the selling of steers will begin. All this will take place on June 11th, in the Irma Arena.

After our meeting, we had a practice judging competition. This was followed by clipping and showmanship demonstrations, very ably given by Al Fenton. Al did a great job and I'm sure a lot was learned by all who took it in. We would like to thank Al for donating his time.

The Irma 4-H Beef Club would appreciate any and all support shown their club at sale time.

Club Reporter Gordon Mark

Irma New Horizons Report

On the afternoon of Wednesday, June 4th, the ladies of the Irma Royal Purple entertained the members of the Irma New Horizons Club at the Drop-In Centre.

Following a program of music, a skit, which the members of the club were given. This was followed by a recitation by Mrs. Prosser's grade

four students and a musical recital conducted by Dan Hawk.

The ladies then produced a beautifully decorated birthday cake and a group whose birthdays were this month, held the cake while "Happy Birthday" was rendered. Celebrating birthdays were Manie Keller, Mary Beer, Mrs. McLean, John Lambert, and Elma Tomlinson. After this, a delicious "Lilac Tea" was served.

The regular monthly business meeting of the New Horizons Club will be held in the Drop-In Centre on Wednesday, June 18th at 2 p.m.

Irma And District Historical Society News

The mad rush of spring work is now over, and we're enjoying the much needed rain.

We are slowly but surely gathering items of interest for our book. We would like to acknowledge excellent write ups from Mrs. McLean, Bill Anderson, Irma from Henry Kasten, old newspapers, pictures, and the excellent Roseberry 'Tattler' kept for years by Mrs. Winnie Ryke. We've discovered that there is information in the Glenbow Institute and the Provincial Archives.

Browsing through the 'Tattler' dated December 18, 1912, is very amusing. From what I can gather the Executive Literary Society meet either weekly or monthly to read news gathered by Editor Mrs. F.W. Watkinson. And what they did! Gather!

Written by the editor just before Christmas 1912, "I am glad to learn that there had been a big demand for mittlenote. Our old institutions seem to be dying out one by one, (second family) but mittlenote and the stimulating exercise associated with it will never die out!"

An agriculture train had visited Irma on Friday November 22, 1912. A large turnout to hear lectures and stock exhibited but convers-

pondent noted that none of the lecturers gave the poor housekeeper any idea as to where he could get dollars to buy the farm buildings and women vine raising.

The Irma Agricultural Society held their annual meeting on Saturday December 7, but the reporter was busy with the thesaurus so did not have account of proceedings. It was suggested they were probably threatening from a stack at that time of year.

As you read along these pages its plain to see that people made their own fun. Another item reads "A.A. Dickson and E.T. MacDowell spent Sunday afternoon December 8 driving. They say in Roseberry, but we don't believe it.

Pur on "Mr. E.T. MacDowell left on Sunday December 15 for his home in Grand Valley Ontario. He has fixed up a neat little cottage in one of the subdivisions of Sleepy Hollow where he intends setting up housekeeping when he returns."

"The name Sleepy Hollow as applied to business people of Irma has been deeply resented by them, and wish to make it plainly understood that if Editor and Reporter of the Roseberry Tattler do not refrain from

using such name, action will be entered against them in the law courts of Alberta. Listen and take heed. We think our contributor must have been asleep when the Tattler was read. Our statement was that there was no truth in the rumor that the name of Irma was to be changed to that of Sleepy Hollow."

Our brochure are ready to be mailed out with the Anniversary invitation so as to save some postage money.

Remember to check for old newspapers, business receipts, old letters, and postcards. It is surprising what bits of information can be gotten from these. Remember our meetings are open to anyone interested in saving more of our history.

Mr. Seedy Dundas on staff at Edgerton and Irma Schools, records statistics during the Irma High School Track Meet. Slightly unfavorable weather prevailed throughout the day.

Irma Fish And Game Club To Host Annual Fish Derby

Highlights from the latest meeting of the Irma Fish and Game Club held June 10, and 15 set for the annual Fish Derby at Floating House, Boyce Lake.

Prizes will be awarded in four divisions:
years - boys and girls; years and up - men; and 65

Irma O.O.R.P. Holds Lilac Tea

The Ladies of the Irma O.O.R.P. entertained the Senior Citizens at a Lilac Tea, held in the Drop In Centre on Wednesday, June 10.

Several senior O.O.R.P. members were at the door to welcome the guests, and to see that they signed the Guest Book and entered their name for the Door Prize.

Honored Lady Royal, Irma O.O.R.P. welcomed the guests, and then Captain acted as M.C. for the program, which consisted of the Brass Quartet consisting of Mr. Nash (Leader), and Mrs. Nash (Newman), and Mrs. Nash (Newman), and Mrs. Nash (Newman).

Burning Rectal Itch Relieved In Minutes

Was relief from 'itching' - here's a good news. A renewed research institute has discovered a unique healing substance that promptly relieves burning itch and pain - actually

A birthday cake, made and decorated by Sherline Fischer was brought in and we sang "Happy Birthday" to five celebrating birthdays in June, namely: Mrs. Kate McLean, Mrs. Mamie Kellar, Mr. Elma Tomlinson, Mr. Harold Fuder, and Mrs.

memberships will be available.
A winner must have been planned for Friday night and will include a big pot-lick.

A fish fry will be held on Saturday night. Other activities include a horseshoe tournament, games and a lot of fun.

The weekend runs from 8 p.m. on Friday night until 12 noon on Sunday and we hope to see you there.

The Cadbury Camp about out is to be held at Radium on Sunday, June 22, and is open to adults and constants 12-17 years of age. Bring your own gun and ammo. Pigeon targets will be supplied. As well, we will enjoy an observation trail and pot-lick supper. The club will supply waders and boots.

Do you have any ideas for a camping cascade which we would like to hold in July or August...just let someone know where you would like to go.

We also plan to join a travelling camp for a week.

end. The door prize was won by G. Hollinger. Snowball Draw - ticket membership No. 8650 - you weren't at the meeting - tough luck. A film "Lost Hunter" was viewed over a cup of "Hollinger coffee".

We have donated toward the Zone 5 Annual Convention and also held this same weekend and also to the Alberta Fish and Game Association Fish Derby for the Physically Disabled.

Don't forget June 13, 14, and 15. See you at the Derby, Tight Lines and Straight Shooting. C.E. Allen

Guide Movement Hosts Annual Banquet

During the annual Mother and Daughter banquet six Brownies flew up to Guide and Lori Melnic was crowned as a Pathfinder. Back row (left to right) Luanne Marka, Sandra Rodick, Glenda Reinkens and Diane Lewis. Front row (left to right) Laura Wesley, Lori Melnic and Kerri Maxwell.

The Annual Mother and Daughter Banquet for Brownies, Guides and Pathfinders was held on Friday, June 6th, at the Village Community Hall.

Do You Know The Bible Says

By Mrs. W. Myers

For all have sinned, and come short of the glory of God. Rom. 3:23. For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men who hold the truth to unrighteousness. Rom. 1:18. And, such were some of you. But, you are washed and you are sanctified, by the word of the truth (see part) and you are justified in the name of the Lord Jesus and by the Spirit of our God. 1 Cor. 6:11. The Gospel changes people. The above few lines make it clear that everyone is born a sinner, but each can be born anew by the Spirit of God into the family of God.

The Gospel of Jesus Christ really does change people. Yes, I know that professing Christians have done some terrible things. The fact remains, however, that thousands of men and women in a bondage were involved in every form of immorality and have been wonderfully delivered by trusting the Savior.

Purchasers, I know of missionaries who went to savage tribes with the good news of salvation and within a few years the tribes were Christian. The new Testament, always portrayed believers as "transformed" people. It knows nothing of God's children continuing to live in wickedness. Therefore, professing Christians who are bound by the shackles of immorality of drink should heed Paul's admonition: "Examine yourselves, whether you are in the faith." 2 Cor. 13:5.

We who know the Savior can assure even the most enslaved sinner that Jesus Christ can bring forgiveness, deliverance and peace. Yes, the Gospel changes people. Salvation not only reforms it transforms. What a wonderful change in my life has been brought since Jesus came into my heart. I have light in my soul for which I long had sought. Don't you long for this peace?

many years of Guides in Canada, former Viking Guides were invited to attend our annual banquet. A beautiful celebration cake was decorated by Mrs. Brenda Cook, depicting each unit's emblem and was enjoyed by everyone. Mrs. Sonja Frank of Fursburg, our District Commissioner, presented the girls and their leaders with a 7th Anniversary Chart, a memento from the Local Association.

Rejoice Together

Tennis Club Elects New Executive

A meeting was held May 29th, 1980 to elect a new executive committee for the tennis club.

After we were happy to report that the club was in a position to turn out of people interested in playing tennis this summer.

After we had everyone settled, the meeting was called to order by Helen Bittor, last year's president. We then asked the twenty-two-five people present to elect a new executive. After the election proceedings were completed, the new executive was as follows: President - Walter Steinfick, Vice-Pres. - Robin Bittor, Secretary - Treasurer - Cindy Amundson.

The next item to be discussed was a new schedule to cover operating costs for the next few months. After some discussion it was decided to have three types of club membership fees for playing the club and to raise last year's fees as well.

The new membership fees are as follows: Family \$35.00; Adults \$20.00 and up; \$20.00; Students \$15.00. A general charge will be made on day to day basis to users of the club who are not club members. The fee will be \$1.00 per day for adults, which includes all those sixteen years and up and 50 cents per day for students and children.

We hope to have the courts open for the public on Thursday, June 12th. There is a possibility they may not be open by then. In this event, they will be open on the next day scheduled for public tennis. The hours for

public tennis will be Monday and Thursday evenings from 7 to 10 p.m. and Sunday afternoons from 1 to 4 p.m.

If there is sufficient demand, the hours may be increased or another time period offered. For example Tuesday evening.

Anyone wishing to join the club may come out to the courts when they are open and pay their membership fee at that time. Or, if you wish information about the club, or membership, contact anyone of the executive when they are open.

We will look into the possibility of getting an instructor to give lessons. As yet, we are not sure if it is possible or not.

We look forward to another fun and exciting summer and hope to see many of our old and new friends at public tennis. The hours for

Win a Triumph TR7 Convertible

2nd PRIZE \$1,000 3rd PRIZE \$500 CASH

This summer, restaurants participating in the Alberta Dairyman's contest have much more for you than a cool refreshing glass of milk. They have an entry form. Fill it out, drop it in the only container at the restaurant and you'll have a chance to win a brand new, Triumph TR7 convertible. It's easy. Nothing to buy. Entry forms with contest rules available at participating restaurants throughout Alberta from July 1st.

Can "Four's Enough" Down The Coyotes?

Can a four member softball team - pitcher, catcher, and two infielders - beat a nine man team?

A team from Long Beach, California, appropriately called "Four's Enough" plays first and is a talented pitcher in her own right. At 21, she really is the veteran of the team, having toured for twelve years with the Queen and her Made in Canada team.

The game will be a combination of serious softball and trick routines. The star of the four-member touring team, pitcher Ron Rupp, threw a 100 mph ball, behind his back and between his legs.

When in a jam, he may resort to conventional style pitching. "Four's Enough" is a new team which will make a total of 116 appearances throughout the United States and Canada from May through to September.

Don Stupp is not a newcomer to touring softball.

Parkland Nursing Home News

Welcome to our home, Herb Freeman, Tom Johnson, Harold Wideman, and George Hatz. Also welcome Ted Henderson, who will be staying with us for a month. Get well wishes to Roy Harris and Peter McAllister who are in Edmonton hospital, and Mike Frewer in hospital here.

Ann Galeana visited with her mother Mrs. Kawallish last Monday. Lloyd and Walter Campbell were in to see their mother, Edna Campbell. Joan Meakin called on her dad, Frank Murray.

Irone MacGregor and Mrs. Laube were in to see Mr. Laube. Edna Roper was in to see friends here.

Viking Elimination Meet Held In Rain

Curtis Arnett clears the bar during the High Jump eliminations at the Viking track meet held last Tuesday.

Last Tuesday, June 3rd, the Viking School held its Junior Track and Field Elimination Meet in preparation for the County Track Meet held on Monday in Ryley.

A cold rainy day did not dampen the enthusiasm of the grades 4 to 9 students as they competed in a variety of events. First and second place winners in each event were entered in the County meet.

Following are the first and second place winners in each event.

Although only the top two competitors in each of the categories advanced to the County-wide competition, strong competition was offered at each level throughout the day.

Tofield School Secures First Place In County Track And Field

The 1979-80 annual County of Beaver Junior Track and Field competitions were held at the Ryley School grounds on Monday, June 8th.

Monday's beautiful but sunny weather proved conducive to competition, bringing out the best in a number of local athletes. Twenty County records were established throughout the day.

Events co-ordinators, Mr. Andy Minchuk and Mrs. Convey-Lyons, advised that Tofield accumulated a total of 222 points to place first in the County-wide event.

Close, in second place was Viking school with a total of 210 points. Holden participants compiled 180 points to place third and Ryley con-

County of Beaver Students Compete In Zone Track And Field Meet

On Saturday, May 31, students from the County of Beaver travelled to Camrose to compete in the Zone Track and Field Meet.

County of Beaver athletes made a good showing during the day long competition which was held at the Camrose Fairgrounds.

A total of ten records were established during the day.

Holden students did especially well, to help their school finish third in the "A" school category. Ryley finished sixth in the same category.

The "2A" school category saw Sedgewick come out on top, while Viking was fourth, and Tofield finished fifth.

The junior girls competition saw the County of Beaver take one 2nd place finish and two 3rd place finishes.

Alana Fausz of Viking captured two firsts to help Viking to their fourth place finish in the "2A" school category.

Alana proved to be the best in the senior girls division in both the high jump and the long jump.

Nancy Neufeld captured second place finishes in the 800m, and the 1500m, while Sherry Strickland managed a 3rd place finish in the javelin competition.

In the junior boys competition, the County of Beaver picked up four 1st place finishes.

David Cargill of Tofield finished first in the 400m, and Maurice Pansak of Holden was first in the 1500m.

The County of Beaver also had one 2nd, and one 3rd in the junior boys competition.

Scott Brower of Viking in the long jump, while Tofield student Doug Blakely in the discus.

The County of Beaver also had one 2nd, and one 3rd in the junior boys competition.

Scott Brower finished second in the triple jump, while Maurice Pansak finished 3rd in the 800m.

The intermediate boys competition saw three County of Beaver boys bring home with ribbons.

Allan Andrukow of Ryley finished 2nd in the high jump and 3rd in the triple jump.

Ryley managed to bring home one more 3rd, when David Cook finished 3rd in the 400m.

Viking Student Tours With College Choir

Kevin Midbo is presently on a tour of Europe with the Viking Choir and Brass Band of Camrose Lutheran College. The group left on June 1st on a 14 day tour of Scandinavia, Germany and France. They will be performing special concerts and providing special music for three worship services during their tour.

The group will fly from Edmonton to Amsterdam. Their first concert is in Copenhagen, Denmark, on Thursday evening, June 5. They participate in a worship service in Oslo, Norway, on Sunday morning, followed by evening concerts in Stockholm, Norway, on Sunday morning, June 10, and in Hamburg, Germany, on Sunday evening, June 11. They will then travel to Paris, France, on Sunday evening, June 12, and perform in the Cathedral of Notre Dame, Paris, on Monday evening, June 13.

In West Germany the tour and brass will provide worship music in the St. Paulus Church in Lubeck, with services in Berlin and Hannover.

They will then enter East Germany for a three day tour, with overnight stays in

East Berlin and Leipzig. In Bavaria (West Germany), the group will tour Nuremberg, Munich, Augsburg and Ulm. After a visit to Heidelberg and a lunch in their home at the Schloss Porcia House in Lahr, they arrive in Strasbourg, France for an evening concert. They return to Amsterdam via Paris and Brussels for the flight home, June 28.

A highlight of the trip will be the opportunity to stay in the homes of European families. Accommodation for ten nights is being provided by host families in various countries (four in Denmark, one in Norway, four in Germany and one in France).

The St. Paulus Church Choir includes students from University of Alberta, offering two years of university education, with some music transfer programs in fifteen areas. The student enrollment currently numbers about five hundred students, including about eighty grade twelve students. The college is now working in areas of exciting academic and building expansion programs which seek to con-

sume and improve the quality of education it offers. The music program is also expanding, especially in areas of band and private lessons offerings. There is an annual faculty recital series, and students may perform individually as well as in ensembles such as the well-known Concert Choir and the new Concert Band, all over Alberta and from all four western provinces. Members were selected by audition in the fall of 1979. Their director is Jonathan Mier.

The Brass Quartet is part of a Camrose Lutheran College program in which selected students are invited to study brass performance on scholarship. The brass instructor, Blair Fisher, performs with the students, providing intensive performance instruction and experience.

The Camrose Lutheran College Concert Choir has been prominent in the area of Choral Music since for over fifty years, while the Brass program is now in its fourth year. Preparations for the European concert included a one-week tour of Alberta, with concerts in Camrose, Edmonton, Calgary, Red Deer and other locales. In addition, after two days of intensive rehearsal, the choir and brass gave a "Bout Voyage" concert in Camrose on June 2.

Camrose Lutheran College is affiliated with the

Trinitarian Church Women will get underway. Everyone wishing to participate in the meal should bring enough food for their own family. Beginning on the full day of events will be an Old Time Dance at the Legion Hall, sponsored by the Senior Citizens.

Shelter Erected At Scout Camp

An arch-rib structure takes form at Camp Gary Memorial Camp on the west shores of Lake Thomas. Following a supper-time winter roast, volunteers assembled and had the structure completed by approximately 11:00 p.m.

WHEN HAIL STORMS

An arch-rib quonset shelter has been erected at the Gary Child Memorial Camp which is located on the east shore of Lake Thomas just east of Viking.

The shelter, a project conceived and followed through by the parent Group Committee of the Viking Scout Movement, has been in the planning stages for a couple of years. Construction of a shelter has been the major goal of the organization fund raising projects.

Group Committee members and those involved in the scouting movement felt that the erection of this shelter increased the security and continuation of youthful enjoyment of this "nature" campsite, regardless of weather conditions.

The shelter was constructed solely through the efforts of volunteers, most of whom have children enrolled in the Scouting programs.

Ivy's Backhoe Services donated their time and equipment to trench the footings for the structure. From here on, the building took shape under the capable assistance of Dennis Bird and volunteer "carpenters." The \$2 by 82 foot arch-rib structure was completely sheathed with plywood. Shingling and the enclosing of ends will complete the project as currently planned. The basic design will allow for any number of interior improvements as time and money permits.

Funding of this project was made possible through a \$1,000.00 donation from the Alberta Elks Foundation, donation to the Gary Child Memorial Fund and money raised by the Cubs and Scouts through their battery drives.

Again, the local group would like to thank all individuals who have helped and used batteries and reminded area farmers and businessmen that this is a continuing project. Watch this paper for an announcement.

FRANK QUINN IS ON THE ROAD SO YOU CAN STAY HOME.

As Imperial Home's newly appointed Sales Representative, Mr. Quinn will be constantly on the road, working for you.

Every Wednesday he'll be in the Andrew store. The rest of the time he'll be visiting the folks in Vegreville, Tofield, Leduc, Fort Saskatchewan and Viking.

We know that's quite a schedule, but if Mr. Quinn can help you stay comfortably, beautifully at home, it's more than worth it.

That's just being Frank.

**Restricted Adult: Not Suitable For Children**

Lighters definitely are not a child's toy. Children at play caused 1200 fires in Alberta last year. Property losses totalled well over \$1,750,000.00. But for some the loss was even greater. Six playful children died as a direct result of fires. Many others were seriously burned. Candles, matches and lighters top the list of fire enemies.

The scars are permanent. The anguish fades with time. But, often the question remains, "What if...?" Many of these accidents could have been prevented, if a little extra thought, care or time had been taken.

While people are generally aware of the dangers of leaving matches lying around, lighters are frequently seen on a kitchen counter, coffee table or bedside table. It does not take long for an inquisitive child, if left alone, to find a lighter, and only a matter of seconds for clothing to be set aflame.

Stark evidence of the tragic results may be found in the Burn Unit of the University of Alberta Hospital. Several young children are today receiving treatment for burns, victims of innocent play with lighters.

Some accidents can not be prevented, but many can. Parents are warned to keep lighters as well as matches and candles out of a child's reach, better yet out of sight. The choice of flame resistant children's clothing, especially nightwear, is an added safeguard. A child can not be watched every moment, but a concerted effort can reduce the dangers and risks of a heart-breaking fire mishap.

Weekly Police Report

During the past week Corporal Will of the Viking R.C.M.P. Detachment reports that a single charge of

Impaired Driving as well as three charges of Illegal Possession of Alcohol were issued.

On Monday, June 9th, the Viking R.C.M.P. Detachment assisted in a search for three runaway juveniles from the Wainwright area. Assistance from the Viking Police was requested when it was reported that the three juveniles had been observed in the Kinsella area. A number of area residents assisted in the search which ended the following day. The three juveniles, brothers aged 8, 11, and 12 years were located in Tolfield and returned to their home in Wainwright.

A complaint of Willful Damage at the Viking School was received on Friday, June 13th. Police investigation revealed a number of abrasions spray painted on the exterior walls of the school. One adult and two juveniles have been charged in connection with the incident.

A second report of Willful Damage at the School was received the following day, Saturday, June 14th. Fortunately damage was not extensive with only two windows broken. Police investigation is continuing.

Viking R.C.M.P. also investigated a reported theft in which a tire and rim were stolen from the back of a pick-up truck. An adult has been charged with Theft Under \$200.

John Rozmabel (left), president of the Viking High School Students' Union, presents a cheque for \$400 to Councillor Bill Taylor (right) and Principal Dennis Watson to be used in the construction of the recreation pad being planned for the school grounds. Staff Photo

Towering Above the Average

Young Albertans who have shown sterling character, courage and determination in the face of adversity or personal danger are honoured each year as

ALBERTA JUNIOR CITIZENS

The Junior Citizen Awards are made by the Lieutenant-Governor of Alberta at the annual convention of the Alberta Weekly Newspapers Association in co-operation with Calgary Power Limited and Alberta Power Limited.

Do you know a young person who may deserve such recognition?

We'd like to know about any young people in your district who have made an outstanding contribution to the well being of their neighbors, family or friends.

ENTRIES CLOSE JULY 15, 1980

Home News

Lars had many visitors on Sunday as well. Mr. and Mrs. John Anderson and family from Red Deer, Dave and Dorothy Gaud of Edmonton, Olive and Ernie Gaud from Hildes and Ken and Terry Lank.

Mr. and Mrs. Ken Ruse visited with Roy Harris who just returned from hospital. Jessie Swanson of Edmonton called on Frank Murray.

Harry Ward and family visited with Mrs. Ward. Eleanor Melech called on Mary Fausel. Ann and Armand Cartwright visited with Mrs. Dora Cartwright.

Friday we took twenty-five of our guests on a picnic at Camp Lake. It was a lovely day until it decided to

rain on us and we had to run into the Camp kitchen. But, it didn't dampen to many spirits and they are all looking forward to our next picnic.

Get well wishes to Harry Starob and Peter McAlister and Mike Pieschke and Mrs. Beth who are in hospital.

Ingenuity In Home Decor

Helpful Tips On Low-Cost Decorating Ideas

Installing your own decorative plywood paneling, and completely transforming a room is a do-it-yourself job almost any homeowner can handle.

Before you begin putting panels up, though, be sure that the panels are properly cut and will fit the wall space you want to cover. To apply, use panel adhesive — the usual way to install paneling. Once this is applied, it's hard to make adjustments.

You should make sure walls and panels are clean, and free from dirt and particles, before applying wall space you want to cover. To apply, use panel adhesive — the usual way to install paneling. Once this is applied, it's hard to make adjustments.

If you use regular finishing nails on paneling, nails require caulking behind the panel and a putty stick to harmonize with the paneling. Or, you may use

The first panel you put up should butt an adjacent wall in a corner. Make sure the panel is completely plumb and that its outer edge is parallel with the plumb line.

If the outer edge does not fall directly on a stud, you should scribble or mark the panel to the adjacent wall so the panel's edge comes to the center of the stud. This will allow room for nailing your next panel.

Hint: Once you locate a joint, paint a matching color stripe on the wall along its length so that any gap you leave between panel edges will be noticeable.

If you use regular finishing nails on paneling, nails require caulking behind the panel and a putty stick to harmonize with the paneling. Or, you may use

colored nails to eliminate caulking and putty stick. Nails are available to match most paneling color finishes. In one-inch size for direct application to studs and 1 5/8-inch for application to batten board, turning strips or existing wall.

When you start to apply paneling second windows and doors, measure carefully. Measure in most important. Measure from your last applied panel edge to the trim. Measure up from the bottom and down from the top to get accurate patterns for the cut-out.

Then, drill a 3/4-inch hole from the panel surface side to provide a turning corner for your saw. (A key-hole or miter saw is helpful for this kind of cutting.) If possible, cut-out panels should be cut at the middle of the window or door.

A word of warning: many a good paneling job has been ruined by inaccurate cutting for outlet boxes or heat registers. Try this trick: after the panel has been cut, place the outlet with the panel on the wall and tap it into the outlet location. The chalk will transfer to the back of the panel and indicate the area to be cut.

Brucellosis Scare Premature

Recent reports of a brucellosis outbreak in a northern Alberta cow herd are both premature and exaggerated, says Ivan Reed, director-general of Agriculture Canada's veterinary inspection operations.

Early in May, one cow in a herd of about 175 head consigned to a Clyde, Alta.,

suction mast, reacted positively to the mandatory federal brucellosis test.

That cow was ordered destroyed. Its herd-mates have been traced to their new owners, where veterinarians are now performing brucellosis tests.

No further evidence of the disease has so far been detected.

Spotlight on HEALTH

There's more to non-prescription medicines than you may realize. Responsible self-treatment with non-prescription products fulfills a series of valuable and sometimes critical functions for individuals, for the health-care system and for the national economy.

For the individual, appropriate self-medication is a familiar, inexpensive and convenient method of dealing with ordinary health problems like headaches or heartburn, and which interferes with the routine of daily living.

For health professionals, self-medication provides a

Self-medication shield against a deluge of minor complaints. Self-medication functions as a selective screening mechanism through which minor disorders are sorted out for those requiring professional medical care.

Advertising of non-prescription medicines makes self-medication more effective. Consumers learn from advertising the kinds of symptoms and conditions that can be self-treated safely and with which products. They learn through labeling how much and how often to take, when and when not to take a non-prescription drug.

Advertising and labeling together provide the consumer information that helps keep non-prescription medicine prices down and their usefulness up.

KEHO Bin Blower

Keeps Blowers Grain Field-Fresh!
Why Own a Blower?
• Cuts down your costs
• Cuts less stored grain
• Reduces moisture, dry tough grain
• Fresh stored grain of your own
• Don't lose money by letting grain rot
• All this for just a few hundred dollars

Agriculture Canada's Land Resource Research Institute in Ottawa has recently completed the computerization of all current soil inventory data in a program called CanSIS, the Canada Soil Information System.

CanSIS data is integrated with climatic and economic data, enabling a good evaluation of present and future land uses.

The maps and other data provided by CanSIS are useful for farmers, engineers, urban planners, developers, forestry specialists, and parks and wildlife people.

Holden Arts Centre To Host "Alberta Absolutely"

ALBERTA ABSOLUTELY! DANCE INCORPORATED

"Alberta Absolutely" which is touring the province as part of the Alberta '78 Festival of Arts, is a top rate variety show featuring Albertans who have become very successful in the music industry.

Ray Grif, originally of Winfield, Alberta, now

working out of Nashville, is a songwriter/performer of note who has written over 1,800 songs. His songs have been recorded by the likes of Wayne Newton, Porter Wagoner and Dolly Parton.

Jerry Lee Lewis and George Hamilton IV. As well, Ray's own recording includes such

hits as "Patchin', The Morning After Baby Let Me Down" and "You Ring My Bell".

Mary Saxton, also a native Albertan, has many stage and television appearances to her credit in addition to her numerous recordings such as her hit single "Georgia Eyes". Her most recent release, as one of the three leading performers of the singing group, "Touche", in "Take A Look But Don't Touch". As well, Mary is kept very busy doing studio work and you'll hear her voice in several nationally aired radio and television commercials.

Then, there's Johnny Thorsen, known as "the ambassador of happy sound" whose innumerable stage

performances include appearances with the 1960s Beverly Hills Cop and the 1960s Beverly Hills Cop.

In completely round out the show, "Klass Craats and the Great Canadian Show Band" and "Dance Inc.", a very lively company of dancers, lend their expertise. Add an elaborate, computerized lighted backdrop and you've got "Alberta Absolutely!"

Produced by Klass Craats in association with Ann Randall Productions Ltd., Alberta Absolutely, is coming to the Arts Centre in Holden on June 27th, with performance time set at 8:30 p.m. Tickets will be available at the door. Plan to be in attendance and help celebrate Alberta's 75th Birth day.

Bruce And District News

Toots and Bertel Pearson of Leduc were visiting with Sigrid Erickson. Bob Farlinger of Edmonton was renewing acquaintances here on Thursday, June 12. Bob is now retired and living the good life. Donna and Bud Ludwig of Camrose spent a few days at the home of their daughter and son-in-law, Trish and Bob Rouillon. Diane Flynn was honored at a bridal shower which was held in the Recreation Centre on Friday evening, June 15.

Lorraine Stefanian on Friday, June 20 at 8:30 p.m. in the Recreation Centre. Ladies are asked to bring a small amount of lunch.

\$500 Million In Food Aid

Since 1963 Canada has made up three-quarters of our aid. Skim milk powder, beans, canned fish, and vegetable oils are the major commodities.

Don't forget the June Fest sponsored by the Agricultural Society which will be held on Saturday, June 23, at the Recreation Centre.

Progressive Farming

District Agriculturists
Jerome Manchur & Bill Brown

At the end of each spraying day, the tank should be thoroughly rinsed out with clean water under high pressure. Clean water should then be sprayed out through

the nozzle and after a few minutes the pump should be flushed with clean water. Adding some liquid deter-

gent to the rinsing water will help to reduce the build-up of foreign material on pressure regulators and check valves. Flushing the clean water should follow

the use of a detergent solution. All nozzles, screens and filter should be checked and cleaned if necessary. Use a soft brush or compressed air to clean nozzles.

A more complete cleaning of the sprayer is needed when changing from one chemical to another, particularly with 2,4-D has been used, proceed with the following steps:

1. Drain the entire sprayer completely and flush it out with clean water.

2. Rinse the tank and the rest of the sprayer with kerosene or diesel fuel, using a mop or scrub brush to wash the inside of the tank.

3. Rinse the sprayer with a strong detergent solution to remove the oil.

4. Continue with steps 5 to 10 to remove animal and salt formations.

5. Rinse the sprayer with clean water.

6. Drain the sprayer completely and then partially fill the tank with clean water and add one part household ammonia for every 100 parts of water in the tank.

7. Circulate the solution within the sprayer, and spray some out through the nozzle.

8. Wash the inside of the tank using a mop or scrub brush.

9. Allow the solution to remain in the tank for 8 to 24 hours.

10. Recirculate the solution and rinse the sprayer thoroughly with clean water. As a final check before using the sprayer on 2,4-D sensitive crops, spray some of the final rinse solution onto bean, tomato, potato or squash plants. If no herbicide symptoms show within three days, the sprayer is safe to use.

CAUTION: Never enter a tank that has had chemical in it.

When putting the sprayer into storage do the following:

1. Clean the sprayer thoroughly. Drain it completely, especially the filters, pressure regulator, selector valve and gauges.

2. Remove the pump and follow the manufacturer's storage recommendations.

3. Seal off any openings to prevent the entry of dirt, debris, or rodents.

4. Make a list of all parts needing replacement and order them well in advance of the next spraying season.

5. Store the sprayer in a place where it will not be damaged by other equipment or livestock.

Lagoon Purchased For Kinsella Sewer Project

Hjordis Armitage reported at the last County council meeting that a sewer lagoon has been purchased for the Kinsella Sewer Project.

The lagoon is located approximately three quarters of a mile east of Kinsella in the vicinity of the nuisance grounds.

A public meeting held in October of 1978 saw a vote in favor of proceeding with plans for the installation of sewer and water in Kinsella.

A legal petition was then prepared in which only land owners in Kinsella were permitted to vote.

The results of the petition moved plans back to square one, as the result was two names short of the 50 per cent required to proceed.

A legal petition was then prepared in which only land owners in Kinsella were permitted to vote.

An engineering firm was then hired to determine the cost of sewer and water for the hamlet of Kinsella. The cost for both proved to be too high, so plans were changed to install sewer facilities only.

Since the lagoon has been purchased, tenders are now out to determine the cost of a sewer system, and it is hoped a decision will be made as soon as possible.

Cloverlodge Once Again Holds Stampede

Hold on to your hats everyone! The Cloverlodge Stampede is back. After a thirteen year absence, the Cloverlodge Stampede is once again in full swing, with performances on June 21 at 10 p.m., and June 22 at 2:00 p.m.

The Cloverlodge Stampede Association held its very first rodeo in 1948, under the direction of President Erle Davis, and Secretary Fletcher Massey.

Erle and Fletcher got together and Massey thought they should try and live their lives on one seeding was done, so they decided to hold a rodeo.

They were soon paying visits to all their neighbors, telling them of their plans, and recruiting volunteers to help construct the arena which had to be built from scratch. A hall was also built on the grounds in about 1960, but unfortunately burned down about ten years ago.

Since there were no "stock contractors" back then as we have today, much of the stock was brought by people from the Cloverlodge district. Some of the people who supplied stock for the first rodeo were Bill Johnson, Jimmy Lusk, the Currin's, and Jimmy Brown.

The stock proved to be tough, and the cowboy and anyone tougher in some cases. Many of the contestants at the earlier rodeos were local boys. For some it was the stepping stone to bigger and better things, as a few new stars were born.

The following is a poem written by Erle Davis especially for the Cloverlodge Stampede. It was a name for themselves in the Canadian rodeo world. For most though it was just an opportunity to find out, just who was the best in the district.

Some of the more famous names that came to compete at Cloverlodge were Erle Davis, Dorin, and George and Roy Mlyn.

It's interesting to note that at the first rodeo held at Cloverlodge, Erle Davis won the saddle bronc riding, and Lloyd (Happy) Hanson, was the winner in the bareback event.

Along with the major rodeo events, Cloverlodge also had fast paced chuckwagon races, complete with out riders.

Presented by Arnold Pooley, Secretary Gene Heinke, and Treasurer Bruce Cloverlodge.

Water skiing is an exciting and increasingly popular outdoor activity, but it is safe only if certain precautions are taken and rules are followed. The Canada Safety Council suggests some tips that will help reduce the risks of accidents.

Be a confident swimmer before trying on this. Learn to water ski from a good instructor, preferably certified.

Wear an approved flotation device that provides maximum protection in the event of a fall.

Make sure that all equipment is in good operating condition before starting.

Keep eyes on water ahead and know how time clear when you fall.

Hold up a ball when taking a fall - a well-travelled boating area.

Avoid skiing in shallow water or at night.

Stay away from docks,

I am sad to relate, the rodeo was empty.

No more Grave Digger, Blue Springs, Devil's Dream.

They are not forgotten, nor the men who rode at them.

Their memories as bright as a noon time sun beam.

Don't be discouraged, there is plenty of rough stock, back there in the pen, just milling around.

That are ready and willing, also quite able.

To bounce their riders, land, on the ground.

So gather your family, your friends, bring your honey, load them all up in the wagon, hedge crowd.

Come to the place where you will find a gay welcome.

The rodeo grounds at old Cloverlodge.

There is plenty of room for parking campers and trailers, and anyone who wishes is invited to camp out overnight.

Don't worry about breakfast either, as a pancake breakfast is scheduled for 8:00 a.m. Sunday morning.

The rodeo grounds are located 10 miles north on Highway 36, and 5 miles east. Watch for signs posted on the road side.

The weekend should prove to be fulfilled, with something for everyone. It will give everyone a chance to renew old acquaintances, as well as make new ones.

The following is a poem written by Erle Davis especially for the Cloverlodge Stampede.

For long, oh so long, the grey wolf has been sleeping. Now he rears up on his haunches to howl.

The challenge he sends, in a voice wild and eerie, is a warning to all he, once more, on the prowl.

Memories stir in the minds of the many.

When they hear the wild call of this wily grey beast.

Folks start reminiscing of deeds of great daring.

When hope was the highest, and worries the least.

"Do you remember the time, oh how we're laughing."

The reason I'm alive, I was quick on the dodge."

"Would you like to try again?" you're invited.

To another stampede at old Cloverlodge.

boats and swimming areas.

Run parallel to shore and come in slowly when landing.

Always have an observer in the boat - it's the law.

the great new way to purchase carpeting

Now you can experiment, compare and select the perfect carpet for your room, right where it will be laid.

Alberta Sport Association For Seniors - A First In Canada

Canada's first provincial sport and recreation association for senior citizens has been formally established in Alberta, and is now open for membership registration.

The Calgary-based Alberta Senior Citizens Sport and Recreation Association aims to give an estimated 600,000 Albertans over 55, the opportunity to learn and develop their skills in a wider range of activities.

"It's the opportunity to get involved that's lacking for seniors today," says the association's Technical Consultant Marion MacCallum.

"Our long-term goals include the development of new activities while promoting involvement and activity," she adds.

MacCallum has worked with seniors in a recreational and volunteer setting for the past 30 years. Currently employed by Recreation and Parks in Edmonton she is cited an interest and a need

for more variety in sport and recreational activities for seniors.

The demand is for activities that reflect the true potential of seniors," she explains. Seniors' interest in development of sport is evident in the growing number of senior participants at the Alberta Winter and Summer Games. Seniors over 55 involved in the annual Games have increased in numbers by 71 percent since 1978.

Although the association did not formally exist until this year, founding members played a significant role in the association's objectives can join, regardless of age. Club memberships cost \$5 and individual memberships, \$1.

For more information on the association or memberships contact Marion MacCallum (427-5723). For data contact the Seniors Games, 21-23 in Camrose. More than

30,000 seniors over the age of 55 are expected to become involved in regional, national and provincial play-offs including dates, locations and contact persons are as follows: Bridge, July 21, 22, 23, 24; Curling, July 21, 22, 23, 24; Golf, July 21, 22, 23, 24; Lawn Bowling, July 21, 22, 23, 24; Ping Pong, July 21, 22, 23, 24; Pool, July 21, 22, 23, 24; Rhythmic Gymnastics, July 21, 22, 23, 24; Snooker, July 21, 22, 23, 24; Table Tennis, July 21, 22, 23, 24; Tennis, July 21, 22, 23, 24; Trampoline, July 21, 22, 23, 24; Volleyball, July 21, 22, 23, 24; Water Skiing, July 21, 22, 23, 24; Weightlifting, July 21, 22, 23, 24; Wrestling, July 21, 22, 23, 24; Yachting, July 21, 22, 23, 24.

Memberships are now available and board members estimate that 2,500 Albertans will meet.

VIKING, ALBERTA

Join in Alberta's biggest and happiest anniversary yet. "Homecoming 1980" is the tourism promotion of this province's 75th anniversary. Combine the fun and excitement of the thousands of Homecoming 1980 community celebrations and special events with the third and final year of Travel Alberta's "Stamp Around Alberta" campaign. Pictured above are the three key elements of the Stamp Around Alberta campaign - the holiday passport, a stamp from "Game Country" (Zone 13) and the prize, a complete set of simulated bronze, silver, and gold medallions. As most Albertans are now aware, to win the complete set, you must obtain stamps in your passport from all fourteen travel zones in the province. Six and ten different stamps you the bronze and silver medallions respectively. For your free "Stamp Around Alberta" kit, write Travel Alberta, P.O. Box 2600, Edmonton, Alberta, T5J 2Z4.

Viking Recreation Board Meets

The Viking Recreation Board meeting was held on June 10, 1980 at the Viking Recreation Office. Present were Georgina Nordstrom, Bill Taylor, Rose Brower, Cindy Josephson, Deborah Taylor, Don Gillies, Phyllis Leford, and Vera Hideo. The minutes of the May 13 meeting were adopted as read.

A letter was received from N.E.A.R.A. requesting a donation to help reduce the deficit incurred at the Northeastern Alberta Winter Games held last February. It was moved that we send them a donation of \$6.00.

Kent Hendricks sent application forms for "Project

Co-operation" grants. Don Gillies was to look after applying for the Community-School Incentive Grant, and Vera Hideo and Phyllis Leford would look after the rest.

Kent Hendricks sent a letter explaining the form to fill out as required by the government when auditing statements of proposed project costs.

Blue Lake Center Leadership Training catalogue of workshops offered was received.

Information was received on the Senior Citizens Games, and the Quilt Contest for Alberta's 75th Anniversary.

Lakeland College sent a

catalogue for the summer of 1980. A catalogue outlining the events for the Canada Games to be held at Thunder Bay, Ontario in August of 1981 was received.

Recreation News for the months of May and June was received.

A letter from the P.S.S. office was received, regarding the community picnic to be held on July 1. The Recreation Board is responsible for scheduling and operating a T-Ball game.

A letter was received from SASCO informing us of a tent type structure that is available as an alternative to a tent.

The board accepted the J.D. Construction estimate for the concrete pad construction. This allows a 4 inch pad without fence. Don Gillies was to write up the proposal in which the cost would be equally shared by the Community and the Viking Recreation Board.

There was a lengthy discussion on the filling of positions created by the S.T.E.P. and Canada Works programs.

It was moved that we hire a qualified university or technical school student to fill the field supervisory

position for the Lake Thomas project, and that the other positions be filled by the high school students - 2 laborers and 1 as a student employer at the P.S.S. office. Carried.

Interviews of all students were to be on Monday, June 16 from 10 to 5 o'clock at the Town Office.

Cindy Josephson is to contact the Canada Manpower office in Vegreville and student employment offices in Edmonton to locate a student for the supervisory position.

Cindy Josephson is to write a weekly recreation newspaper column to inform people of what's happening in recreation.

Cindy Josephson is to resume of her plans regarding the operation of the summer playground. It was moved that her resume be accepted. Carried.

The next meeting is on July 8, 1980 at the Recreation Office.

The meeting was then adjourned.

just west of the Fire Hall. Please feel free to drop in, or call 336-3387.

The Summer Playground will be opening soon. This year the program will run from July 7 to August 22.

The hours will be 9:00 to 12:00, and 12:30 to 5:00, Monday through Friday, at the Carpenters Club Room. The fee this year will be \$20.00 per child, or \$30.00 per family. Registration will be held July 2 to the 4, at the Recreation Office. Please register all children on the above dates to save time when the program starts. Children must be of school age.

Camping programs will run during July and August if interest is shown. These camping programs will be 1 or 2 day events. The playground staff will be responsible for the camping programs, along with myself, and volunteers.

Interest has been shown by a number of youths concerning roller skating. A roller skating trip to one of the roller rinks in Edmonton will be held in July or August. Watch for further information in the coming weeks.

The Senior Citizens Summer Games will be held August 21 - 23 at Camrose. One local Senior Citizens have been informed of them. It would be nice to see our Seniors participating in the games.

"The Guide To A Fabulous Summer" course was cancelled because of a lack of participants. Was it a bad time of year, or not? It is the kind of program the teens

want?

The Recreation Office has a variety of information on summer camps and programs going on this summer. We also have a small collection of books on interest crafts and sports. Drop in the office and have a look.

The local Recreation Board will be looking after a T-Ball game at the community picnic on July 1st, 1980. A number of other local groups will be looking after events such as pie eating, contests, horseshoe tournament, races, demonstrations, pot luck supper, and an old time dance.

The local Recreation Board and myself are looking forward to having an active and fun filled summer. Comments or suggestions are most welcome.

Residents Welcomed Return Of Cloverlodge Stampede

Following a lapse of 13 years, the Cloverlodge Stampede may again become a yearly event. Members of the newly organized Stampede Association decided to once again sponsor an amateur rodeo as in years past. The rodeo commenced as scheduled at 1:00 p.m. on Saturday, June 21. Although the attendance for Saturday's events was favorable, Sunday's crowd increased three-fold. Locals, rodeo contestants and visitors enjoyed the afternoon competitions with a great many staying on to take in the open air dance. The traditional "cowboy's breakfast" of bacon, sausage, pancakes etc., handed by the Curries on Sunday morning added zest to Sunday's activities.

From all reports the crowd was extremely excited over the calibre of bucking stock provided by Les Trach and were delighted by the performance of contestants in these categories. Members of the Cloverlodge Stampede Association would like to thank everyone from the surrounding communities for enabling them to revive an old tradition and again sponsor a successful rodeo. Special thanks are extended to the Viking and District Coop Association for providing the plywood for the dance floor and for their assistance in the catering department. Leland's Sales and Service are given special thanks for their time and the transportation of the Viking beach.

Continued on Page 2

Curtis Geier of Gahwah about Dairy King at the 1980 Cloverlodge Stampede. The first amateur rodeo sponsored by Cloverlodge in 13 years, was once again a real success.

Land Use By Law Passed By County

The County of Beaver, at its last regular meeting approved a land use by law, which will control, regulate and prohibit the use and development of land and buildings within the county. The passing of this bylaw prohibits further county residential subdivision. Council had decided last September to stop further residential development because of the difficulties in servicing the growing number of small county residents.

Before passing the bylaw, Council modified its definition of a farmstead because of concern that the old definition was too general. According to the new bylaw a farmstead can be separated from a quarter section only if it has adequate road access, and can meet the following four requirements:

1. The parcel is no more than five acres except where wells, ditches, shelter belts, fences, watercourses and the location of farmstead buildings, all forming part of the farmstead necessitates a larger parcel size.

2. There must be a proven potable water supply.

3. There is power on the site.

4. The parcel must have farmstead buildings.

Changes may be made to the bylaw if necessitated by the new General Municipal Plan which is now being prepared.

Second Reprieve For Viking Day Care

The Viking Child Development Centre has been given a second reprieve. The Lutheran Church Board last Friday granted the Child Development Society permission to operate their Day Care in the Lutheran Church Education Centre for a period of three months.

A meeting of the Society last Tuesday night was attended by three members of the Lutheran Church Board. President Evelyn Carryington informed the Board members of the government restrictions on Holy Heart of Mary Catholic Church being used as a Day Care. She noted that the Education Centre of the Church, only

for a period of three months. The three month stay at the Lutheran Church will allow the Society to complete and submit a proposal for capital funding of a new Day Care facility for Viking. The proposal will be submitted through Preventive Social Services on behalf of the Society.

During the past week, members of the Society have been conducting a telephone survey in Viking and the surrounding district to determine the actual need for a new, permanent child care facility. Results to date show an overwhelming need for a facility in favor of the proposed facility in Viking. Anyone not contented and wishing to comment are asked to call Jocelyn Quinton (336-3264) or Eileen Cunningham (336-3145) prior to July 3 when the final results will be tabulated.

Bruce Prepares For Stampede

Plans are being finalized for the 1980 Bruce Stampede which will be held on Saturday, July 27. The festivities will commence at 11 a.m. with the traditional parade down the main street, and the action will then move to the stampede grounds just east of the hamlet. Once again you will be able to see the top cowboys competing in saddle bronc, bareback bronc, steer wrestling, calf roping and bull riding, for a total of \$4,000 in prize money. Winners will also receive trophies. Later in the day there will be a free-for-all horse race, a pony race and pony chuckwagon races. There are other special attractions for those who enjoy something in addition

to the regular rodeo events. The Steen sisters, riders from Lethbridge, Montana will be performing. The sisters, Connie, Kelly, and Cory are competent gymnasts and professionals in their field, who are appreciated by young and old alike. As well, there will be a tug-of-war contest during intermission, a horseback tournament at 5 p.m., and a beef barbecue, which will satisfy even the laziest rodeo fans, beginning at 4 p.m.

Crown Amusements will once again provide the midway with rides to delight youngsters of all ages. In fact, for those who would like to make a weekend out of it, the midway will be set up by 4:00 p.m. on Saturday. At the same time on Saturday, there will be an open grapple competition run under E.G.A. rules, with trophy horse blankets for the winners. Another Saturday attraction is the fireworks display scheduled for 10:30 p.m. The annual stampede dance goes on Saturday evening at 9, and this year features the Joppy South Entertainers. It follows a special banquet for the queen contestants. Marilyn Ash, Suzanne Gahr, Kimberley Maloney and Marlene Stefanski, Rhonda Haselock of Oshawa, will be crowning the 1980 queen at midnight. The Bruce Stampede promises a "fun" weekend for the whole family.

Margaret Hill presents the Jim Hill Award for the Outstanding Female Athletes to Alana Fouts and the Outstanding Male Athlete to Kevin Mehta of Viking School. Outstanding Athletes are selected by the students.

Viking's P.S.S. Director

Next Tuesday at the Viking Sports Grounds, a community picnic in recognition of Canada's birthday. A great deal of time and effort has gone into this endeavour, and once again, as in most recent endeavours in Viking, Deborah Taylor has been involved.

It has been four months since Deborah Taylor began her position as Preventive Social Services Director for the Town of Viking. And in that short time, the groundwork has been laid for numerous activities in the community. She has involved herself in community projects within her scope with an expertise and vitality which is indeed contagious. Whenever there is a meeting going on, Deborah seems to be there. And during the day, she can be found working in her office in the Carena building, or dashing about town trying to make things happen. It makes a person wonder if she ever has time to herself.

When P.S.S. was being considered as a possibility for Viking, many people were against it. Granted, there were some very valid concerns about the need for such a program and the exact nature of the program. One of the concerns revolved around the willingness of the community to consistently supply the volunteer labor necessary to fulfill the expectations of any or all of the programs which may be initiated. However, this concern will always be with us. The other concern was the choice of a Director for the program. After much scrutiny by the selection committee, Deborah was selected. And now, at this early date in the P.S.S. program, it appears that their selection was excellent. We have a Director who shows enthusiasm for her job. Let's get together with her and make P.S.S. in Viking a lasting success.

Dear Sir,
I had the pleasure last evening of being able to attend "Musical Memories", a production put on by Mr. E. Norris and the students of the Viking School.

I was thoroughly impressed by the obvious hard work put into this by the students, Mr. Norris, and various other people. I also was surprised, although pleasantly, by the high quality of the talent displayed by our young people. I would like to commend Mr. Norris on the terrific job he is doing with the Viking students. They are very lucky to have teachers of his calibre, and of the calibre of many of the other teachers, including Dennis Watson.

That is why we were especially disappointed that a few of the teenagers present chose to turn their backs on something with very unpleasant memories. This was not an isolated incident, rather, one that happens at every concert, and which I feel deserves mention. That is, the fact that some of the young people tend to turn their backs on something with very unpleasant memories. This was not an isolated incident, rather, one that happens at every concert, and which I feel deserves mention. That is, the fact that some of the young people tend to turn their backs on something with very unpleasant memories.

For those parents who come to listen to their children, and to enjoy a really great concert, it casts an unpleasant light on the whole evening.

The really disturbing aspect to the whole episode is the fact that both Mr. Norris and Mr. Watson got on stage and politely asked the kids involved to try to contain themselves, but to no avail. I was appalled, the ignorance shown by these students was disgusting. I would suggest that if they were not interested in what was taking place on stage that perhaps they should have stayed home. The people

Letters To The Editor

ple who were interested, just most of what the M.C. was saying, and a lot of the younger efforts, which were never in tone, but which we came to bear.

I am by no means condemning all of the students of Viking School. I feel that for the most part, they are a good group of people, and will become an even better group of adults, but there always are a few who spoil things for the many.

Perhaps the ones rests on the parents, since these kids choose to ignore school authority.

Were your children at the concert last night?

Sincerely,
Madi Sarafian

Dear Sir:
First of all, thanks to all who came to our cemetery clean up day June 16, 1980. There was a wonderful turnout.

There is always a lot of work to be done...raking, hauling away debris, shovelling, moving dirt (some by truck and some by wheel barrow).

triumphing around graves where lawn mowers cannot reach, etc., etc. The more people that come to help, the easier the task.

We do hire someone to cut the grass and for jobs too large to do on clean up day. Therefore if there are some who have loved ones laid to rest in our Viking cemetery who cannot come on clean up day, but would like to help, we would appreciate any donation. This is the way we able to keep our cemetery clean.

If you visit the cemetery and the grass is not being cut the next day. Who ever takes the job just do on their day off or on evenings. It takes 16 hours to cut the grass, so please bear this in mind.

We are very grateful for people who will take this job as we cannot hire a full-time caretaker.

Next year we hope to have another clean up day, probably in June. Please watch for announcements in local papers or posters posted.

Wednesday, June 25, 1980

in the Village of Holden. We do our best. Secretary of Cemetery Committee Holden, Alberta.

Dear Sir,
It is with regret that the annual holiday season comes around and the Viking Cemetery is in the same deplorable condition.

For a "Crossroads Town With A Future", it shows little respect for its dead. Of course "out of sight, out of mind", could be the thought of those who have not lost a relative or a friend.

The cemetery is in worse condition this year, (it is possible), as the piles of cleanings, and a false tree have not been picked up by the town crew. These have been there a month already.

Some hard working, respectful people have been doing their best to keep parts of the grounds tidy. We commend them for it. It is a shabby landscape to drag about on an Anniversary Year.

One of the Workers

Donation In Support Of "Shelter"

June 17th, 1980 was a special evening for Viking Elks Lodge #83 as the Elks Provincial President, Bro. Jack Blinston and Past Provincial President, Bro. John Evlyn attended the meeting to present a cheque in the amount of \$1,000.00 from the Alberta Elks Foundation.

These funds are a donation to the Viking Group Cemetery, upon completion of the new "shelter" at Camp Gary on the shore of Lake Thomas, and are part of the money raised through annual sales of the Elks Truck and Camp Raffle tickets.

The Viking Elks are thankful to the Alberta Elks Foundation for their donation and to all those who have given of their time and plan and erect the new facility.

We feel the completion of such a project will be a real benefit to the Cubs and Scouts in the years ahead.

Viking Elks Lodge No. 83 received a cheque in the amount of \$1,000.00 from the Alberta Elks Foundation to be donated towards the construction of a "shelter" at Lake Thomas. (Left to right) Past Provincial President Bro. John Evlyn, Provincial President Bro. Jack Blinston, representing the Alberta Elks Foundation present the cheque to Viking Elks, Bro. Jack Mattinson and Bro. Heals Grube. Staff Photo

Quinte W.I. Notes

The last Quinte W.I. meeting was held on Thursday, May 30th, at 7:30 p.m. at the home of Angela Johnston. We had a super meeting this month, with some family members present. Maureen Bauman, the Home Economist from Ryley gave us Barbecue lessons. There were nine members and ten guests present. The meeting was started off with the reading of the Treasurer's and Secretary's reports.

The old business was then dealt with, which included a further discussion on the preparations for the wedding we catered to on June 16th. The correspondence received was as follows: 1. A letter from the Quilters Guild about their quilting contest. 2. A letter from the One Hundred Ten Workshop Association of Vegreville, thanking us for the donation we gave them.

The discussion of the new business was next. This included a discussion on our club family outing, to be taken sometime this summer. The May visiting committee of Cleora Darling and Betty Bennett, gave their report. Catherine Evans and Lili Evans are on the June visiting committee. For Roll Call we each brought a supper dish.

Holden News

A large gathering of ladies honored Sylvia Peris on Monday at a bridal shower at the Holden United Church. Marie Malick, on behalf of the ladies, introduced the head table guests, and presented Sylvia with many lovely gifts. Mrs. Fredericks read an article on marriage. After viewing the lovely gifts, Sylvia thanked everyone, and the ladies then served lunch. Sylvia Peris will marry Derek Burden in the near future. In softball games held at the Holden School this week the Holden 14 and under girls defeated Vegreville 16 to 4, and the Holden 10 and under girls beat Vegreville 6 to 5. Rev. David Modde of the Holden United Church, was honored in many areas before leaving here for Dawson Creek. The Holden U.C. W. and the congregation bid their farewell last Sunday. Holden side streets are being surveyed this week, north to the Camrose, where the Senior Citizens Lodge is to be located. New sidewalks are nearly completed east and west by the Holden Hall. Pavement of that street is to begin in the near future. Miss Debbie Lawson, who has taught at the Holden School for several years, received her degree this year, and will now be teaching in Paradise Valley this fall. Mrs. Louise Lukawick of Holden, who has been teaching here for several years also received her degree this year, and will continue to teach at Holden.

John Roomabel (left) president of the Viking School 1960 Graduating Class, presents a cheque for \$275.00 to vice-principal Earl Kindley. The money is to be used for the proposed new sports pad.

The WEEKLY REVIEW

Energy Conservation Supplement

June 25, 1986

First Page

Our Future . . .

The future of our town, our province, and our country, rests to a large degree in the future of Alberta's petro-chemical industry. The wise use of our resources now, will insure our prosperity and security in the years to come.

The Energy Facts Of Clean Clothes

The most energy efficient way of washing clothes is to take a bar of soap down to the river's edge and scrub away. Clearly, few Canadians are prepared to go to this length to save energy. In fact, even if they were, how many are close to a river? Luckily, we don't have to go back to the ways of our ancestors to wash and dry our clothes in an energy efficient manner.

The following suggestions can help you reduce the energy and dollar costs of keeping your clothes clean.

Washing
The biggest cost item in washing clothes is the hot water. So whether you're hand-washing in a sink or using an automatic washing machine, cutting down on the hot water saves energy.

Many people now use washing but cold water washes and are very unsanitized with the results. Washing in cold water has the added benefit of reducing the likelihood of shrinkage and colour bleeding.

Full Loads

Make the most of the energy used to run your washing machine by operating it only when you have a full load. When this is not possible, save water by using the correct water level setting for the use of the load.

Drying

The most energy saving way to dry your clothes is to use a solar heated, wind-driven clothes dryer or, as it is more commonly known, a clothesline. In summer, using a clothesline gives your clothes that fresh out-of-

doors smell. In winter, the family wash drying in the basement can contribute approximately 20 pounds of moisture to dry winter air.

However, if lining your clothes, air dry is not feasible, then use your clothes dryer in an energy saving manner:

- **Short cycles** — Use the shortest appropriate cycle to not only save energy, but to prevent clothes from over-drying.
- **Full loads** — Dry a full load each time you turn the dryer on.

to make good use of the heat produced. (Heat overload, right?)

- **Vents** — Vent your dryer to the outside during the summer to get rid of moisture-laden air. This saves energy by speeding up drying time.

- **Lint filter** — Clean your lint filter after each load to reduce drying time. At best once a year, clean the outside of the dryer drum, the motor, and exhaust pipes to get rid of lint build-up.

"More Than Smoke Goes Up The Chimney"

An oil furnace retrofit — that is, upgrading your furnace so it works more efficiently — can save you up to 20% on your fuel bill. A qualified furnace service can make these improvements relatively easily during the annual furnace servicing.

"Does a retrofit require major changes to my furnace?"

A retrofit is relatively simple. It includes changes to the burner, such as reducing the size of the burner, adding a retention head and installing a delayed action solenoid valve. Are you completely lost now? If you are like many Canadians, you're probably not too familiar with the inner workings of your furnace. A brief explanation:

Smaller Burner Saves 7-10%
Most furnaces are oversized compared to the actual heating requirements of the house (especially if the house has been retrofitted). A smaller burner allows the furnace to stay on longer which results in less fuel being burned more efficiently.

10%-15% Savings From Retention Head
Fitting on the end of the burner, the flame retention head allows the burner to operate more

efficiently through better mixing of the combustion air and oil. A retention head automatically requires the installation of a smaller burner. A qualified furnace service can make these improvements relatively easily during the annual furnace servicing.

Unusually, owing to a lack of CSA certified equipment and trained service men, the flame retention head is still not available in most areas. However, this should change in the near future.

Delayed Pollution and Save Energy
Installation of a delayed action solenoid valve saves energy by ensuring complete combustion. This has the added advantage of reducing the amount of soot formation and the production of other pollutants which escape up the chimney.

A word to the wise
If you are planning to retrofit your furnace, ensure that all retrofit items have been certified by the Canadian Standards Association (CSA). Make sure that your service man is properly trained in energy-efficient retrofits. Many of the provincial governments are beginning to sponsor furnace retrofit training courses which instruct service men on how to correctly carry out a retrofit.

How much do you know about saving electricity? Show your "light" knowledge here by answering the following:

a. 10 points if you always turn off the lights whenever

you leave a room. Remember that fluorescent lights are more energy efficient than incandescent lights. Turned on only for 1 or 2 seconds of lighting time.

5 additional points if you

How "Enlightened" Are You?

Turn off all the lights in the room you are in, except the ones needed for the current activity.

b. 10 points if you have implemented and are positive

that all your bulbs are of the lowest wattage possible. Bright light is generally only needed directly over a work area.

c. 10 points if you have directed spotlights to your fa-

vorite reading chair, desk and work area. A focused spotlight requires less wattage, bulbs and provides substantial energy savings when compared to general area lighting.

d. 10 points if you have chosen fluorescent bulbs when you installed new lighting.

e. 5 points if you consistently dust bulbs and fixtures. This maintains the original lighting level and thus discourages switching on another light and/or replacing the bulb with one of higher wattage.

f. 5 points if you have a dimmer switch on appropriate lighting. However, if you don't use it, you're wasting the energy it took to

produce that switch. Subtract 10 points.

g. 10 points if your ceiling and walls are painted light colors to reflect the light.

h. 10 points if you managed to have non-electrical Christmas decorations last Christmas.

Well, how enlightened are you? If you scored 70 or higher, rate yourself as an Energy Converter for Christ. You probably have some energy conserving ideas that even you haven't thought of.

If your score is between 50 and 70, then you're definitely on the right track but still have a bit of saving to do.

If your score is below 50, then you are an energy waste extraordinaire and probably have the electricity bills to prove it.

Appliances: Do They Really Save Energy

Energy to run the refrigerator, the stove, the blender and kettle, the electric frypan, toaster, popcorn maker and hair warmer... We often forget to add the cost of the energy we use in preparing our food to the weekly food bill. Yet a full 30% of the energy required to support our food supply is consumed in the home. Much of that energy is wasted. Each time the oven door is opened, for example, 20% of the heat is lost. If you forget to turn the Sunday roast before putting it in the oven, cooking time increases by 1½ — adding to the energy and dollar cost of the meal.

The answer depends on such considerations as length of cooking, quantity of food, as well as the energy efficiency of the various appliances. For example:

- **The oven** is the most energy wasteful way to cook. This is because not only the food but the entire oven cavity must be heated. There is also substantial heat loss through the walls and door. If you do use the oven, then make good use of the heat by cooking a "roast" oven meal. When possible, adapt foods usually cooked in the oven to the top of the stove.

- **An electric frypan**, when in full, uses less electricity than cooking the same quantity on the stove. But when cooking small quantities, much of the area is unused and the electric frypan wastes energy. Cooking two pork chops in an electric frypan costs 50% more electricity than would cooking them on the small element of the stove.

- **A microwave oven** uses less energy than a conventional oven. However, when cooking times are similar (usually for a large quantity of food), the surface

element on the stove uses less energy than the microwave oven. An electric kettle uses 70% less energy to boil water than does a pot on the stove. In both cases, the larger the amount of water, the more energy is required to reach boiling point.

Your cooking methods are determined, to some extent, by the kinds of food you choose to cook. But whatever method you use, you have the option of cooking in an energy-saving (or wasteful) manner.

The following tips can help you further trim your energy bill.

Top of the Stove

1. Use the highest heat setting to reach the desired temperature and then turn to the lowest setting that will maintain that temperature. (Using the higher setting won't cook food any faster but it will use more energy.)

2. A pressure cooker saves time and energy. Use it for stews, soups, pot roasts and almost all vegetables.
3. Fast frying: sealing food in bite-size pieces and cooking quickly over high heat is a very energy efficient cooking method.

4. Leave the lid on for faster heating.
5. Use the minimum amount of water possible. The larger the quantity, the longer it takes to heat up.

The Oven
Make the most of all that heated space in the oven:

- Cook an even meal. (A pot roast and apple crisp baked together are about 15% less energy than if baked separately.) When cooking several foods at once, place meats and vegetables dishes on the bottom rack, desserts and baked goods on top. Put food requiring more frequent attention for food that is to be removed first at the front.

- Use heat absorbing glass, coloured porcelain or dark coloured bakeware. These will enable you to reduce your oven heat by 10%.

- Whether the food you are cooking requires a short or long period of baking, pre-heating the oven is not necessary. You can reduce the energy used to bake such foods as muffins and cookies by 50% if you eliminate the pre-heating stage. Exceptions are some items in which the broiler element comes on during the pre-heating cycle. In such cases, the top crust of the baked goods may be burned if the preheating cycle is eliminated.

Is Time Running Out?

Our petro-chemical resources, though vast, are not unlimited. People in the industry are working with all Canadians to conserve this resource and to find alternate sources of supply. Through the efforts of all concerned people, we are confident our energy needs will be filled.

TOWN OF VIKING

We dig it... progress

Let's Cooperate In Building Our Future

We're fortunate to be part of such a technologically advanced civilization where we all reap the wonderful benefits of progress.

Yet remember...progress can continue only as long as we work together in achieving that goal.

How much did you pay for gas this week?

These days, you want to get all the mileage your car can deliver.

If your car is running rough and wasting gas because it needs a tune-up, see us for a Champion Total Tune-up! With new Champion spark plugs and ignition parts, quality engineered for performance, we'll have your car back in the running in no time.

A Carrington's Gulf Total Tune-

up could help improve your car's fuel efficiency and gas mileage. Instead of wasting gasoline, you could start saving it.

And that will save you money!

Tune up and go... with the names you know.

MAINTAIN YOUR CAR

Proper vehicle maintenance will not only make your car last longer, but it will improve gas mileage.

All Engine Testing Acheived With Our New Perless 976 Engine Analyzer!

For your complete car care... Depend on:

Air Conditioners

If you've given the idea in the "Keeping Cool" article the old college try and your home is still too hot, here are some energy facts to consider when buying and using an air conditioner:

Choosing A Room Air Conditioner
 • Buy the proper size. Double how much space you really need to cool (kitchen room, bedroom) and choose accordingly.

Types
 There are basically two types of air conditioners: room air conditioners (usually window-mounted) and central air conditioners. Room air conditioners are smaller and designed to cool one or several rooms. The central units go on your forced air heating system and cool the whole house. They are larger, more expensive and generally more energy-consuming. However, they are more energy-efficient and cheaper than a series of room air conditioners.

The cooling capacity of air conditioners is rated by BTU of cooling per hour.
 • Buy the most efficient model you can use. That is, the one which uses the least electricity (cents) for the amount of cooling capacity you want. Simply compare the wattage which is on each air conditioner's information plate. Since less energy is required to produce the same cooling effect, the more efficient model is probably better made. Consequently, this unit may be a little more expensive. However,

it is probably a better buy in the long run and certainly will cost less to operate.

Reduce Your Energy Bill

First, make sure you have followed the idea in the "Keeping Cool" article. They'll help you save energy by reducing the cooling load on your air conditioner. The temperature setting should be as high as is pleasant (the opposite of water thermostat setting). The higher you set it, the less electricity you'll use and the more money you'll save.

Maintenance Tips
 The more efficiently your air conditioner runs whether it is a room or a central forced air cooling system, the less energy it consumes. You can carry out some maintenance checks yourself.
 • Clean the coils and dirt off the unit and outside coils before the summer.
 • Be sure that the blower and

electrics motor on the unit are lubricated.
 • Check the filters on the unit and clean or replace them when necessary. In a central cooling system, the filters should be checked once a month. Make sure the filters are kept clean so that they can't block the flow of air through the condenser and that the outside area is kept clean.

In a central forced air system check the tension on the fan belt; you should be able to press the belt down between 1/4 and 1/2 inch. If it moves more or less than this, change the tension by the routine opening and closing of the door accounts for 30% of the energy (and dollar) cost of running a refrigerator.

moving the adjusting screws on the mounting frame that fastens the motor to the blower housing. If in doubt, check the instruction manual.

During winter, either remove window-mounted units and seal the window, or seal the unit on both sides with plastic, wood or a piece of styrofoam. Tape it up so that cold air won't infiltrate.

The routine opening and closing of the door accounts for 30% of the energy (and dollar) cost of running a refrigerator.

This gravel truck, owned by A & B Rail of Edmonton was driving up and down the railroad tracks last weekend. The company was graveling the new Cargill Grain spur line.

Staff Photo

Getting Into Hot Water

The most expensive item in your home energy budget is space heating. Running tight by kind in hot-water heating—whether by oil, natural gas, or propane or electricity. There are many ways to reduce your hot water bill without resorting to cold showers.

First of all, be sure that the thermostat on your hot-water heater is not set too high. 54°C (130°F) is recommended.

By spraying them in the drying rack, a tray at a time. If you don't have a hose, use a second basin for rinsing rather than continuously running the hot water.

Double Duty
 • Use your hot water twice. In the winter, after you've had a bath or done the dishes, don't drain the hot water until it cools. It's better to heat the house than the sewer.

Drip, Drip, Drip, Drip
 Fix those drips. One drip per second from a leaky hot-water faucet or shower-head can add up to about 175 gallons a month. That's cash down the drain!

How About Using Less Hot Water?
 Here are some ideas on how to cut down on the amount of hot water you use:
 • Switch from sit-downs to stand-ups. Unless you stand in the shower until you've used all of your favourite songs, a shower uses less water than a bath. Increase your energy savings even further by installing a "water saver" on the shower head.
 • If you must sit, use less water. The cost of a bath is determined mainly by the amount of hot water you use.
 • Use the cold water wash and rinse cycles when washing your clothes.
 • Reduce the amount of hot water needed for doing the dishes. Try the following:
 • Wash and scrape the dirty dishes using cold water.
 • Wash in a basin that is somewhat smaller than the sink.
 • Use a reasonable amount of detergent—mountains of soap suds don't mean cleaner dishes. They do mean wasted detergent and increased use of hot rinse water.
 • Use a hose for rinsing dishes.

Heating The Water Efficiently
 An efficiently running hot-water heater helps you save money and energy.
 • If your tank is heated with oil or gas, be sure it gets an annual or semi-annual check-up along with your furnace. The flame, or vent, damper, and stack or vent pipe should all be adjusted to ensure that the energy you're using is heating the water, not scorching up the chimney.
 • Down near the bottom of your heater is a small pit. Once a year, clean out sediment and mineral deposits.

Keeping It Hot
 • A good insulating jacket can reduce heat loss through the walls of an uninsulated hot-water tank by at least 80%. Insulation will also help keep your water cooler in summer. If you have a tank that isn't insulated, wrap some insulation bats or rolls around it. Be sure you use fire-resistant insulation and keep it well clear of the burner or an oil- or gas-fired tank.
 • Pull away from the tank to the vent-outlets in the house through pipes normally run in the basement ceiling. Again, insulation is the best way to prevent the heat from escaping.
 • Use your hot water wisely and direction to your hot water bill.

Conversion To Liquid Propane Gas Becoming More Popular

As oil and gas prices continue to soar and the possibility of supply depletion looms in the future, an alternative source is being sought.

Liquid Propane Gas which was previously known as a gas refining now reaches new dimensions as a combustion engine fuel. Energy extravagant flame-off was a common, and familiar use of propane heating and cooking with propane entered the picture and now propane has found a very productive use—as a motor vehicle fuel.

This new use of liquid propane gas is growing in popularity and offers a number of attractive advantages. The cost per gallon is normally near half the cost of gasoline and with the abundant supply available in Alberta, costs will remain at low levels. As well, there are no apparent shortages or threats of shortages in Canada or the States. In addition, Liquid Propane Gas is pollution free and far exceeds all existing emission

standards, making it an ideal fuel for use in equipment which must be operated in warehouses etc.

Statistics show that the use of propane as a motor fuel will increase your mileage without end changes by as much as 4 to 5 times the number of miles travelled with gasoline burning engines. In agricultural use, farmers often only change oil twice a year, once in the spring and once in the fall.

Conversion to Liquid Propane Gas is moving ahead quite rapidly. In terms of time, about three hours will take care of the work necessary to change over a new 5,000 pound capacity unit.

The cost of conversion to a liquid propane fuel system can be revamped through the savings in fuel costs in the first 30 to 40 thousand miles.

The installation routine involves attention to every aspect of safety, including the use of approved pipe dope on all threaded connections whether pressure or vacuum. Care is taken to

plug the gasoline fuel line. A propane fuel tank is installed and an L.P. gas fuel line is connected to the fuel lock-off. All propane fuel connections are checked for leaks with engine stopped and open. The engine is started and adjustments of power mixture, idle mixture and idle speed are completed.

The trend today is towards establishing more motor vehicle Liquid Propane Gas refueling stations along major roadways. However, dual conversion is recommended because in some areas liquid propane may not be readily available.

Although some may doubt the safety aspect of this fuel, many people are unaware of just how safe it really is. One point to consider is the fact that there is no open fuel tank and another fact is that propane won't burn unless it has the proper mix of oxygen.

The savings in fuel cost alone have prompted many

inquiries into the conversion to Liquid Propane Gas but other advantages such as the increased energy efficiency potential and the low maintenance costs have increased its attractiveness. Contact your local propane distributor for further information regarding your conversion to Liquid Propane Gas.

Irma U.C.W. News

The regular meeting of the U.C.W. was held Tuesday evening, May 27, at 7:30 p.m. in the lounge of Chancery Manor with Mrs. Edith Wilson presiding. All were warmly welcomed after prayer. The minutes of the last meeting were read and approved as sent.

Everyone is most welcome to attend.

Mrs. Promer reported for the Manse Committee. Mrs. Wilson read excerpts from the minutes of the full executive meeting held in Winnipeg. Mrs. Fischer suggested we write protesting the use of Nestle's Foods. It was suggested that we boycott same.

Roll call was answered by 8 members, and we had approximately 21 visitors.

Mrs. Promer moved the meeting be adjourned. We opened the social part of our meeting with devotion led by Mrs. Helen Sackwood. The topic being "Perfect Peace", scripture reading John 14:25-31, also Luke 20:3. We closed with prayer, after which we sang hymn 285 "Peace Perfect Peace".

Mrs. Marjorie Fischer gave us a brief sketch of what to expect in the film "New Horizons Club" was held in the Drop In Centre on Wednesday, June 18 at 2 p.m. At the conclusion of the business meeting Whist and Scrabble were enjoyed.

The next meeting of the U.C.W. will be held in the United Church on Tuesday evening June 24, at 8 p.m. Devotions will be handled by Mrs. Isabel Fenton, the

The Irma Cubs have had a very interesting fun filled year of cubbing. Their activities included crafts, games, skidding, hikes and camping. Their last meeting of the season included a visit to the B.C.M.P. Station in Wainwright. Pictured above are (left to right) David Larson, Todd Godwin, Sheldon Archibald, Leslie Cressy, Duane White, Jody Costall, Dwayne Hollinger, Jason Costall, Sharon Archibald.

Irma News And Views

The regular monthly business meeting of the Irma New Horizons Club was held in the Drop In Centre on Wednesday, June 18 at 2 p.m. At the conclusion of the business meeting Whist and Scrabble were enjoyed.

The next meeting of the U.C.W. will be held in the United Church on Tuesday evening June 24, at 8 p.m. Devotions will be handled by Mrs. Isabel Fenton, the

was served and some visiting and socializing took place. Sympathy of the district is extended to the members of the Fitzpatrick family on the passing of their mother, Mrs. Harriet Fitzpatrick, on June 14, 1980, at the age of 92 years. She was born on June 22, 1887, in Ontario, but was truly an Alberta pioneer. She came to the province with her parents at the age of nine, and was a resident of this province for 84 years. The Fitzpatricks resided in the Crescent Hill district east of Irma. Some time. Surviving are two sons and six daughters.

Mrs. Fitzpatrick was predeceased by her husband and four sons.

On Sunday evening, June 22, Mary and Bob Dempsey hosted a farewell party for their visitors and Jackson's visitors from Ireland. There were forty members of what might be called "The Irish Connection". The weather was ideal, and a very pleasant time was enjoyed on the lawn. Later in the evening Eddie Jackson showed movies for about one and a half hours, which were much enjoyed.

The Irish visitors are leaving by car for the International Airport on Monday afternoon to catch a flight to Heathrow, and then to Dublin, and finally home to Tipperary, after spending six weeks seeing the sights of the west.

The Wainwright Stampede was the big event of the weekend, and judging by the traffic through our village, must have been the best attended stampede ever in Wainwright. The stampede itself commenced at 1:30 p.m. on Friday with the usual events. The afternoon crowd in the bleachers left something to be desired, but the evening performance was well attended. The chuckwagon races were exhilarating. In a few instances, it was difficult to tell which wagon had won; the finish was so close. The start of the evening was when the clown and a black bull charged each other, and the clown jumped clean over the bull.

The parade on Saturday

was really excellent and many were the favorable comments heard on all sides. The Irma Chamber of Commerce entry got first prize for out of town entries. The Irma School Band played from 9 a.m. to 10 a.m., and drew much applause and favourable comment.

Irma streets were quiet on Friday and Saturday evenings for a change. This was a pleasant change from the regular rubbering of our streets, which normally takes place on weekends. It should be interesting to attend court in Wainwright on Monday, June 23, and perhaps Monday June 30. It's generally a good show, and admission is free.

Mrs. Martha Glover and a friend from Hanna visited with Edith and Art Gwin on Monday evening.

Jean Brooke hosted the regular meeting of Rosegarland W.I. at the Anglican Hall on Thursday, June 19, at 8 p.m. As this was to be the last meeting before the summer recess, the following items of business were discussed as follows:

Regarding the Historical display competition in the community Hall on August 7th, Elaine Siskind representing Hower's Auto & Farm Supply, and Quince W.I.'s representative, Mrs. Siskind, agreed to meet to plan the display. Anne Andrusak, a Hower's employee, was named as "helper" for assistance on our behalf.

Regarding the Communion Service for July 1st, Rosegarland W.I. was invited to over-see the children's personal scripture recitation. Verne Elliott was responsible for this.

Regarding the request for the town of W.I. to send a

Rosegarland W.I. Notes

display to their Potato Festival on July 31st as no one offered to take this up, we decided to make a display of the agricultural products grown and the methods used in the Viking area. Elaine Siskind and Irene Toverud volunteered to look after this.

Regarding the Standing Committee, Chairmen were agreed to follow: Handicrafts and Cultural Activities, Irene Halso, Citizen ship and Education, Margaret Hill, Health and Home Economics, Irene Toverud, Agriculture and Canadian Industries, Ann Suddaby and Pearl Rowell, United Nations, Erleen Pothol, Social Services, Verne Elliott, and Entertainment, Marie Weyer.

A report on the recent Provincial Alberta Women's Institute Convention in U.S. was given by Elaine Siskind. In her remarks she

reported that the "Wells For Kings" project of the A.C.W.I. has now ended. The new project for the next three years will be "Sewing Machines For Bangleless" whereby Bangleless women will be trained as teachers to sew sewing machines and who will then go out to the villages to teach the local women. Money raised through Women's Institutes all over the world will be used to purchase sewing machines for this purpose.

Elaine made special mention of the talk by given by the banquet guest speaker, Father L. LaRue of Regina, head of the Bona Fide in Regina, a treatment of the for foreigners who are new graduates. He left the audience with this very sobering thought, that society is based on the strength of family life; that if family breaks up, the country will be in trouble. He also mentioned that according to statistics the suicide rate has increased over 800 per cent with

the majority of victims being young people.

Verne Elliott, a first time visitor to a Provincial Convention then gave a brief report on the trip to and from U.S., complete with walking police streets and taking wrong directions, to add a little humor, she also remarked how impressed she was to learn that W.I. is really about the best way to go to a Convention to be sure fully aware.

"Thanks for Friendship" followed the reports and we were instructed to pay a time for every grandchild. Just a visit to a new little sun.

The next meeting will be held on September 9th at 8:00 p.m. at the Bona Fide in Regina. The fall will be on the 11th of November. Hostesses will be Anne Andrusak and Marie Weyer.

County Council Stands Firm On Tofield Proposal

Council members of the County of Beaver learned at their regular meeting on June 23, that the Town of Tofield and the county have been unable to come to an agreement regarding the Tofield Fire Hall Proposal.

The county submitted a proposal stating they will contribute \$125,000, which is one half of the total cost of the project. With this contribution, the county feels they are entitled to 50 per cent ownership of the structure.

The Town of Tofield disagrees with this point. They feel the county is not entitled to 50 per cent ownership, but are offering the county use of 50 per cent of the facility on a 10 year lease.

The council agreed unanimously on a motion that their proposal should stand as is.

The proposal now goes back to the town council of Tofield. If they reject the proposal and cannot come to an agreement with the County of Beaver before July 1st, they will lose a \$75,000 Neighbourhood Improvement Program grant which was designated for the new fire hall.

In other business, Cloris Doucet met with council to discuss assessment fees. Mr. Doucet told council he feels the assessment work load has almost doubled, and therefore there is a need for higher assessment fees.

County council agreed with Mr. Doucet, and decided to raise the assessment fees. The fees will remain at their new level until 1983, at which time they will be reassessed.

A discussion on the radio system within the County of Beaver was tabled until further information is received from Motorola Electronics.

Several members were named to the Municipal Planning Commission, but further discussion on the matter was tabled until all of the members are named to the committee.

The Kinross-Sheep Project By-Law #811, received by council and their readings, and was passed by council after some minor amendments were made to the by-law.

Council members were asked to handle their requests for A.M.A. road signs, and also make their 1981 bridge requests.

A report was received from the committee appointed to look into the Toxics Drainage Project. It was deemed that no further action on the part of the County of Beaver will be taken. Council felt it was now up to the parties involved to proceed as they feel necessary.

Development/Utilities officer Vic Eaton, and Tiz Zaghi, of the Regional Planning Division of Municipal Affairs attended the meeting to discuss the General Municipal Plan. It was decided the committee will consist of either seven or nine members. Horatia Armitage and George Knudsen will represent council on the committee. The first meeting of the committee has been set for the evening of July 30.

The next meeting of county council will be held on Thursday July 10.

The Village of Irma has given the Curling Club a land site on the fairgrounds for the new building.

The donations plus the donated labour and equipment will be matched dollar to dollar with the Master Plan Grant for the balance of the money.

At the present time the Village of Irma is backing the Curling Club for the money to build the new building. The Curling Club Building Fund will gladly have the donations of money or labour at any time. They certainly appreciate the generous donations that have been given to date. Watch the thermometer on Main Street, as your donation is added to it.

Please let the members of the committee, or anyone who is assisting in any way, know of any help you can give in the form of labour or a cash donation.

Art has been doing a great deal of letter-writing, and thus far has obtained information from the Archives about the R.C.M.P., land titles, and brand recording. From his finding he has also corroborated the fact that Bruce held his first stamps in 1914. Art, who has also been searching for old pictures, has written letters to

relatives of people who lived here in the early days, in the hope of getting not only pictures, but additional information.

If you have any snapshots, historical information or small items that could be put on display, Art would be happy to talk to you. This community, as well as the surrounding it, will be watching with interest as he progresses with his ambitious undertaking.

Canada Day 1980

Canada Day 1980 has come and gone. In Viking, as in many communities across Alberta and across Canada, there was a special event planned for the day in recognition of its importance. Not only were the activities planned because it was a holiday, for there seemed to be a "party" atmosphere at the local events, as well as those televised from our nation's capital.

One of the truly remarkable things about this day, July 1st, is that over the past few years there seems to have appeared a feeling of pride that Canada is celebrating another birthday. It was traditional for anyone visiting the United States on the July 4th weekend to witness displays of patriotism in recognition of that nation's birth. And yet, for many years, little recognition, either formal or informal, was given to July 1 in Canada. Only during the past few years have we witnessed a spirit of patriotism associated with the Canada Day holiday.

One event which gives this Canada Day an even greater significance than usual is that finally, after 113 years of confederation, we have a Canadian national anthem. At various times in Canadian history, parliament has attempted to make "O Canada" our national anthem. And yet it took the crisis-like atmosphere of 1980 to push our parliamentarians into making it officially our anthem. Most, if not all Canadians, considered the song our national anthem for it has been used in this respect for nearly 100 years. And yet there is a special significance, a certain feeling of being Canadian, associated with its official acceptance as our national anthem.

It does seem to be a time when Canadians are starting to consider themselves Canadian. What it means to be a Canadian seems to be coming into focus as we view the happenings throughout the world. We have the opportunity to live and grow in fellowship and friendship, no matter from whence we, or our forefathers, came. We do not all have to speak the same language or live the same culture. We can look on our heritage with pride, knowing that people from all parts of the globe came to this country to seek a new way of life where they would be accepted for what they were, not what others wanted them to be like. We have been called a "mosaic" rather than a melting pot. In this we can take pride. And because of this, we can be different, yet all be Canadians. And we can all take pride in celebrating another Canada Day.

Slow Down Seen For Food Price Rise

Good news for homemakers - food price increases are moderating and this year will be lower than in any year since 1976. At present, this year's increase will be between 9 and 11 per cent compared to 13.5 per cent last year and 17.4 per cent in 1978.

These are among the facts disclosed in a new publication of the Grocery Products Manufacturers of Canada, an association representing major producers of food and beverages. The GPMC booklet "Food Prices: The Outlook" notes that "the slower rate of price increase is all the more notable in view of rising energy costs and the relatively stable Canadian dollar in the opening months of 1980."

Despite inflation, Canadians are spending no more on their food than they did 10 years ago.

GPMC booklet states that Canadians spent an average of 13 per cent of their disposable income in 1970 on food, the same as in 1960. In 1979, food consumed at home in 1979, and another 4.9 per cent on food away from home, for a total of 17.3 per cent. This compared with 17.7 per cent in 1971, according to Statistics Canada figures cited in the booklet.

Commenting on the booklet, GPMC President David Morley noted that only the United States spends less on food - about 10.1 per cent of disposable income. "Considering our smaller market and shorter growing season, this is a remarkable performance by Canadian producers, food manufacturers and distributors," Mr. Morley said.

The booklet reports on two international surveys showing the cost of food is lower in Canada than in most other countries. A U.S. Department of Agriculture survey made in April 1979 revealed that as 18 item basket of food costs, in Canadian dollars, \$50.50 in Ottawa, compared to \$45.32 in Washington, \$66.35 in London, and \$82.17 in Paris.

This very favourable position of Canadian consumers is supported by a survey by the Union Bank of Switzerland for a larger food basket, consisting of 39 items, which reported costs of \$134 in Montreal and \$149 in Toronto, but \$172 in New York, \$191 in Brussels, and \$229 in Geneva.

Despite having a higher rate of food price inflation in the 1970's, Canadians are continuing to pay less for their food, the booklet says. Canada's food prices rose 144 per cent from 1970 to 1979, compared to increases of 53 per cent in Sweden, 44 per cent in Belgium, 197 per cent in the United States, and 144 per cent in France. However, many other countries, including Denmark, Australia, Italy and the United Kingdom had higher rates of food price inflation than Canada. Brazil reported the highest increase - 1,587 per cent over the 10 years.

Higher food prices have been caused mainly by inflation in general, plus higher costs of raw foods, labour and energy, the booklet says. In addition, poor weather conditions have caused

small crops in some years, forcing up prices.

Adverse weather in the late 1970's in the U.S. drastically reduced fresh fruit and vegetable crops three years in a row, resulting in price increases. International commodities like coffee and sugar rose dramatically in price as a result of poor harvests. The world-wide beef cycle reached a point where herds are at their smallest, with resulting demands for higher prices.

A major factor in rising food prices for Canadians also was the decline in the value of the Canadian dollar from \$1.03 U.S. in 1970 to around 68 cents by the beginning of 1980. This added 16 per cent to the cost of the \$2.5 billion worth of manufactured food that Canadians import every year, as well as to the cost of imported fresh fruits and vegetables.

Pushed by inflation, food company profits before tax increased 124 per cent in 10 years, while manufacturing as a whole showed an increase in profits of 300 per cent.

It takes 17 muscles to smile - 43 to frown.

Ukrainian Cultural Village To Open

The year 1980 marks the 75th Anniversary of the Province of Alberta.

One of the highlights of the Anniversary Celebrations, especially for those Albertans of Ukrainian heritage, will be the official opening of Ukrainian Cultural Heritage Village, located east of Edmonton.

The Alberta government recently helped the creation of this unique outdoor museum which preserves authentic buildings and artifacts of Ukrainian pioneers. This museum-village bears witness to the contribution of the Ukrainian people in the development of Western Canada.

In commemoration of Alberta's 75th Anniversary, the Ukrainian community of this province is planning to erect and dedicate a monument to the people of Alberta as well as the Ukrainian Cultural Heritage Village.

The Homemaker

By Maureen Beaman, District Home Economist
As the temperature rises, here are some drinks with a difference.
BANANA-PINEAPPLE SMOOTHIE
3/4 cup pineapple juice
1/4 cup dry skim milk powder
1 1/2 ripe bananas, sliced
1/2 cup ice cream
Put all ingredients into blender. Cover and blend on high speed until smooth.
FRESH FRUIT FLIP
1 cup milk
1/4 cantaloupe, or 1/2 peach
Combine milk and fruit in blender and blend until smooth. Sweeten with honey if desired. Serves 2.

MINUTE COOLER
1/4 cup frozen orange juice concentrate
1/4 cup ice cream
2 cups cold milk
Combine all ingredients and blend. Sprinkle with nutmeg if you like and serve cold.

LOW CAL SPECIALTY
SPICED CRANBERRY JUICE COCKTAIL
2 cups low-calorie cranberry juice cocktail
3 whole cloves
1 stick cinnamon
2 tsp. liquid sweetener
1/2 cup orange juice
1/4 cup lemon juice
1/2 tsp. salt
Combine cocktail, spice and sweetener; bring to a boil. Reduce heat and simmer 5 minutes. Remove from heat; add orange juice, lemon juice and salt. Chill and serve frosty cold. Yield: 5 half-cup servings. Calories: 19 per serving.

GRAND OPENING

SPECIAL... *Beef Wellington* \$14.95 per person (in the dining lounge only)

"This is a very unique dish and requires hours to prepare - so place please for reservations one day in advance"

Rosegarland W.I. Sends Display To O'Leary

When Rosegarland Women's Institute made a decision to accept the invitation from Viking's twin town O'Leary P.E.I. to send a display to their Potato Festival on July 21st, the question was "Can we get one

ready in time?" "Yes we can!" and we were off and running. Presuming their festival is similar to our agricultural fair, we came up with an idea to depict in actual snapshots and grain samples, the agricultural picture in the Viking area.

Through the willing co-operation of the various phases of farming in the Viking area, and the Toverd Brothers and O'Leary Betty Kinn for a pencil sketch of the Wheat Pool Elevator; Edmund Leford, Bill Kittle and Bryan Nordstrom for snapshots of the various phases of farming in the Viking area, and the Toverd Brothers and O'Leary Betty Kinn for a pencil sketch of the Wheat

Pool Elevator; Edmund Leford, Bill Kittle and Bryan Nordstrom for snapshots of the various phases of farming in the Viking area, and the Toverd Brothers and O'Leary Betty Kinn for a pencil sketch of the Wheat

Rosegarland W.I. sent this display to the Potato Festival in O'Leary, P.E.I. as part of the twinning project between the two towns.

Palliser Wants Board To Focus On Wheat

Many prairie farmers would like to see the Canadian Wheat Board turn all of its energies to selling

wheat. And that's just one finding of a questionnaire filled in by two hundred and forty-one wheat growers at

the recent Farm Progress Show in Regina.

Farmers manning the Palliser Wheat Growers Association booth there handed out questionnaires designed to get the mood of prairie farmers on key issues of the day. Two hundred and forty-one prairie farmers filled them in. Their responses left no doubt farmers are thinking seriously about the wheat industry as it faces some critical days.

To the question, "Would you like to see the Canadian Wheat Board freed of the responsibility of marketing other crops besides wheat so it could focus all its attention on your wheat?" 61.4 per cent of the 223 people answering the question said "Yes".

Prairie farmers have given a lot of thought to the Crow Solution as well. Most, apparently, are aware that two solutions being seriously discussed on the prairie both involve a Crow Benefit payment. But one solution would have that payment go directly to farmers, the other to the railways.

And to the question, "Do you believe the grain transportation subsidy should be paid directly to farmers, rather than the railways?" 61.9 per cent of the 216 people answered "Yes".

Grain Transportation Authority Chief Dr. Hugh Horner has solid support among those who answered the questionnaire. To the question, "Do you agree with Horner's having responsibility for allocating grain cars rather than the Wheat Board having to do it?" 70.9 per cent said "Yes". And to

And to the question, "Do you believe the Canadian Wheat Board can get higher prices than United States grain salesmen pay?" only 6.8 percent said "Yes".

Amendments Made To Veterans Allowance

Minister of Veterans Affairs, Daniel J. MacDonald, today announced amendments to the War Veterans Allowance and Civilian War Allowance regulations, effective July 1, to provide for the exemption of the additional \$55 per family paid this year to Guaranteed Income Supplement recipients and also to increase the allowable casual earning exemption.

At the present time a War Veterans Allowance or Civilian War Allowance recipient, who is in receipt of both Old Age Security and Guaranteed Income Supplement at the maximum amount, receives an exemption of \$65 if single and \$80 if married. With the new changes in the regulations these maxima will be raised to \$70 and \$85 respectively so that the recipient will receive full benefit of the increased Guaranteed Income Supplement of \$85 effective July 1.

The end of June marked the culmination of 35 years of teaching with the County of Beaver for Ethel Brown. Ethel was honored at a retirement luncheon on June 18th at Holden School. She received congratulations from many dignitaries, including Superintendent Fred Reibolt. Fairweather Photo

Holden News

The Holden Girls Soft Ball Teams held their Wind-Up Party at the campsite on Wednesday, June 25. A welter Roast was enjoyed by all. The two teams of girls 14 years and under, and 10 years and under played many games since spring, and have provided some exciting entertainment for the local communities.

Tonight is their final game against Ryley. The Holden community hopes to see you all play next season.

A very exciting ball game was held on June 25, when the Holden Keggers played against Kinross. At the beginning of the game, it looked like Holden was going to be defeated, as Kinross had a 4 to 0 lead. The Keggers did much better later in the game, which ended with a final score of 12 to 5 in Holden's favor.

Russ Koller, first base man for the Keggers, did not play in this game due to a slight injury suffered in a previous game.

The Holden Review played in Bruce on the same evening due to Holden's second ball diamond being too wet to use after the rain.

A large gathering of ladies honored Debbie Dary on Thursday, June 26, at a bridal shower in the Holden United Church Parlor.

Christine Mackay, on behalf of the ladies, introduced the head table guests, and Mrs. Friedrichs described a scrapbook she made containing family photos of Debbie's life.

Debbie was then presented with many gifts. After viewing the lovely gifts, Debbie thanked everyone. Lunch was then served.

Debbie Dary will marry Arthur Mickleth in July.
Anita Shavechuk

Bruce News

Lynn and Len Stambaugh of Edmonton visited briefly in Bruce on Tuesday.

Lillian Teske left on the weekend for Vancouver where she will attend the 50th wedding anniversary of Jean and Carl Johnson. Lillian was accompanied by her daughter-in-law, Audrey Teske of Ryley.

Mr. B.B. Starky spent last week in Carleton Place, B.C. visiting with his son Brian and his family.

There will be an open miscellaneous shower for Ken Koppel on Friday, July 4, at 8 p.m. in the Bruce Recreation Centre. Ladies are asked to bring a small amount of lunch.

Katie Breche spent a few days at Slave Lake visiting her daughter and son-in-law Jenny and Mike Cooper.

David Blain and Paul McKinstry are celebrating the end of school with a trip by car to Denver, Colorado.

Hire a Model Worker

The versatile attraction measures up to your expectations: no matter how tall they are.

Worker can be up to them in work, but never tall at each of you. Needs, reactions, a person's hair, features when instructions are being given.

Located at the gradations, buried in work.

The area was developed to shoulder any burden to the best of its ability.

The area is most often found both over backwards doing a good job. You will want to give it a pat on the back.

Negligible fits comfortably into any business payroll or household odd jobs budget! Excellent return on investment.

The powerful combination can cover a lot of groundwork and keep in step with your supervisor.

DISCUSSION:
To activate worker, contact your nearest Hire-A-Student office. Tell Hire-A-Student your requirements.

Colors will be put into motion and worker best suited to your needs will be dispatched.

TO OFFER:
Worker is self starting and comes with a life time guarantee.
Worker is recommended by the Alberta Chamber of Commerce, Alberta Advanced Education and Manpower, your local Hire-A-Student Committee, Employment and Immigration Canada and all persons.

Always on the job, will go out of their way to get things done for you. These areas follow in your footsteps and get going where the going gets tough.

Notice the excellent frame of mind. A Pounding unit of unlimited energies and resources. Just feed instructions, and messages are automatically relayed to movable parts.

The dynamic duo views the total job and continually sets its sights on doing the best job possible.

repression

The duo-action combination stretches to get things done. Comes equipped with ten remote attachments which can do anything you put their minds to.

This summer, thousands of these popular, top-of-the-line workers are being put on the market. Each one the result of years of testing. No two are alike. A product of Alberta's finest, each one comes fully packed with all these benefits to businesses and homeowners.

Do You Know The Bible Says

By Mrs. W. Myers

Then Jesus said, A certain man made a great supper for Christ, and sent his servant at supper time to say to them that were bidden, Come; for all is now ready. And they all with one consent began to make excuse. So that servant came, and showed his lord these things.

Then the master of the house being angry said unto his servant, Go out quickly into the streets and lanes of the city, and bring in here the poor and the maimed, and the blind, and the halt.

And the Lord said to the servant, Go out into the highways and the hedges, and compel them to come in, that my house may be filled. For I say unto you, that none of these men which were bidden shall taste of my supper. (Luke 14:16-24)

It sets forth the four dimensions of God's mercy and love; so that no one can say, No one cared for my soul.

The disciples started

African Missionaries Visit Viking

Hellman '80, a group of Lutheran Nigerians will be in Golden Valley Lutheran Church in Viking on Saturday, July 12 at 8:00 p.m.

Traditionally, people from our continent have proclaimed the gospel to Africa, but here is a turnaround. The Nigerians will proclaim the gospel to us, sharing the fruit of a different culture but a universal gospel.

Helman '80 is on a tour of the congregations of the Evangelical Lutheran Church of Canada, sponsored mainly by the church. They will attend three major conventions of this church body as well.

Their name, Hellman, is an acronym formed from seven Hausa words meaning "Union of Churches Under Lutherans in Nigeria."

Come and meet these friends in Christ. Catch a glimpse of a different culture but a universal gospel.

preaching the Gospel, and exhorting the people to come to Christ. And then on God has increased the ministry of salvation, to the every man, woman, and child. But still most of the heathen continue to reject the voice of the Spirit of God.

In our scripture today we see that the invitation was given; then, next the master sent out a servant to let the streets and lanes of the city, and bring in here the poor and the maimed, and the blind, and the halt.

Then the third effort was made to try to get more to accept the invitation; the poor and needy, the crippled and blind, the lame, and the halt. So the master said, Go out into the highways and the hedges, and compel them to come in, that my house may be filled.

He made it plain that all those who had been invited and refused would never have any more opportunity to taste of his supper.

Now this is a parable which has a heavenly meaning. That Great Supper in heaven where Christ and His Bride (the saved) will sit down to feast and fellowship with the Saviour. Who made this all possible by dying for their sins, and rose again that they might be justified.

Friends, will you be at that marriage supper of the lamb of God?

I'm sure both Gordon and Edith would feel the life was really like that. A special feature, Fleming was accompanied by Mrs. Marge Fischer.

Interpersed with these items, presentations were given to Rev. and Mrs. Wilson from the Sunday School by Mrs. Prior, and by Mrs. Georgia Enger. Other presentations were from the U.C.W. by Mrs. Kay Clum.

From the New Horizons Club by Donald Gunn (in his own inimitable fashion) and finally from the congregation and friends by Mr. Alex Smallwood, who expressed all our regrets at their leaving, and yet best wishes for their future in the bridge.

Both Rev. and Mrs. Wilson expressed their thanks to all those who made the afternoon and the years they had served in the Irma Church enjoyable.

A special song that was composed by Mrs. G. Enger, especially for the guests of honor on this occasion, was sung by all, and brought some movement.

A bounteous lunch served by the ladies of the church, brought a happy yet and afternoon to a close.

Irma Old Timers Celebrate 60th Anniversary

On Sunday, June 8th, the Irma Legion Hall was the scene of a 60th Wedding Anniversary.

The celebrants were Robert (Bob) and Elizabeth Meakin, long time residents of the Irma district. Bob was born in Ottawa in

1886, while Mrs. Meakin was born Elizabeth Helen Michael, in Wisconsin, USA, in 1922. They were married in 1952. They first farmed in the Metropolitan district, and later moving to their farm north east of Jarrow, where four boys and two girls were born: Clarence, Claude, and Norman, all of

Amongst the crowd helping them celebrate were Mrs. Meakin's three sisters: Minnie Meakin of Irma, Hazel Miller from Palmer, Alaska, and Josie and her husband Bill Fargus from Spokane, Washington.

After all congratulations had been shown and read, a short program was enjoyed with the Lingley family supplying the music. Gordon Meakin rendered a solo, and readings given by hergerie Burr, Adelaide Dexton, and Mrs. Antle.

Eddie Jackson presented the couple with a purse of money from the community, and presents and cards were opened.

The head table was centered by a lovely wedding cake which was made by granddaughter Sherry Mayne, and flower arrangements which were made by granddaughter through marriage, Lorraine Mikelson.

After lunch, many of the friends and relatives went to the home for socializing and reminiscing.

Bob and Elizabeth Meakin celebrated their 60th wedding anniversary on June 8th in the Irma Legion Hall.

Leisure Time Learning

Auction sales are another fascinating, family-oriented activity, even if only to look at the items on display. Such auctions represent the living past and provide excellent starting points for discussion. In addition, the restoration of antiques can be a highly interesting and profitable family venture.

Early exposure to healthy recreational pursuits and interests can broaden your child's horizon and, thereby, help promote success in school next September.

There are many opportunities to help stimulate your child's development through leisure time activities. Here are a few suggestions.

It is here that a child will probably be involved in recreation for the first time... in the local parks. Swings, seesaws, sandboxes all make the park a logical place to meet other children. Later on, it will be home for semi-organized team games such as softball or touch football. City or town parks and playgrounds provide a natural setting for learning through participation in recreational activities.

Visits to zoos are always appealing to children and help spark their interest in nature. They become aware of the many animal species and their respective habitats. By taking your children to the zoo, you can open their minds to the world at large.

Whether large international museums or small local museums, a visit here gives children a sense of history by indicating past life patterns. Local museums, in particular, help stimulate a sense of heritage.

Markets and country fairs provide a pot-pourri of food, culture and art and offer information that make such visits a true learning experience. In addition, regular visits to such places help stretch the family budget and provide a lesson in economics.

Fishing and hunting are also good activities for the young man. Learning how to catch and then prepare your own meal promotes a pioneer spirit. It also provides an opportunity for companion-ship, a time to talk things out in peaceful surroundings.

Local youth centers offer excellent planned recreation programs which emphasize the integration of recreation and learning. Public libraries, local theatres and centers for the performing arts provide important forums for recreation and offer meaningful

learning opportunities which your child should be encouraged to experience on a regular basis.

The potential opportunity to develop a positive parent-child relationship has never been greater. To meet changing patterns of living that will result in additional leisure time the summer holidays can, with a little imagination, be converted into constructive learning experience.

A number of ladies of the Irma United Church travelled by car to Vermilion, where they attended the Paul's Presbyterian U.C.W. on Tuesday. They were the Mesdames Marge Fincher, Edna Eger, Dorcas Coffin, Alma Wilson, Peggy Fleming, Kay Chumstead, and

Georgeina Eger. They had a very worthwhile day.

Mr. Iain Dunlop of Indian Head, Sask. has been visiting his sister, Mrs. M. Eger. Another sister, Mrs. May Carter, of Wainwright spent Sunday afternoon with them.

Mr. and Mrs. Alex Gourey of Ayrshire, Scotland, arrived on June 24 for a visit with their family. Mr. Gourey and his wife, Mrs. Gourey, are enjoying the polo events.

family. Later, her daughter-in-law, Bonnie, drove her home to Irma.

At Al Garbe and his Irma junior ball team journeyed to Fort McMurray last Friday.

They won two games on Friday, and two on Saturday, and if they won Sunday, would be in the finals. That's all we know of at the moment.

Mrs. Gracie Sr. of Camrose is taking care of her grandson Michael, and the housewife Mel and Mrs. Melody and Panch are at Fort McMurray with the ball team.

The Annual Irma Co-op Picnic has been postponed to Sunday July 6th, at Gullburg Lake.

Holden Holds Successful Sports Day

On Friday, June 18, the Holden and District Agricultural Society sponsored Farm Day, which was a huge success due to the good weather.

The days events began with breakfast served at the Sports Grounds before an outstanding parade which kicked off at 10:30 a.m. Judges for the parade, Bob Freidrich, Pastor Barry, and Sam Field named the following winners:

1. Holden Trading
2. U.G.G.
3. Beaver Motors Organizations
1. Chamber of Commerce
2. Royal Purple
3. Holden Agricultural Society Organizations (Childrens)
1. Brownies
2. Holden 4-H Beef Society Cars
1. Evonne Macdonald
2. Craig Commis
3. Morris Terry Delson
1. Shyla

2. Louise's Goat and Rabbit Bicycles (7 yrs. and under)
- 3. Jamie Laugher Bicycles (8 and over)
- 1. Pam Scherger
- 2. Karen Loak
- 3. Merit Kim Siguel, Jamie Lemko, Judy Grind

Children's Costumes
1. Vincent Lukawicki, Sharon Kolodichuk
2. Penny Chinn
3. Best Dressed Man And Horse

1. Tom Yule
2. Lawrence Huram
3. Best Dressed Kids 10 and Under

1. Louise Heimbecher
2. Michele Healey
3. Best Dressed Kids 10 and Under

1. Irvin Albrecht
2. Shelly Lusk
3. Shirley and Janet Volmer
2. Green and Lyle Albrecht
Senior Men's Football and Baseball games were played throughout the day.

Lakeshore Golf Club Holds Open Tournament

The only shot on June 22, brought out a large number of golfers for the Open Golf Tournament which was held at the Lakeshore Golf Club.

The Golf Club was pleased with the turn out, which saw many golfers from outside the immediate area come to their local golfing competition.

Following are the results of the tournament, CHAMPIONSHIP FLIGHT
1. Tom Kelly, Viking
2. Dean Dunbar, Irma

Irma Minor Softball Action

A large number of games have now started in the Irma Minor Softball League.

The Blue Jays and the Cardinals are exchanging wins in two games they played earlier in the season.

The Cardinals and Red News Bears also proved to be tough competitors as they too split two games.

The Cardinals defeated the Bears 10 to 6 on June 10, but the Bears bounced back to defeat the Cardinals on June 12 by a 10 to 13 score.

There were many games not played because of rain. These games will have to be made up during the month of July as the league playoffs will be held on first June.

Following are league standings: B.N. Bears 10, Blue Jays 9, Red News Bears 8, Cardinals 7.

These points are correct to the score sheets I have received. Some of the score sheets have not been handed to me as yet.

Treat Them Right

Today in Alberta, the number one revenue producing industry is the oil industry. Second to this is the agriculture industry. Taking up the third spot in the list of money makers for the province is the tourist industry.

We in Alberta are truly blessed with a geography which provides perhaps the greatest variety of landscapes in Canada. Within the boundaries of Alberta we can find nearly every type of physical feature, falling short only when one wishes to visit an ocean. Alberta is the home of some of the world's most famous tourist spots which attract thousands and thousands of tourists every year.

Because it is the third leading revenue producing industry in Alberta, tourism must be regarded as important to all of us. And in this, Alberta's 75th Anniversary year, tourism will be even more important. This year, people from across Canada, from many parts of the United States, and even from more distant nations will be arriving in Alberta to take part in various 75th Anniversary celebrations. Homecomings such as the one planned for Kinrossa as part of the Province's birthday celebrations will attract many people back to Alberta and back into our area. These people will all be classed as tourists, and they will all be in need of some warm, friendly hospitality. It is this hospitality which will bring these people back to Alberta and our area, and it is this hospitality which will encourage this year's tourists to encourage their neighbours to become next year's tourists in Alberta.

And each one of us may potentially play a part in helping this valuable industry in Alberta. We may be able to be of assistance in helping a visitor find a particular location. We may be able to help them find a business which can satisfy a need which they may have. We may be able to provide these visitors simply with a smile, or a friendly hello which indicates that we do care about their presence in our Province and our area. To the store clerk, to the gas station attendant, to the business owner, to each and every one of us, there falls a responsibility to portray the best possible image which we can of our particular town or village, and thus of our Province.

Already we have noticed a large number of visitors touring in and around our area, and as the summer progresses, this number will probably increase. It is important that we treat these people in such a way today that it will encourage them to return to our area tomorrow.

Letters To The Editor

Dear Sir,

I would like to respond to the editorial on June 25, regarding the P.S.S. Director.

As the P.S.S. Director, I sincerely appreciate your kind words and the support you've offered. Having been in Viking only four short months, I've enjoyed the community and its citizens tremendously.

The support for P.S.S. programming to date has been very gratifying. As people well know, very little can be done without the help and assistance of many others. Particularly in the case of Preventive Social Services programs. We rely very heavily on volunteer involvement even the Board is a volunteer group.

I believe that a committed Board, such as that in Viking, deserves tremendous credit for the groundwork,

publicity, and advertising for P.S.S. they have done. It is because of these committed volunteers that the program exists here.

P.S.S. also has a number of other staff, working part-time and through the summer, who are a great asset to the office and the community.

The following motion was presented, carried and has been forwarded to the Hon. Haas Argue, Wheat Board Minister.

The Directors of the Western Barley Growers Association, during a meeting on June 13, 1980 went on record as being very much opposed to the principle of all grain marketing being placed under the control of the Canadian Wheat Board as urged by the NFU.

The following motion was presented, carried and has been forwarded to the Hon. Haas Argue, Wheat Board Minister.

In view of the principles outlined in the NFU presentation made to him. We feel that a move in the direction asked for by the NFU would be counterproductive and would lower the income of western grain farmers as a whole. We feel that we need more competition and more income built into the marketing of our grain, not less. A move to sell all grain in western Canada under the control of the Canadian Wheat Board would create a completely monopolistic market.

The Wheat Board team with all western grain controlled by the Federal Government under the name of the Canadian Wheat Board.

Once they are registered, qualified students are referred to the employer, who hires the student he/she feels will fulfill his/her needs the best.

For casual jobs, such as lawnmowing, gardening and painting, a capable student can be sent to the job without the employer having to hire to them.

The first of the twenty-eight students registered for summer jobs, and many have been placed as casual laborers, and as homemakers. The office has an abundance of students, but a lack of employers.

Remember when you

at the meeting, Council appointed Mr. Palmer as storm as returning officer for the upcoming municipal election in October.

Administrator Lydia Blais informed Council that so reply has been received from the town to their request of Jim's Western West to improve the external appearance of her business establishment on the Main Street of Viking.

The Town Council also received a letter from the Town of Viking, which would cover the need for a Nuisance Bylaw which would cover the Town of Viking.

structure of the new water supply system.

The new figures from the Urban Engineering show the total cost to be \$2,840,000.

The cost estimates include \$507,000 for the raw water storage reservoir, \$758,000 for the new water treatment plant, and \$1,250,000 for the water supply line. The cost also include \$120,000 for "contingencies", \$60,000 for land, \$55,000 for miscellaneous, and \$253,000 for the engineering.

Councillor Taylor informed Council of a decision by the town and village government in the County to cover the deficit of the Beaver Regional Area Centre on an equalized assessment basis.

This country to a proposal by the County Council which started with the initial period of the debt for fuel and then divided the rest up among the other municipal governments. The County proposed to repay \$9,000 of the estimated \$25,000 deficit, but under equalized assessment would be required to cover about \$17,000 of the deficit.

At the meeting, Council appointed Mr. Palmer as storm as returning officer for the upcoming municipal election in October.

Alfalfa Forage Crops

Alfalfa is Canada's most popular and versatile forage crop. It is used as pasture, hay, silage and as a protein supplement for animal feed. It is raised in all provinces under a wide variety of conditions.

The recent development of creeping-rooted alfalfa varieties has expanded usefulness as a pasture crop. These varieties are less subject to extremes of cold and to damage from animal trampling and machines.

Alfalfa stands are currently being carried out as several Agriculture Canada stations across the country.

Shady Cove W.I.

Shady Cove W.I. held their June 16th meeting at the home of Selma Williams. After the usual opening roll call was answered by thirteen members and one visitor. The treasurer reported that we had cleared \$18.25 at our Pin Market table. It was suggested that the committee work on the open book and help with an A.W.I. display for our local fair.

A discussion on the town named O'Leary to Prince Edward Island which had been chosen as twin to Viking and was followed. It was suggested we try for an A.W.I. pen pal from another country.

During their being so many picnics celebrating the 75th Anniversary, it was decided that the A.W.I. picnic usually held in July, will be cancelled for this year.

Myra Francis gave a splendid report of the outings held at Ode. We will give a complete report at a later date. His Hady gave a paper on Environment and Conservation. Her subject was service disposal. For the July 1st picnic, Shady Cove had offered to organize the foot race up the twelve year old level. Dora Hasbier offered to look after this.

The motto given by Selma Williams - A word of advice: "Don't walk in front of me, I may not follow. Don't walk behind me, I may not lead. Just walk beside me and be my friend".

An August meeting is to be held at Mildred Bridgman's home.

The meeting adjourned with a lovely lunch provided by Nellie Chandler and Helen Taylor and everyone enjoyed a pleasant visit.

Office: 336-3232 Res. 336-2471

Marie Olivia Theroux passed away on Monday, May 11, 1980, in the Parkland Nursing Home, Viking, at the age of 80 years.

Mr. Olivia Knudsen was born October 3, 1890 in De Smet, South Dakota, the eldest of the 8 children of John and Mathilda Knudsen. She took her schooling in De Smet, Brookings, and Madison Normal School, South Dakota.

In 1914, she came to

Canada to teach at the Coal Springs School, south of Irma, where her Uncle John Knudsen and family were early homesteaders. On June 6, 1917, she was united in marriage to George Theroux, and they homesteaded north of Jarow in the Battle Valley. To this marriage 3 girls were born: Elaine, who predeceased her on March 4, 1938; Genon, Princess, B.C. Linda Bonnell of Edmonton, Debbie of Edmonton, and Dale of Edmonton, and a son, Donald, who died in infancy.

Mr. and Mrs. Theroux moved to Irma in 1928, and then in the fall of 1973 to the Viking Lodge in Viking, where they have since resided. She leaves to mourn her

passing, her loving husband, George, of Viking Lodge; Genon Ashley of Irma; Irma and son-in-law Carl Bonnell of Edmonton; and daughter, Violet Dagg, of Coquitla; a sister Anne Henke of Minneapolis; and a brother, Elmer Knudsen of Puyallup, Washington; 5 grandchildren; Douglas and Allan and Marty Bonnell of Edmonton; Debbie of Edmonton; and Dale of Edmonton; and a son, Donald, who died in infancy.

Funeral services for Mr. Olivia Theroux were held in the United Church in Irma on Wednesday, May 14, at 2:00 p.m., with Rev. Gordon

Wilson and Rev. Nolan Har- sag officiating. Mrs. Carol Cressy was the organist. Hymns sung were, "It is Well With My Soul", "In The Garden", and "How To Face".

Interment followed in the Jarow Cemetery with McLeod's Funeral Home of Wainwright in charge of all arrangements.

Mrs. Theroux always took an active part in church and community activities. She was Sunday School teacher and Superintendent for many years, and received a life-time membership in 1960 for her work with the United Church Women. She was a charter member of the Eastern Star, and received the honour of being given life membership in

October 1973. Her main interests were her home, family, and neighbours. Mrs. Theroux was never happier than when she was preparing a beautiful meal and enjoying the fellowship associated with it.

Neighbours played a special part in the lives of the Theroux family. They have always appreciated the kindness and love shown them, and when they lived in the Valley, they were often invited to live in Irma, and when they were away, they were always invited to live in Irma.

With her passing on Monday, May 14, 1980, at the age of 80, she leaves to mourn her passing, her loving husband, George, of Viking Lodge; Genon Ashley of Irma; Irma and son-in-law Carl Bonnell of Edmonton; and daughter, Violet Dagg, of Coquitla; a sister Anne Henke of Minneapolis; and a brother, Elmer Knudsen of Puyallup, Washington; 5 grandchildren; Douglas and Allan and Marty Bonnell of Edmonton; Debbie of Edmonton; and Dale of Edmonton; and a son, Donald, who died in infancy.

Funeral services for Mr. Olivia Theroux were held in the United Church in Irma on Wednesday, May 14, at 2:00 p.m., with Rev. Gordon

Wilson and Rev. Nolan Har- sag officiating. Mrs. Carol Cressy was the organist. Hymns sung were, "It is Well With My Soul", "In The Garden", and "How To Face".

Interment followed in the Jarow Cemetery with McLeod's Funeral Home of Wainwright in charge of all arrangements.

Do You Know The Bible Says

By Mrs. W. Myers

will not do by a miracle what we can do by obedience. There is a stone He wants you to roll away, something He wants you to do by there some hard unyielding attitude; someone you will not forgive; some unconfessed sin; some step of obedience He awaits! It is ours to obey. It is His to do the miracles. The same principle accounts for the fact that Jesus did not do the miracle of the loaves and fishes, but the miracle of the bread and wine. Jesus did not do the miracle of the loaves and fishes, but the miracle of the bread and wine. Jesus did not do the miracle of the loaves and fishes, but the miracle of the bread and wine.

Holden And District News

Thieves broke into the Holden U.G.G. elevator July 3, sometime between 5:30 a.m., according to agent Jim Paul. A door was smashed and a radio valued at approximately \$40.00 was stolen. B.C.M.F. are still investigating.

A C.N.R. grain car broke open approximately 8 miles west of Holden last week. A broken truck was discovered on the scene.

The Holden Review was their softball game on Friday, July 4. Holden managed to bring in 11 runs compared to Ryley's 6.

BUTLER Grain Bins
"JULY SPECIAL"
4200 BUSHEL BINS PRICED AT \$1,850**

Goldwell Aeration Fans
To preserve the condition of stored grain, aeration fans draw air from outside the storage structure, pushing or pulling it gently through the grain mass. Engineered air flow and reliable factory assembly mean low-cost operation. A broad range of diameters and horsepower ratings are available.

3 h.p. Childwall fans on special at \$550** during the month of July!

ON-FLOOR LINE AERATION
On-Floor Line Aeration Systems are available in 12 and 18 inch diameters to use with 12 or 18 inch bins. On-floor aeration is simple to install in new or existing grain storage and can be removed in minutes with no special tools.

If you need bins, call us . . . We are experts at on the farm assembly and erection fans and Hutchinsons on-floor aeration can be installed at the time of bin assembly. In Viking we have pre-erected bins on display at Andrew Farm Babel.

On Saturday, June 14th, Reale Blomard, daughter of Mr. and Mrs. Gabe Blomard of Viking and Dan Malbuch, son of Mr. and Mrs. Bill Malbuch of Stettler were united in marriage at the Holy Heart of Mary R.C. Church in Viking.

Clisdell Celebrates 80th Birthday

On Saturday, July 5, the family of Mrs. Annie Clisdell arranged a birthday party in honor of their mother's 80th birthday, in the Irma Legion Hall.

The day started with an open house from 2 to 5 p.m. The members of Buffalo County W.I. were in charge of arrangements and catering.

The afternoon started off with a short program, with Jim Jackson acting as M.C. The first item on the program was a solo "Praise Room" by Peggy Fleming.

The next was a musical selection by Mrs. Paul and Lillian Copeland. A most appropriate and well received reading by Marlene Belvedere.

The entertainers comprised of Ernie Rae (violin), Allan Rae (guitar), Marlene Rae (saxophone) and Ted Hink on the piano, played a selection of old time favorites, such as "You're the Only Star in My Sky Heaven".

The "Play Saved Me" "Over the Hill To The Fair Home", "Put Your Arms Around Me Honey" and "In the Good Old Summer Time". It was really fun.

which Annie was showered with cards, presents, and good wishes, for which she expressed thanks and appreciation in a very capable manner.

Later in the evening there tapping music.

The orchestra then played the following old Irish songs for community singing, in which all present joined with gusto. "My Wild Irish Rose", "A Long Way To Tipperary", "When Irish Eyes Are Smiling", and "You Are My Sunshine".

Annie and her husband Jim, sat at the head table on which was a beautifully decorated birthday cake, which was made and decorated by Annie's granddaughter in Watrous.

The dance boys, Bert and wife, and family from Aberdeen, and Fred and wife, and daughter Maxine and husband Victor, Marshall of Falmouth, were all present to help their mother celebrate. There were, amongst the friends, some former neighbors from Charvin and Watrous.

After the singing of "Happy Birthday", a delicious lunch was served, during

Inspirational Corner

For I delivered unto you first of all that which I also received, how that Christ died for our sins according to the scriptures;

And that He was buried, and that He rose again the third day according to the scriptures;

And that He was seen of Cephus, then of the twelve;

After that, He was seen of above five hundred brethren at once; of whom the greater part remain unto this present, but some are fallen asleep.

After that, He was seen of James; then of all the apostles.

And last of all, He was seen of me also, of one hour out of due time.

Wednesday, July 9, 1980

Couple Celebrates 50th Wedding Anniversary

Mr. and Mrs. Louis Petras of Viking, celebrated their Golden Anniversary with their family on June 9, 1980.

The celebration was held at the home of Mr. and Mrs. Harvey Young (Lil Petras) of Vermilion. A mass for them was also held in Vermilion.

Mr. and Mrs. Petras have 7 children, 24 grandchildren and 3 great grandchildren.

During the afternoon, the Petras's were presented with beautiful commemorative plaques which were received from Premier Peter Lougheed, Governor General Ed Schreyer, Prime Minister Pierre Trudeau, Lieutenant Governor Frank McCreagh, and Pope John Paul II.

Mr. and Mrs. Louis Petras

Irma News And Views

A cousin of Eva Knudson, Ruby Trevell from Ottawa spent a month visiting with Eva and Fred recently.

Eva and Fred Knudson spent the last two weeks of June with Eva's son Jack Atkinson and his wife at Terrace, B.C. Jack and Elvora drove there before leaving here for a few days.

Mary Newton drove Alton to Manitowish on Monday, July 7th to catch the bus which will take her to Niipawin, Saskatchewan where she plans on visiting with her son Stan and his family for approximately a week. She also plans to attend "Homecoming" at her native home "Birch Hills" where she is well acquainted and has many friends.

Clara Lusk and Claire Lusk arrived home on Friday, July 11 after several weeks of visiting and touring with relatives and friends.

Among the Irishmen who were fishing last weekend to Pseudonema's Lake were Mr. and Mrs. Bill Gray, and Mr. Wayne Larson and family. Mr. and Mrs. Mark Samuel and Vern and family were also present. They reported that the weather was good and fish were plentiful. They also said that the results were rather bad.

A shower will be held for Loretta Creasey by the United Church basement on Tuesday, July 23, at 6:30 p.m.

The bus schedule for westbound Greyhound travel has been adjusted. The bus which departs from Irma at 8:30 a.m. now arrives at 8:30 a.m. which has been speeded up by ten minutes.

A who, a singer, and a grader were busy on Monday, July 7th, digging out some mud, up to Main Street with a view towards building a finer foundation. This hole-digger will not help when spring comes again.

The annual picnic sponsored by Irma Co-op Association which was postponed for a week owing to inclement weather, was held at Golden's Lake on Sunday, July 6th. The attendance was the poorest for many years and the evening was plagued with showers. How-

Mr. and Mrs. Louis Petras celebrated their 50th Anniversary with their family on June 9th at their daughter's home in Vermilion.

Mr. and Mrs. Louis Petras celebrated their 50th Anniversary with their family on June 9th at their daughter's home in Vermilion.

Mr. and Mrs. Louis Petras celebrated their 50th Anniversary with their family on June 9th at their daughter's home in Vermilion.

would like to thank everyone who sent congratulatory wishes, cards and flowers, with special thanks going to the Prague C.W.L.

On Saturday, June 28, the Irma graduating class of 1975 held their fifth year reunion, to which all the former members of the class had been invited. A supper and dance at the Kinross Hall was enjoyed by 28 former class members and their escorts. Thank you to those who organized this event, and to all who attended.

Mr. and Mrs. Tom Copeland spent last weekend going to 3 different Homecoming Banquets. Sunday, June 29, they were at Edson, Sask., Monday June 30, at Merrington, Sask. to attend a reunion of all former students and students, then July 1, at Assiniboia Valley. They reported that crops were in need of rain.

Conspirators in navy-woods Terry Russell and Sheila Gray, who were united in the bonds of Holy matrimony on Saturday, June 28, they are presently enjoying a honeymoon for ten days in two weeks in California, Disneyland, Keweenaw Ferry, Port, Massachusetts of Pacific.

Congratulations are also sent to Gary and Lori Barber (see Lori Barber) whose wedding took place on Saturday, June 28.

Mr. and Mrs. Lasse LePage are proud parents of a son which they call son John David, born in the Viking Hospital. Our congratulations and best wishes to you, John David, on July 28 and 29, 1980.

Edna, Elmer Tomlinson, and Alvin Wilton attended a Homecoming for the Selkirk School pupils and families. About 150 gathered at the Selkirk Hall for this pleasant occasion. Two Selkirk students, Mike Edmond and Edna Skyles received prizes for being the only one present who had taken which was postponed in 1964. Dr. Jim Brownman from Pennsylvania, a former student, was guest speaker at the Sunday Service. Eating and reminiscing were the order of the day.

Mr. and Mrs. Louis Petras celebrated their 50th Anniversary with their family on June 9th at their daughter's home in Vermilion.

One of several new programs helping to meet Alberta's housing needs.

Municipal Housing Incentive Program

To help municipalities offset costs of medium and high density housing, the Alberta Municipal Housing Incentive Program offers grants of \$1000 to \$2000 for each new housing unit or mobile home site, meeting certain density and production criteria.

This new program will stimulate development of more land for affordable housing in rapidly growing centres, as well as encourage more economic use of land.

An estimated \$15 million will be directed to Alberta's municipalities in the 1980 calendar year with this initiative. Grants are based on housing production levels for the current year, as compared to the average production in the past 3 years.

Further details may be obtained from:

Alberta Municipal Housing Incentive Program

HOUSING & PUBLIC WORKS

Progressive Farming

District Agriculture
Bill Brase & Jerome Maschur

This year marks the 20th Anniversary that the Beef Cattle Research Ranch at Kinlella has been in operation. The Ranch was established in 1960 through monies raised from the Horn Fund, and now covers approximately 8,000 acres. Not only is cattle research being conducted but bush control and grazing management is also being investigated. The field day starts at 10:30 a.m. with the Hon. Dallas Schmidt, Minister of

Agriculture present.

Topics to be discussed are wintering cows without water, grass seeding cover, meat quality and disabled muscled cattle. A barbecue will follow.

On Saturday, the Ranch will host a pancake breakfast and conduct a tour of the ranch and facilities. Those who have never been to the Ranch, which is located in the County of Beaver, owe it to themselves to take this event in.

Viking Light Horse Club To Hold Achievement Day

On Monday, July 14th, the Viking Light Horse Club will hold their annual 4th Achievement Day, with events taking place at the

Our judge for the day will be Betty Johnston from Warburg.

The master of ceremonies will be Mrs. Sevik.

Mr. C. Otto will be the Ringmaster and Mrs. McClements and Mr. Bridge-man will be this years scorekeepers.

We will have a pot-luck barbecue after our Achievement Day, with the presentation of trophies to follow.

All members are asked to wear their club uniform - a white shirt, blue vest and blue pants.

Registration will be at 9:00 a.m. and the showing will begin at 10:00 a.m.

Farm Safety Week July 25 - 31

The week from July 25 to 31 is Farm Safety Week and the Canada Safety Council has focused the 1980 campaign on tractor safety. This concern is due to the fact that tractors are involved in many farm accidental fatalities.

Manufacturers are designing safety features into tractor and farm equipment in general, but it is up to the operator to recognize unsafe conditions and the hazards involved in tractor operation.

The following tips will be useful in preventing tractor accidents:

- Only the operator should ride on the tractor. Keep children away.

- Reduce speed before making a turn or applying brakes.
- Stay clear of ditches, embankments, holes, etc., to avoid speed.
- Stay off hills and slopes too steep for safe operation.
- Get down in lowest position when hitching to a heavy load.
- Do not dismount when tractor is in motion.
- Disengage power take-off (PTO) before dismounting.
- Lower all equipment before leaving tractor.
- Keep safety thinking in place when using power take-off (PTO).
- On public roads observe traffic regulations and identify equipment with the 3M emblem.

Good Turn Out For Ladies Golf Tournament

A good turn out of golfers from Edmonton, Irma, Waterville, Hughenden, and Vegreville competed against one another in the Ladies Golf Tournament on July 25.

Neella Briesard, with her usual swinging style, took the "top honor" at the gate. Following the tournament, a steak barbecue was enjoyed by all.

The Viking Bumper to Bumper team received the league trophy for their division on Monday, June 30th. The trophy was sponsored by Ernie Goods Transport of Holden. Team members: Standing (left to right) Michael Watson, Darren McKinlay, Gary Evans, George Reddick, Brian Hayland, Jerry Hoffman, Peter Thomas, Kenny Esheloff, and Jim Stefank. Missing from photo are: Lawrence Sarafinichan, Rocky Hanson and Randy Graham.

Canada Unity Picnic A Huge Success

The Viking Canada Unity Committee would like to express our thanks and appreciation for the tremendous support at the Picnic on July 1st. The Canada Unity Committee members are George

Ritchie, Marilyn Hayland, Cindy Josephson, Ed Weder, Brenda Russell, Bill Sudsby, John Hummel, Len Josephson, Jim Fraser, Lydia Hanson and Deborah

Jaylar.

The day was a success

only because so many individuals and groups were willing to give time and energy to organize and run special events, contribute money and equipment, make posters and participate fully.

Special thanks to those "overseers" who were in charge and organized their events so well and the Child Development Society for running the booth.

Also special thanks to those businesses which contributed pot to the pot-luck supper, the Co-op, the I.G.A. and the Confectionery; the 75th Anniversary Committee which supplied the "Birthday Cake" and Revetiste for the picnic.

The community involvement was overwhelming; over 600 people signed the "top honor" at the gate. This guest book, along with the history of the picnic, pictures and list of winners is being compiled into a scrap book to be sent to O'Leary, P.E.I.

If anyone has pictures they would be willing to

contribute, please bring them to the P.E.I. office. Following is a list of winners in the various events. There was tremendous response to all the activities with contestants from the pre-schooler age right up to senior citizens.

Perhaps Amusing, But Not Funny

An event which occurred in Viking on Wednesday evening, July 2nd, provided a great deal of coffee talk on the following Thursday morning. Residents in Viking were aroused about 11 p.m. by the sound of a police siren which sounded continuously for about ten minutes. This break in the quiet routine of a normal evening in Viking caused a large number of people to venture out of their houses to determine what was happening. What they came on was a large front-end loader parked side-ways on 49th Street with a police car with full lights and siren on in close proximity.

Reports are that a young man removed the loader from a garage parking lot in Viking, then proceeded to drive in a rather hazardous manner on some of the streets in the east part of Viking. An officer of the local detachment gave chase, and had to take care not to be driven over by the loader. Attempts by the officer to stop the loader were eventually successful, resulting in a local man being charged with four indictable offences.

Much of the talk centered around observations by some people that the police officer was nearly run over by the loader, and that he was driving hard to keep out of the way. Some people found this to be rather amusing, and yes, after the event is over, and no one was injured, it probably does have a tinge of humour. Other people found the event to be "funny". And yet "funny" it was not. The size of the loader involved was sufficient to cause a tremendous amount of damage to automobiles, houses and people. It was not a prank, for too much was at stake if the machine had gone out of control, or if the police officer had not been able to get out of the way. It is an action which should be dealt with in the severest manner.

All of us on the sidelines can sit back and joke or laugh as the police try to deal with people who perpetrate such acts. And yet all of us don't have to do anything to stop them. We can sit back and wait for the police to handle the situation. They are the ones who have to try to stop an individual in such a massive machine before he does anyone or anything any harm. We can walk away - they can't. If they did not, as many of us possibly would do, we would be screaming for their dismissal. And yet when they must risk their lives to protect our person and property, it seems totally absurd that we could find such an event "funny".

Dear Sir,
In reading the report on the town council meeting in your paper issued on July 8, 1980, I was very interested in the remarks made about Joan's Western Wear.

I think the town could be fair in that Joan's Western Wear, and it could also be closed up. The town council should drive to Casper, Alberta,

Letter To The Editor

These two businesses have been a mess for years, and nothing has ever been said to them.

The entrance to Viking off Highway 14 is an eyesore, old signs you can hardly read, and it could also be closed up.

Joan's Western Wear is a big improvement to what it used to be. Let's be fair and give her as many years as the other businesses have had.

And let's not pick on one, let's pick on all to improve the overall look of the Town of Viking.

Elizabeth L. Welch

By Mervin Ann Stefanik

Chairman Vera Halso called the meeting to order at 7:30 p.m. with 8 members and 2 visitors present. Those present included George Nordstrom, Brenda Wetschall, Bill Taylor, Don Gillies, Gladys Josephson, Ross Brower, Phyllis Leser, Dave Dordard, and Mrs. S. Brower.

The minutes of the previous meeting were adopted as read. All the S.T.P.F. and Canada Youth Employment positions have been filled by local students.

Registration for the playground are still being accepted. We have 14 registrations already.

Another Camrose Auction Co. Ltd. County of Flagstaff Auction Monday, July 21 1:00 p.m. at County Public Works Shop 1/2 mile north of Sedgewick, turn left

Approximately one and a half inches of rain fell in Viking between 5:00 and 6:00 p.m. this past Saturday causing storm damage to town causing tremendous driving conditions. Exactly ten years ago on Saturday (July 11, 1970), a devastating hail storm went through Viking causing extensive damage.

The Lake Thomas project is well under way. One pier has been built with change houses well under way. D. Gillies and Mrs. S. Brower were present to gather information about the plan and possible cost to the seniors.

Playground leaders attended the Lac La Biche Workshop on July 2-3. It was moved that we pay mileage to the parents for taking the girls up to Lac La Biche. This was seconded and carried.

Further discussion on making pier stands followed, the popular opinion being that the Lake Thomas Staff would be the stands themselves at D. Gillies home.

There was a discussion of wages of Canada Youth Employment. The youth are sharing the supervision duties, and thus should all be sharing the supervisors pay. The boys who are using their trucks to haul lumber, should be paid the supervisors pay for the last week.

The 10th Annual Provincial Truck-Camper Rally was held at the Provincial Convention at Medicine Hat.

The winners were as follows:
Truck and Camper - Keith Morrison of Delta, Alberta.
Ticket #1007
Van - B.L. Beaumont of

July is salad month - so let's celebrate by making salads a big part of our diet. The varieties are endless - lettuce, cabbage and spinach salads, fruit salad, vegetable dips and on and on.

Fruits and vegetables are low in calories and provide the necessary fibre in our diet. They are also excellent sources of Vitamin A and C, as well as essential minerals. Remember, a deeper orange or yellow color of vegetable means it is a good source of Vitamin A. The nutritive value of fruits and vegetables is usually highest when they are eaten raw.

For easy entertaining try a tray of crisp colorful vegetables served with a dip made from Alberta cottage cheese, sour cream or yogurt.

Below is a salad using raw spinach: Raw spinach in bite size pieces, 2 hard cooked eggs, chopped

Initials, Alberta. Ticket #1007
Early Bird Winners:
1. Mrs. Mary Clements, Borden
2. J. Mochalski, Jarvis
3. S. Bliven, Fort St. John
4. Fred Nash, Carstairs.

Thanks to the public for their support. Profits from this rally go to worthwhile projects.

1/2 c. canola oil
1/2 c. white vinegar
1 tsp. finely chopped onion
1/2 tsp. salt
1/2 tsp. Worcestershire sauce
4 slices bacon, cooked and crumbled

Top spinach with chopped eggs in salad bowl. Combine next 6 ingredients in a jar. Cover and shake. Pour dressing over salad. Refrigerate 30 min. top and garnish with crumbled bacon.

DON'T LET MONEY STAND IN THE WAY OF YOUR CHILDREN'S EDUCATION

We all know that a higher education is one of the best tools for building a strong future. But what you may not know is that financial assistance is readily available from the Alberta Students Finance Board to gain that education. If you want your children to continue their education at a university, college or technical/vocational institution, the cost of tuition or subsistence need not be a barrier.

When it comes to building your children's future the Alberta Students Finance Board can help pave the way. For further information and an application form, fill out this coupon and mail it today.

Or call 1-800-222-6485 toll free.

Our greetings to Mr. Larson, and Mr. E. McIntosh in the University Hospital, and Mr. Cotter in our hospital.

Our thanks to all who have come to entertain us of late and served lunch.

Visitors at the Lodge during July included Mr. and Mrs. Walker Nordstrom from Red Willow Lodge, Valleyview, and Mrs. Damer Anderson from the To-Field Lodge.

Darcy McCauley, and

Tractor Safety

When statistics on farm accidents are studied, it is understandable that the farm tractor is frequently a contributing factor. The tractor is involved in a variety of jobs on a farm including plowing, planting, forage harvesting, combining, pulling trailers, and many others.

And when not being equipped, it is driving a grain auger, a silage blower, a feed grader, or lifting heavy objects on its front end loader. In other words, a tractor is in almost constant use around the farm.

The modern farm tractor is designed for safe, comfortable operation with powerful lights, air conditioning, low sound levels, good shields, ROPS (roll over protection) and warning equipment and signs. Although accidents seldom happen to operators inside the ROPS

Gene and Diana Rodwell were in to see Mrs. Rodwell. Denis, Lilian, Myra Mackey, Lawrence and Darren Kinross of Toronto, Elmer Stroud of Saskatoon, Mrs. Julia Johnson of Canmore, and Owen and Lenore Gubinsch of Red Deer were all in to see Mrs. Blaney.

Marlene, Marla, and Susan Burghardt of Picture Butte, and Ernie and Pat Masahl of Invermay visited Carl Weder.

Mr. and Mrs. G. Oshund of Sherwood Park visited Mrs. Hoyland.

Calling to see Elmer Johnson were Carl and Rosalyn Johnson of New Westminster, and Albert and Esther Gundersen of Colinton.

Mr. Cotter's visitors included Adelle Jones and Shirley Cook, June Millard, Dorothy Purves, and Gen Hennessy of Edmonton.

Teresa Ivank of Canmore called on Mr. and Mrs. Lovett.

Other visitors included John Clendell, Mally Cooper, Olive Good, Inga Jacobson and Norm and Frances Irving, Diane and Karva Bourque, and Ingrid Sorboen from Norway.

Ide and Phil Austin of Redberry called on Mrs. Astin.

Fighting back

the drought, the Government of Canada and You.

Recognizing the threat to prairie livestock breeding herds caused by the current drought, the federal government has introduced a \$60 million drought relief program that will aid drought-stricken livestock, dairy and sheep producers in Manitoba, Saskatchewan and affected areas of Alberta. The \$60 million in federal drought aid announced earlier.

In 1977 the Government of Canada established a Task Force on Drought in Regina to develop programs to assist Western agriculture in the event of drought. The Task Force has continued to monitor developments and met with senior provincial government officials in May of this year to plan measures to assist producers in drought areas. The first of these programs is already in place and includes:

- measures to retain feed grain stocks on the prairies and, through the Canadian Wheat Board, take steps to facilitate the import of feed grains.
- federal expenditures of up to \$7 million to cover costing programs with the provinces of Manitoba and Saskatchewan, including assistance for the transport of feed and livestock and emergency water supplies, including the federal P.F.R.A. Farm-Well Aid Program.

Herd Maintenance Assistance Program

Object: To provide financial assistance for basic breeding herd maintenance for beef, dairy and sheep producers who have lost their pasture and hay crop and are facing a consequent sell-off of a major portion of their basic breeding herd.

Method: Producers will be eligible for herd maintenance assistance subject to the following criteria:

- 1) Cattle and sheep eligible for assistance must represent between 70 and 100 per cent of the basic breeding herd.
- 2) An initial payment early this fall of one-half of the assistance for eligible cattle and sheep will be followed by payment of the remainder after January 1, 1981, if the claim remains valid.
- 3) To be eligible, the herd must normally reside in the severe drought area.
- 4) Contributions payable by Canada will be based on average crop yields for the township in which the herd normally winters. This will be the best used to define the "drought area" across the West.
- 5) A maximum contribution of \$70 per beef cow or bull, \$40 per dairy cow, \$18 per ewe or ram will be paid to the producers where the 1980 average crop yield for the township is less than 50 per cent of the normal crop insurance guarantee of production.

If you are in a drought area and require application forms for livestock, dairy or sheep Herd Maintenance Assistance, or additional program information, please call this

 September 7 Evening Service 7:30 p.m.

Bob Findlay, son of Mr. and Mrs. Clare Findlay of the University Ranch at Kinross was united in marriage to Gayle Kinross of Edmonton on June 21st. The marriages took place at Kirk United Church in Edmonton officiated by Rev. Ray Loper. The newlyweds, after honeymooning in Victoria are now residing in Edmonton.

The Family Subsidy for DAY CARE is worth asking for

Applications are now being accepted from families entitled to a subsidy for the day care of young children.

You may have been receiving a day care subsidy through your municipality (city, town or county/municipal district) or you may be a parent making a first application for assistance in providing out-of-home day care for your children. In either case you are eligible to apply under Alberta's new Social Services and Community Health DAY CARE program.

TO APPLY, CALL YOUR NEAREST SOCIAL SERVICES DISTRICT OFFICE FOR AN APPOINTMENT.

True Life Story of A Former Nazi Prisoner

The true-life story of Corrie ten Boom, a former Nazi prisoner, will be presented through the motion picture, "The Hiding Place", on July 30, at 7:30 p.m. at the Viking United Church.

This remarkable story of tragedy and victory shares the experiences of a family who was willing to risk all for others. The ten Booms became involved in the Dutch Underground during World War II by hiding Jews in a secret room built in their house, thereby aiding them in their escape from the Nazis. As a result of a raid by soldiers, Corrie's family was taken prisoner and Corrie was sent to the dreaded concentration camp " Ravensbrück".

Millions of readers have cried, suffered and triumphed with Corrie ten Boom and her family through the book "The Hiding Place". Now a motion picture captures all the power, excitement and sheer dramatic force that sets this story apart from all others. See "The Hiding Place", a World Wide Pictures production, and share in a miracle of love.

Do You Know The Bible Says

By Mrs. W. Myers

In 21st and 15th to 16th, Jesus said unto him, Feed my sheep.

Many say they love the Lord, but do they do the feeding of the sheep, do they give forth of the bread of life, that living bread that gives eternal life? No, they stop where Peter stopped. Jesus said, Feed my sheep. Witness for the Saviour.

The true story that has captivated over 8,000,000 readers.

Canadian Government Unveils Multi-Million Dollar Drought Relief Program

The Hon. Eugene Whelan, Minister of Agriculture, and Saskatchewan Senator Hec Argue, Minister of State for the Canadian Wheat Board, announced in Yorkton, Saskatchewan a multi-million dollar federal government Herd Maintenance and Nutritional Advice Program. This program represents Phase Two of an on-going plan to aid drought-stricken livestock producers in Manitoba, Saskatchewan and affected parts of Alberta.

Recognizing the threat to prairie cattle and sheep breeding herds from the combination of existing poor pasture and feed supplies, high fodder costs and poor prospects for winter feed stores, this program is designed to assist stock producers in maintaining their herds.

Gravel Haulers

VMI to supply your gravel and best requirements.

We offer 12' tandem grapple load all haulers in 12', 14', 16' and 18' lengths and 10, 12, 14, 16 and 18 ton capacities. We also have a complete line of gravel haulers.

CALL 336-2437
 ED BEETON - VIKING, ALBERTA

The Nutritional Advice Program will see both federal and provincial resources used fully to inform stock-owners of potentially serious situations which may arise as a result of dietary change, or occurring too quickly to the unfamiliarity with certain types of feed. This program is becoming more important as drought-affected livestock producers seek alternative feeds and fodder.

Both the Herd Maintenance Assistance Program and the Nutritional Advice Program - part of the federal Phase Two program - will be followed by January 1, 1981, if the claim remains valid.

2. To be eligible, the herd must normally reside in the severe drought area.

4. Contributions payable by the producer will be based on average crop yields for the township in which the herd normally winters. This will be the last year of the "drought area" across the West.

5. A maximum contribution of \$70 per beef cow or bull, \$140 per dairy cow, \$16 per ewe or ram will be paid to the producers where the 1980 average crop yield for the township is less than 50 per cent of the normal crop insurance guarantee of production. The reduction from average yield must be drought related.

6. A contribution varying from \$30 to \$70 per breeding beef cow or bull, between \$70 and \$140 per dairy cow, and \$8 to \$16 per breeding ewe or ram will be paid where the average crop yield for the township ranges between 50 per cent and 59 per cent of the crop insurance guarantee of production.

7. Farmers keeping less than 70 per cent of the basic breeding herd will not be eligible for assistance.

8. To be eligible, the farmer must supply an affidavit stating the basic breeding herd numbers at the time of application and an affidavit of December 31, 1979.

9. The farmer must supply an affidavit stating that he will keep at least 70 per cent of his basic herd to May 1, 1981.

10. A review Board will be established to review disputes arising from the application of the program.

This Herd Maintenance Assistance Program will be implemented simultaneously with a comprehensive Nutritional Advice Program, which will involve co-operation of both the federal and provincial governments.

Ron and Cathy Wiesle of Aldergrove, B.C., spent a few days last week with Cathy's grandparents, Isabel and Eddie Fenton.

Mr. and Mrs. L.L. Gullner returned home a few days ago, after spending a month visiting with members of their family in and around Vancouver.

Arthur and Marilyn Jack, son and daughter-in-law, returned home on Thursday afternoon after spending almost a week visiting Arty's sister Isabel and family at Sundre. They also visited his niece Marlene Ross and family at Bowden, and niece, Lois Holmes and family at Rimby. They report a surplus of moisture in and around Sundre.

On Monday afternoon a group of willing workers loaded Jimmie Craig's truck with the papers, etc., which had accumulated since the previous shipment in February. Many thanks to Henry Beer, Vern Russell, George Foreman, Lawrence Savage, Jimmie Craig, and Hamish Dunbar, for the help they gave so willingly.

On Tuesday, July 8, Jimmie Craig, accompanied by Jim Jackson delivered the papers to "Paperecycle of Alberta Ltd." There was \$350.00, and the cheque for this was \$125.35. A special thanks to Jimmie Craig for donating his truck and his time to deliver the papers. The Irma New Horizons Club wish to thank all who contributed papers, and were coming.

They planned to turn their dinner in Winnipeg, after which they would drop in at Irma, however, when they got to Wainwright, they found that owing to the arrival of a large contingent of troops, they were unable to stop the camp, so they had coffee in Wainwright, then came to the Paykan camp ground, where they had a big lunch. They then came to the Irma Drop In Centre.

The Irma Inneh committee had estimated that it would be at least 3 p.m. before they could get here, and had planned to open the Drop In Centre at 1:30 p.m. In order to be ready to welcome our visitors. However, they arrived at 1 p.m. Fortunately, Alvin Lager had gone down early to do some cleaning up, and was there to receive them. They came in and made themselves at home. Some played pool, others shuffleboard, and others played cards.

The lunch committee soon had coffee, tea, cake, and sandwiches ready, and lunch was served.

Later Mr. George Peterson took the floor, and on

Irma News And Views

and 15. Starting on Friday, there was a Country Fair on Main Street. There were also foot races for all ages, buggy races sponsored by the Battle River Light Horse Club, amusement booth, a Farmers Market. Old time Picnic, Canoe Races on the lake, and in the evening a box social and dance were held in the arena.

Saturday started off with a pancake breakfast in the Elks Hall. The parade at 11 a.m. was very good, varied, and interesting. In the afternoon there were gymkhana events, Pony Charities Races, a beer barbecue in the arena, and later a Snack and Dance in the arena to the music of the "Emeralds".

On Sunday there was a breakfast from 9 a.m. until noon in the Elks Hall, the Amateur Rodeo at 1 p.m., then Pony Charities Races followed by Pony Chukwa Races.

At 2 p.m. Novelty Golfing at the Hardisty golf course brought the celebration to a temporary conclusion, however, visiting and socializing continued. Many former residents came for the three

days and many old friends were renewed. Minnie Jackson and her daughter, Judy Barth, and her son, the late Harry Barth, were also in the Hardisty arena on Friday, June 11. The boxes sold for proceeds ranging from \$7.00 to \$29.50. Jerry had the honor of having her box purchased by Lou Goka, Hardisty Mayor. Minnie's was purchased by Don Baumgartner, from Hardisty. Glen

Galloway, from Burns Lake, B.C., bought Dolly Henson. The attendance at the time the boxes were sold was the best, due to the street dance being held at the same time. The music was very good, and all had an enjoyable time.

Rev. and Mrs. E. Neufeld mentioned to Abbotsford, B.C. to spend a week visiting with friends and relatives. July 5 was a busy day with two weddings. The wedding of Mr. Neufeld's niece was held in the morning at Surrey Alliance Church, and Mr. Neufeld officiated at the wedding of his nephew in Chilliwack at 5:00 p.m.

Lloydminster Seniors Visit Irma

On Wednesday, July 9, a bus load of Seniors from Lloydminster visited the Irma Drop In Centre. A phone call came through on Tuesday evening, and said they were coming.

They planned to turn their dinner in Winnipeg, after which they would drop in at Irma, however, when they got to Wainwright, they found that owing to the arrival of a large contingent of troops, they were unable to stop the camp, so they had coffee in Wainwright, then came to the Paykan camp ground, where they had a big lunch. They then came to the Irma Drop In Centre.

The Irma Inneh committee had estimated that it would be at least 3 p.m. before they could get here, and had planned to open the Drop In Centre at 1:30 p.m. In order to be ready to welcome our visitors. However, they arrived at 1 p.m. Fortunately, Alvin Lager had gone down early to do some cleaning up, and was there to receive them. They came in and made themselves at home. Some played pool, others shuffleboard, and others played cards.

The lunch committee soon had coffee, tea, cake, and sandwiches ready, and lunch was served.

Later Mr. George Peterson took the floor, and on

behalf of the group expressed thanks to the Irma club for the hospitality extended to them. He then proceeded to tell a few good stories. He also extended an invitation to the Irma Club to visit Lloydminster.

Jim Jackson then followed with a few good stories. This was followed by a good deal of visiting

chatting and getting acquainted. Our visitors, amongst whom was a man who celebrated his 90 birthday on July 4, all seemed in a happy mood, and many of them said how much they enjoyed their informal visit to the Irma Club to visit them in the not too distant future.

Lukens - Copeland Exchange Wives

St. Paul's United Church, Hardisty, Alberta, was the scene of a pretty spring wedding, May 10, 1980 at 4 p.m. The church was decorated with bouquets of gladiolus and daisies. Joe Anne Lukens of Hardisty, Alberta, daughter of Mr. and Mrs. F. Robert (Bob) Lukens, also of Hardisty, was married to Russell Harold Copeland of Irma, Alberta, son of Mr. and Mrs. T.R. (Tom) Copeland, also of Irma.

The officiating clergyman of the double ring ceremony was Rev. Jackson. The bride, Miss Anna Lukens of Saskatoon, Saskatchewan, was wearing a white gown with a long train, and a long veil. She was carrying a bouquet of white and blue flowers. The groom, Mr. Russell Copeland, was wearing a tuxedo and a white shirt with a bow tie. They were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

during the signing of the register, and was accompanied by Sister Charlotte Blair, of Prairie Saskatchewan.

Given in marriage by her father, the bride wore a full length, empire style gown with full train of white jersey. The bodice was appliqued with delicate lace below a scoop neckline, the sleeves were also appliqued with matching lace. Something old was a handkerchief carried by her great-grandmother and mother on their wedding days. Something new was earrings, something old was a necklace and something blue, a garter.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

Her headpiece, a Juliet cap of lace and pearl, bore a veil of lace, and double illusion net trimmed with lace, the bride carried a bouquet of red roses, white gladiolus and fern.

The maid of honour was Miss Natalie Haug, friend of the bride, of Two Hills, Alberta. The bridesmaids were Miss Sheri Lukens, sister of the bride, of Hardisty, and Miss Gwyneth Papay, friend of the bride, of Vancouver, B.C. They were wearing long, empire style, long gowns of blue floral sheer romanes with matching of blue piques, with matching capes of sheer floral romanes. They wore two blue lined dresses in their hair and carried basket bouquets of white and blue lilies. They wore white neckties, gifts of the bride.

The best men were Mr. Doug Larson of Irma, Alberta, friend of the groom; Mr. Joe Hertz of Saskatoon, Saskatchewan, friend of the groom; and Mr. Albert Copeland of Edmonton, Alberta, brother of the groom. The groom and best men were dressed in white blue tuxedos, with white shirts trimmed with navy blue and navy blue bow-ties. The groom's boutonniere was a white carnation with a rose bud in the centre. The best men's boutonniere were white and blue lilies.

The ushers were Mr. Tom Copeland of Calgary, Alberta, brother of the groom; Mr. Will Copeland of Calgary, Alberta, brother of the groom; Mr. Bob Lukens of Hardisty, Alberta, brother of the bride; and Mr. Don Lukens of Irma, Alberta, cousin of the bride.

For the reception at the Elks Hall in Hardisty, the bride's mother received wearing a mint green street length dress of self crepe jersey, with pleated skirt, with accessories, shoes and handbag in taupe colour, gold jewelry and flowers of orchid with salmon carnations.

The bridegroom's mother was in an aqua blue print quiana street length dress, with white accessories and silver jewelry and flowers of orchid and pink tinted carnations.

The reception was highlighted by grace said by Rev. Jackson. The M.C. Mr. Graham Smith of Sherwood Park, Alberta. The toast to the bride was made by Keith MacDonald of Wainwright, Alberta, a family friend. The toast to the bride's mother was made by Doug Larson. Bob Lukens toasted the groom. During the reception two songs were sung by Mr. Jim Galloway of Lethbridge. A lovely banquet was prepared and served to 280 guests by ladies of the Royal Purple. The beautiful tiered wedding cake was made and decorated by the bride's grandmother, Mrs. Brenda Lukens of Hardisty. The Open House and Dance were held at the Elks Hall. The Starlight and

Nicola Charnoff: "Love is a pleasing folly; passion is a serious stupidity."

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

Country Orchestra from MacLain, Saskatchewan, played for the wedding dance to and a very enjoyable evening.

For going away the bride wore a navy blue pant suit with pale blue blouse, with accessories of white with a red rose corsage. The newlyweds will reside at Hardisty, Alberta.

Guests at the wedding were from Medicine Hat, Edmonton, Arcadia Valley, Calgary, Riverhurst, Irma, Jasper, Grande Prairie, Wainwright, Two Hills, Longhead, Camrose, Drayton Valley, Vauxhall, and Sherwood Park in Alberta; Fort Nelson, Vancouver, Coquitlam, Kelowna, Okanagan, Kamloops, Smithers, and Dawson Creek, in B.C.; Saskatoon, Kindersley, Medicine, Estevan, and Prairie in Saskatchewan; and Toronto, Ontario and Germany.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

The bride and groom were both smiling and looking at each other. The wedding was a beautiful ceremony, and everyone was happy.

Grain Bins
"JULY SPECIAL"
4200 BUSHEL BINS PRICED AT
\$1,850**

Grain Bins
To preserve the condition of stored grain, aeration fans draw air from outside the storage structure, pushing or pulling it gently through the grain mass. Engineered air flow and reliable factory assembly mean low-cost operation. A broad range of diameters, and horsepower ratings are available.

Sub-Floor Aeration
This aeration system fits flush with the bin floor, permitting a specific amount of properly distributed air through the grain mass and allowing the use of a sweep auger to unload the bin. The system consists of a galvanized tunnel cover, transition and duct. The design of the system and the number of tunnels employed are determined by the operator's grain care requirements.

Aeration Fans
To preserve the condition of stored grain, aeration fans draw air from outside the storage structure, pushing or pulling it gently through the grain mass. Engineered air flow and reliable factory assembly mean low-cost operation. A broad range of diameters, and horsepower ratings are available.

Y and X aeration systems
also available!

3 h.p. Caldwell fans on special at \$550**
during the month of July!

ON-FLOOR LINE AERATION
On-Floor Line Aeration Systems are available in 12 and 18 inch diameters for use with 12 or 18 x 18 inch On-Floor aeration is simple to install in new or existing grain storages and can be removed in minutes with no special tools.

EXTRA STRONG TOP CORNER
Made of extra heavy steel, the top corner has a wide 12" lip opening, and is equipped with heavy duty rubber hooks for tight seal.

SELF-LOCKING ROOF PANELS
Panels for vertically slatted roof assemble in minutes without seams. No trusses or braces are needed. Bins are extra high for strength and greater weather seal.

STEEP ROOF PITCH
Steep 15° roof pitch and the formation of moisture catching backs prevents moisture from dripping back on the grain when the bin is used for drying.

DOUBLE STRENGTH DOOR
The heavy door is the formed and reinforced for extra strength. The sides of the door frame are reinforced to match the wall construction for a tight seal. Hinged back heads swing in for easy access, with pinted edge rest in standard equipment.

6 TEAM BASEBALL TOURNAMENT HOSTED BY THE
SUNDAY, JULY 20, 1980 VIKING SHAMROCKS
GAME TIMES: 9 a.m.; 11 a.m.; 1 p.m.; 3 p.m.; FINALS AT 6:00 p.m.

As part of their early education, these 18 ducklings were treated to a short tour of Vikings by their mother last Saturday morning. Staff Photo

For the second consecutive year, the Viking Coyotes have come home from the Manville Mammoth Softball Tournament with the Division "C" championship, and top prize money of \$500.00.

In their second game of the day, this one against the Cruthers Truck

ing team of Vermilion, the Coyotes came out on top of a 2 to 1 score to advance to the finals, which were held at 7 p.m. on Sunday.

The final game, saw the Coyotes play the Windsee Hotel team from Camrose. The two teams were very

Twenty-three members of the Viking Light Horse Club held a trail ride on Thursday, July 10th at 1:00 p.m. The ride started at the Gymkhana grounds. Staff Photo

The Viking Summer Playground is now in operation. The playground program offers many exciting activities for school age children.

Some of the coming events include swimming trips, and mini-Olympics. Along with these special activities there is the regular craft sessions, games, drama, music, and nature sessions. The playground is in operation Monday to Friday, from 9:00 to 12:00, and 12:30 to 5:00 at the Carena Club.

The playground program will continue until August 22, so there is still plenty of time to register. Please feel free to stop in and ask the leaders, Lynn Makar, and Karen These about the program. They would really like to see more children coming to the playground.

This week is "Cowboys and Indians Week" on the playground. The planned activities are: the building of a play fort, kool-aid sale, swimming trip, dress-up day with a pow-wow, and many craft sessions.

The Viking Recreation Board hired three students under the Canada Youth Employment Program to

work on the Lake Thomas Project. The students are Allan Evans, Margret Fulton, and Blair Robinson. The Recreation Board plans to put in over-night trailer spots, piers, washrooms, change rooms, and picnic sites with tables and fire pits.

The last couple of weeks the students have been busy building the piers and change rooms. We plan to start cleaning up and working the site over in the next week.

The tennis courts on the school grounds are well under way, with J.D. Construction doing the work. I am sure the local tennis players are just waiting for the courts to be finished, so they can enjoy the outdoors while playing.

remember are: August 7 - the Viking Fair, plus the "Alberta People Show", part of the 75th Anniversary Festival of the Arts; and August 20 - the Olds Youth Expression Theatre, sponsored by the Olds P.S.S.

Homeowners may now receive loans at preferred interest rates to convert their homes to provide rental self-contained or light housekeeping units.

The Alberta Home Conversion Program has been developed to stimulate the creation of additional rental housing facilities in the province.

Through a loan assistance plan, the program aims to encourage the owners of "convertible" housing to more fully utilize their housing and to develop the full potential of their property.

Conversions must meet with all local land use, zoning and building by-laws. Check with your municipality or local zoning board.

For further information, or to receive an application form, please contact:

The Weekly Review
336-3422 Viking, Alberta

Statistics Canada says Canadian wheat plantings are about 26 million acres, up from about 25 million acres in 1979. The increase is due in part to yield because of drought in Saskatchewan and Manitoba could reduce wheat production to about 12 to 15 million bushels, says the agency. The figure compares with 17.7 million bushels in 1979.

The Bruce Stampede

This Saturday, July 26th and 27th, the annual Bruce Stampede will once again provide a full weekend of activities and entertainment for the people of this area. In this, Alberta's 75th Anniversary, this event seems to provide the best example of what this birthday year is all about.

The appropriateness of the event lies not in the fact that it is a rodeo, with all of the hoopla and fanfare which goes along with just such an event. It lies in the realization that the Bruce Stampede is still going strong after nearly 70 years in a very small community. It lies in the realization that the Bruce Stampede is still the "biggest little rodeo in Alberta," even though it is based in a very small community.

And yet the "small" which repeatedly comes to mind when thinking of Bruce can only be thought of in terms of numbers. It cannot be related to the efforts or spirit of the many, many people who will work on the Rodeo this year, or who have worked on the Rodeo in the past. The efforts and the spirit are the greatest link to the basic idea behind the birthday celebrations in Alberta.

The amount of co-operation, hard work and dedication which the residents of Bruce displayed over the years in keeping the Stampede alive when many other such rodeos have "bitten the dust" is truly remarkable. Perhaps it would have been easy at times for these people to simply let a year go by, then two, then three, without a rodeo. But the people of the Bruce district did not let this happen. They held on to the traditions upon which the event is based and worked to make the rodeo a tremendous example of what a small community can do if it has the spirit and desire.

Many outsiders to the Rodeo this weekend may wonder how a community the size of Bruce can host such a two-day affair with its parade, midway and quality rodeo events. Those who live here can understand how once we realize the tremendous history and tradition present in the event, and the spirit of the people who get involved in the Bruce Stampede Association.

This history, tradition, and spirit is what makes the Bruce Stampede such a fine example of what has brought Alberta along during its 75 years as a member of the Canadian confederation. This is the year to get involved in that history, tradition and spirit - attend the Bruce Stampede this weekend.

with a trophy donated by the R.C.M.P. Junior Public Speaking winner, Clayton Larson, was also presented with a trophy donated by the R.C.M.P.

The most valuable member trophy donated by Paul and Mary Ryska went to

Sheryl McClements. After showing we had a delicious pot luck supper with the presentation of the trophies following.

The Club would like to thank those who donated trophies and to those who participated in the achievement day.

The Regional 4-H Horse Show will be held in Vermilion on August 10, beginning at 9 a.m.

The 4-H Light Horse Club members will be riding in the parade and will be having a demonstration during the Viking Fair, August 7, 1980.

Bruce And District News

of this district, recently passed away.

Immanuel Lutheran Church sponsored its annual Vacation Bible School last week with classes each morning between 9 and 12 a.m.

Nineteen children enjoyed

learning about the Church and sharing in crafts and games.

On Friday, July 18, at 7:30 p.m. the parade was

invited to share in the celebration of the week's activities.

Teachers for the week

were Sonja Bhabha, Rosetta Haverstock, Sonja Leube and Audrey Frost. Mary Hammermaster, Ellen Doris and Cathy Pratt served as helpers.

Those children attending were: Paul Hammermaster, Scott Stufka, Elaine Kawa-

liak, Mark Haverstock, Lynette Field, Colin Babbitt, Krista Haverstock, Annette Hammermaster, Laura Leube, Brandie Stefaniak, Tammy Thirk, Kathy Leube, Gerald Frost, Robin Reist-

on, Kelly, Rose Amber, Colin Babbitt, and Suzanne Kopp-

el.

See you at the Stampede on Sunday! If you have a little extra pep, plan also to attend the Stampede dance on Saturday night and do some stamping to the tune of the Joyce Smith Entertainers. Rhonda Hasegawa of Okotoks will be on hand at midnight to cross the 1980 Stampede Queen. At this time, also, the first draw will be made for the \$1,000. The first prize is \$500, second \$200, and there are three draws for \$100.

The next livestock bid was Nilpattent Permanent Rodeo (Western) Ltd., Edmonton - \$7,918.00.

Livestock Feed Assistance Act Extended

An estimated 600 tonnes of grain is expected to be moved into the Livestock Assistance Act this year. Under this Act the federal government intends

to pay about \$50 per tonne of the transportation cost, or about \$30,000 this year. Payments will be administered by the Canadian Livestock Feed Board.

AgriCulture Ministry expressed satisfaction that the amendments to the Livestock Assistance Act has received Royal Assent.

The Act, administered by the Canadian Livestock Feed Board, was established in 1968. It provides assistance for other things for transportation subsidies to livestock and poultry producers in feed-grain deficient areas to help pay the cost of bringing in feed from other parts of the country.

Livestock producers in eastern Canada will be awarded a \$67,554.00 payment marking contract to M.L. Industries, of Calgary, Alberta. Transportation subsidies to livestock producers in feed-grain deficient areas to help pay the cost of bringing in feed from other parts of the country.

Profile: Constable R.F. Nyszcuk

A recent transfer of personnel within K Division of the R.C.M.P. has resulted in Constable Richard Nyszcuk being assigned to the Viking Detachment.

Richard F. Nyszcuk was born in Carver, Belgium on October 22, 1965. In 1967 he moved to Canada with his parents who settled in Kenora, Ontario. He grew up in Kenora where he completed his high school education.

Upon completion of high school, Richard Nyszcuk attended Confederation College in Thunder Bay for two years. There he completed a law and security program which dealt with various aspects of law enforcement and administration.

In May of 1974, Richard Nyszcuk joined the Royal Canadian Mounted Police and was sent to Regina for basic training. He graduated from Regina in October of 1974 and was posted to Swan Hills. He remained in Swan Hills for about nine months and then was transferred to Fort McMurray in August of 1975. In September of the same year he married Christine. The couple have since resided in Fort McMurray with their two sons, Billy (4 years) and Brooks (15 months).

Weekly Police Report

We received a rather short report from the local R.C.M.P. detachment this week.

The detachment investigated three motor vehicle accidents this past week, and one complaint of Willful Damage.

Two charges of illegal possession of alcohol, and two charges under the Litter Act were laid in the past week.

The local detachment received one complaint of theft of a bicycle last week. The complaint is currently under investigation.

This past week the local detachment investigated a complaint of a prowler approximately six miles west of Viking. The R.C.M.P. have determined that the complaint was unfounded.

Richard F. Nyszcuk

Since joining the police force, Constable Nyszcuk has taken courses in breathalyzer operation, accident investigation, emergency response, and aircraft observation.

Constable Nyszcuk was

active in football and volleyball as a player while in Fort McMurray. He also enjoys fishing and camping.

Constable Nyszcuk joins Corporal Will and Constable Blodessa to complete the 3-man Viking detachment.

FARE WELL AT THE FAIR

Throughout the county, August is fair time! A big part of any fair are the exhibits. Why don't you plan to enter something in the fair this year, be it horticulture, foods, clothing or handicrafts?

By contributing to the fair you can get a feeling of self-satisfaction by showing your work to others. You will learn from the judges' comments and from viewing the works of others. Support for your community is one of your main reasons to enter your work.

DRY PASTURE CONDITION:
Lack of rain and resulting poor pasture conditions are a main concern for livestock producers throughout Alberta.

Dry pastures coupled with low forage inventory have already forced some producers to sell part or all of their herds.

The lack of every intake due to poor pasture conditions is not only going to affect this year's calf crop by lowering weaning weight, but will also affect next year's calf crop by lowering conception rates.

In order to decrease the chances of lowering conception rates, start by watching your herd closely for any signs of injuries, whether penis, feet or leg injuries. Record cows you see in heat and watch for repeats. If after three weeks of breeding there is a large number of cows in heat, a nutritional problem may be the cause. To avoid this situation, begin supplementing the cows with 5-8 lbs. of concentrate which will aid in meeting the

Albert Herman Otto Laid To Rest

Albert Herman Otto was born in Russia on November 15, 1896. He died in St. Mary's Hospital in Camrose on July 24, 1980.

In 1937 he came to the East Edmonton area with his parents, where he earned until 1938, when he moved to the Bruce District. He married Eratna Helen in Holden on December 8, 1937. He continued farming until his retirement to Camrose in 1967.

He leaves to mourn his passing: three sons, Arthur of Irvine, Fred of Viking and Harold of Red Deer; one daughter, Elma Olesky of Kenosha, California; six grandchildren; two brothers, Fred and Ed of Edmonton; and four sisters, Lydia Modin of Edmonton, Martha Reynolds of Armstrong, Olga Overton and Edith Gruber, both of Edmonton.

He was predeceased by his wife in 1960, and two brothers and three sisters.

Funeral services were held in the Mount Pleasant Funeral Chapel, Camrose, on July 25, 1980, with Pastor Tim Johnson officiating. Interment took place in the Camrose Cemetery.

Honorary Pallbearers were: Calvin Frederick, Ed Hamilton, Ed Knapp, Bench Starky, Loren Bakke, and August Oles. Active Pallbearers were: Ed McInnes, Dave Stabiky, Ernest Pearson, Chester Brecht, Bill Shumakich, and Bud Starky.

Floral Tributes: Mrs. Pandick and family, Leonard, Elaine and Lenora Kent, Chester and Jean Brock, John and Yvonne Pearson, Dolores to Stoney Creek Lodge, Calvin Frederick, Mrs. E.M. Sarjeant, Vernon and Myrtle Koppel, Morris and Pauline.

Couple Celebrates 40th Anniversary

Forty years ago, Mr. and Mrs. Clifford Lancaster were married in St. Matthew's Anglican Church in Viking, on June 29, 1940.

Mrs. Jack McKie was the bride's mother's attendant while the groom's attendant was Mr. Frank Murray.

Their 40th wedding celebration was held at the home of their daughter and her husband, Mr. and Mrs. Wayne Lygstad, with the help of their son and his wife, Mr. and Mrs. Jack Lancaster, and their young daughter and her husband, Mr. and Mrs. Lyle Orzechowski.

In attendance at the family dinner were: Jack and Jean McKie. The table was centered with a cake which was later cut with the knife used at Debbie and Lyle's wedding reception.

Mary and Cliff were presented with a wooden rocker from the family.

Open house was held from two to five o'clock, at which time many friends and relatives came to help celebrate this happy occasion.

During the course of the afternoon, much visiting was done over coffee and lunch.

Jack McKie presented the couple with a pure from the community. Many gifts and cards were received and opened at this time.

UGG Wants \$4.50 Initial Wheat Payment

The directors of United Grain Growers, following a board meeting recently, requested wheat board minister Hiram Argue to press his case for an initial payment of \$4.50 per bushel for the top grade of wheat.

He said, "Senator Argue's spring announcement that the initial price for No. 1 CWRS would be pegged at only \$3.75 per bushel on August 1 is certainly well below current wheat board quotes of \$6 per bushel."

UGG president Mac Runciman announced, "In a telegram to Senator Argue we are forwarding to him figures of 144 to 157 million tonnes of wheat produced last crop year."

Runciman also noted the hard red spring wheat in the U.S. "will be drastically reduced."

He said, "Farmers with crop insurance in the hard red spring wheat area are reporting their fields in record condition, and will follow those fields and next spring."

He pointed out, "Farmers need money now for operating costs and to pay off the mortgage. The money should be put in the hands of the wheat grower, not kept in the hands of the Canadian Wheat Board."

Runciman said the UGG would be issuing a formal report of production and wheat yields in Manitoba and Saskatchewan which would authorize the increased initial payment of four and a half cents per bushel from those in 1979.

He said escalating costs and mediocre grain prices had been aggravating the prospects for low yields in Saskatchewan and Manitoba.

Irma News And Views

Sincere sympathy is extended to Elma Tomlinson, and Ella Skiles, whose brother, Mr. M. Solberg, passed away, and was buried in Ryley on Wednesday, July 16.

Sincere sympathy is also extended to Bill Reid and family, on the passing of Bill's wife, Janet Cockburn Boyd, on Monday, July 14, 1980 in Wainwright, Alberta. Hospital at the age of 66 years. The funeral was on Wednesday, July 16, at 2 p.m. from McLeod's Funeral Chapel, Wainwright, Alberta. Officiant was Mr. Don Hall, organist was Mrs. Betty Foley, and pallbearers were grandsons, Jamie Boyd, Terry Boyd, Brad Hill, Randy Johnson, Dave White and Marshall Burns. Interment was at the Wainwright Cemetery.

Mrs. Allie Bacon arrived home on Thursday evening from her trip to Saskatoon, and was accompanied by her friends, Mr. and Mrs. Russell Agnew, who remained for a visit, then left to coincide their holiday further north.

Bruce Jackson and wife Pam called on his grandparents, Minnie and Jim. They also visited his Uncle Arthur, Marilyn and family.

In last weeks account of loading papers from Jackson's garage the name "Hem-

Irma New Horizons Hold Picnic

On Wednesday evening, July 16, the Irma New Horizons Club held its annual picnic.

On account of the uncertain weather it was decided to hold it in the Drop In Centre. As it turned out, this was a fortunate decision.

The lunch committee, as usual, did an excellent job of catering to the approximately sixty members and visitors who showed up.

Amongst the visitors were Alex and Mrs. Gourey

from Stewarton, Ayrshire, Scotland, who have been visiting with Mrs. Gourey's cousins, the Dootsons, for several weeks. Also present were Wm. and Mrs. Potts from Flaxton, North Dakota, who are visiting with Albert and Marie Knudsen, and other members of the Knudsen family. The Knudsen's and William are cousins.

By the time the meal and visiting was concluded, rain

was coming down in torrents.

It was a very enjoyable evening, and much credit is due the ladies of the lunch committee.

An election was held for a queen for the Irma Homecoming parade. There were eight names voted on, and Mrs. Elaine Satre was elected Queen.

Tanya McAllister is keeping grandparents, Mr. and Mrs. Tom Greenwood busy while Marnie and Dad go on holidays.

Mr. and Mrs. Jim Williams of Edmonton were weekend visitors to the Williams' farm.

Robbie Williams had his friend, Alex Currie, spend a night with him.

Teresa Greenwood of Camrose spent the weekend at her parents home.

Marion Prosser is spending some time with his Grandparents, Mr. and Mrs. Len Prosser.

Mr. and Mrs. Robert Holzer is having the pleasure of Mr. and Mrs. Ralph Vetter of Carstairs visiting for a while.

Karen Bauer took a day at Kinsella Days in Edmonton with her Aunt and Uncle, Mr. and Mrs. N. Bauer and family of Viking.

Tanya McAllister is keeping grandparents, Mr. and Mrs. Tom Greenwood busy while Marnie and Dad go on holidays.

CHIEF/WESTLAND ECONO-BINS

Book now & catch this year's bins at last year price

EXTRA STRONG TOP CONE

Like of extra heavy steel, the top cone has a wide 18" taper opening, and is equipped with heavy duty rubber wheels for tight seal.

SELF-LOCKING ROOF PANELS

Panel for vertically oriented roof assembly in minutes without seam bolts. No trusses or bracing are needed. Bins are extra high for strength and greater weather seal.

STEEP ROOF PITCH

Steep 35° roof pitch - and the elimination of moisture catching, bins prevents moisture from dripping back on the pan when the bin is used for drying.

DOUBLE STRENGTH DOOR

The moving door is also tapered and reinforced for extra strength. The sides of the door frame are corrugated to match the wall corrugations for a tight seal. Heavy duty bolts secure the door as well as with gated support as standard equipment.

Cattlemen Protest Power Line Route

The Alberta Cattle Commission has protested strongly against the recent permit issued by the Energy Resources Conservation Board allowing Calgary Power to build a 500 K.V. power line from Langdon, near Calgary, to the Crow's Nest Pass to meet a similar line from B.C.

In a telegram to Premier Lougheed, the Commission asks that the permit be delayed pending clarification of the E.R.C.B.'s jurisdiction over interprovincial power lines - a matter which is presently before the Supreme Court. In addition the

Cattlemen's Organization points out that the future ownership of Calgary Power is presently in doubt, and that it is possible that the new owners will take a more enlightened view of the need to preserve good Agricultural land than those presently in control. Stan Wilson, Chairman of the Cattle Commission, explains that cattlemen and farmers generally appreciate the need to ensure adequate power for Alberta's growing population and industrial base. However, in this case there is a very good alternative route for the line that will not interfere with Agricultural production. While we recognize that probably the initial cost of the original route may be lower, in the long run it will be much more costly in terms of cost both to the farmer affected and to society as a whole.

Weekly Police Report

During the past week, the Viking detachment of the R.C.M.P. investigated four motor vehicle accidents in the Viking area.

Three complaints of theft were received last week, and are currently under investigation.

Two complaints of Wildlife Damage, one involving the smashing of a car windshield, were reported, and two 24 hour driving suspensions were handed out.

Cpl. Will of the Viking detachment finished his report by saying that the heavy influx of tourists to the area this past weekend caused no unusual problems for the detachment.

Looking Back ...

The photo above is of the students and teachers of the Viking School of 1920. The principal of the school at that time was Mr. H.L. Purter. The

photo was supplied to The Weekly Review by Mr. Bud Lewis of Viking. How many people can name of you recognize? Photo courtesy of B. Lewis

Y.E.S. Report

The Youth Employment organizer has been making employer visits. Most businesses have been visited and several have hired students - some for just half a day. So, if you have need of a student, call the P.S.S. office.

The students have been very co-operative this far - very eager to do work! But we still need more students, so drop by the P.S.S. office and register.

Many people have been asking about wages, so following are the regulations. According to the Labor Standards in Alberta (effective May 1, 1980), the minimum wage for a person 16 years or over is \$5.50 per hour. For a student under 16 years of age, and not attending school, the minimum wage is \$3.50 per hour. This only applies

to students hired by businesses. If a student is hired privately, the wage is negotiated between the employer and the student.

Students between the ages of 15 and 16 years can only work at the following types of jobs:

- delivering small wares for retail stores
- clerk duties or carrying messages in an office
- clerk duties in a retail store
- delivering handbills or flyers
- doing lawn and garden maintenance, general house cleaning, or babysitting

Students of this age cannot be employed between 9 p.m. and 6 a.m. of the next morning.

Young persons (15 years or 16 years) may be employed in service stations, food outlets, grocery stores, restaurants, motels and hotels, and if they are under the supervision of one or more adults, they may be employed at these types of jobs between 9 p.m. and 12 midnight. They cannot be employed at these businesses between 12 midnight and 6 a.m. However, during these hours (12 midnight and 6 a.m.), they can be employed in hospitals, manufacturing plants, refineries, pulp mills, and nursing homes, if they are under the supervision of one or more adults, and have written consent from their parent or guardian.

For more information on labour regulations, drop into the P.S.S. office, as we have pamphlets and booklets on the labour laws. Also, if you need some help doing a job, or if you want a job, come to the P.S.S. office, or call Karin Otto at 336-6024.

The first son of Hans and Anna Hanson was born at Viking June 5, 1912. He was baptized in the name of the Father and of the Son and of the Holy Spirit and given the name Helmer Sanford on July 28, 1912. He was confirmed in faith on August 14, 1927.

Helmer received all his formal education at the Rutherford School. He then came into town to work at the Creamery where he was employed for eleven years. He joined the Armed Forces in 1939 where he served in Canada and overseas until returning home in 1945.

On April 3, 1947, Helmer married Hazel Arncliffe and the couple lived in Viking. One son, Sanford, and two daughters, Barb and Connie, were born to them.

After returning from the war, Helmer had a farm implement dealership until January 1, 1949, when he took employment with the Independent Grain Co. In 1955 that company was purchased by the Pioneer Grain Co. and Helmer remained in their employ until his retirement in July 1977. During all this time, however, Helmer also farmed and found a sense of vocation in all his jobs.

Helmer was a member of the Royal Canadian Legion, the Elks Lodge, and the Masonic Lodge. He gave generously of his time and service to the community and was always happy and willing to lend a helping hand to anyone.

Thankful for his life and treasuring his memory is his family: his wife Hazel; his son Sanford and wife Betty with their children, Billy, Rocky, and Danny; his daughter Barb Morken and her husband Doug and their children Ian and Travis; and his daughter Connie Kausser, her husband Lance and their children Robin and Jay. All live in the Viking area.

Members of Helmer's own family still living are his brothers Ernest, Julius, and Leslie, and sisters Esther McLaren, Jean McIlroy, and Anna Helmer. Helmer was predeceased by his parents, Hans in 1950, and Anna in 1967, and by one brother, Lloyd in 1978.

Helmer suffered a severe stroke on July 2, 1980. He was transferred to hospital in Edmonton and lived long enough to regain a measure of peace and composure. He died quietly on July 18, 1980.

Rest eternal grant him, O Lord, and let light perpetual shine upon him.

Dole Zek and Kim Koppel were united in marriage on Saturday, July 19th with their wedding dance in the Viking Hall.

Echo Rodino

Minced from last weeks news was that Effie Graham of Surrey, B.C., and Doris Faulkner of Watsikwin were visitors to the home of Harriet Faulkner.

Mr. and Mrs. Bob Williams took in a day of shopping in Edmonton.

Mr. and Mrs. Everett Greenwood and Lottie took a few days off and traveled to the Moose Lake and Bonney Lake areas for some fishing.

Sorry to hear Ray Johnston had to spend a few days in hospital.

Several people from this area took in the three day homecoming in Kinisla. A good time was had by all according to reports.

Marvin and Joe Holt traveled to Oyen over the weekend to take part in a ball tournament there.

The Bauer family had the pleasure of Mr. and Mrs. Henry Beckett of Williams Lake, B.C., and Mr. and Mrs. Henry Vandervate of Barhead as weekend guests.

Currie Hopper of Edmonton, and her daughter, Dorcas were guests at the Robert Heller home.

Get well wishes go to Mary Ann Holt, who is presently a patient in the Mannville Hospital following a car accident which took place over the weekend.

Mr. and Mrs. Marynn

Some deep-sea creatures can live under great pressure because the pressure inside their bodies equals that outside.

Alan Rabby and Jack Carl were married on June 21 at Holy Heart of Mary Roman Catholic Church in Viking.

Parkland Nursing Home News

To see Mrs. E. Campbell were Joy and Melvin Cole from British Columbia. Andy and Audrey McKeith also visited from B.C. Also to see Mrs. Campbell were Faye, Lloyd and Walter Campbell.

Larry Rittland was happy to see Clara Slater, Helmer Olsen, and Otto Aarum.

Johnny Kelsen from New Westminster, B.C., came to see Mr. Rittland also.

Bea Fredericks and Bea McMoran were in to see Mrs. Fredericks.

Mr. Murray enjoyed a visit from Mason and Lois

Davis, and Robert and Vinny Witan, all of British Columbia. Mary West and Mr. Murray enjoyed a pleasant visit together. G. Lee, Bill, and Ethel Reer, Henry and Ruby Prentiger and Cora and Lora Bleasly were also in to see Frank Murray.

Visiting Mr. Laube were his relatives, Reuben, Benja, Kinky and Laurie Laube. Mr. and Mrs. E. Freeman dropped by to see Mr. Freeman. Maude Seiler also so visited with Mr. Freeman about the ladies.

Dora Cartwright was pleased to see Ann and Armond Cartwright and Glenda Adams.

Mrs. Ward was overjoyed to see her grandchildren, Heather, Mark, and Robbie Teed. Ross Ward was also in for a visit.

Staff and friends send get well wishes to Mr. Brinner, who is presently in the hospital.

We would also like to thank friends for bringing in vegetables and fruit. We enjoyed them very much.

Wheat Pool Says U.S.S.R. Adversely Affected

In January of this year, the United States Government suspended U.S. grain shipments to the Soviet Union above the 6 million tonnes permitted under the U.S. - U.S.S.R. Grain Agreement. It affected approximately 13 million tonnes of U.S. corn and 4 million tonnes of U.S. wheat. The suspension was initiated in response to the Soviet intervention in Afghanistan and has political and economic implications for the U.S.S.R., the U.S., and the other major grain exporting countries.

Canada, Argentina, Australia, and the European Community agreed that

their respective governments would not replace the U.S. grain embargo to the U.S.S.R. Although the Soviet Union disallowed grain sales to the Soviet Union by the private trade in their countries as well. In response to private traders in Argentina, the U.S. government recently allowed U.S. grain companies to ship U.S. grain to the Soviet Union.

Prior to the embargo, the United States provided 20 per cent of the Soviet Union's grain requirements for 1979 - September 1980

at 36 million tonnes - 25 million tonnes from the U.S. and 11 million tonnes from other countries. It is currently estimated by the U.S.D.A. that the U.S.S.R. has been able to replace 6 million tonnes of the 17 million tonnes of U.S. grain embargoed, resulting in a net decrease of 11 million tonnes of grain than otherwise would have been imported. What effect has the grain suspension had on the U.S.S.R.? The effects of the suspension are being felt by the U.S.S.R. now, before their own grain supplies become available later this summer and fall. The internal Soviet situation is compounded by a

Western Canada's dry conditions notwithstanding, current conditions suggest that world grain production this year will be average or below average. In the Soviet Union, relatively good climatic conditions have prevailed so far this year and indications are for grain output of 180 to 200 million tonnes. It is generally agreed that the U.S. grain suspension adversely affected the U.S.S.R. in two ways, one more readily known. In the coming years it seems logical to predict that the U.S.S.R. will import as much grain as it can with a view not only to replenish low grain stocks but to decrease their vulnerability to future poor harvests or restricted grain supply.

The project will be advertised for tenders in early August, and take about 18 months to be completed. The size of the site is 80 meters by 100 meters. Anna Sharbach

Holden And District News

The Holden Hockey is the Hi-Way 14 champs for the 1980 season. They defeated Ryley in the semi-finals, then went on to defeat the Holden Keggars in two straight games to win the final.

On July 20, the Review won the Bruce Fastball Tournament, defeating the

Holden Keggars 7 to 1 in the finals of the "A" event. Members of the winning team are: Darrell Malick, Dave Tascy, Bill Shylo, Roger Shylo, D. Shylo, Wayne Oprodnick, Marcel Zowick, Pat Rawlins, Gary Shinko, Dale Urzay, Leon Romankin, Gary Pockyn, Neil Dewart, Brad Scherger, and Neil Shebelski.

Cheryl and Ron Chevalier of Edmonton, formerly of Holden, have been receiving congratulations on their first born, a son. Grandparents

Tenders Called For Holden Lodge

The Alberta Housing Corporation has called for tenders for the construction of a forty-four bed senior citizens lodge for Holden. The tender documents are available from the office of the architectural firm involved, Holden Halden Architect Ltd. of Edmonton.

Approval of the plans for the project was received at the July meeting of the Holden Village Council. The construction of the project is expected to take about a year. The facility will be about 80 meters by 100 meters.

Year Round Macs

High-quality McIntosh apples may soon be available year-round thanks to research at Agriculture Canada's Kentville N.S. Research Station. Scientists at the station have developed an apple storage system that increases storage life by 80 per cent. It also results in Macs coming out of winter storage with a flavor and quality similar to just-picked fruit. Storage systems now in use can only keep McIntosh apples for about six months.

Record Shipments

Two Vancouver grain terminals are well on their way to establishing handling records. Alberta's West Coast terminal and Pacific Elevators Ltd. each will reach a handling of 100 million bushels before the 1979-80 crop year ends July 31.

Alberta West Coast general manager, has repeatedly stated: "The West Coast terminals have never really been tested." They may not have been fully tested this crop

year either, but have demonstrated beyond doubt that they can do well if given the proper volume of grain. An extra burden was placed on the terminals located on the south shore of Vancouver Island when the Canadian National B.C. Narrows railway bridge was knocked out of commission last October 14, effectively cutting off grain shipments from the terminals located on the north shore. The bridge was out of service for 144 days. The terminals located on the south shore welcomed the extra challenge of handling

higher volumes and consequently, the two terminals will establish a West Coast record. Their performance speaks very well for continued high volumes of grain handling through West Coast ports to meet the continuing demand of increasing Canadian grain exports.

In a statement recently, Gary Dewar, director of

terminal operations in Vancouver, paid tribute to the many working segments including the organization's own staff and those of the Canadian West Board during a time of stress. Mr. Dewar said he was pleased with the performance of the terminals and the dedicated continued support to establishment of new export records.

Mainstream Canada

A Problem for Farmers

By W. Roger Worth

Consumers are quick to complain about rising food prices, many times blaming Canada's farmers.

Yet most city dwellers simply fail to understand the problems and are involved in producing the crop that feeds the nation.

Canadian to spend less on food than people in most other countries. Even now, farmers are getting set for the barrage of criticism that is bound to follow expected food price increases as a result of the year's disastrous drought in Western Canada.

Roger Worth is Director, Public Affairs, Canadian Federation of Independent Business.

Here's what's happening in the West as the agricultural community attempts to contend with hardship created by the latest Prairie summer in 19 years.

* This year's wheat crop will be down 25% - 30% compared to 1979, probably driving up the price of many foodstuffs by 15% - 20%.

* Many farmers have already plowed under crop and reseeded with livestock feeds such as grain and corn. Now they are praying these crops won't be killed by an early frost.

* Those in the beef industry have been selling off parts of their herds at rock-bottom prices because they can't find or afford to feed the animals. This has driven down beef

prices. Scotland was called Caladonia by first-century

prices for consumers, but in the longer term prices are bound to rise.

* Dairy farmers are in a real bind. They are forced to pay as much as \$3 for a bale of hay that normally sells for \$1, making many operations money-losing propositions.

A lot of consumers believe farmers are fully protected by crop insurance and other government subsidies. That's a myth. Such programs normally cover only the cost of fertilizer and chemicals needed to make the crop grow.

In fact, it is clear that many Western farmers will lose their shares, if not their land, in this year of the drought.

All this is perhaps as it should be, with those in the agriculture business accepting larger losses in a bad year.

But Canadian consumers should keep this summer's problems in mind when food prices rise. For if farming doesn't remain a profitable endeavor, we will all suffer.

feared. The Horseshoe Tournament once again proved to be a crowd pleaser, with some newcomers stealing the title.

L. Griffith and L. Smith of Lethbridge walked away with all the hardware plus the prize money. Last years champ Cecil Stevenson got knocked out early in the A event, Butler and Frynpan took the B event, while Wilkinson and Frynpan Jr. captured the C event.

The free-for-all race was won by a horse owned by Johnny Wemp and ridden by Johnny Harry. There was only one entry in the Pony race.

The pony chuckwagon races were another popular attraction with twenty-four wagons competing. At this time a list of prize winners is not available.

Business was brisk at the food stands, and approximately one thousand people lines up for the beef barbecue.

A small crowd attended the Saturday afternoon gymkhana and the team roping in the evening.

Over all high point winner in the gymkhana was Janet Patriquin of New Sarepta. She also placed first in the Junior. Timmy McKinney of Salisbury Saddle Club captured high points in the men's competition, with Marie Ostrom of the same club the winner in the ladies competition. Intermediate high point winner was Patty McIlvane of Wintburn.

The roping event was won by Lawrence Simmons and Brian Husak, who took home trophy buckles donated by Dave Laing.

Throughout the evening a few adults and children strolled around the midway, and some stayed on to see the fireworks.

Things were livelier at the Recreation Centre, where some 800 people lifted up their heels to the music of the Joyce Smith Entertainers, and witnessed the crowning of the Queen at midnight. Last year's Queen, Rhonda Haselkop of Oshon, was present to relinquish her title to Kimberlee Maloway, the winner of the 1980 queen contest. Su

Discovery Train To Visit Vegreville

On May 7 in Valleyfield, Quebec, this is the third year of operation for the Train, the major travelling exhibition of the National Museums. The first 2 years saw nearly 1.4 million visitors come to the Discovery Train in approximately 65 communities across the country.

The Train has visited Vancouver Island, Prince Edward Island, and Newfoundland. It has been as far north as Churchill. The 1980 Tour has 85 Canadian communities including several sites in Alberta and Saskatchewan in conjunction with their 75th Anniversary celebrations as Canadian provinces.

The Discovery Train itself is a story of cooperation. To Train, which displays both the natural and social history of Canada, uses rail cars which originally housed

the Canadian Freedom Train. The American provinces purchased the equipment after the American Bicentennial and turned it over to the National Museums developed the exhibit and now operates the Discovery Train.

Assistance has come additionally from the private sector, including the Royal Bank, the Great West Life Assurance Company, Labatt's General Motors, CN and CP Rail, the Devonian Foundation, the Richards Iron Foundation and the MacDonald-Stewart Foundation.

ARS
Summertime is a good time to take in various activities that are happening in and around our country. Some events that should be worthwhile are as follows:
Lacombe Research Station Field Day - August 14, 1980, at 1:00 p.m. at the Lacombe Research Station. This is a great opportunity to view new and existing grain varieties, foreign species, weed control studies and zero tillage will be featured.
Ray Stuckie's Combine Chase - August 12, 1980, at 9:00 a.m. to 4 p.m. at the Chateau Dining Hall, Vegreville. Mr. Stuckie, a noted authority on combine adjustments and modifications, will be discussing his opinions on such areas which should prove to be most informative. Fee \$20.00, advance registration is a must. Send notices to Vegreville Exhibition Association, c/o C.P. Makin, Box 290, Vegreville, Alberta, along with name, address and phone number. Registration deadline, August 6, 1980.
Pairs Through The County August 7, Viking Fair August 20, Rysley Fair August 20, Rysley Fair. If any further information is required, give us a call at 363-3500.

Gas Barbecues - A Burning Issue

The latest addition to family barbecues and picnics is the gas grill, which operates somewhat differently than its charcoal counterparts and hibachis. Accordingly, there are a number of added rules and cautions to follow when using them. These nine easy-to-follow tips will help to ensure a safe, pleasurable and relaxing summer of great outdoor cooking and eating with a gas grill.

First and foremost, be sure your model is certified by a Canadian nationally recognized testing agency. Before the barbecue season

gets underway, check the hose for holes, leaks and faulty connections. Thoroughly clean all equipment. Remove grease build-up or dirt, sand and cobwebs which may clog the hose. Place the grill on a firm, level surface, out of the way of family traffic. Barbecue only outside in a well-ventilated area. Do not move the grill with the gas on or the lid up.

When lighting the grill, always open the lid, and light the match before turning on the gas. Check the manufacturer's guide for any special instructions. Do not operate the barbecue in damp or wet weather.

When the grill is not in use, always turn off both the control knob on the grill itself and the shut-off valve at the source of the gas. This is strongly recommended with a natural gas piping system, but critical with a propane cylinder.

Trim excess fat from meats, drain off any accumulation of fat in skillets and grids.

If flaring becomes too intense to control by usual procedures, turn the grill off and close the lid.

Never leave food unattended, or at least keep it in sight. Remind children that the grill is hot, and insist they stay, and play, well back.

Sharon Lutheran Church Celebrates 70th Anniversary

"Enter His Gates with Thanksgiving," Psalm 100:4. On June 29 and 30, 1980 members of Sharon Congregation truly entered His gates with thanksgiving, as the rain changed to sunshine enabling many former church members and friends to join in the celebration.

Because of the recent rain the Sunday School picnic on Saturday afternoon had to be held in the Irma School auditorium where young and older participants enjoyed a fine social time. It was a joy to see visitors arriving from Camrose, Edmonton, Claresholm, Blackfoot, Penitence, and Toronto.

Saturday evening at 7:30 a youth service was held at the church with Mr. Gordon Hollinger presiding. It opened with the enthusiastic singing of the theme hymn, "Let All Things Now Living." Special music consisted of a vocal solo by Vickie Nilson and an instrumental by Carolyn Erickson, Camrose, and Carrie Lien and Sylvia Kasek.

Pastor Lawrence Likness gave a challenging message relating to worship based on Psalm 100. Due to not being able to attend the following day, Mr. Ivor Saugen, a former pastor's son, gave a greeting on behalf of the Saugen family.

The church was lovely with special floral arrangements, one being a gift from Trinity congregation. The delightful anniversary booklets and beautiful souvenir plates picturing Sharon

Church, which had been sketched by Mr. Lorne Puder, were in great demand. Worshipers packed the church for the Sunday morning service with communion. With Mrs. Della Nilson as organist, Pastors H. Kapelka and R. Nierbergall, and Mrs. Lars Knutson, a former pastor's wife.

A duet by Pastor and Mrs. Likness, and a solo by Mr. Gordon Hollinger added much to the service.

A beautiful dinner for all worshippers happily served by Trinity L.C.W. made possible another hour of friendship renewals and visiting. A most interesting display of old photos, clothing and a number of friendship quilts added a great deal to recollections of former days.

The afternoon service began at 2:30 with words of welcome from President Ralph Erickson. Mr. Norman Fluevog read a portion of a scripture and offered a prayer of thanksgiving.

As Sharon Congregation had received a grant from Alberta's 75th Anniversary Fund, Mrs. P. Anderson and Lynn Milne representing Alberta's 75th Anniversary Commission were in attendance.

Mrs. Anderson brought a greeting from the government, and also expressed her thanks and assurance that she would never

forget this memorable afternoon. Other greetings were given by Alex Smallwood, representing the M.D. of Wainwright, and former Pastor's Kapelka and Nierbergall, and Mrs. Lars Knutson, a former pastor's wife.

Two flags, the Alberta flag sent by the 75th Anniversary Commission and the Canadian flag donated by Mr. and Mrs. G. Hollinger contributed much to the festivities as they waved in the breeze from their positions on each side of the gate.

The sanctuary itself looked very festive with its beautiful new front door paid for by the grant from the Alberta government, and an identical side entrance door given as a memorial by Mrs. Elva Spurgeon.

Sharon Congregation looks forward to the coming of the Rev. George and the Rev. Carol Quilty, who will serve the Sedgewick parish. The last 70 years have testified to many blessings. May we continue to enter His gates with thanksgiving in our hearts and on our lips.

A number of presentations were made to: 1. Mr. Under, Steffen, only living charter member, who celebrated his 96th birthday in May.

2. L.C.W.'s oldest member, Mrs. Tina Gubras, now in 92 years.

3. Mrs. A. Belian, church organist for over 40 years.

4. Mrs. Doris Likness, Bible class teacher also for over 40 years.

5. Pastors Satre and Likness, sons of Sharon Congregation in the Lutheran ministry.

6. To visiting pastors: Stole, Kapelka, and Nierbergall, and also Mrs. Lars Knutson.

7. Mr. Gordon Hollinger, the first boy baptized in the newly built church, 1910.

8. Mr. Ken Reiten, from the first class of confirmation.

9. Mr. and Mrs. Lawrence Puder, the first couple to be married at Sharon, Nov. 10, 1940.

Coffee and continuing fellowship brought the anniversary days to a happy conclusion. Two beautiful cakes had been made and decorated, one with a replica of

Sharon Church, and the other the physical shape of Alberta to honor its 75th Anniversary, by Mrs. Faye Lind, Mrs. Tina Gubras cut the church cake, while Lynn Milne cut the Alberta cake.

Irma News And Views

Jason Dulchuk from Red Deer is spending a holiday with his grandparents, Helen and Alex Smallwood.

At approximately 1:40 a.m. on Monday, July 28, the Irma fire alarm sounded and the volunteer fire fighters turned out to investigate a house which had recently been repaired and painted after being damaged by a fire a few months ago.

The fire was well started when the fire fighters arrived, and by the time the fire was brought under control, the damage to the house was extensive.

We have been told that the tenant was absent, but have also heard that there was a light in the house and a car outside shortly after midnight. The house was owned by Mr. and Mrs. G. Hollinger contributed much to the festivities as they waved in the breeze from their positions on each side of the gate.

The sanctuary itself looked very festive with its beautiful new front door paid for by the grant from the Alberta government, and an identical side entrance door given as a memorial by Mrs. Elva Spurgeon.

and hit an approach over the weekend. Two have been released from hospital, and the other two are still in hospital being repaired.

A correction from last week's paper - the name should have been Kenny Verr, not Kenny Verr. Our apologies for the error.

Lorna and Eddie Jackson visited last week, who is stationed at Langenburg, Saskatchewan. They then went on to Wainwright to visit Noreen and possibly to Brandon to visit Phyllis and the boys.

Irma Days celebrations commence on Saturday, August 2, and continue for three days, until August 4. We are looking forward to a good crowd, and the return of many former Irma residents to whom invitations have been sent.

We have just heard the sad news that Bill Belton's daughter had a serious accident, but he is being treated at a hospital while awaiting a liver transplant.

Mrs. Kate McLean is in visiting hospital, and we were glad to hear that she is improved. Best wishes for her health and happiness, Kate!

Mr. and Mrs. William Pauls from North Dakota spent several days with Mr. and Mrs. Albert Knudson. William is a nephew of Marie Knudson.

The Nissen family enjoyed a visit from Audrey's Aunt, Mrs. Alice Mackay of Coquitlam, B.C. and her daughters, Mrs. Pat Ferretti of Coquitlam, and Mrs. May Ferretti of Coquitlam.

They spent two days in Irma and journeyed on to Kinross for homecoming celebrations.

A reminder of the non-denominational church service on the Fair Grounds on August 3 at 11 a.m. with a pot luck dinner immediately afterwards. Cannon Lee Thurston is the guest speaker and Rev. Ann Gowans (new minister of the United Church) will give the invocation.

There will be special music with the Community Choir and brass quintette. The pot luck dinner will be served in the arena. Tea and coffee and a cold drink will be provided. Please bring your own cutlery and reusable cups and plates, enough for your own family.

Extra lawn chairs might be needed. Come and take part in the church service and visit with your friends at dinner.

Another good service! Please be there and see how good and how much fun it can be!

P.S.S. Update

Preventive Social Services staff have been kept busy for the past while. A number of projects are underway, and more are planned for the near future.

1. Community Directory: Brenda Rausser has been contacting local clubs and organizations to get information. The directory will be ready by September, and will be available at a minimal charge to the public.

2. Student Employment Service: Karin Otto is in charge of matching employers with students for summer jobs. Articles explaining the service appear in the paper regularly.

3. Child Development Society: The P.S.S. Director acts in a consultative capacity to this group; planning projects, liaison with government services, information, etc. On July 22, a meeting was held with Town Council.

P.S.S. Board, Recreation Board, and the Child Development Society to clarify some issues and exchange information. The Child Development Society is having a perogee dinner on Sunday, September 14.

4. Canada Unity Committee: The community picnic on July 1, was a real success, with participation

from many groups. The committee is planning to sponsor some other events to keep the people of Viking in touch with our twin town.

Uleary. Late August or early September will see a "Paint-In," with the resultant work being sent to Uleary.

5. Senior Citizens Forum: The P.S.S. Director, members from other agencies, plus a committee of seniors are planning a Senior Forum for October. This program will include information on grants and services available to seniors, discussions and plans for programs and services in Viking, including transportation, handicrafts and home help.

6. P.S.S. will have a booth at the Fair on August 7, with pamphlets, pictures, questionnaires, etc. If you have questions or ideas, please stop by to see us. Deborah Taylor P.S.S. Director

The Arabian horse, believed to be the first true domesticated breed, developed in Mesopotamia and North Africa.

People sometimes forget. Medicine labels never do.

It's easy to forget even the simplest things: like a birthday or a phone number.

And usually it doesn't matter.

But with medicine—how much to take, how often, even when not to take it—it really matters if you forget.

That's why all medicines—prescription and non-prescription alike—have their directions on the label. To help you make sure you're taking it right—so it works right for you.

That's too important to trust to your memory—or to anyone else's.

Read the label instead.

Don't trust your memory. Read the label.

Irma Fair Successful In Spite Of Adverse Weather

The big news in Irma this week was the coming home of many former residents. On Friday it seemed as if everyone in Irma was busy and in some instances far into the night decorating floats, cars, etc. was taking place.

Saturday morning started off with heavy rain and gusting winds and the more pessimistic threw up their hands in despair. They were sure it was going to be an all day rain. However, in spite of the rain a good number attended the pancake and sausage breakfast. Coffee, compliments of the Bank of Montreal was dispensed by Dick Milton, Ron Thurston, Gayle Sourcy and a group of willing helpers.

While breakfast was underway the skies began to clear and by about 9:45 the sun broke through from the clouds and the streets came a live of activity.

Preparing for the parade which moved off from the front of the hotel at approximately 11:00 a.m.

It was easy to see that this was going to be a really big event, led by the famous Irma School Band. The parade was indeed impressive and was the result of a great deal of effort by young and not so young.

Your correspondent drove a car in the parade and as a result did not see it all. However after it was over everyone I met was unanimous in their opinion that the best parade in Irma's history.

The four horse outfits with the show harness glancing were grand to behold. The saddle horses and ponies all looked good. The great team of black ones and the covered wagon took the thoughts of the old homesteaders back to the days when oxen were almost the only power in use on the homesteads.

The Strawberry Plains W.I. served a record number of cold plate dinners. Quite a number of seniors and others carried their plates across the street and ate in the Drop-In where a minimum staff provided pie and coffee.

The fashion show in the arena was quite entertaining and drew much laughter. The handicraft exhibits in the school auditorium were of a very high quality and were much admired.

The Interdenominational church service in the arena on Sunday, August 3rd was attended by a crowd estimated at from 450 to 500. The pot luck dinner, the conclusion of the service was well patronized and a most enjoyable social Continued on page 9

Viking Fair Plans Set

Fair time is here once again, and a multitude of activity has been planned to keep everyone entertained at this year's Viking Fair.

The day will begin with a pancake breakfast from 7:30 to 11:00 a.m. in the Community Hall. The parade will then take place at 1:00 p.m.

House exhibits will be open to the public at 9 a.m. and livestock judging will begin at 9 a.m. in the Caravan.

The parade will go at 12 noon, rain or shine. The parade will start at the school grounds and move south down Main Street.

The parade will then turn west at the Texaco and proceed down Railroad Avenue as far as the Gas station. It will then go north as far as Seventh Avenue, where it will turn east past Parkland Nursing Home and the Vista Lodge. The parade will then go north on Main Street to the hospital, and then back to the school grounds.

The Pet Show will be held at 2:30 in the afternoon. This always proves to be a real crowd pleaser and shouldn't be missed.

Throughout the afternoon a 75th Anniversary Display will be set up in the hall.

Other activities for the day include the 4-H Trail Riding and Reining Demonstration, a demonstration of cultivation equipment and a family theatre.

A barbecue supper from 4:30 to 7 p.m., and a dance from 9:30 to 1:30 will round out the day's activities.

Olympics Come To Prague

As part of Alberta's 75th Anniversary celebrations, Prague will be holding a homecoming, and for the own version of the Olympics on August 7th.

The day events will start at 1:30, and organizers promise there will be

activities for all to participate in.

For those who just wish to sit and relax, there will be bingo, and for the bidders, a free Merry-go-round.

At 5:30, there will be a free wicker roast and supper, and for those with some energy to spare, there will be a free dance from 8 to 11:30 p.m.

The day promises to be fun filled with something for everyone, so come home to Prague, and join in the Olympics.

Irma Team Wins Gold Medal

The Irma Pee Wee B team travelled to Calgary on July 19 and 20 to compete in the Provincial softball play-off. There were two Calgary teams - Herliags and Kilarney; Edmonton, Lethbridge, Red Deer and Irma.

Irma's first game was played at 1:00 p.m. on Saturday against Edmonton, with Irma winning after five innings of play.

The lopsided score favored Irma by a 31-1 margin. The boys then drew a bye and didn't have to play again until 9:00 a.m. on Sunday. This game being against the Lethbridge competitors also proved very exciting.

The Irma team, again playing excellent ball again came out the winners. This time the score was 10 - 4. This win put them in the final game against Calgary's Kilarney.

In this game the boys were playing well and the score was 10-1 until the 5th inning and then they let Kilarney bring in eight runs. Irma then changed

pitchers and the boys settled down and went on to win the "Gold Medal" defeating Kilarney 13-9.

After the two teams shook hands the boys were called onto the field and congratulated on their playing and were presented with medals. Kilarney receiving the silver and Irma receiving the gold.

Coaches John Gani and Jerry Mark also received medals as well as the team and accepting a medal for Robbie Hinton who was unable to be there.

The Irma team was also presented with a plaque which read AASA (Alberta Amateur Softball Association) Pee Wee B Champions 1980.

The following boys all participated in the Calgary tournament: Randy Ganie, Tim Ford, Len Pirkus, Darcy Lemieux, Len Mark, Doug Fischer, Robert Holt, Ronnie Boonhower, Daryl Archibald, and Steacy Fuder. Absent from the team for this play-off was Robbie Hinton.

The Robert Ash family of Viking was honored as one of 25 Farm Family Award winners from Northern Alberta at Klondike Days in Edmonton recently. The Ash family, shown between K-Day dignitaries, consists of (l. to r.) Marilyn, Ellen, Lila, Robert, Bobby and Patricia.

National Advertising Representatives:

Better Government

A report in the Edmonton Journal a few weeks ago discussed the preparation of a report by the Public Affairs Bureau of the Government of Alberta concerning the need for a public relations campaign to upgrade the public image of the Loughheed government. The report noted that such a campaign was necessary both on the Alberta and Canadian fronts.

A fascinating aspect of this report is the knowledge that a government department could become engaged in a campaign to enhance the public image of a political party. Some politicians would agree that this was not so, that only the image of the Government of Alberta was being discussed. Yet this image is created by those people who wield the power in government. The report discussed the poor public relations inherent in the handling of the 75th Anniversary celebrations and the immense funding involved. Yet these problems can only be associated with the policies of the present party-in-power, and not with the over all government of Alberta.

An interesting item associated with this story is that some backbenchers in the Loughheed government are reportedly concerned with the image of the present government. These backbenchers are mainly those who won close battles in the last Provincial election and fear for their chances in the next if the image of the Loughheed government doesn't improve. The fear is that problems such as those occurring in the Social Services department will linger on to haunt those people who aren't assured of election next time. The concern which these people have can only be alleviated by the people in their party who hold the political power in this province.

A representative democracy is based upon the right of citizens to freely choose individuals to represent them in the decision-making process in regularly scheduled, free elections. The choice of the citizen must be based on information gathered from as many sources as possible. But one of the sources which must not be involved in providing the information upon which this political decision is made is the Public Affairs Bureau of our government. It is there to provide the people with facts and information, not to attempt to doctor-up the image of our politicians. The best way for the party-in-power to enhance its image is to provide better government, not just in an election year, but all year, every year.

Letters To The Editor

Dear Sir:
On July 24, the County of Beaver Councillors met with members of the Viking Child Development Society at their regular meeting to discuss the possibility of requesting financial assistance for the proposed Child Development facility.

One of the questions posed by Mr. Cross was as to where the committee expected the County to secure funds in the amount requested.

Naturally, not being familiar with County budget allocations, contingency funds or general revenue allocations, the committee was at a disadvantage at suggesting methods for absorbing such unexpected emergency appeals for assistance. However, we all know that within governmental administrative bodies, such as the County, there are definite means of reallocating categories and implementing budget transfers appropriately for situations when the need has definitely been ascertained, as in this case.

Just as a matter of interest, what tax increase would be involved to cover the 20 per cent (or \$25,000) capital expenditure by the total number of County residents of the surrounding area of Viking? It would be considerably less if absorbed by the total County budget.

Another possibility may be the revenue generated through the sale of the teachers' houses within the County. Were these amounts included when the 1978-80 budget was struck? Then, too, the \$10,000 granted to the Town of Viking Anniversary Committee was an unexpected gift from the Provincial Government to the people of Alberta - at no expense to "County Coppers".

Facing the financial question is a deliberate stall but again depicts the problem Viking area residents are faced with by the reluctance of the County to assist and promote progress within the Town of Viking, and the east end of the County.

The Child Development Society may not have been faced with approaching the County for financial assistance if in fact, last March 1979, had the information from the Preventive Social Services Department been

forwarded to the former Viking Day Care Group when the Provincial Government was preparing to phase out support for child care services in Alberta. The Provincial Consultant had contacted the Ryley office regarding interest in and necessitate Child Care.

Looking to the future, and the possibility of other County Communities requesting assistance for similar projects should pose no problems for the County Councillors, if comparable requests demonstrating need, tabulating surveys and presenting a convincing proposal are met.

Council should possibly be looking at allocating some monies for these programs in the near future - these services are becoming a necessity within our changing society.

Further to the refusal there is support from the County, is the shocking matter that three out of the five Councillors present July 24 were the Viking area representatives (at least they weren't out for coffee), who could have displayed more favorable support of the presentation itself.

How much of our tax dollars are dispersed for the support of unwed mothers, mischievous vandalism, etc., not to mention the frustrations and heart aches of parents and children involved.

We do not expect everyone to be supportive of child care, and it's related programs, but isn't it worth attempting to provide this service to those within our communities who would benefit from them?

The escalating cost of living demands many young homemakers and women of the extended family (Grandmothers, Aunts, etc.) to work part time in order to supplement the family income and pay taxes.

Looking to the future, and the possibility of other County Communities requesting assistance for similar projects should pose no problems for the County Councillors, if comparable requests demonstrating need, tabulating surveys and presenting a convincing proposal are met.

Council should possibly be looking at allocating some monies for these programs in the near future - these services are becoming a necessity within our changing society.

Weekly Police Report

During the past week the Viking Detachment of the R.C.M.P. charged one person with impaired driving, and handed out two \$4 hour driving suspensions.

The detachment also investigated two motor vehicle accidents. No injuries were sustained in either accident.

On Tuesday, August 29, the Viking R.C.M.P. were called to investigate a Break and Entry at the Viking Drug Mart. It has been established that approximately \$200 worth of drugs were taken. The incident is at this time still under investigation.

The Viking R.C.M.P. attribute a rather short report to the inclement weather this past week-end.

1980 4-H Conservation Camp Held

Young Albertans met recently at the Silver Creek Ranch in Water Valley, to investigate the 4-H Conservation Camp theme "Five is One."

This year about 20 members from Alberta, including six from Montana, who have a genuine interest in the environment and responsible planning for tomorrow, earned to assess and design what is meant by the term "conservation."

Five major environmental topics were offered to delegates who studied two of the areas in depth, and were exposed to other various group activities which are in an important part of the camp.

Experts provided instruction in conservation and management of resources, including water, soil, range forage, fish and wildlife, and

forestry. Emphasis during the camp was on the interrelationship between these areas. "Five is One."

For the second time in its 15-year history, the camp was held at Silver Creek Ranch, an ideal setting for a conservation camp because of its proximity to water, forests and wildlife resources. Numerous field trips allowed during the week allowed campers to see some of the beautiful ranch setting in Water Valley.

The camp is sponsored each year by two major Alberta utilities; Alberta Power Ltd. Their sponsorship is in recognition of the camp makes to young people and all Albertans in its promotion of good conservation techniques for our natural resources.

Allocations Made For Community Development Projects

Employment and Immigration Minister Lloyd Axworthy announced recently

that federal Alberta contributions will receive a total of \$2.12 million under the \$103.5 million Canada Community Development Projects program.

A basic allocation of \$100,000 goes to each of 21 Alberta constituencies, with an additional Native allocation totalling \$1.02 million for constituencies with a significant Native labor surplus.

Mr. Axworthy said that applications for projects in specific identified areas of activity which support broad national and regional priorities would be stressed, with an emphasis on the longer-term impacts to be derived from them.

Complete information about the program will be available at all Canada Employment Centres and Employment Development Offices within a week. The deadline for receipt of applications in September 29, with projects expected to begin operation as soon as possible after November 17, 1980.

The allocations, by constituency, are as follows: (thousands of dollars) - Athabasca - 374; Bow River -

364; Calgary Centre - 175; Calgary East - 136; Calgary North - 117; Calgary South - 115; Calgary West - 125; Crowfoot - 100; Edmonton East - 188; Edmonton North - 123; Edmonton South - 114; Edmonton Strathcona - 130; Edmonton West - 150; Lethbridge-Foothills - 180; Medicine Hat - 100; Peace River - 186; Pembina - 107; Red Deer - 100; Vegreville - 141; Wetaskiwin - 141; Yellowhead - 145; Provincial Total - 3,120.

DEMONSTRATION OF CULTIVATION EQUIPMENT

Homecoming For Steam Locomotive 6060

One of Alberta's grand old iron maidens is returning home to stay in time for the province's 75th Anniversary celebrations. Canadian National Railway's Engine 6060 - otherwise known as Bull-headed Betty, will come steaming into Alberta sometime in mid-August.

Acquisition of Betty, the CNR's last operating steam engine, was announced recently by Transportation

Minister Henry Kroeger. CNR donated Engine 6060 to the provincial government, which in turn is giving it to the Alberta Pioneer Railway Association. The province is also granting monies to the association for construction of a storage facility in Edmonton, and limited assistance for 6060's operating costs in 1980-81.

The association will operate the train and four of its own passenger coaches, in conjunction with community

activities in Camrose, Stettin, Drumheller and Hanna. Engine 6060 was built by the Montreal Locomotive Works in October 1944, one of the last steam locomotives built for CNR. The oil-fueled engine was used extensively on the Prairies until it was retired to a siding in Jasper in 1962. It was restored to service in the early 1970's, and has been making tourist runs between Toronto and Niagara Falls since 1972. Betty will drive home in mid-August by engineer

Harry Homs of Jasper who did much restoration work on the engine. Under the auspices of the Alberta Pioneer Railway Association, 6060 will be located on the association's property north of Edmonton, and will be available for use by community groups on a cost basis. Only three other locomotives in the 6000 series have been preserved, and 6060 is the only operative steam locomotive of the series still running in Canada today.

"Alberta People" To Visit

"Alberta People" depicts a heartwarming musical entertainment, will be appearing in Viking on Fair Day, August 7, at the Viking School grounds (weather permitting, otherwise in the school gymnasium).

"Alberta People" depicts through song, dance and dialogue, the humorous tale of a new Albertan writer or composer, and discovering the rich and diverse multi-cultural heritage of the province.

This delightful family entertainment is coming as part of the Alberta '75 Festival of the Arts. The performance is presented by the Viking and District Agricultural Society, and admission is free. Don't miss it!

Pederson's Celebrate 50 Years

quartette a vocal, accompanied by their mother Pam at the piano and Bill Mattinson a vocal with guitar.

A host of congratulatory telegrams and cards were received from dignitaries and friends.

At this point, a delicious lunch was served, catered to by the Kinella W.I. followed by visiting and reminiscing.

To add to the joy of the day all the children and their families were present. Mrs. Jacqueline Pederson (Kinella), Allen, Fred, and Anne Meyer and Marlene (Kinella).

Dale, Carl and Kathy; Lois Joanne and Sherry; Carol and Tyler; Eya and Karen, Elaine (Westlich), Percy and Pearl Wilks, Corina and Graham (Viking); Bill and Joyce Mattinson, Rodney and Teresa, Bernard and Reid Lanning, (Viking) Fred and Anne Meyer and Marlene (Kinella).

All sisters and brothers of the bride and their families were in attendance with the exception of brother Charles and Lancaster who is ill in Dayland Hospital.

The word "church" is used in two ways in the New Testament, there is one church and there are many churches. The one true church is the Body of Christ, consisting of members from every nation, color, station, and denomination. It embraces every

born-again believer in this dispensation.

The Bible also speaks of "churches". These are local assemblies in which are found members of the one true Church. It is not a building or a denomination, but simply a group of believers worshipping in one place, in hut or hall, or home, or cathedral.

The awful, damning sin of bigotry is the delusion

Hearing is an essential part of the learning experience. Sounds help shape and direct our lives. When hearing becomes difficult, so does day to day living.

As hearing aid audiologists, we're working to make life easier by helping people to hear better.

Visiting Mrs. D'Arcy were Russell and Elaine Grant, and Mel Mackey. Victor Brigg visited his mother, Mrs. E. Brigg.

Visiting Mr. John Taylor were Ed and Martha Bell of Edmonton.

Bill and Marge Mason of Calgary visited Mr. Wm. Mason.

Shirley Zelanski of Edmonton called on Grandma Ash.

Other callers at the Lodge this past week were: Pita and Olea Peterson; Shelly and Olea Peterson; B.C. Jones Allen and family of High River; Gene and Ida Stone of Ban Marco, California; Linda Buldady of Donalds; Reihilda Ruff of Kelowna, B.C.; Margaret Stone of Edison; Audrey and Beanie Bissell of Victoria, B.C.; Dennis and Molly Barger of Edmonton; Marlene (Breaker) Pavia of Medicine Hat; Ross and Della Tait of Parkville, B.C.; and Edith Reishus of Pokoka.

Greetings to Mr. Carl Weller who is at present in the University Hospital in Edmonton, and to Mrs. Sorenson and Mrs. Wella in our hospital.

"Open To The Public Monday Noon"

Do You Know The Bible Says

By Mrs. W. Myer

born-again believer in this dispensation.

The Bible also speaks of "churches". These are local assemblies in which are found members of the one true Church. It is not a building or a denomination, but simply a group of believers worshipping in one place, in hut or hall, or home, or cathedral.

The awful, damning sin of bigotry is the delusion

you cannot join "the" church in that way. You must be joined to the true church by the new Birth.

Then you can "join" a local group, for fellowship, instruction, growth, and service.

It matters not what church you belong to, the important thing is, have you been joined to Christ, and do you belong to "His Body".

From The Ground Up

District Agriculturists

Bill Braas & Jerome Manchur

sprayed with malathion or Supracide and the beetles will be killed. The beetles will overwinter in the unworkable strip.

Broods of pupae We probably won't have a problem this year although in the past year or two the population will peak. The worms peak in their cycle every 2-3 years.

Our last peak was in 1971, so most farmers can remember. The worms overwinter 2-4 inches in the soil in the pupa form.

The pupa emerges in mid-June/July in the moth form.

The moth proceeds to lay eggs on the underside of leaves. The eggs hatch into light green caterpillars which become a vel

very black as they approach maturity. Ten caterpillars per square yard (12-15 per square meter) warrant control.

Keep an eye (ear) out for people phoning collect, and stating they are from agriculture agencies. All D.A.'s in Alberta work for the provincial government and don't make any collect calls. Therefore, don't accept collect calls from unknown people.

The trouble with farming is that it leaves so little spare time for profit and leisure such as robbing banks.

**Sign Language
Course Offered**

Basic Sign Language for communicating with deaf and hearing impaired is being offered in August at Imra. The class will be held at the Hugh Fleming residence sixteen miles north of Imra on Old Highway 861, from Monday to Friday, August 11 to 15, at 7:30 to 9:00 p.m. Theresa Fleming will instruct this August Class before going back to school for the day.

Imra News And Views

The Guitierrez family reunion was a gala event according to reports. Mr. and Mrs. Stan Bacon and children of Nepawin, Saskatchewan, spent a few days with Stan's mother, Mrs. Alice Bacon. Later they continued to Jasper to spend a short holiday before returning home.

Mrs. Dolly Hearn from Hardisty spent the long weekend with her old friends, Minnie and Jim Jackson and while in Imra renewed the acquaintance of many former friends and neighbors. She returned to her home on Monday evening courtesy of Joyce Harbellow.

Glen and Mrs. Armilage and daughter from Red Deer attended the Kinsella homecoming and while there met Mary and Bert and all the other Kinsella Armilages. They spent a night at Mrs. Stan Bacon and children of Nepawin, Saskatchewan, spent a few days with Stan's mother, Mrs. Alice Bacon. Later they continued to Jasper to spend a short holiday before returning home.

Points and standings in the Imra Minor Softball League are as follows: Steelers 9, B.N. Bears 12, Cardinals 11, Blue Jays 10, Games played: Steelers 11, B.N. Bears 11, Cardinals 12, and the Blue Jays 8.

Oracheski - Tomlinson Exchange Vows

On Saturday, July 14th, very pretty summer vows were solemnized by Father John Adamyk in the Holy Heart of Mary Catholic Church, Vitzke, when Mildred Gail, youngest daughter of Mr. and Mrs. Mike Oracheski and Dale Robert, eldest son of Mr. and Mrs. Hugh Tomlinson all of Imra were united in marriage.

Preceding the ceremony, friends of the couple Beverly Bell and Darlene Lockhart, dressed in similar blue gowns lit the candles at the altar, which was flanked with two baskets of pink and blue carnations and yellow mums. During the processional Miss Linda Klassen of Edmonton, a B.A.T.T. classmate of the bride and "Mrs. Debbie Oracheski, sister-in-law of the bride sang "Longer Than" accompanied by Mrs. Margaret Archibald, aunt of the bride and organist for the day.

The brides five attendants, Jennie King as maid of honor, Heather Baras and Tannis Trephuk, sisters of the bride as bridesmaids, Irene Tomlinson, sister of the groom as junior bridesmaid and Teri Lynn Baras, niece of the bride as flower girl were all dressed in blue jersey an-top-cape style dresses with patterned sheer short ruffles over top. They carried white lace fans with a spray of pink roses and baby's breath. The flower girl carried a tiny white of pink roses decorated with pink roses.

The bride dressed in a white jersey gown with attached train and lace-trimmed bodice with a sweetheart neckline and her trimmed tulle train. The groom wore a tuxedo, was given in marriage by his father. Her three quarter length veil and just cap were trimmed in lace and seed pearls matching her gown. Her jewelry was a two strand string of pearls, a gift from the groom. She also selected pearl earrings and a delicate gold bracelet a gift from the groom.

The bride's gown was a white jersey gown with attached train and lace-trimmed bodice with a sweetheart neckline and her trimmed tulle train. The groom wore a tuxedo, was given in marriage by his father. Her three quarter length veil and just cap were trimmed in lace and seed pearls matching her gown. Her jewelry was a two strand string of pearls, a gift from the groom. She also selected pearl earrings and a delicate gold bracelet a gift from the groom.

During the signing of the register Linda Klassen and Debbie Oracheski played guitars and sang "The Wedding Song". Following the ceremony, Mr. Marshall Tymofichuk photographed the bride and groom. At six-thirty the wedding party and their guests were ushered to a beautiful gold plate supper served by the Ladies of the U.S. at the Kinsella Memorial Hall. Linda Tomlinson sister of the groom and Cathy Oracheski, cousin of the bride were in charge of the guest book.

Mr. Norris Tomlinson uncle of the groom acted as M.C. Father John Adamyk asked the blessing. Accompanying the wedding party and their parents at the head table were the bride's grandparents, Mrs. Elma Tomlinson and Mrs. Irene Hill of Imra and Mrs. Lucette Oracheski of Wainwright.

The groom was attired in a navy blue tuxedo with blue trimmed ruffled shirt and navy velvet cummerbund. His boutonniere consisted of a blue and pink rose bud with a spray of baby's breath. The groomsmen Raymond Tomlinson, brother of the groom, Kent Guitierrez the groom's cousin, Darryl Nielson a friend and Darrell Oracheski the bride's brother were attired in light blue tuxedo jackets with navy slacks and cummerbunds and blue trimmed white ruffled shirts. They wore white carnations. Brian Johnson, cousin of the groom as ring bearer was attired in a navy blue tuxedo to match the groom. He carried a white heart shaped pillow with lace, flower and ribbon trim.

The mother of the bride chose a pink skirt length dress with a ruffled drop skirt complimented by bone colored shoes and a three strand string of pearls. She wore a corsage of blue roses.

The groom's mother was attired in a street length dress of rose, beige and blue patterned polyester with cape style sleeves. Her rose blue corsage accessories and a corsage of pink roses decorated with pink roses.

Linda Tomlinson sister of the groom and Cathy Oracheski, cousin of the bride were in charge of the guest book.

Dale Tomlinson and Gail Oracheski of Imra were married on July 14th in Holy Heart of Mary Catholic Church in Vitzke. Tymofichuk Photo

The head table was lit with an Irish linen table cloth which had been a wedding gift to the groom's maternal grandfather. The same cloth had been used at the groom's parents wedding 27 years ago. Guests from out of the province were introduced: Mr. and Mrs. Don Foulkes and girls of Houston, Texas, Mr. and Mrs. Bob Trephuk of Inuvik, N.W.T., Mr. and Mrs. Al Dyke and Neil of Cranbrook, B.C., and Mr. and Mrs. Doug Goudie of Toronto, Ontario. As well there were many guests from various points within the province.

Mr. Wayne King a long time friend of the bride proposed the toast to the bride in a few well chosen words. The groom responded. Mr. Raymond Tomlinson proposed a toast to the bride and groom, replied by Heather Baras as Jeanne King.

The three tiered wedding cake decorated by Mrs. Stella Guitierrez with blue forget-me-nots, white doves and a blown glass ornament with white bells and doves, was cut by the bride and groom. The banquet tables were adorned with gold and blue candles in flowered candle holders. Gold matches and blue napkins accompanied each place setting. The hall was tastefully decorated with blue and gold streamers and bells. A blue and pink carnation centerpiece adorned the head table.

Following the reception a dance to the music of the Milealta Family Band of St. Albert was enjoyed by all.

The bride's gown was a white jersey gown with attached train and lace-trimmed bodice with a sweetheart neckline and her trimmed tulle train. The groom wore a tuxedo, was given in marriage by his father. Her three quarter length veil and just cap were trimmed in lace and seed pearls matching her gown. Linda Tomlinson sister of the groom and Cathy Oracheski, cousin of the bride were in charge of the guest book.

Mr. Norris Tomlinson uncle of the groom acted as M.C. Father John Adamyk asked the blessing. Accompanying the wedding party and their parents at the head table were the bride's grandparents, Mrs. Elma Tomlinson and Mrs. Irene Hill of Imra and Mrs. Lucette Oracheski of Wainwright.

The groom was attired in a navy blue tuxedo with blue trimmed ruffled shirt and navy velvet cummerbund. His boutonniere consisted of a blue and pink rose bud with a spray of baby's breath. The groomsmen Raymond Tomlinson, brother of the groom, Kent Guitierrez the groom's cousin, Darryl Nielson a friend and Darrell Oracheski the bride's brother were attired in light blue tuxedo jackets with navy slacks and cummerbunds and blue trimmed white ruffled shirts. They wore white carnations. Brian Johnson, cousin of the groom as ring bearer was attired in a navy blue tuxedo to match the groom. He carried a white heart shaped pillow with lace, flower and ribbon trim.

The mother of the bride chose a pink skirt length dress with a ruffled drop skirt complimented by bone colored shoes and a three strand string of pearls. She wore a corsage of blue roses.

ECONO-BINS**

Book now & get this year's bin at last year's price!

EXTRA STRONG TOP COVER
 Made of extra heavy steel, the top cover has a wide 3/4" flange opening, and is equipped with heavy duty rubber boots for tight seal.

SELF-LOCKING ROOF PANELS
 Panels fit vertically interlocked and assemble in minutes without tools. No trusses or braces are needed. Kibs are extra high for strength and greater weather seal.

STEEP ROOF PITCH
 Steep 15° roof pitch and the elimination of moisture catching bowls prevents moisture from dripping back on the bins when the bin is used for grain.

EXCLUSIVE EXTENSIVE DESIGN
 The two-way in & out formed and reinforced for extra strength. The sides of the door frame are corrugated to match the wall corrugations for a tight seal. Hinged butt heads swing in for easy access, with gird auger holes at standard equipment.

We also have Haytension Bin unloading equipment.

Bruce and District News

My apologies for omitting a very important item from the Stampede which was submitted last week. Our own Ernie Derrin was the big winner in the Wild Horse Race and took home a very attractive trophy donated by Wellsite Industrial Ltd.

Approximately 25 young fellows risked limb and reputation to ride the cows and horses provided by Paul Chryslan and Wayne Luak before some 200 spectators who gathered early in the bleachers. There were no casualties but one young fellow was seen leaving the doctor's office the next morning. The 4 girls were on hand with coffee for bruised participants and amused spectators. Following is a list of winners:

Cow Riding
1. Talbot Tkaczuk
2. Dean Jeffery
3. Kevin Leidl

Barrel Racing
1. Bonnie Habbits
2. Kerry Crystal
3. Louise Heimbecker

Barrel Riding
1. Wade Komarski
2. Terry Welbo

The following are the results for placings in the Bruce Stampede Parade:

Commercial Floor
1. Bruce Hardware
2. Country Upholstering of Bound Hill
Non Commercial
1. Bruce Senior Citizens
2. Watwright C. of C.
3. Bruce Family Club

Barbara and Claude McArthur of Sedgewick visited some friends here last week.

For the next four weeks Paulette Erickson will be sending in the news. If you have anything for the paper or please give her a call at 688-3876.

The last Quinte W.I. meeting was held on Thursday, July 24th at 8:00 p.m. at the home of Rita Seller. The meeting was opened with the reading of the W.I. Creed. The secretary's and treasurer's reports were given next.

New business was then dealt with. This included our catering to the Leidl Brothers' auction sale and another family outing to be taken later on this year.

The July visiting committee of Doris Fee and Elsie Heslop gave their report. Angels Johnston and

VIKING AGRICULTURAL FAIR 1980

Last Thursday, the Viking and District Agricultural Society sponsored the annual one-day Fair. Activities for the Fair actually started on Wednesday evening as stock breeders in the area bled their stock down in the arena for the Thursday morning cattle show and judging. Also on Wednesday afternoon, entrants in the various Fair competitions had set up their entries in the School gymnasium.

Thursday morning started off with a Parade float in the Community Hall from 7:30 to 11:00 a.m. At 9:00 a.m. the cattle judging got underway in the arena. The Parade got underway shortly after noon, with a variety of horses, wagons, children on bicycles, and floats to entertain the people gathered along the route.

Afternoon activities included a pet show for the kids, the viewing of the

exhibits in the gymnasium, visiting displays set up by various organizations in the area, and a gymnasium presentation put on by the Viking 4-H Light Horse Club.

At 5:00 p.m. a delicious barbecued beef supper was put on in the Community Hall. This was followed by the Puppet Show put on by "Alberta People", a highly entertaining presentation by

Teenage Problems Dramatized

Nine young actors and actresses aged 16 to 18 years, from Uids, Alberta, will be performing in Viking of August 21st. Their skills will be covered such as teenage subjects as teenage pregnancy, homosexuality, alcohol and drug abuse, teenage sexuality and suicide.

The Uids Youth Expression Theatre is trying to explain teenage problems and frustrations to the older generation. It is a Young

Canada Workshop project, sponsored by the Uids Preventive Social Services. "Youth Expression" is a unique and recent addition to the theatrical arts, which was developed in Boston, Mass. It attempts to bridge the generation gap by having teenagers write and act out their own skits. All of the skits are drawn from real-life experiences which the cast or acquaintances have gone through.

A question and answer

period following the performance will give the audience an opportunity to interact with the actors.

These performances should be of great interest to parents, teachers, nurses and all those who work with youth as well as teenagers and young adults. It is sponsored by the I.S.S.S. Performances will be at 3 p.m. and 7 p.m. on Wednesday, August 21st at the Viking Community Hall. Admission is free.

Irma Farm Family Honored

Nominated by the Irma Chamber of Commerce, the Eddie Jackson family was honored as one of the 25 Farm Family Award winners from Northern Alberta at Klondike Days in Edmonton on Monday, July 21st. Arriving at the Coliseum at 8:30 a.m. the families were received by the Award committee headed by Toni Knight and were served lunch.

Leaving there by 9:30 via the rapid transit, they arrived at City Hall where they were welcomed by the mayor. E.T.S. buses then conveyed them to the Museum. After about an hour of browsing, they were taken back to Edmonton Northlands, where Premier Peter Lougheed and the Lieutenant Governor Lynch-Staunton were introduced to them.

Following a very delicious buffet luncheon the head of each family introduced the members of their own family. Following introductions one member from each family went up to the mike and was presented with a plaque. The award and name plate were then taken and all were given free passes to the Exhibition, rides, etc.

The Jackson Family of Irma were recently honored at Edmonton's Klondike Days as 1980 Farm Family Award winners. Pictured between K.D. dignitaries are (l. to r.) Charlie and Caroline, Geraldine and Bob, Phyllis and Rick, Norwood, Howard, Lorne and Eddie.

Andrew Farm Sales of Viking captured the first prize in the Commercial Float section of the Viking and District Agricultural Fair parade which was held last Thursday. (See more pictures on pages 4 and 5) Staff Photo

Council Sets Mill Rate

A special meeting of the Viking Town Council has established the mill rate for Viking for the 1980 tax year. The 1980 mill rate has been set at 99 mills, up 14 mills from the 1979 rate of 85 mills. This is the mill rate for non-residential property. The rate for residential property has been set at 78.44 mills, up from the 64.56 mills set in 1979.

The new rate represents a 21 per cent increase in the residential rate for 1980.

This follows a decrease in the residential mill rate last year of just over 8 per cent. The decrease in the mill rate last year was made possible by the Alberta government's Debt Reduction Program. The commercial mill rate has increased about 11 per cent during the same time.

Following is a break-down of the mill rate for 1980: School Foundation (Provincial) 55.56¢, School Supplementary (County) 25.78¢.

Animal By-law Amended

At a regular August meeting of the Viking Town Council, By-law 552, the Animal Control By-law, was amended to expand the penalties for offences under the law.

Under the existing by-law, only owners of dogs were caught running at large could be given

tickets. All other offences under the by-law had to be dealt with by summary conviction. The amendment to the by-law now includes several other offences for which fines can be issued. Failing to ensure that a collar tag is worn by the owner's dog, failing to obtain a dog

license, permitting a dog to run at large, and permitting a dog to bark or howl excessively or make any unusual or unnecessary noise can now result in fines being handed out by the by-law enforcement officer.

Fines for these offences noted above are \$30.00 for Continued On Page 2

Here We Go Again

The Weekly Police Report in last week's edition of this newspaper concluded with the statement that the Viking R.C.M.P. attributed a rather short report to the inclement weather during the August 2nd weekend. Perhaps we should all hope for bad weather every weekend. Or maybe we should have winter twelve months of the year. It seems that whenever the weather is pleasant, a rash of senseless acts once again occurs. And this past week was no exception.

From breaking windows in a business to breaking windows in cars or churches, all of these acts cost the residents of the area time and often a great deal of money. Crimes like these are very hard to solve at the best of times, but when people in the communities fail to come forward with any or all information which might aid in the investigation and solving of these crimes, solving them becomes almost impossible.

One of the truly sad aspects of such vandalism is that quite often these acts are perpetrated by young people whose parents care little about their attitudes or actions towards other members of the society. In this community today there are young people, juveniles and young adults, who have been proven to have committed crimes, and are strongly suspected of having committed crimes, but whose parents do nothing to discourage such anti-social behavior. In some cases, these parents stick up for their children no matter what they have done. Any time someone in authority wishes to question these youngsters or has evidence of their guilt in a particular case, these parents feel that their child is being unfairly picked on.

Thomas Hobbes, a famous philosopher, believed that man was basically evil. Yet somehow it is hard to believe that most kids are bad by nature. What they need is a great deal of love and guidance to help them adjust to being adults on a very different and confusing world. God gave homo sapiens the ability to procreate in the same manner as all other species of creatures on earth. Yet man was also given the intelligence to hopefully raise children to have some responsibility towards others, not just to himself. What seems to have happened is that some people have the physical equipment to procreate, yet lack the human intelligence to instill responsibility in their young.

Animal By-law Continued From Page 1

near the new sewage lagoon. Council Engineering of Edmonton was also present to discuss various projects under their guidance for the Town. The firm Rights Branch of the Department of the Environment has prepared a water shortage every five years in the lagoon design proposed for

the new water system. The Branch advised Council to expand the lagoon and upgrade the storage facility, or at least make provisions for its upgrading in the near future. The firm is working toward this objective now. The engineers also reported that progress is under way on the new water system, and that tenders would have been let on the

expansion had not been requested. The engineers also reported that the land owners across whose property the water pipe must cross are co-operating very well with efforts to finalize the rights-of-way for the new line.

Council also gave authorization to the Viking and District Recreation Board to engage a consulting firm to prepare a site plan for a facility to be constructed in the new recreation area by the ball diamond. Council set a limit of \$2,000 on the preparation of the plan.

The Viking Council also signed the new County Ambulance Agreement which the Hospital administration in Tofield and Viking have been preparing for the last

Council also received notice from the County that they have accepted debt responsibility for the Beaver Regional Arts Centre on an equalized assessment basis.

Mill Rate Set For Viking

Continued From Page 1

regulation by the County of Beaver is up 3.65 mill, an increase of over 13 per cent.

A major increase in mill rates is the jump from 30.13 mills to 37.66 mills in Municipal Operations. This represents a nearly 25 per cent increase in one year. Increases in the operational costs of the Town are par-

tially due to the extensive street improvements being done in Viking, to the paving of the two parking lots now underway and the acquisition of a number of pieces of property in Viking by the Town administration. A number of other factors, combined with these, caused the operational costs to rise so dramatically.

Summer Care For Your Pet

Well, here we are in the middle of summer enjoying all the activities that this season has to offer. If you are a pet owner and pet lover, chances are you've already made sure that your dog or cat is also enjoying this time season.

But, just so you don't forget here's a checklist of things the Pet Food Manufacturers Association thinks you should know to make sure your pet has a happy and carefree summer vacation.

- Cut down on volume of food if your animal is less active.

- Feed your animal its main meal in the morning when it's cooler.

- Make sure there is always a ready supply of clean, fresh water available.

- If you keep your dog tied up outside, make sure there is shade nearby for

those afternoon siestas. Avoid the problem of heat prostration. Leave your dog at home when you go for a jog. And, never, never leave your pet in the car, even if the windows are rolled down.

- Should your pet have the misfortune to meet up with a skunk, you can relieve the scent problem by bathing the animal (your pet, not the skunk) thoroughly in tomato juice. Think of it as a Shaggy My.

- If you're planning to take your pet away with you on holidays, keep these things in mind: Find out ahead of time which hotels, motels, and campgrounds allow animals. Never leave your pet alone, always take him with you when you leave your home away from home.

- If you've got a long trip ahead, allow for relief stops.

- Familiarize yourself with first aid care for pets. Summer is a particularly hazardous time with things like heat, insect bites, poisoning, fish hooks, porcupine quills, and, as mentioned earlier, heat prostration and skunk.

Police Report

During the past week, three motor vehicle accidents were investigated by the Viking R.C.M.P. Detachment. A young couple sustained injuries in one of the accidents which occurred on Sunday, approximately six miles north of Viking on Highway 36.

Police issued three 24 hour suspension tickets this past week and charged one male with impaired driving. A break and enter took place sometime over the weekend at the Viking I.G.A. Entry was gained through the back and at this time it is undetermined what was taken. Members of the Viking R.C.M.P. Detachment are currently investigating the incident.

JOB OPPORTUNITY

Custodians - Two part-time custodians are required Sept. 1, 1980 for the Viking School. Work days 4 hrs. 3:30 p.m. - 7:30 p.m. Salary range from \$4.85 - \$5.10 per hr. Interested applicants are requested to apply in writing or contact Nick Shinkovsk at 663-3730 or 688-3770.

Bus Drivers - Regular drivers are required for the following routes, starting Sept. 3, 1980. Tofield route and route 6: Ryley - daily run to the W.P. Wagner School, Edmonton. School drivers are required in all attendance areas. Salary range from approx. \$26.50 to \$36.50 per day. Interested applicants are requested to contact Mike Vucich at 663-3618.

Parkland Nursing Home News

Call Gustafson had the pleasure of visiting with Terri Wakein, Beulah and Robert Danielson, Bob Cheryl, Mabel Garneau, Rebecca Madden and George and Doreen Gustafson.

In to spend a minute with Mrs. Madeline Gendrie was Shawa-Lee Myers.

Clara Sizor stopped in to see Lars Riland, Ted Anderson, Mrs. Frederica

Mr. Laube was also visited by his wife Anna. Mrs. Roth was happy to see Rebekah Ruff and Mr. and Mrs. H. Roth.

Visiting Charlie Amburn were Mabel Robson and Honey Curtis.

Lester Vath was surprised when Mrs. L. Hebel and Esther Vath dropped in to see him.

Lars Riland was also visited by Terry Shelly, Karen and Jason Leach and Olive, Cathie, Jack and Eleanor Good.

Fred Ombke was pleased to see Ann and Vern Chubb. Leonard Fowler came in to see Murray Launson a new member of our club.

Mrs. Anne Golenst and Helen Kawallik, chatted with Mrs. P. Kawallik. Also dropping by was Mrs. Kawallik's granddaughter, Lucy.

Mrs. Campbell was visited by Lloyd and Walter Campbell.

bell, Mary and Norman MacPherson and Fay Campbell. Mrs. Dan Teake was in to see Mrs. Frederica.

Pearl Tchir was visited by their family of Vancouver, B.C. Frank Murray was visited by Jean and Gordon McKim.

Stopping by to see their aunt, Alice Overby were Ed, Wayne and Robert Overby. Harry Ward and family were in to see Mrs. Ward. Mary Pankak was happy to see Mrs. Ward.

The resident of Parkland would like to thank Mr. Harold Jackson for the assistance he gave them with their flots and also send their thanks for the use of his well trained team.

TOTAL FOR SUMMER 11			122	95
TOTAL FOR YEAR			180	180

NOTE: 1. Parents' Reports are issued during the month of May. (Feb. - Mar. - Apr. - May).
2. A second Parent-Teacher Conference may be scheduled the third week of April.
3. Students are expected early the last operational Monday of each month unless advised otherwise by the school.

4. District 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

2. Registration - students who are new to the district are encouraged to register at school during the week of August 25th, to 29th, 1980.

3. Bussing - rural students who are new to the district should telephone their land location to the Supervisor of School Busses at 663-3818 or 663-3730.

4. Rental Fees - due and payable on the first day of the school term.

[a] Textbook - Grades 1 to 9 - \$10.00 per student
- Grades 10 to 12 - \$21.00 per student

[b] Musical Instruments - range from \$2.00 to \$10.00 [limited number of instruments available].

[c] Driver Education - \$110.00 per student.
[d] Supplies - \$7.00 [C.W. Sears only].

5. For further information please contact the school principals:

Mr. K. Robson - C.W. Sears - Tofield [gr. K to 3] - 662-3010; Mr. A. Pollock - Tofield [gr. 4 to 12] - 662-3133; Mr. J. Clarke - Ryley - 663-3682; Mr. O. Shykora - Holden - 688-3858; Mr. D. Watson - Viking - 336-3352

The ATCO Acquisition of shares of Calgary Power

Questions and Answers

Q. What is Calgary Power?

A. Calgary Power is an electric utility which supplies 2/3 of Alberta's power. It sells this power directly to the citizens, to rural electrification associations, and to electric distribution systems operated by cities and towns. It also sells power directly to some industries.

Calgary Power is one of a group of associated companies assembled by Montreal financier I.W. Kilham. These companies, still associated in various ways, include Montreal Engineering, Royal Securities (now Merrill Lynch, Royal Securities) and Newfoundland Light and Power. Today 12% of Calgary Power shares are owned by Albertans, and 88% are owned outside Alberta.

Q. What is Canadian Utilities?

A. Canadian Utilities is a holding company with subsidiary operations in the electric and natural gas utility industries. Its natural gas operations are carried out by Canadian Western Natural Gas, which serves southern Alberta including Calgary and Lethbridge, and Northwestern Utilities, which supplies north-central Alberta including Edmonton, Red Deer, Fort McMurray, Grande Prairie and, through a subsidiary, Dawson Creek.

Alberta Power, the company's electric utility subsidiary, serves east-central and northern Alberta and the Northwest Territories including the Town of Hay River. An Alberta Power subsidiary serves 18 communities in the Yukon including the City of Whitehorse.

Until recently, Canadian Utilities was controlled by Philadelphia-based I.U. International through its 58% share ownership. ATCO acquired that 58% block of shares in June.

Q. What is ATCO?

A. ATCO is an Alberta-based holding company with worldwide operations. One of its subsidiaries is the world's leading manufacturer of industrial housing which has 17 factories in various parts of the world, and products in use in 40 countries. Another is Canada's largest oilwell drilling and servicing contractor. ATCO also has subsidiaries in oil and gas exploration, commercial and industrial real estate and residential house building. With its investment in Canadian Utilities, it is now in electric power generation and distribution, and natural gas supply and distribution.

Q. Why did ATCO invest in Canadian Utilities?

A. ATCO had established a corporate goal of expanding into the energy field. Earlier steps in this direction included setting up an oil company, and purchasing and expanding a drilling company.

Q. How did Calgary Power acquire its investment in Canadian Utilities?

A. Early in 1980, Calgary Power attempted to buy the 58% controlling block of Canadian Utilities shares held by I.U. International. When these negotiations failed (ATCO instead acquired the control block), Calgary Power purchased nearly all of the outstanding 42% of Canadian Utilities shares from individual shareholders in June.

Q. Why has ATCO offered to purchase a controlling interest in Calgary Power?

A. When Calgary Power acquired a minority interest in Canadian Utilities it meant that company would be owned by two large companies, each different from the other. Differing styles of management, stemming from the nature of the two companies, would have made policy differences inevitable at some point along the way.

ATCO therefore decided to offer to purchase sufficient Calgary Power shares to take effective control of both companies. This will allow ATCO to efficiently implement policy decisions in the best interests of the customers and shareholders of both companies.

Q. What is ATCO's offer?

A. Through a subsidiary, ATCO is offering \$21 cash for 24,450,000 common shares of Calgary Power. This represents 50.1% of the voting shares and 54% of the common shares.

Q. How are Alberta's public utilities regulated to ensure that the public interest is served?

A. The Public Utilities Board and the Energy Resources Conservation Board are Alberta Government regulatory boards which share the responsibility of regulating electric and natural gas utilities. The PUB has primary responsibility for consumer rates and the ERCB is responsible for decisions regarding the allocation of service areas, and approving construction of major electrical generation and transmission facilities.

Q. How are electric power and natural gas rates set?

A. Electricity and natural gas rates are established upon application by a utility company to the Alberta Public Utilities Board. Each application is the subject of extensive and critical examination by intervenors and the Board itself through the hearing process. A just and reasonable level of rates is set by the Board after careful consideration of all the factors which make up the utility's costs of providing service. These include a fair rate of return to the shareholders, debt costs, operating expenses, taxes and depreciation charges. ATCO control of Calgary Power will in no way change this regulatory process.

Q. If ATCO acquires the investment it seeks in Calgary Power, will electricity rates increase?

A. Not as a result of the proposed acquisition. Financing of the share purchase will in no way result in any increases in either electric or natural gas rates charged by the utilities involved.

Q. What are the benefits to the citizens of Alberta of ATCO controlling the ownership of both Canadian Utilities and Calgary Power?

A. 1) For the first time both utilities will be controlled in Alberta by Albertans. This is a distinct advantage in ensuring firm control from within the province in the best interest of provincial development. In effect, ATCO will have repatriated into Alberta hands, majority ownership of two major companies, upon which virtually every Albertan depends.

2) This will be a positive move toward co-operation rather than confrontation in solving some of the problems facing the electric utility industry in the province today. For example, solutions may be more easily found to problems such as rate disparities, allocation of service areas and ownership and management of future generating facilities.

3) Some cost efficiencies and economies of scale may be possible through one-system business planning such as common efforts in construction and purchasing, and potential sharing of some administrative and support functions.

4) ATCO control will better ensure co-ordinated long-term planning for the benefit of all Albertans in such areas as northern hydroelectric developments and interprovincial electrical transmission connections.

5) Costly and time-consuming proceedings before regulatory agencies could be reduced. In the past, the two companies have found themselves in adversary positions. In the future, common studies can be carried out to determine the most cost effective and appropriate means of co-ordinating the future expansion of both companies to ensure that the strengths of each are objectively considered.

Q. In what way will ATCO's control of Canadian Utilities and Calgary Power affect their borrowing power?

A. ATCO's control will in no way impact negatively on the borrowing capability of the two companies. It may in fact strengthen their combined financial capability as they will have ATCO as a parent. Its financial strength could be made available if required.

Q. What kinds of experience does ATCO have that Canadian Utilities and Calgary Power may benefit from?

A. Both companies have been competently run and are well skilled in their fields. ATCO's contribution will come from its broad business experience which differs in many ways from that of either company. ATCO has an extensive background in meeting the needs of markets and customers in various parts of the world, while complying with the requirements of many forms of government.

Its past experience in managing the complexity of a variety of enterprises will bring another dimension to utility management. As a holding company for 9 different types of industrial operations, ATCO is accustomed to setting policy and providing leadership where needed, yet allowing divisions to operate independently. Its corporate philosophy is well suited for decentralized direction of the utility operations.

Q. Is ATCO financially capable of making this investment?

A. Yes. The Province of Alberta Treasury Branches, the Bank of Montreal, and The Mercantile Bank of Canada have jointly committed to lend ATCO the funds with which it will purchase the shares.

Q. Will ATCO be able to repay these bank loans?

A. Yes. The banks are obviously satisfied that ATCO will be able to repay the loans or they would not lend the money. ATCO will have revenue from its own operations and from its investments in Canadian Utilities and Calgary Power. In addition, the company, if it needs to, will be able to arrange long-term financing or issue additional shares to the public.

Q. Is ATCO borrowing too much money for its equity?

A. No. ATCO has approximately \$100 million in common shareholders equity and over \$110 million in preferred shareholders equity. In addition, ATCO expects to arrange additional preferred shareholders equity. On this basis, ATCO's debt to equity ratio will be less than 2 to 1. This is an acceptable ratio considering the assured nature of the earnings of Calgary Power and Canadian Utilities.

Q. Is it true that the Southern family controls ATCO?

A. Yes. The Southern family owns directly and indirectly 52% of the voting shares of ATCO. ATCO shares are traded on the stock exchanges and are available to anyone who wishes to participate in the ownership of the company.

Q. How does ATCO get its policy direction?

A. ATCO has a strong Board of Directors which deliberates all major policy matters and decides on the company's course of action.

Q. Is ATCO's offer of \$21 per share fair?

A. In May 1980, Calgary Power directors valued the company's shares at \$16.78. ATCO's offer is 24% higher. ATCO is advised that this is a significant and attractive premium for a utility.

Q. ATCO's offer is for 50.1% of Calgary Power voting shares. What happens if less than that number of shares are offered to ATCO?

A. ATCO will have the option to purchase any of the shares offered.

Q. What happens if ATCO is offered more than 50.1% of the shares?

A. ATCO will buy 50.1% and reserves the right to purchase more.

Q. Would this mean that a Calgary Power shareholder might end up having sold some shares and retaining some?

A. Yes.

Q. What will be the status of people who still own Calgary Power shares after ATCO completes its share purchase?

A. The book value of each share will be the same, and the earnings per share will be as high or higher than before. ATCO believes, for the reasons outlined on this page, that Calgary Power will have an improved outlook.

Q. What will happen to the staffs of Canadian Utilities and Calgary Power?

A. ATCO believes in letting the pro's do the pro's job. The staffs of the two companies will be given every encouragement to continue to deliver power and gas to Alberta's customers effectively, efficiently and innovatively. Specific changes in individual responsibilities, if appropriate, will depend on study of the most effective ways for the two utilities to work together. Obviously with the association between these three major companies, 10,000 employees in all, there will be substantially improved opportunities for employees to transfer from one company to another.

Q. Because ATCO will have varying interests in the two companies, will it face a conflict of interest in giving policy direction?

A. Assuming ATCO acquires 50.1% of Calgary Power voting shares (54% of common shares), its interests will be as follows:

Projected ATCO Interest in Calgary Power

Common Shares	54%
54% of Assets	\$794 million
54% of Equity of common shareholders	\$243 million
54% of Earnings applicable to common shares	\$35 million

Projected ATCO Interest in Canadian Utilities - Direct (58%) and Indirect (22% through Calgary Power)

Common Shares	80%
80% of Assets	\$818 million
80% of Equity of common shareholders	\$238 million
80% of Earnings applicable to common shares	\$ 33 million

Note - all dollar figures are based on 1979 year-end statements

It can be seen that, although ATCO's percentage interest in Canadian Utilities would be higher, ATCO's interest in assets, common equity and earnings would be comparable. ATCO's intention will be to direct the policies of the two companies so that the greatest number of Albertans obtain the best service at the lowest cost.

Q. If a Calgary Power shareholder wishes to sell shares to ATCO under the terms of the ATCO offer, what is the next step?

A. Deliver the shares, together with the yellow "Letter of Acceptance and Transmittal" to any office of National Trust before 4:30 p.m. August 28. Delivery may be made through a broker, but the broker must meet the above deadline.

ATCO welcomes other questions. Address them to:

HIGH ARCTIC MARKETING
ALBERTA OWNED & OPERATED

The dining room is another room that can serve double duty as an office. At night, there's a desk and conference table. At night, a buffet and one or two extra chairs. You can do it with one large round table and one long peninsula table, plus a buffet designed in two sections so one is low enough to be used for typing. When the caterers are handy, they can be used under the desk or wheeled out of the room for dinner parties.

To get the most from your family-friendly rooms, do them up in simple style and functional materials, like lots of laminate. They don't need to be easily cleaned and easily repaired. Keep your color neutral to provide versatility.

With care and planning, your two-way rooms can go a long way toward expanding your home.

are firm when pressed between the finger and a thumb and to moisture appears). With maturing barley, the whole field should be ripe, but not over ripe because of shattering and kernel damage during combining.

Oats: Oats can be swathed at a moisture of 40 per cent (early dough) without any danger of shattering. Swathing at 40 per cent moisture will have no effect on either yield or protein content, however oats swathed at 40 per cent moisture yielded 81 Feed grade and oats swathed at 15-20 per cent moisture yielded 81 CW grade in comparison as indicated.

Barley: Feed barley can be swathed at 35 per cent moisture (kernel can be cut with the thumb nail without shattering any water on the kernel), but making and seed barley would be better left until the moisture content is down to at least 30 per cent (kernel changing to straw color).

Leslie Holden's horses were a special attraction at the Holden Fair.

Holden News

Mr. and Mrs. Reuben Laube, Kathy, Laurie and Mrs. Anna Laube were in Edmonton on August 10 for supper at the Holyrothman Cafe. They were celebrating Mr. and Mrs. David Laube's 20th wedding anniversary.

Choir members from Holy Trinity of Edmonton and Pokka rendered their services. Following the mass a procession led by the clergy proceeded to the cemetery where the blowing of trumpets and the memorial stone commemorating the dead was performed. After the mass a banquet in the Parish Hall was served by the ladies of the Altar Society.

A large crowd attended a dance at the Holden Complex on Saturday evening and games were held at the Holden Sports grounds on Saturday, August 10th and Sunday, August 10th.

Cattlemen Question Policy On Crow

The Alberta Cattle Commission has expressed serious doubts about the solution to the Crow problem being advanced by the Western Agricultural Conference and the proposal before the Cattle Commission.

Man Heidecker, Chairman of the Cattle Commission, said that A.C.C. has been involved in the development of the W.A.C. policy through its membership in Uniform in an effort to solve the problem of Crow.

Report From Parliament Hill

On July 25th I was among a delegation of Canadian Parliament and Senators who met with a group of United States Congressmen and Senators to discuss ways and means for closer cooperation between our two countries in the production and exporting of wheat and other grains.

cooperation between our two countries in the production and exporting of wheat and other grains.

An agreement was reached on the desirability of a Canada-United States Wheat Export Coordinating Commission. The proposed Commission would be set up to establish a floor-price formula which would ensure that producers would not have to sell at a loss.

The next step will be for the two delegations to petition their respective governments to establish the Commission.

CHIEF WESTLAND ECONO-BINS

Book now & get this year's bins at last year's price!

EXTRA STRENGTH TOP COVER
 Made of extra heavy plastic, the top cover is a wide 30" filler opening, and is equipped with heavy duty rubber hooks for tight seal.

SELF-LOCKING ROOF PANELS
 Panels for vertically stressed roof assembly in minutes without using bolts. No trusses or braces are needed. Ribs are extra high for strength and greater weather seal.

STEEP ROOF HATCH
 Non-slip 15" red pitch - and the elimination of moisture catching bolts - prevents moisture from dripping back into the bin when the bin is used for drying.

DOUBLE STRENGTH DOOR
 The two-panels are formed and reinforced for extra strength. The sides of the door frame are contoured to match the wall construction for tight seal. Hinged bolt heads swing in for easy access, with gasket support for easy opening and closing.

Chacutenah Manor News

Get well wishes are extended to Mrs. Kate McLean who is presently a patient in the Viking Hospital. Hope she will soon be home with us.
 Miss Mildred Smith and her sister Mrs. Matthews have recently returned from a two week holiday spent in Victoria, B.C.

New Horizons Club Meets

The Irma New Horizons Club held their regular monthly business meeting in the Viking Centre on Wednesday, August 6th with nineteen members present. President Georgina Eager called the meeting to order shortly after 2 p.m. In the absence of the minutes, the treasurer's report was given by Harry Riley. Bills and accounts were approved for payment.

It was agreed that our club should visit some of our neighboring clubs and a committee of three was appointed to make the necessary arrangements.

Votes of thanks were tendered to the committee which made such a success of entering to our summer picnic. Also thanks to Jimmy Craig for hauling our paper to Edmonton and to Jim Jackson for taking care of the papers while they were being collected.

Many other matters were discussed and dealt with. At the conclusion of the business meeting, four tables played whist, two other

members played scrabble and one member withdrew. The winners at whist were as follows: ladies high, Ella Tomlinson, low Orvil Darling, mens high - Donald Gunn and low Ludwig Sater.

Park Dedicated

The new 150 unit campground at Vermilion Provincial Park will be publicly dedicated on Friday, August 15th at 2 p.m. The occasion will be marked by a tree-planting ceremony officiated by Vermilion/Viking MLA Tom F. Lyons and Vermilion Mayor Jack McLean. T.A. Drinkwater, Deputy Minister, will attend on behalf of Alberta Recreation and Parks Minister Peter Trynchy.

The new campground has been developed in the west section of the 167 HA Park. It features a high level of services, including fifty-two stalls with electrical outlets, three washroom buildings, and one shower building.

An informal reception is scheduled to follow the ceremony. The new 150 unit campground at Vermilion Provincial Park will be publicly dedicated on Friday, August 15th at 2 p.m. The occasion will be marked by a tree-planting ceremony officiated by Vermilion/Viking MLA Tom F. Lyons and Vermilion Mayor Jack McLean. T.A. Drinkwater, Deputy Minister, will attend on behalf of Alberta Recreation and Parks Minister Peter Trynchy.

Echo Rodino

Nerine Hunter has arrived home after a lengthy holiday in Calgary. While there Mr. and Mrs. Gerald Hunter presented her with a bouncing baby grandson. Congratulations to the proud parents.

Taking in the Camrose Fair for a day were Mr. and Mrs. Bruce Greenwood and Margaret and Lori Greenwood.

Josephine Holt was very lucky and won the stearfaffed by the Irma and District Agricultural Society during Irma Days.

Ray Johnston travelled to Edmonton on business and with him was his daughter Lori, who returned to her home in Edmonton.

Victor Carter has spent the week away from home following the Chariot races. No report on how the winners are piling up.

Leanne Davis of Nilnet spent a few days with Harriet Faulkner.

Home for a few days to the Prosar Farm was Mr. and Mrs. Maurice Maderia and family. Lorraine and Maurice have just returned from a holiday to Montreal and other cities in the east.

Mr. and Mrs. Wes Bauer and family took in a day of shopping in Camrose and then travelled on to Westaskin to visit Mr. and Mrs. Errol Beckett and family.

Mrs. Elaine Coulman of Camrose spent the weekend with her sister Mrs. Cockroft.

Mr. and Mrs. R. Clark of Edmonton and their daughter and her husband Mr. and Mrs. W. Smith of St. Albert visited Mr. and Mrs. Riley and Mrs. McRoberts on Saturday.

Guests during the weekend with Mrs. Stimmerman were her daughter, Mrs. B. Smith and little Eric of Edmonton, her granddaughter Mrs. Kergan of Calgary and her son and his wife Mr. and Mrs. R. Stimmerman.

Two of their family, Deborah and Bob Jr. all of Calgary, Mr. and Mrs. Stimmerman who had recently returned from a stay in Australia showed some very interesting slides of the country. The slides were viewed in the lounge on Sunday evening to a very appreciative audience.

Monday visitors with Mrs. McRoberts were Mrs. Wilma Robertson of Hanna, Mr. and Mrs. D. Klein and children of Calgary and Mr. and Mrs. J. Moore of Toile.

Leonard Soroka of Everall stated that the dirt work could begin on the site in approximately two weeks. He said that this time is totally dependent on the weather co-operating with

the plans. Mr. Soroka said that the construction company is presently working on an airport at Mayrathorpe. He said that the preliminary grading is about a week to ten days away from completion, and that the sub-contractor responsible for the dirt work would be moving to Viking as soon as the pre-grade at

Mayrathorpe was finished. Total construction time for the airport was about a month and a half. Mr. Soroka said that if the weather co-operates, paving on the Viking airport could begin about the 22nd of September. He said that weather had been especially bad this year for the construction industry and that this had caused delays in the starting of the Viking job.

Mr. Soroka stated that Everall had completed only about 17% of their work slated for this year. He said that the company is hoping for a good fall so that they can catch up on the time lost so far during this construction season.

condition of the paint. He said that the floor had dried adequately in places but that some wet patches could be hazardous.

Other "Teen Daze" activities scheduled for today and tomorrow will go ahead as scheduled. Today at 3:00 p.m. and tonight at 7:00 p.m. the "Youth Expression Theatre" will perform with dealing with a number of Teen related problems. The theatre group is sponsored by the U.S.F.S.

The film "A Time To Run" will be presented in the Viking United Church at 7:00 p.m. on Thursday. The film will be followed by a talent show.

"Teen Daze" in Viking is being organized by the local Preventive Social Services.

One of the sections for a tie-in manhole is lowered into place during construction and installation of the new water and sewer system in Kinsella.

Staff Photo

1980 Migratory Birds Hunting Regulations Announced

possession limits across Canada.

Hunters will find the regulations little changed from last year. In Newfoundland, Quebec and Ontario new hunting areas have been designated through boundary revision. As part of its effort to improve knowledge of waterfowl population dynamics, the Canadian Wildlife Service, in cooperation with its provincial and territorial counterparts, has let bag and possession limits unchanged from last year with one exception. In Quebec, after October 15, two additional ducks may be taken daily by each hunter. There is an additional possession limit of four.

All migratory bird hunters, with the exception of Inuit and Indians, are required to purchase a migratory game bird band each year. The permits, which sell for \$3.50 at post offices throughout Canada, will be available some time in August this year. Post offices also display posters which summarize the migratory birds regulations.

Hunters are requested to keep accurate daily records

of their bags on the card attached to the hunting permit. Such information will be used to complete the 1980 migratory game birds harvest questionnaire which will be mailed to a random sample of hunters after the season.

Data obtained from the returned questionnaires are a valuable aid to the determination of the number of waterfowl taken by hunters and the state of duck and goose populations in Canada.

Regulations to control the hunting of migratory birds in Canada are issued each year by the Canadian Wildlife Service in cooperation with its provincial and territorial counterparts. The regulations governing the 1980 migratory game birds hunting season and bag and possession limits across Canada.

Tentative Airport Start Date Set

A start-up date for construction of the new Viking airport has been set by Everall Construction Ltd. of Edmonton.

Leonard Soroka of Everall stated that the dirt work could begin on the site in approximately two weeks. He said that this time is totally dependent on the weather co-operating with

the plans. Mr. Soroka said that the construction company is presently working on an airport at Mayrathorpe. He said that the preliminary grading is about a week to ten days away from completion, and that the sub-contractor responsible for the dirt work would be moving to Viking as soon as the pre-grade at

Mayrathorpe was finished. Total construction time for the airport was about a month and a half. Mr. Soroka said that if the weather co-operates, paving on the Viking airport could begin about the 22nd of September. He said that weather had been especially bad this year for the construction industry and that this had caused delays in the starting of the Viking job.

Mr. Soroka stated that Everall had completed only about 17% of their work slated for this year. He said that the company is hoping for a good fall so that they can catch up on the time lost so far during this construction season.

condition of the paint. He said that the floor had dried adequately in places but that some wet patches could be hazardous.

Other "Teen Daze" activities scheduled for today and tomorrow will go ahead as scheduled. Today at 3:00 p.m. and tonight at 7:00 p.m. the "Youth Expression Theatre" will perform with dealing with a number of Teen related problems. The theatre group is sponsored by the U.S.F.S.

The film "A Time To Run" will be presented in the Viking United Church at 7:00 p.m. on Thursday. The film will be followed by a talent show.

"Teen Daze" in Viking is being organized by the local Preventive Social Services.

One of the sections for a tie-in manhole is lowered into place during construction and installation of the new water and sewer system in Kinsella.

1980 Migratory Birds Hunting Regulations Announced

possession limits across Canada.

Hunters will find the regulations little changed from last year. In Newfoundland, Quebec and Ontario new hunting areas have been designated through boundary revision. As part of its effort to improve knowledge of waterfowl population dynamics, the Canadian Wildlife Service, in cooperation with its provincial and territorial counterparts, has let bag and possession limits unchanged from last year with one exception. In Quebec, after October 15, two additional ducks may be taken daily by each hunter. There is an additional possession limit of four.

All migratory bird hunters, with the exception of Inuit and Indians, are required to purchase a migratory game bird band each year. The permits, which sell for \$3.50 at post offices throughout Canada, will be available some time in August this year. Post offices also display posters which summarize the migratory birds regulations.

Hunters are requested to keep accurate daily records

of their bags on the card attached to the hunting permit. Such information will be used to complete the 1980 migratory game birds harvest questionnaire which will be mailed to a random sample of hunters after the season.

Data obtained from the returned questionnaires are a valuable aid to the determination of the number of waterfowl taken by hunters and the state of duck and goose populations in Canada.

Regulations to control the hunting of migratory birds in Canada are issued each year by the Canadian Wildlife Service in cooperation with its provincial and territorial counterparts. The regulations governing the 1980 migratory game birds hunting season and bag and possession limits across Canada.

A Potpourri

An elderly gentleman was in this office this past week and wondered what it would cost him to have a Letter To The Editor printed in the paper. We informed him that there was no charge for such an item, at which time he stated that he had something he wanted to write about and would return with his letter. Remember that the space reserved for Letters To The Editor in this paper is there to provide our readers with a vehicle through which they can express their opinions about ANY subject. It is there for you! Use it at no charge!

Once again parade watchers in Viking were burdened with having to view the parade through, over and around the large number of vehicles parked along Main Street. The Fair Board had requested that no cars be allowed to park along Main Street, but from that point there seems to have been a communication breakdown. No one seems to have made the necessary arrangements or efforts to ensure that those people who spend a great deal of time, and some money, to provide the Viking Fair with an enjoyable parade would be properly viewed. If necessary, the Main Street of Viking should be blocked off at 5:00 a.m. on parade morning. People wishing to see friends and relatives, or to take pictures, should not be burdened with a tunnel view of a parade. It is important to the parade entrants and the parade viewers. Both the Town and the Fair Board should ensure that it doesn't happen again.

One of the major items which is ongoing in the national and provincial news is the failure of Edmonton and Ottawa to reach an oil pricing agreement. From time to time, to boost their respective positions in the negotiations, each side either releases statistics in their favor or has a third party come to their aid in trying to support a point. Most recently, Imperial Oil of Canada announced that they may have to shut down the development of their Cold Lake heavy oil operations because of the delays in knowing exactly what a barrel of oil would be worth. The current price of about \$19.00 is not sufficient for their requirements, so they say. And yet just recently, Statistics Canada reported that profits, that's net earnings, by the major oil companies in Canada rose by anywhere from 40 to 70 per cent in 1979. Hopefully, with the huge profits being realized by the oil companies, both levels of government will act to maximize the return to the people of Alberta and Canada, rather than the oil companies.

Letter To The Editor

Dear Sir,
 The Viking Fair Board wishes to thank everyone who helped in any way to make our fair a success. There are a great many individuals and organizations who worked with us and must be commended. There were hundreds of entries to the fair, including livestock, bench show items, displays in the hall, parade entries, entries to the competition, and window displays by local businesses. We appreciate the thought and effort that goes into preparing and presenting these entries. Our

thanks to all entrants, and congratulations to all prize winners.
 We would like to draw particular attention to the High Point Family Award presented for the fourth consecutive year to the John Piorewar family. Family members made a total of 86 entries, earning a total of 965 points. This remarkable support by one family is to be admired. The High Point Award in the Junior Section was presented to Sandy Piorewar.
 Our thanks to the Piorewar family for enthusiastically supporting our fair.

and congratulations on your exceptional success.
 The "Froonster Viking Fair" contest had several businesses in competition with imaginative and interesting window and shop displays celebrating our theme of Alberta's 75th Anniversary. Congratulations to Maxwell's Mens Wear on their winning display.
 Thanks also to The Agricultural Society and the P.E.S. who were responsible for bringing the Alberta Players to entertain us with their delightful show "My Alberta Home"; the cooks of the Pancake Breakfast and

the Barbours Supper; and their many helpers; the Maple Lodge Ladies who served the hungry crowd at the snack bar; the judges in all events; all who provided entertainment; and to each of you who came out to enjoy the fair and make it all worthwhile.

GOOD NEWS
PARTY LINE

Be sure to take in Teen Dance this Wednesday through Sunday.

Teen Dance will kick off with a drama production by the Youth Expression Theatre. This is an excellent production, and adults, as well as teens are urged to attend. Show times are 8 p.m. and 7 p.m. at the Viking Community Hall.

On Thursday, August 21, the Film "A Time To Run" will be shown at the Viking United Church. This film is put out by the Billy Graham Foundation and tells the story of a teenage boy who runs away from home. This is a highly recommended film for people of all ages. Show time is 7 p.m.

On Friday, Saturday, and Sunday, there will be Rollerskating in the Viking Arena. Rollerskating has become a very popular sport lately, and people of all ages are invited to join in the fun. The hours for Rollerskating will be: Friday: 7 to 9 p.m., and 9 to 11 p.m.; Saturday: 3 to 5 p.m., 7 to 9 p.m., and 9 to 11 p.m.; Sunday: 3 to 5 p.m., and 7 to 9 p.m.

In addition for two hours of Rollerskating will be \$2.50 for 12 and under, and \$1.50 for 12 and under, and \$1.50 for 12 and under.

Kinsella Ethel Jackson Blygo will be held on Friday, August 22, 1980, Friday, September 26, 1980, and Saturday, September 27, 1980. All blygos will begin at 8 p.m.

The Lorne Cemetery clean-up will be held on Monday, August 27.

A farewell get together will be held in honor of Father John Adamy on the transfer from the Parish on Wednesday, August 20, 1980 at 8 p.m. in the Catholic Church basement. Everyone is welcome to attend.

Report From Parliament Hill

CHANGES IN VETERANS' LEGISLATION

Recent changes in War Veterans Legislation will eventually clear the way for pensions to be paid to an additional 20,000 widows and 10,000 children of veterans who died as a result of military service.

The new amendments will lower the qualification ceiling over the next six years until the dependents of all veterans who were receiving pensions of five per cent or more will receive a monthly pension.

The first stage is scheduled for October 1 when those in the 36 per cent to 47 per cent category will become eligible. At the same time, the allowable amount of exemptions for Old Age Security and Guaranteed Income Supplements will be lowered by an identical amount. The same process will be followed over the next six years.

Those over 65 will not be affected by these changes one way or the other, but by April 1982, single and married recipients under 65 will be receiving an extra \$70 and \$85 a month respectively, in addition to the normal cost of living increases. Thus the income gap between the ages will have been completely closed.

Another major feature of the legislation is that all future increases in the Old Age Security Pension and the Guaranteed Income Supplement will be based on the age of the recipient.

The second major change involves increased payments for war veterans and their families.

At the moment there are 94,000 War Veterans Allowance recipients with more than 50,000 under the age of

65. The remainder, being over 65, receive the bulk of their federal income support from the Old Age Security and Guaranteed Income Supplement.

Because the War Veterans Allowance income-testing formula exempts a portion of these payments to those over 65, a single recipient under 65 presently receives \$70 a month less than the older recipient. Married recipients receive \$85 less.

The intent of the original legislation was to treat all War Veterans Allowance recipients the same regardless of age.

The new amendments will ensure the return of equal levels of income support by April, 1982.

To do this the basic War Veterans Allowance rate will be increased on July 1 by \$10 a month for single recipients and \$12 a month for married recipients.

At the same time, the allowable amount of exemptions for Old Age Security and Guaranteed Income Supplements will be lowered by an identical amount. The same process will be followed over the next six years.

Cost of removing this inequity is estimated at \$1.5 million annually.

A similar Bill incorporating the improved changes was first introduced by the Progressive Conservative Government in 1979, but the legislation could not be proceeded with as a result of the Government's defeat in the House of Commons.

This particular legislation was passed with a minimum of opposition and enjoyed widespread support from all members of the House of Commons.

TRY IT... YOU'LL LIKE IT!

Drying fruit is one of the oldest methods of food preservation, and one of the most economical. Drying requires little equipment, takes up minimal storage space and preserves are not needed.

Dried fruit as a snack food is a popular, nutritious choice. Buying fruit in season keeps the cost down as well.

Success in drying fruits depends to some extent on the sugar content of the fruit. Fruits with a low sugar, such as berries, do not dry well. They end up primarily skin and seeds.

Some point to remember when drying are:

- use ripe fruit to ensure maximum sugar content.

- pre-treat fruit to preserve color and food value.

- check it during drying to prevent scorching.

- dry to correct texture - pliable and leathery.

- store in dark place in air-tight plastic bags or jars.

Interested in trying something different. Below is a recipe for a tangy nutritious snack. It keeps well, but it probably won't last long.

Specialty: tangy citrus. Use any fruit or combination of fruits for this leathers.

2 cups raisins - blended or mashed until smooth (liquid may be added for consistency).

Line a jelly roll pan with saran wrap, or grease it, very well. Pour blended fruit into pan making sure it is no more than 1/4 inch thick in any one spot.

R.L. (Bob) Turnbull has been appointed by the AGT Commission as Vegreville Regional Manager. He succeeds Jim Hasty, who resigned July 25.

An Regional Manager, Mr. Turnbull is responsible for all AGT operations in 47 communities and rural areas serving approximately 40,000 telephone subscribers.

The Vegreville Region extends from the Alberta-Saskatchewan border west to Edmonton and Athabasca; north to Lac La Poudre and Cold Lake; and south to Wainwright and Provost.

Mr. Turnbull is relatively familiar with the area because he worked for AGT in

A.G.T. Regional Manager Appointed

tion, rapid construction, engineering, commercial and operator services. "I'm proud of my job and I'm here to provide service," said Mr. Turnbull, "and I want to assure that service is all our operations."

There are 43 permanent AGT offices in the region, based at Athabasca, Bonnyville, Boyle, Grand Prairie, Lac La Poudre, Lloydminster, Provost, St. Paul, Tofield, Vegreville, Vermillion and Wainwright. "I've found the employees to be responsible, dedicated individuals and I believe have an excellent organization here," said Mr. Turnbull. He said he is impressed by the expansion and activity in the region and said AGT has to be "flexible" to meet the needs of the area. He said he will be "jumping ahead" to have the necessary facilities in place to serve new customers.

"For example, we've done a lot of preparatory work on the Lac La Poudre and Grand Prairie areas," he said. "The bubble bursts on activity in the area," he said.

According to Mr. Turnbull, some of the more outstanding AGT projects underway in the region include installation of new digital telephone systems at Bonnyville and Wainwright. Both projects total nearly \$5 million and are scheduled to be in service in December and November, respectively.

At Lloydminster, a \$1.78 million equipment addition scheduled to begin in October will double the size of the telephone system to 20,000 lines. AGT plans to install more equipment at Athabasca, Vermillion and St. Paul in 1980-81 to provide more lines for anticipated growth.

"AGT is expanding Extended Flat Rate Calling (EFRC) telephone service to several communities during the next year and a half," Mr. Turnbull advised. "We said EFRC service between Wainwright and Vegreville and Vermillion is scheduled to begin September 19, 1980. The service replaces charges for long distance calls between two communities with a flat rate."

Holden And District News

Rev. and Mrs. McKinstry, pastor of the Evangelical Church north of Holden for the past 10 years, have accepted a transfer to Grimsby, Alberta. The village and community bid farewell to the McKinstry family and wish them well in Grimsby.

Mrs. Nat Payne and Bernice of Edmonton, and Debbie of Quebec City, visited the

Pasnak and McKinnon family last week. Debbie, an English teacher, has been in classes in Quebec City. She has been in Alberta and British Columbia for 2 months, but is leaving for Quebec City in September. Debbie will take an art course in Beaufort.

The Holden village and community were very pleased with the ball team this year. The turnover

ding area had an enjoyable summer season, watching ball games. At the recent tournament, the Holden Keggars were the hosts to sixteen teams. The Keggars and Revins, our local teams, did their best, but Birch Lake picked up four straight victories to win the tournament.

They also beat the host team in the finals. All the fans will be looking forward to seeing all the players next

season. Thanks to the Holden Keggars, Revins, and Birch Lake.

Debbie Cooper has spent the past 6 weeks in Grimsby, Manitoba, teaching sailing on the St. Charles in Sailing Camp. This is during his holiday from Calgary Power.

We welcome Rev. and Mrs. Lawson Brown, who will replace Rev. McKinstry. Rev. and Mrs. Brown come from Medicine Hat.

Mrs. Brown was formerly from Oregon, U.S.A. and Donna Graber of Portland were visiting the Browns family for several days in Holden.

Each year the N.F.U. sponsors a youth exchange in which this year it sponsored Bernard Hrabec of Holden.

Bernie left July 11, and arrived home August 1. During her trip, she travelled with 46 other youths across Canada and through parts of the United States.

She arrived at Grand Falls, New Brunswick, on the 18th of July, where her host family was situated. Her stay with the family was 11 days, which Bernard says was too short.

On her way home, Bernard participated in a seminar held at Brandon, Manitoba, which consisted of over 100 youths who took part in the exchange.

Bernie enjoyed the trip very much and wishes to go back to New Brunswick in the future.

Natural Gas Price Protection Plan

There is a reason why Albertans enjoy the lowest priced natural gas in Canada ... and it's not just because we "grow our own."

Over the last eight years, the Natural Gas Price Protection Plan has shielded Albertans from the risks of natural gas to the tune of \$500 million dollars. Seventy-five percent of every increase in the price of

natural gas was absorbed by the plan, while the remaining 25 percent was passed on to the consumer. The basic support price was tied to the Alberta well-head price, which was established by the federal and provincial governments, various boards and commissions, and the changing costs of transportation. This proved to be a significant formula which meant little more to consumers than a statement on their monthly natural gas bill explaining that their bill was lower as a result of the Natural Gas Price Protection Plan.

That plan expired in March 1980. Following four months of study on the utility of the plan, the Minister of Utilities and Telephones, Larry R. Shabert, announced on August 8 that an extension of the plan under a revised pricing formula would occur. The revised operation of the plan, the Natural Gas Price Protection Plan, is not due until September 1, 1980 and runs to the end of March, 1985, establishes the support price of natural gas at 50 percent of the Alberta Border Price.

The Natural Gas Price Protection Plan will absorb the difference between the support price of natural gas in the province and the

actual price paid to the producer. This support price will be tied to the Alberta Border Price, a highly visible figure that will parallel the rising value of natural gas.

The plan is expected to cost over \$1 billion in its first four and one-half year period. With cooperation from the gas utility companies and the Public Utilities Board, the plan will relate roughly \$160 million this year. The rebate will be paid to distributors and some large consumers of natural gas, such as public institutions and electrical power generators. Large industrial and commercial users will receive rebates as well as the first one billion dollars of natural gas purchased annually. One natural gas for recovery bill and the processing of natural gas, the transmission of gas via pipelines and the operation of gas processing plants is not eligible for rebate.

The Support price will form the basis of the plan allowing for a single, fixed price and eliminating the need to account for the field prices as under the old plan. This makes it possible to predict natural gas prices with more certainty, and will enable consumers, industry, the government and utilities to project costs on a more consistent basis.

The idea of offering Albertans a fair share of one of their most valuable natural resources started back in 1972 with "New Natural Gas Policies for Albertans." The objective of the Natural Gas Price Protection Plan today still reflects that philosophy - to shelter residents, commercial establishments and industry from the effects of large price increases caused by the rising value of all energy sources.

The Natural Gas Rebates Act and Regulations were first launched for a period of three years, commencing in January 1974. Rebates were paid to the distributors of natural gas, and they in turn lowered the rates they charged to consumers. After the success of the initial plan, the program was re-committed in November 1976 for a further three year period ending March 31, 1980. Prior to the end of that period, the Minister of Utilities and Telephones stated that the plan would continue beyond March 31 while future options were studied.

The announcement on August 8, extending the plan in its revised format for another five years, was the recommendation of that review.

Now, with the revised support pricing formula established, Albertans will continue to enjoy the lowest possible cost of natural gas heating in the country.

Irma U.C.W. News

The regular meeting of the Irma U.C.W. was held Tuesday evening, June 24th at 8 p.m. with Mrs. Wilson presiding. A warm welcome was extended to all.

Devotions were given by Mrs. Wilson with the topic being "You can't trust God to be Unmerciful." The Scripture reading was 3rd Ch.

Joah at the end of ch. 4. We sang hymn No. 163 "Open Mine Eyes", closing with prayer.

The program was given by Mrs. Peggy Smallwood, reading about Bethsheba, mother of Solomon, from the book "All Of The women Of The Bible".

Roll call was answered by seven members and there was one visitor.

The minutes were read and approved as read. The Treasurer's report was given, and on a motion by Mrs. Kay Clumstead and Mrs. Peggy Smallwood that this be placed on file. Carried.

Due to the fact that this was Mrs. Wilson's last meeting and that they were leaving Irma, Mrs. Kay Clumstead then spoke a few kind words to her on behalf of all present as to our feelings towards her. Mrs. Wilson very capably replied. We then had lunch, served by Mrs. D. Coffin.

The next meeting will be on Tuesday, August 26. Everyone welcome.

Mrs. Helen J. Smallwood

SAVE ENERGY**

Have you ever looked at your power bill and wondered how you could have used that much power?

Now you can find out. Time To Save Energy is a brochure listing over 100 items of electric equipment in your home, and how much it costs to operate each one.

Does an electric coffee maker use less energy than brewing coffee on a surface electric?

Does a microwave oven really save energy, compared to an electric range?

Does a color television use less energy than a black-and-white?

If you don't know the answers to all of these questions, it's time to save energy. Send for Time To Save Energy. Energy Management Services, Box 1900, Calgary, Alberta T2P 2M1

Big Miller To Entertain At Harvest Bonanza Ball

"Big" Miller and his band will be providing the entertainment for the 3rd Annual Harvest Bonanza Ball to be held in the Viking Community Hall on Saturday, October 25th.

Big Miller, one of the most versatile and finest musicians and entertainers in Western Canada, will be providing the entertainment and to be sponsored by the 1980 Harvest Bonanza Ball. The 3rd Annual Harvest Bonanza Ball will be held in the Viking Community Hall on Saturday, October 25th and is sponsored by the Viking and District Agricultural Society. Big Miller will be leading a

band slated to include a variety of musical instruments, including trombone, saxophone, guitars, piano, drums, and a Latin American percussion section. Big is an outstanding musician and singer, having won acclaim in the U.S. and Canada in the fields of jazz, blues, and swing band.

Big Miller has performed with some of the greatest names in Big Band music, including Duke Ellington, Count Basie, Woody Herman, Miles Davis, and Cannonball Adderley. He has appeared in numerous special concerts and music festivals throughout Canada and the U.S.A., including two appearances at Carnegie Hall.

This fine musician has been involved in music for modern pictures, including "It's A Mad, Mad, Mad World". As well, he has recorded numerous albums for both Columbia Records and United Artists.

County Supplies Room To C.D.S.

The County of Beaver has given the Viking Child Development Society permission to use a classroom in the Viking School to continue the preschool program. This, once again, is a temporary arrangement until the new facility is constructed. Registration for the play school program is now available.

The Society has received a grant from the Department of Education to purchase a van for the storage and transportation of paper for recycling. The paper depot will be operational as soon as a suitable van is found.

The weekend of September 13 and 14 will be a fundraising weekend, beginning Saturday, September 13 at 12 noon with a dance-a-thon and rummage sale. If anyone would like to volunteer some time, you will be most welcome and very much appreciated. Sunday, September 14,

from 11:30 a.m. to 4:00 p.m., a pyrography dinner will be served and the winning raffle tickets drawn. Tickets are now on sale from any member of the Society and at several Viking businesses. You may be lucky enough to win a nice even or a gas barbecue.

Local Athlete Wins Bronze Medal At Games

Tom Harry, member of the Kinross Senior Citizens Club, won a Bronze Medal in badminton at the Alberta Seniors Games held last weekend in Camrose. There were 759 senior citizens competing in the various games - golf, badminton, bridge, curling, bowling, checkers, cribbage, croquet, darts, dinking, fiddling, pool, shuffleboard, snooker, tennis, and trapshooting. Opening ceremonies were held in Jubilee Park on Thursday evening with Dale Smith as M.C. The competitors, from each area, were piped into the park by the Argyll Highlanders Pipe Band. During the playing of

O Canada, flag raising ceremonies were conducted by the Royal Canadian Legion. Mayor Rudy Swanson greeted all participants and guests on behalf of the city of Camrose. Hon. Peter Trynch on behalf of the province, and declaring the Alberta Senior Citizens Games opened.

The torch was lit at City Hall, then carried by runners to Jubilee Park, the last runner turned the torch over to the oldest Games participant, who then lit the Olympic Games Torch. An interesting program followed which included a spectacular "fly past" featuring the War Birds and was made up of three Chipmunks, three Harvards and four P-51 Mustangs. Other highlights were the Baines School of Dance, the Zarka Danes, the Messiah Lutheran Church Choir, the Ransing Drill Team, and the Edmonton Modern Rhythmic Gymnastics Association. This concluded the opening ceremonies.

The participants and visitors then dispersed to various camps and the billets provided in Camrose Lutheran College and Camrose Bible Institute. The dorms were most spacious and comfortable, and there were "Bell Boys" to help with luggage, etc., at times, which was greatly appreciated. Nourishment was dispensed to all, by the more than capable handling at the cafeteria of the Camrose Lutheran College. This food was delicious and excellently prepared. At all times, free soft drinks were available, per courtesy Coca Cola.

Transportation by bus was provided to all places of participation, from early morning till late at night. We were also given tours of the city on the buses. School buses were provided for the seniors, along with volunteer drivers. There were hostesses everywhere and information booths were provided at all participation centres.

Bruce School Reunion In October

October 11, Saturday 1:00 p.m. - School will be opened for those who want to look around. Coffee will be served. 5:30 - 6:30 p.m. - Assembly and Happy Hour 6:30 p.m. - Banquet 8:00 - 1:00 p.m. - Dance 12 Midnight - Lunch October 12, Sunday 12:00 Noon - Open house for the entire family, also any residents of Bruce and area who are interested. Games, socializing, coffee, and lunch will be available. If you have any further questions, please don't hesitate to call the above number.

The following is the agenda for the weekend of the reunion. and others will be welcome as well. If you did not go to high school, but had friends who did, and you would like to see them, you will be welcome as well. Please phone and leave your name. The high school students and their escorts will have first call on the banquet tickets, but others will be accepted as long as there room, on a first come - first served basis. Cost of the banquet and dance is \$7.50 per person, to be paid in advance.

Self-Defence Course To Be Held In Viking

"Wen-Do," a system of self-defence specifically geared for women and taught by women, will be coming to Viking on September 20 and 21.

Self-Defence is protecting yourself from attacks that are dangerous to your health and well-being.

When it comes to an attack, you have two basic choices:

1. Defend yourself. This can be as non-aggressive as running away and thereby

avoiding the confrontation, or direct action against your attacker, such as punching or kicking.

2. Do nothing. You may still end up severely damaged or dead, but this choice requires no action on your part. To take no action is still a decision made by you.

"Wen-Do" teaches awareness, avoidance and Action to Attack. It includes mental and physical exercise, meditation, breathing techniques as well as release and counterattacks to physical aggression. Discussions

are held on such topics as: Women and The Law, Avoidance, Roles, Aggression, Rape and Verbal Defences.

Wen Do offers ways to deal with harassment on the street, in public places, at social gatherings, at work

and in the home, during all types of verbal, physical and sexual assaults.

Often the most valuable thing that comes to a woman from this course is the feeling of self-confidence and self-determination, the belief and knowledge of one's ability and desire to defend oneself. To realize that you are not completely helpless and that you can be effective in your environment is a definite asset.

Instructor - Alice MacPherson from Vancouver Place - Viking School

Dates - Saturday, September 20, and Sunday September 21 (exact times are not set yet, but there will be 12 hours of instruction)

Cost - \$21 (for instructors fees and materials)

Only 20 people can enroll

in this course, so preregister early

Program To Help Attract Industry

A new program offering financial assistance to municipalities to help them attract new business and industry was announced recently by J. Allen "Tommy" Adair, minister of tourism and small business.

The new Location Assistance Program will be available to any Alberta Municipality with less than 75,000 residents and comments two existing areas of assistance. This third part of the overall program will make it possible for specific prospective business investors to locate a company to serve his industry location advantages.

After the initial visit to study the proposed Alberta location, municipal representatives may, under certain circumstances, obtain financial assistance to make follow-up presentations direct to senior management of the investing company.

Adair points out his department's regional business development representative has been working with many communities to help prepare business development plans. "This new financial assistance program is designed to help municipalities attract specific new businesses and industries to smaller centres."

As a great working tool to get businesses to study the potential advantages of rural Alberta, he said.

As mentioned, the new location grants are part of a comprehensive Alberta Locations Program which includes two other areas of assistance: detailed data packages profiling approximately 150 individual communities in Alberta, and specialized help to businesses in finding site location compatible with their requirements.

The maximum amount available to any municipality for any one visit is the amount of a round-trip economy air fair plus \$100 per day per individual for a maximum of two authorized representatives travelling to the specific municipal location, or to the prospective investor's main office. Applications must be approved in advance, and claims must be fully substantiated.

Interested municipalities may obtain further information from the Regional Business Development Branch, Department of Tourism and Small Business, 10060 Jasper Avenue, Edmonton, Alberta.

P.S.S. will be trying to continue this service throughout the year. We look forward to your continued support, and many thanks for the community support at this point.

Y.E.S. Report

The summer is just about over, but there is still time yet to hire students to do your work.

Many students have been placed, and most of the students registered have had jobs. The service has been successful these first two months, especially considering the P.S.S. office.

Thank you to all the people who have used the Youth Employment Service during the summer. Although the government summer funding is balanced forward to your continued support, and many thanks for the community support at this point.

Remote Area Heating Allowance

Albertans have always had plenty of natural gas and for the last six years the Natural Gas Price Protection Plan has seen to it that Albertans have paid less for their natural gas than anywhere else in Canada. However, one group of Albertans has missed out on this great cost-saving package. Because some residents of the province have not had access to natural gas service, they have had no alternative but to use more expensive fuel oil and propane for heating purposes. Remote area residents and farmers who still have not benefited from the government's commitment to lower energy costs will

now have their turn. The Remote Area Heating Allowance, a major addition to the renewed Natural Gas Price Protection Plan, will provide a direct 86 per cent rebate on the purchase price of propane and fuel oil purchased on or after October 1, 1980. The propane/fuel oil rebate will not apply to residents living within serviced natural gas franchise areas who, by choice, prefer to use fuel oil or propane. Natural gas is available in these areas for much less than the cost of alternate fuels, and the rebate is being made to ensure that Albertans take advantage of the savings to be made by using more

economical natural gas. One of the main reasons for promoting natural gas is that it is available, besides its inherent expense nature, is the fact that the majority of rural residents of Alberta now use natural gas provided through a rural gas co-operative. These rural Albertans, as well as gas utility companies and the provincial government, have made considerable investment in their co-operative gas distribution systems. If more rural residents were to take advantage of the system now in place, the average cost of maintaining and operating them would be less and the overall cost would be lower. The government therefore wishes to encourage maximum use of natural gas where it is available. "We would be defeating the purpose of our rural gas program," said Mr. Shaben, Minister of Natural Resources, "if we allowed a rebate for propane and fuel oil to residents who have natural gas at their property line and choose to take advantage of it. We don't want to adversely affect the viability of the rural gas distributors by offering alternate fuels at subsidized prices."

Rebates for propane and fuel oil will not be approved for residents living within the franchised boundaries of a natural gas distributor unless the distributor verifies, in writing, that natural gas service is not available to the applicant. Should natural gas service be extended to the applicant at a future date, then the propane or fuel oil rebate will be terminated since the resident would be expected to sign up for natural gas service. Propane And Fuel Oil Are Now Expensive. The approximate average consumer price per million BTUs of natural gas, fuel oil and propane tell the cost story very clearly. After the natural gas rebate has been applied, natural gas costs the average consumer \$1.80

per million BTU, while propane costs \$6.00 per million BTU and fuel oil \$4.10 per million BTU.

The Remote Area Heating Allowance will limit rebates to be paid to 4,700 gallons of propane or 4,700 gallons of fuel oil per year. This is approximately double the current average domestic provincial consumption. This limit is designed to ensure that the program should remain a benefit to rural residents of Alberta from high heating costs, and also that it is not being used as a major subsidy for commercial or industrial use.

Eligible propane and fuel oil consumers can obtain their rebate by completing a registration form and submitting their paid original invoice to the Rebates Branch of Alberta Utilities and Telephones. The invoice must include the date of purchase, the amount of fuel purchased and the unit cost of the fuel. Residents who do not know if they live within the franchised boundaries of a gas distributor can contact the nearest gas utility company or rural gas co-op.

The Remote Area Heating Allowance is anticipated to cost as much as \$18 million per year. Mr. Shaben, Minister of Natural Resources and Telephones, said that he has been difficult to estimate the cost accurately since it has been difficult to obtain accurate information on how many residents will be eligible, and how much oil and propane they consume per year, particularly since many of them supplement their heating fuel with wood and coal.

An appeal board will be established to hear any complaint relating to ineligibility rulings by natural gas distributors. "We have 200 years old, the Iron Bridge over the Severn River in Northampton, England, was the first bridge to be constructed entirely of iron."

Holden And District News

Miss Kathy Hurum has received her R.N. from the Royal Alexandra Hospital School of Nursing, and has accepted employment in that hospital.

Kathy is the daughter of Mr. and Mrs. Ernest Komarnitzky. Lorne is the son of Mr. and Mrs. Ernest Komarnitzky.

Problems Weeds

Farmers are in the front line in the battle against weeds, but they are being helped by federal weed specialists. Researchers at Agriculture Canada's Harrow, Ont., Research Station are currently doing a weed survey in 10 counties in northwestern Ontario. They are also co-operating with the Ontario Ministry of Agriculture and Food and the University of Guelph in a weed control program.

Irma News And Views

The Irma New Horizons Club held a meeting on Wednesday, August 20, with only 12 members present.

Eight members played whist, while the others enjoyed scrabble. Marie Kell was the ladies high scorer, while Grace Archibald was low. Harry Riley got the mens high, while J. Jackson had the low score.

The Strawberry Plains W.I. are holding a bazaar, bar sale and tea in the Irma Legion Hall on September 6 at 3 p.m.

Mrs. Isabel Bartholow of Sundre is visiting in Irma with her daughter, Joyce, in company with her brother Arthur, and Marilyn and family they attended the wedding on Saturday, August 20, of Charlie Jackson and Caroline Carr at the

whatever they wish for the "bake table".

"Presents for Friendship" was, Garden and mums, matured, pay 10 cents for all provided.

The meeting will be held at the home of Mrs. Geo. King on October 15, with the bazaar being Ethel King. Betty Pantor will be in charge of the raffish, and the roll will be a discussion on crops and gardens.

The meeting was adjourned and a delicious lunch was served by Althea and her daughter, Linda.

Strawberry Plains W.I. Hold Meeting

Alberta Wildlife Park Opens

Alberta's newest tourist attraction - the Northern Alberta Wildlife Park, situated 38 kilometers (24 miles) northeast of Edmonton officially opened its gates to the public August 17, 1980.

The \$3 million development is located on 168 acres of land beside the famed Red Barn on the Lily Lake Road, one kilometre west and 12 kilometres north of Bon Accord.

Approximately 12,000 to 15,000 people joined in the park's opening festivities along with dignitaries. Al "Boomer" Adair, Minister of Tourism and Small Business, J. E. "Bud" Miller, Associate Minister of Public Lands and Wildlife, L.G. Young, Minister of Labour, Mrs. M. C. Pye, Member of the Legislative Assembly for the constituency of St. Albert, Jim Fetherly, President of the Midnight Twilight Tourism Association, and last but not least, owner-operators Bill Cochran and Walter Jerram.

At the ribbon-cutting ceremony, "Boomer" Adair was pleased to note that in addition to providing the province with another major tourist attraction, it was particularly significant that the new facility was owned and operated by Albertans.

While the other dignitaries echoed Adair's comments and gave their own best wishes for a successful future, the Associate Minister of Public Lands and Wildlife, J.E. "Bud" Miller was asked to cut the ribbon.

After presenting a plaque to owner-operators Cochran and Jerram, Miller announced that the Government of Alberta would be upgrading the Lily Lake Road in the near future.

After thanking the government for its support, Bill Cochran noted that it has been only nine short months since the site of the Northern Alberta Wildlife Park was born and brought to reality.

"This park was a dream come true in nine months, and what a baby it is!" said Cochran. He promised that the Northern Alberta Wildlife Park would be one of the foremost facilities of its kind in North America in a very short time.

Presently the park features 320 animals representing 60 different species, some of which are extremely

from hospital very soon. Don and Annette McKee visited May Dunbar on Sunday afternoon. They took her back to Wainwright with them for a visit, bringing her home to Irma later.

CHIEF/WESTLAND ECONO-BINS

Stock now & get this year's bins at last year's price!

EXTRA STRONG TOP CORNER
Made of extra heavy steel, the top corner has a wide 30" flange covering, and is equipped with heavy duty rubber hooks for tight seal.

SELF-LOCKING ROOF PANELS
Panels for vertically stressed roof assembly in minutes without seam bolts. No trusses or braces are needed. Bins are extra high for strength and greater weather seal.

DOUBLE STRENGTH DOOR
The two-way door is formed and reinforced for extra strength. The sides of the door frame are corrugated to match the wall corrugations for a tight seal. Hinged bulk heads swing in for easy access, with gated sugar bins as standard equipment.

We also have Hottelbins Bin unloading equipment.

STEEP ROOF PITCH
Steep 35° roof pitch - and the elimination of moisture catching bolts - prevents moisture from dripping back on the grain when the bin is used for drying.

Echo Rodino News

Shelly Holt spent the week visiting Grandma and Grandpa Holt while her mother was in hospital.

Yvonne Greenwood took her parents, Mr. and Mrs. W.D. Johnson of Kinsella, to Edmonton for the day. Calling at the Wes Bauer home were Mr. and Mrs. Steve Rybock and son of Evansburg.

Mr. and Mrs. Gerald Hunter and son Robin were weekend guests at the Williams farm. Also from Calgary were Mr. and Mrs. Dave Manington and Paul, coming to get Perry as school will soon be starting.

Harriet Faulkner has been holidaying in Banff and area. The Phil Holt family travelled north of Vegreville to attend the wedding of Charles Jackson on Saturday. The reception was later at Willington.

Daphne Davis and friend Jill Gould of Edmonton spent a few days at the Holt Ranch.

Last Prosser has the pleasure of his mother, Mrs. Swartz of Hamilton, Ont., staying with his family for a while.

Mr. and Mrs. Larry Mier and family of Edson spent the weekend visiting Mr. and Mrs. Robert Greenwood.

Sunday afternoon a shower was held at Rodino Hall in honor of Lorraine (Prosser) for Maderis. A nice turn out of

ladies enjoyed a few games before the opening of the gifts, after which a lovely lunch was served.

Spending the weekend at the Prosser home were Marg, Felix, and Marie of Sangued, Mr. and Mrs. Morry Krull and Karen of Edmonton, Mr. and Mrs. Bill Taylor and family, Mr. and

Mrs. Maria Maderis and family, Arlie Patterson of Edmonton. Also spending the weekend was a relative of Maria, Eric Maderis of Montreal.

MaryAnn and Joe Holt travelled to Lorne Rock, Saskatchewan with a friend for the weekend.

Kelly Letch of Wainwright

Safety Council Urges Use Of Helmets

Needless death and severe injuries will result from the decision of the Attorney-General's Department to stop enforcing motorcycle helmet regulations, states the Alberta Safety Council.

Although the Council recognizes the position taken by the Attorney-General's Department to stop enforcing motorcycle helmet regulations, states the resulting disregard

Irma Chamber Of Commerce Report

Financial statements regarding Irma Dams were dealt with. It was voted and carried that Black Midlight would receive \$500 and the Irma School Band will receive \$125. Their excellent entertainment was greatly enjoyed by all those who turned out to hear and watch them.

Don Crassey expressed thanks to Owen Seip, Bank of Montreal manager, for sponsoring the pancake

breakfast. The Chamber also expressed their thanks and appreciation to Eric Nissen for operating the food booth.

There are a number of anniversary souvenirs left over, and are available at the Club Cafe.

The Chamber has decided not to sponsor a fall festival. This leaves an opening for other interested organizations.

light visited a few days at the Holt Ranch.

Josephine Holt accompanied by Shelly and Kelly, took in a shower at the Ted Hill home in honor of Charlie Jackson's bride-to-be.

Josephine and MaryAnn Holt attended a farewell party held in Irma for Charlotte Lindmark.

Shown by so many unbelieved motorcycleists that their own safety, is one of complete dismay.

During the first six months of 1980, 14 motorcycleists have died on Alberta roads. Undoubtedly this death toll will increase dramatically because of the suspension of the helmet legislation. Results of the investigation conducted by a British Columbia on August 11, 1980, making compulsory helmet legislation illegal in that province, seems to bear this out. Within a week of the decision, some bikers have died and two remain in critical condition in hospitals. Police blame the lack of proper head protection for the deaths.

Some of the comments received as the evidence follows - if anyone is interested in reading them in detail, feel welcome to come to 15 to 20 years. Really enjoyed it; wanted to use if other high schools were much like mine; the helmet all use used to make much more than that goes on in our

Groups such as the Biker's Rights Organization (BRO) have advocated that the prime concern in their fight against helmet legislation is infringement of their basic right to freedom of choice.

Now that bikers can legally ride without helmets, they should be able to wear helmets as proof that legislation is not required to provide safety protection for bikers. The second point on which the "BRO" was adamant was that bikers should receive training in order to handle their vehicles properly. It would appear, then, that protection of one's head is not required to retain this training. Larry Wilcox, motorcycleist star of T.V.'s "CHIPS" has said that, "It's cool to ride a motorcycle, and it's cool to be alive tomorrow."

The Alberta Safety Council has been following the statistics of the 27 American States that have either repealed or substantially weakened helmet laws since 1978, and the results have been a 46 per cent jump in the total of motorcycle deaths to the end of 1979, although motorcycles sales and registration have remained virtually level.

The Alberta Safety Council provides the National Motorcycle Training Program throughout the province for novice riders; training in excess of 300 riders per year. Our policy remains firm in that all students shall wear helmets while taking our course.

The Alberta Safety Council strongly advises all motorcycleists to think of the slight discomfort of a helmet as a small price to pay for the greatly increased safety advantage.

"Keep 'abund of the rest' by continuing to wear your helmet."

Teen Daze Report

The Teen Daze events that took place in Viking last week were successful in terms of the numbers attending. There was a large number of adults involved, indicating a concern for the youth of our community.

The Olds Youth Expression Theatre held two performances at the Community Hall, with a total of over 100 people attending. This program certainly created some controversy, as the situations portrayed included some of the dilemmas young people face today, such as drugs, pregnancy, alcoholism, dealing with sexuality, etc., and actual language often used or heard by teenagers, and those younger.

As explained by the producers, they did not present any solutions, and by no means all the problems, but just an exposure of some situations being faced by teens.

We hope that this program will create some incentive for concerned adults to get together to work with youth and provide some positive options and ways of dealing with these problems.

Some of the comments received as the evidence follows - if anyone is interested in reading them in detail, feel welcome to come to 15 to 20 years. Really enjoyed it; wanted to use if other high schools were much like mine; the helmet all use used to make much more than that goes on in our

Part of the "Teen Daze" Program sponsored by P.S.S. in Viking included the Olds Youth Expression Theatre. Over 100 people attended the two performances.

very realistic; good acting; it's all laid out there - I'm fascinated it all the time; hope you brought out something new to some of the adults around here; the language would be offensive to our parents because they don't hear language like this from us, but we hear worse at school 51 - 35 years - interesting and brutally honest; it is good to forcefully pull outcries out of the mind; thank you for really shocking me; I know it all use used to make much more than that goes on in our

makes me think; dangerous to present problems with no semblance of solutions there are solutions - 35 - 50 and over 50 years - enjoyed seeing the young people so shy act out these problems; could incorporate a couple of adults to bring out the rebellion of many of today's youth; it's the same we have here, will make me stand and think; good eye-spyer; feel sorry for today's youth. Thursday, August 21, saw over 100 people out to the United Church basement for

the film "A Time To Run". Bob Taylor speaking, and singing by local talent, and a lunch prepared by a number of ladies. A special thanks to all those who helped. The film, depicting family difficulty and a teenage boy running away from home, stressed the answer being Jesus Christ, and the program focused on that solution, so the approach was different than the previous evening. Unfortunately, roller skating had to be cancelled due to the Carra floor not being dry. We hope to be able to have roller skating at a later date, depending on the condition of the floor.

Thank you to all who volunteered and helped with Teen Daze. P.S.S. plans to be involved in organizing more activities directly relating to teens. If you are interested in being involved, please contact Deborah Taylor at the P.S.S. office (836-4024).

SELECT COMMITTEE ON SURFACE RIGHTS SUBMISSIONS INVITED

A Select Committee of the Alberta Legislative Assembly has been established to conduct a full review of the policies and legislation relating to Surface Rights in Alberta.

- The Committee will:
- Review existing and proposed methods of expediting claims directed to the Alberta Surface Rights Board.
 - Examine the role of appointed Surface Rights Mediators and make recommendations concerning their terms of reference and appropriate professional qualifications in the context of Surface Rights mediation.
 - Review present levels of compensation to landowners and make recommendations for means by which these levels might be adjusted.
 - Examine the role of landmen in Surface Rights negotiations and make recommendations concerning their terms of reference and appropriate professional qualifications.
 - Review Alberta Surface Rights Act, identify sections requiring amendments and make recommendations.

It is not the purpose of the Committee to review personal grievances arising from specific claims.

Interested associations, agencies, firms and individuals are invited to present their views on the problems and requirements of all aspects of Surface Rights in Alberta. Submissions or notice of intent to present submissions should be in writing and sent to the undersigned by October 1, 1980.

After examination of the submissions, the Committee will determine locations and dates for public hearings throughout the Province. All persons making submissions will be given the opportunity to meet with the Committee should they request it. Public hearings will be held during the third week of November, 1980.

October 15th

October 15th is an important day of all us living in Alberta. This is the day designated by the provincial government when all municipal elections are held across Alberta. Village councilors, town councilors, mayors, board of education members, municipal district councilors, school district representatives, hospital board members, etc. are all selected by voters on October 15th. It is the closest that most of us will get to direct involvement in the democratic political process. These elections are the real "grass roots" elections held in Canada. In municipal elections, a greater majority of the voters has direct, first-hand knowledge of the people who are running for a political office. Often they are your neighbors, or you have grown up with them. In a municipal election, we are perhaps better able to make a valid selection as to the person whom we wish to represent us in our local government over the three year term of office.

The decisions made by municipal councils often have the greatest direct effect on the lives of people. The education of children, the providing of basic social services, ensuring that recreational programs are funded, providing quality streets, roads, sewer and water systems, etc. all directly affect us on a day-to-day basis. The determination of the quality of such government undertakings is the responsibility of those people whom we will elect on October 15th.

Yet prior to this decision which the voters will have to make, someone must be put forward as a candidate for the particular office which is being voted on. Sometimes in municipal elections only one candidate can be found for a particular office. This is fine if everyone in the constituency is of a similar mind. But most often they aren't. Therefore the upcoming elections should have at least two candidates for every office so that people can choose that person who most represents their viewpoint.

When it comes to political issues being discussed in our communities, those most often talked about are those things for which the municipal government is responsible. It is often very easy to sit back and criticize without taking any affirmative action. We all can't be candidates. But we all can get involved enough to attempt to put forward a valid candidate, and then work towards the election of that person. If we have an inclination, we should run for a particular office. In some way we should get involved. October 15th is important!

Alberta Agriculture

TODAY & TOMORROW

Dams, reservoirs, flood gates, canals, canal linings—these are the major components of building and maintaining an irrigation system. It is extremely costly, over \$100 million in the case of the Red Deer River. It was the very end of August, and I, along with Jack Condon, Minister of Environment, went to Lethbridge to announce \$3.4 million in funding from the Alberta Heritage Savings Trust Fund to expand water resources in the southern part of the province.

What will \$3.4 million do for irrigation in Alberta? A fair amount. It will help us to establish new dams and reservoirs and to rebuild and enlarge the main irrigation canal and headworks systems of the province's 13 irrigation districts. It will help us to rehabilitate existing canals to minimize water seepage, increase their capacity and improve their operational capability. It will help us to undertake the design and construction of canal improvements and diversion structures, the rehabilitation of various structures, the acquisition of required operating equipment and the purchase of needed land.

The new funding will help us to do a great deal, however, I think it is important to note that the overall plan is not new. Four years ago, the Alberta government took a major step in irrigation management when it announced that a joint program was to be undertaken by Alberta Agriculture and Alberta Environment to undertake badly needed renovations on southern irrigation works and to expand overall irrigated acreage through improvement to existing irrigation systems.

Being implemented over 10 years, the \$200 million program was to be undertaken by Alberta Agriculture and Alberta Environment to undertake badly needed renovations on southern irrigation works and to expand overall irrigated acreage through improvement to existing irrigation systems.

If anything, I would hope this background points favorably to the effect public input

How will these dollars be spent? In a great many ways. To me, one of the most important will be those projects intended to control seepage, the major cause of irrigation water loss. If seepage alone could be effectively controlled, we could eliminate many of our previous problems with water rationing, soil salinity and increase irrigated acreage.

In the longer term, this \$3.4 million from the Heritage Trust Fund will be a significant investment in Alberta. It

will ensure agricultural production, enhance our quality of life and in the short term and balanced growth in the province.

And, it will help us protect as well as nourish the land. For us in Agriculture, that could be the most important trust of all.

Of Environment's portion, the enlargement and rebuilding of the main irrigation canal and headworks systems are expected to take the major share, \$150 million over the next five years. The development of 100,000 acre-feet of off-stream storage at 40-Mile Coulee Reservoir and at Kehoe Lake will require a further \$57 million.

Major multi-purpose water storage projects, each exceeding 25,000 acre-feet, will be constructed in several irrigation districts not as yet designated. The cost will be \$17 million.

Finally, \$10 million will be provided for a major diversion in the Berry Creek region, 160 km east of Calgary. The first will enlarge the water pipeline to the thermess Thermal Power plant while the second will be a major diversion project to augment the flows in the Berry Creek system. These two projects will create water supply for irrigation, stock watering and recreational activities. Sunnybrook, Pollockville, Casford and Weedon.

With our funding of \$100 million, Alberta Agriculture will be able to raise substantially special assistance to irrigation districts. Over the next five years these funds will be disbursed through rehabilitating, upgrading and enlarging the water distribution systems within the irrigation districts. The current method of offering assistance with 14% being paid by the districts and 86% by the government is being retained.

For further information Call John Putton.

Agriculture Minister To Visit China

Agriculture Minister Eugène Stelmach recently announced details of the upcoming visit to China, the People's Republic of China over to visit Canada.

Stelmach is the most senior minister of the government to visit China. He is expected to be in China for two weeks in total. He will be introducing the provincial agriculture who Ottawa recently for agricultural talks.

Stelmach is leading a delegation of four farmers, a food processor, a provincial

minister of agriculture, and five Agriculture Canada officials, who will begin a two week visit to China this fall.

"I am looking forward to this opportunity to see Chinese agriculture first hand", Mr. Stelmach said. "I was pleased to accept the invitation to Chinese Agriculture Minister Huo Shilian."

"The Chinese are reorganizing for several agricultural delegations from their country which the Government of Canada has hosted in the past eight years. We welcome this opportunity to familiarize ourselves with agriculture in China and we

will also be reviewing and looking for ways to expand Canadian-Chinese co-operation in agriculture. In addition we will hold discussions that we hope will lead to the signing of a Memorandum of Understanding on co-operation in agriculture by our two countries."

While this is not a trade mission, Mr. Stelmach will be trying to add Canadian trade links with China.

"The delegation is made up of practical, competent individuals who together have a tremendous knowledge of Canada's food and agriculture industry. I know that we will be able to learn much from the Chinese to offer them a lot of information about Canadian food production in return," Mr. Stelmach said.

Charges Pending In Viking Fire

An investigation into the fire which gutted the old Viking Community Hall last Friday has concluded that the fire was deliberately set.

Fire Investigator D. Leo Dumas of the Fire Prevention Branch of the Alberta Government investigated the burned out and charred structure on Saturday morning and ruled out the possibility of an electrical fire. As few possibilities were left with regards to cause, the fire investigator strongly suspected arson.

The investigation revealed that the fire started in some papers below the stage at the back portion of the building. The building housed Joan's Western Wear, the accounting firm of A.V. Hardy, and a suite at the rear.

Loss in the fire has not yet been determined, but the inside of the building is almost completely gutted. As well, water damage is extensive.

The fire started at about 7:45 on Friday evening and was quickly responded to by the Viking Volunteer Fire Department. The fire was

brought under control by about 9:15, but burned again at intervals during the night. Mr. Dumas said that the Fire Department had done an excellent job of controlling the flames and putting it out without a greater loss.

Following his initial investigation on Saturday, Mr. Dumas returned to Viking on Monday when he conducted his investigation in conjunction with the local detachment of the R.C.M.P.

At the regular September meeting of the Viking Town Council, Fire Chief Bill Kamphuis and Deputy Chief Brian Anderson met with the Council to discuss their request for equipment to upgrade the Viking Fire Department.

The equipment includes such items as motion hose, hose reels, new fire-fighters' boots, air compressors, an A.R.P. helmet, and a 740 on Friday evening and was quickly responded to by the Viking Volunteer Fire Department. The fire was

At approximately 8 p.m. last Friday evening, the Viking Fire Department was called to a blaze at Joan's Western Wear. Viking R.C.M.P. have stated that the fire was deliberately set, and charges are pending.

Staff Photo

Council Members Undecided

With nomination day only one week away, the majority of present town council members are still undecided as to whether they will again run for council.

Of the six council members contacted, only two have made a decision at this time.

Bill Taylor, council member in charge of streets, stated that he has not committed himself, but is seriously entertaining the thought of once again running for council.

Maurice Stephenson is also undecided, but is giving the idea serious consideration.

Maurice is currently in charge of water and sewer for the town of Viking.

Bob Evans is also undecided, but is giving consideration to seeking re-election.

Roger Labrecque has not run for re-election this term.

Reger, who has been a council member for six years, stated that he is not discontented with the present council, but that the time factor influenced his decision not to run again.

Leo Josephson, another one year veteran of council, will also be absent from this year's election. Mr. Josephson said he feels he should let someone else try a term on council at this time.

Ken Mido has not decided yet whether to seek a council seat this term, but he hopes to make a decision soon.

Unfortunately, Mayor Benner Halow was unavailable for comment at this time, and it is not known whether he will seek re-election.

Council felt that the radio would be useful in emergency situations and in the administration of the Town.

Funding For Viking Street Improvements

Alberta Housing and Public Works will be paying for much of the street and sidewalk improvements being undertaken this summer in Viking.

A letter from the Neighborhood Improvement Branch of the Government Department lists a total of \$180,000 worth of improvements which will be included in the grant system. A grant of \$80,000 will be forthcoming to the Town of Viking for the project, leaving the Town to pay a total of \$100,000 for the improvements.

The funds will help cover the costs of new sidewalks

on 54th Avenue, improvements to 57th Avenue and 58th Avenue, 58th Avenue, 61st Avenue, and the parking lot beside the Civic Centre. The grants will also help cover half of the cost of paving the parking lot at the south end of Main Street.

The letter informed Council that the Department would like to see a sign placed on the Town Office parking lot which states that it is for Town Office Building and Facilities use only. The letter says that this would discourage the use of commercial businesses from parking in the area.

With the return of warmer weather, many farmers are finishing swath operations and beginning to combine. A continuation of nice weather will see many working later hours in order to complete this years harvest.

charged to date, and that charges are expected to be laid within a week. He also said that the police are continuing their investigation.

A large number of extra volunteers pitched in to help the Viking Fire Department last Friday evening. Fire Chief Bill Kamphuis said that the department greatly appreciated the help which all extra volunteers had provided.

A large time and dollar saving is envisioned by the Council through the use of the 2-way radio.

Continued On Page 2

4-H Council Meets

An award was given to Sharon Leach of the Viking Senior Club. Club Awards were given to the Viking Senior Club and Bruce Foods Club.

There will be a news media workshop for any club reporters who are interested. This workshop will be held in Edmonton on October 4th. Interested members are to get in contact with their leaders.

There will be a leader's conference for all 4-H leaders in Edmonton at the Convention Inn South. The conference will be held on November 25 to 27. Dead-line for applications is October 10th, 1980.

Next meeting will be held in Viking on November 13th, 1980 at 8:00 p.m. All clubs are urged to send adequate representation.

Safety awards were discussed and distributed. These awards were to be given to individuals or clubs who showed safety aspects in the form of written work, displays or posters.

With the return of warmer weather, many farmers are finishing swath operations and beginning to combine. A continuation of nice weather will see many working later hours in order to complete this years harvest.

Decisions For Some

During the next week, people presently filling elected positions in our municipalities will have to make a decision as to their political future. As well, many other people who are considering throwing their hats into the political ring will have to arrive at a decision concerning their future over the next three years. It will not be an easy decision for some. The positions which are up for election on October 17th are positions of responsibility. A great deal of thought must be put into a decision of this nature.

As Alberta moves into the 1980's, we are entering a time in which this province will experience an economic boom unseen in the past 75 years. It will be a time of tremendous development and a large population increase. The potential benefits to all parts of the province are tremendous as industries develop and businesses expand. The municipal councils of the next three years will be laying the groundwork for their particular area to enjoy some of the benefits of this boom. Because of this, what is needed now is that we nominate progressive, hard-working and concerned citizens to fill the municipal positions open this October. Those councils composed of just such people will enjoy the benefits which will be spread around the province. Those councils which are not will be left far behind in development. It is up to us to ensure that people who are concerned about their area and possible future developments are nominated next Wednesday, September 17th, to fill the positions.

Presently, the majority of the people filling these positions fill the bill for the 1980's. They are hard-working, progressive and dedicated to the area or community which they represent. However, a minority of elected officials seem only interested in the prestige their office brings, or the possible side benefits which may accrue from them holding their position. This type of nominee we can do without. We must carefully scrutinize our communities and carefully select possible candidates to fill the positions which are available in October. And we must make ourselves available, if we are in any way interested and can contribute, for nomination. Our municipal councils and school boards need quality people to satisfy people on them, and this time around is perhaps more important because of the future of our province.

But it is up to us! If we want good councils and school boards for the next three years we must encourage the quality incumbents and other people of their stature to run for office. It is up to us! There is only one week to go!

Viking Council

Continued From Page 1

to the Viking Museum. A lengthy discussion ensued concerning possibly moving the present museum to a new site with a larger land area. Some councillors felt that a larger area would be better suited to a museum located in an agricultural area with its large variety of old farming equipment.

Council also felt that they could not pass an opinion on the development proposal they had seen a development proposal from the Minister of Tourism and Small Business informed Council that grants were available to assist community representatives in promoting and marketing their Town. The Council felt that the idea of such assistance was sound and that more information should be obtained so that the grants could possibly be utilized.

Mr. Fred Ruzicka and Mr. Bill Pines of Ruzicka Trucking attended the meeting to discuss the Town's desire to have their loading station relocated. The present location of the station falls within the area of the proposed development. The Town's plan as this was an initial meeting between the two sides, discussion continued around possible relocation sites. An Council was unsure as to the possible locations of

the loading station, the Ruzicka Trucking owners requested that the Town determine some possible sites, then arrange for another meeting. Council concurred with this proposal.

A copy of a letter from Brierley-Viking Ltd. to Council Engineering was tabled for information at the meeting. Discussion of the letter indicated that it was highly critical of the engineering firm in handling of the saving and sidewalk contracts in Viking. However, Administrator Lydia Klenz informed Council that Ron Chapiro of Olson said that the President of Brierley had apologized for the letter, indicating that it was the work of a junior executive. She also said that Mr. Chapiro hoped that the matter would be closed.

Some councillors were concerned about the letter and its contents and expressed a desire to discuss the matter with the engineering firm. Final discussion of the evening centred around an elaborate plan by Brierley-Viking to build an overpass on Highway 96 over the CN mainline. The project would greatly improve the development of the local property and therefore the Town Council agreed to reject the Transportation Department's plan in favor of the Ruzicka development.

High Enrollment At Lakeland

Close to 90 per cent of this fall's seats in one and two year programs at Lakeland College's residential campus in Vermilion are spoken for, the Director of Student Services announced recently.

John Dahmer said this is the highest enrollment this time of year that the college has ever had.

Applications are still being accepted for all programs, said Dahmer. He noted that people applying for programs that are currently full will be put on a waiting list. Post-secondary programs will be available in the fall depending on the number of on-campus students. Lakeland College courses are currently accepting students from outside of Alberta. To date 81 students have been accepted from other provinces and countries.

Alberta Can Afford Superior Education

Alberta can afford to increase expenditures on education, all it needs is the will, according to Dr. Eric Hanson, well-known Alberta economist.

Speaking to teachers at the annual ATA Old Summer Conference, August 21, Dr. Hanson suggested that future increases in education spending should aim at lowering pupil-teacher ratio and at attracting qualified people into Alberta's classrooms.

According to Dr. Hanson, the pupil-teacher ratio in Alberta recently has slipped below the national average. Other findings reported in Dr. Hanson's most recent study of education statistics include:

Enrollments in Alberta schools have declined by only 1.1 per cent from 1976 peak of 629,300. Enrollments will begin to rise moderately after 1985.

Alberta no longer leads the country in per capita expenditures on education and secondary education. In 1981, Alberta spent \$4 per cent more than the national average on education. Expenditure on basic education is now estimated to be 4 per cent below the Canadian average.

Expenditures on education have decreased from 9 per cent to 6 per cent of the province's Gross Domestic Product since 1971.

School boards' operating revenues are being raised increasingly through the voluntary requisitioning of local taxpayers. Between 1981 and 1977 funds raised through supplementary requisitioning increased from 5.4 per cent to 20.7 per cent of board operating revenues.

Dr. Hanson confirmed that Alberta's economic position is exceptionally healthy, noting that Alberta's Gross Domestic Product continues to exceed the Canadian average.

Kinsella Recreation Association Meets

The Kinsella Culture and Recreation Association held its monthly business meeting on September 8.

Miss Sandra Darby of Lethbridge (daughter of the former Alton Cargill) was the lucky winner of the second prize in the raffish a table. First prize had been constructed and donated by Charles Treenman, while second prize was made donated by Connor Garvie.

The contributions of all

who bought and sold tickets and all who loaned the school and school grounds after the homecoming were recorded with special mention to Alwyn Connor and Connor Garvie for putting on the school year.

The County of Beaver has contacted the school with regard to building insurance. The annual insurance payment on the school building is \$1,800.00.

The Kinsella Kids have

advised the Kinsella Culture and Recreation Association of their intention to sell the place which is currently in the hall.

Following a discussion period it was decided to send a questionnaire out to the mail to the children of Kinsella in order to obtain ideas and information regarding the type of corner they would like offered in Kinsella.

A questionnaire has been prepared for Kinsella Hall on October 21, 1980.

A degree of interest has been shown in the formation of organized volleyball and tennis teams.

The Kinsella Culture and Recreation Association have advised that the room in the school are for rent at anytime. Also the gymnasium is available and anyone wanting to rent these facilities should obtain information by calling 336-2419 or 336-2800.

The Kinsella Kids have

Child Development Society Sponsors Dance-A-Thon

You don't have anything to do Saturday, September 13th? Plan a pledge sheet at the P.E.S. office or school, then find a partner and dance at the Dance-A-Thon from 12 noon to 12 midnight!

The Viking Child Development Society are holding the Dance-A-Thon and it is open to any age. Several prizes will be awarded, including trophies for the couple who danced for the longest time.

Local bands are welcome to volunteer music if they wish.

The Viking Lions Club have offered supervision and M.G. Bill Giroux will be the M.G. Hot dogs and pop will

be offered at a nominal cost.

Participants are encouraged to bring along friends and family to cheer them on.

We feel this is a good example for students to help make their community a better place by assisting in the funding of worthwhile projects as well as having fun themselves.

Also remember the pyrographic dinner and rummage sale on Sunday, September 14, from 11:00 a.m. to 4:00 p.m. A draw will be made for a microwave oven and a television set. Get your tickets at the door or from any number. Only 2,000 tickets have been printed.

School Division To Hold Elections

The Watnigwair School Division will be holding elections this fall. Nomination Day is Wednesday, September 17th, 1980 between the hours of 10:00 a.m. and 12:00 noon.

Following the results of Nomination Day, Election Day will be held on Wednesday, October 1st, 1980 if required.

The office of trustees is now meeting in the new Subdivisions 1 - 6, presently held by Don Lakens. The trustees are J. C. Barber, Irma, Ben Tindal of Watnigwair, Mel Nichol of Edgerton, Jack Warrall of Lethbridge, John Middleton of Watnigwair, and John Mitchell of Watnigwair, respectively.

Nomination Papers are available at the Watnigwair

School Division Office or by contacting J.H. Whitham, Returning Officer.

Qualifications or eligibility to be considered for trustee are covered in the School Election Act. Some of the requirements are as follows:

1. Able to speak, read and write English. 2. 18 years of age. 3. A Canadian citizen. 4. Resident in Alberta 12 months before Nomination Day. 5. Resides in the subdivision he wishes to represent, at least 6 months before Nomination Day.

Honey Production Declines

Canadian honey production last year will be below last year's level, but both price and volume of honey exports should be up.

Unfavorable weather conditions during the key nectar-producing months caused the drop in production. Only British Columbia and Alberta are expecting an above average honey crop this year.

Honey prices and exports likely rise because of reduced honey production in other countries, particularly in the southern hemisphere.

B.R.T.A. Photo Contest Winners Announced

Judging of Travel Industry Association of Alberta's Diamond Jubilee Snap Around Alberta 75 Photo Contest at the Zone 4 Level, sponsored by W. Corbin Co. Ltd., Executive Canadian Distributors of Olympus Photographic Equipment, took place on Monday, August 18, 1980 at the Zone 4 Battle River Tourist Association Administrative Office located in Camrose, Canada. The first prize for the contest was August 18, 1980. Big winner was Ernest H. Hosh of

Vialta Lodge News

Plans for the Lodge for the season will begin this month. The first of these plans will be held on the third Wednesday, September 17, at 8 p.m. Lunch will be served starting at 5:30 p.m. until 9:00 p.m.

We will also be starting quilting again on Thursdays with Thursday, September 18th being our first afternoon of quilting.

Mrs. William Allen returned home on Saturday after spending a week with relatives in New York City.

Mrs. Sudeby enjoyed visiting with her sister and brother-in-law, Mr. and Mrs. Fred Harris from Vancouver, B.C. last week.

Mrs. Ragner took the bus Monday morning to Toronto to spend the day there with her sister.

Mrs. Kistler and Mrs. Anderson of Tofted Lodge visited here on Thursday and joined us for tea.

Visiting Mr. Cotter the past week were Russ and Kay Cotter, Jim and Todd Mansfield, Colleen Cotter and Mac Hann, all from Calgary and Bill and Lella Cook of Edmonton.

Carol and Wilfred Helge-land of Camrose called to see Mrs. Ragner.

Myrna May visited Mrs. Elmes and took Mrs. D'Arcy out for the afternoon on Sunday.

Mrs. Toole and Mrs. Fredericks visited Mrs. Giesbeaux Friday and joined the guests for afternoon tea.

Anne and John Bramhall of Banbury and Julia Tait-mer visited Mrs. Ingie.

Donald who will receive one Olympus XA camera plus a plaque.

Coming in second in the prize was Gary Reed of Banbury who will receive \$50.00 worth of Kodak film plus a plaque.

Third prize was mailed down by Betty Anderson of Camrose who will be receiving a Diamond Jubilee

on September 17th and 18th. The Alberta Contest was U.C.W. Executive will hold their fall meeting in Green Valley Church, Camrose on this is a change of date.

The regular meeting of the Viking and District Agricultural Society will be held on Thursday evening, September 11th in the Viking Community Hall at 8:00 p.m. Everyone welcome.

Anyone interested in the formation of a Viking 4-B Multi-Club is invited to attend a parent member meeting on September 18, at 8:00 p.m. in the Viking Camrose Youth Centre. This meeting will concern those interested in the Dairy Project and the possibility of other projects such as home-making, gardening, small register as well as others. For more information please call 886-3478 or 886-2280.

The Viking County Club will be holding their Harvest Ball on November 22, 1980 at the Rodline Hall.

The Viking R.N.A. will sponsor a Dance and Disco on November 21, at 8:00 p.m. in the Camrose Community Centre. Sponsored by the Bruce Agricul-tural Society.

A Turkey Bingo will be held on Wednesday, October 8, at 8:00 p.m. in the Camrose Community Centre. Sponsored by the Bruce Agricul-tural Society.

Anyone interested in a Crab Shop in the Village of Holden is invited to attend a meeting which will be held on Thursday night, September 11, at 8:00 p.m. at Wendy Ann Fashions (Helen Tadmans' place).

Pay Crow Rates To Farmers Suggest Cattlemen

"Any Crow Gap payment that is made by the Federal Government should go directly to the grain farmers and not to the railway Company", says a representative of the Canadian Cattleman's Association.

Larry Jones, 1st Vice-President of the Association and livestock producer, says the railway would be improved.

In addition, the very low rates for grain and cattle would be improved. The Crow rate has had on livestock hauling, agricultural machinery and other special crops would remain.

"It is difficult to understand why some of the major Grain Co-operatives are opposed to payment of the Crow rate directly to farmers," said Jones.

There are numerous advantages to a direct payment to both the producers and to the whole rural economy. Of most importance is the impact that it would have on Western Economic Development.

At the present time farmers who feed their own grain are at a serious disadvantage in that livestock and livestock products move more at over increasing compensatory rates without any grain and cattle.

The Crow rate has had on livestock hauling, agricultural machinery and other special crops would remain.

"It is difficult to understand why some of the major Grain Co-operatives are opposed to payment of the Crow rate directly to farmers," said Jones.

At the present time farmers who feed their own grain are at a serious disadvantage in that livestock and livestock products move more at over increasing compensatory rates without any grain and cattle.

The Crow rate has had on livestock hauling, agricultural machinery and other special crops would remain.

"It is difficult to understand why some of the major Grain Co-operatives are opposed to payment of the Crow rate directly to farmers," said Jones.

There are numerous advantages to a direct payment to both the producers and to the whole rural economy. Of most importance is the impact that it would have on Western Economic Development.

LITTER ACT

The County Council is concerned about the debris being dumped in the ditches on County roads. Under the Litter Act it is an offence to dispose of litter including among several items rocks, containers, bottles and waste material on any public place. The minimum fine for such an offence is \$50.00.

The County Council intends to enforce the Litter Act as this is a dangerous practise and makes it difficult to do any ditch maintenance.

A. Robert Cross
Secretary Treasurer

Mr. and Mrs. Ivan Dandridge and children from Edmonton visited with Ivan's old pal Clifton White and family over the weekend. We hadn't seen Ivan since the family moved away from Irma thirty years ago. We were glad to meet him again and to know that he

was doing so well working for Edmonton's transportation department and looking so well. Gary Foreman of Edmonton visited with his brother George over the weekend and while here helped his brother lay wall to wall carpet in his bedroom.

A former Irma resident, Bill Patterson, his wife, a married daughter, her husband and children from near Kamloops, B.C., are all visiting with relations, friends and former neighbors.

The crew which did such a good job of oiling the streets and avenues of the Village finished the work and moved on Saturday. The streets are much improved and the dust problem, if not completely eliminated, should at least be held to a minimum.

The roller-jockey was finishing up the street project on Monday forenoon. The past week we have had an on almost every front, but particularly on the farm front where much harvesting took place. Sweeping was general but in addition many combine were in action. Yields are reported to be good and in some cases very good.

The clouds which looked so threatening all Sunday afternoon, finally cleared "weeping" at about 6 o'clock. However, it only amounted to a light shower and should not hold up the harvesting very long.

I have been told that the lady we have as Myranda is visiting in Irma with her son Lorne and family. She lives in Quisp, Ontario.

Fall is definitely here. The cold northwest wind is a reminder that winter could not be too far away. Fall colors are appearing in the bush patches, this is particularly evident in the coulees.

In the Battle River Valley where the aspen trees are resplendent in their fall glory with many shades of colors—purple, gold, reds etc.

Get well wishes are extended to Mrs. Lill Linglie who has been hospitalized in Viking Municipal Hospital during this week. She will visit her grandchildren, Mrs. Clara and Huguette Miller of Edmonton were down to the Givins farm for a visit on Saturday.

Irma News And Views

Irma New Horizons Hold Meeting

The regular monthly business meeting of the Irma New Horizons Club was held in the Drop-In Centre on Wednesday, September 18. There were sixteen members present.

Owing to the absence of the President and Vice-President, the Past President conducted the meeting. The secretary, Orla Darling read the minutes of the July meeting which were unanimously for the August meeting. These were approved. She then read the minutes of the August meeting.

When the business meeting adjourned three tables of what were enjoyed. The other table played scribble. Ella McRoberts was the ladies high score. Dorcas Coffin the low. Harry Riley and Ludwig Balz did for the next business meeting. The next business meeting will be held on the first Wednesday of the month which is October 1st.

Launch was served and everyone enjoyed socializing. The next business meeting will be held on the first Wednesday of the month which is October 1st.

Chacutenah Manor

Mrs. Nicola (nee Una Keller) and two children of Alberta Beach were recent visitors with her grandmother, Mrs. Keller.

Visiting with Mr. and Mrs. Riley recently were her brother and his wife, Mr. and Mrs. J. Reeves of Vernon, British Columbia.

Mrs. C. McCleary who has spent the past two weeks with her aunt, Mrs. McLean left for her home in Camrose on Tuesday.

Recent visitors with Mrs. Beer were her daughter.

Echo Rodino News

This week has seen the yellow school buses back on their routes for another year as they pick up the district children. The only grade we have in our neighborhood is Blaine Hollar. Good luck Blaine on the beginning of your new year of life.

Dorcas Coffin travelled to Edmonton to return Michael Taylor home where his new sister awaited his approval.

Visiting the Williams' home over the weekend were Kathy Hoggie and Clarence Hunter of Edmonton. Sunday afternoon found most neighbors gathered at the Rodino home to honor Layla Heller with a birthday shower. Layla spent her younger years in our neighborhood. We wish her much happiness in the future.

Mr. and Mrs. Phil Holt travelled to Wetaskiwin on Sunday to attend the final judging of the Alberta Rodino Queen Contest. Josephine was very pleased when her niece Sherri Saville was honored with the title of Miss Alberta Rodino Queen. Doris Faulkner of Wetaskiwin visited for a while with Harriet Faulkner.

NOMINATION NOTICE

Section 43

Driver Improvement Film Now Available

Alberta Safety Council has added a new driver improvement film to their library. It is entitled "The National Driving Test", and is a 30 minute adaptation of the hour-long television feature of the same name which was produced by CTV.

The Insurance Bureau of Canada, which represents companies in the general insurance or non-life field,

sponsored the national presentation of the highest rated show produced by CTV in 1979. I.B.C. has had that production reduced to the 30 minute film and is donating copies to such organizations as the Alberta Safety Council.

The film invites audience participation through a series of questions on what to

do in various driving emergencies. Those who view the film are able to complete questionnaires and test their own knowledge of the safety, as was done in the National Driving Test.

The film was presented by R.A.S. Cooper, Prairie Regional Manager for I.B.C., 10028, Jasper Avenue, Edmonton, or phone 426-1065.

Anyone wishing to view the film should contact Alberta Safety Council at 2901, 10028, Jasper Avenue, Edmonton, or phone 426-1065.

Irma Women's Institute Notes

Eleven members gathered at the home of Mrs. Bob Dempsey to inaugurate activities for the fall season.

After a welcome from the president, Mrs. Peggy Fleming, tentative plans were made for the annual bazaar which is to be held on November 18th.

Roll call was answered with each member giving a recipe. These sounded interesting, so members' families will be in for a treat.

A report on the Fashion Show held on the Irma Homecoming weekend and convened jointly by the Craft Club and Institute, touched on the highlights.

The show was well staged and received with enthusiasm. Gifts of appreciation were presented to Mrs. Jean Ran, our Princess. Since Mrs. M. Keller, our Queen was absent, her gift will be delivered.

The Institute had been instrumental in collecting \$100.00 for Mrs. Asvada

McCammon, who recently lost all her furniture and personal effects in a fire.

The Institute has been instrumental in this project and added a donation of \$60.00. Anyone wishing to make further donations may do so by contacting Mrs. Peggy Fleming or Mrs. Cynthia Balastrino.

A very sincere thank you goes to those who assisted in this disaster.

Lunch was served by the hostesses Mrs. Jean Ran and Mrs. Orli Darling.

Since October is United Nations month, the Institute will celebrate the event by having a "United Nations" theme for their meeting on October 2, at 1:00 p.m. in the United Church.

Roll call will be answered with an item concerning United Nations.

Each member is to bring an ethnic dish, and invite a friend. Mrs. G. Enger will provide the rolls.

Municipal Administrator

4-H On The Move

By Ed Mason, Regional 4-H Specialist

With this edition of The Weekly Review we intend to introduce Ed Mason, Regional 4-H Specialist from Vancouver.

Mr. Mason's intention is to inform the various communities of previous, present and future 4-H activities through a bi-monthly column. The following are his comments:

With this bi-monthly column I hope to reach as many 4-Hers and potential 4-Hers as possible. There will be used to promote, present, regional and most importantly, local 4-H activities.

I encourage you to submit your 4-H news stories to the Regional 4-H Specialist, Box 300, Vermilion for inclusion in this column. The more people we can convince that 4-H is a great organization, the stronger it will be.

What is 4-H? Many times people have one or two 4-H clubs in their area. Many people really know what 4-H is? Do you?

4-H is an organization for young people and their families, with thousands of members in Alberta and many more in other provinces. It offers a lot of opportunities to its members, aged 10 to 21 years, in Alberta.

4-H is an organization for young people and their families, with thousands of members in Alberta and many more in other provinces. It offers a lot of opportunities to its members, aged 10 to 21 years, in Alberta.

Learn more about
the Bible in YOUR
own Home...

THE FIRST RESURRECTION OR THE RAPTURE

NOW... YOU HAVE A golden opportunity to learn the hidden secrets of your Bible!
You will find that your Bible holds the key to past, the present, the future.
Watch in amazement as large illustrated charts unfold your understanding of developments leading to world-shaking events. The Battle of Armageddon. The Mark of the Beast. The reign of the Anti-Christ. The exciting story of God's people.
You will see why our planet is trembling with earthquake, why heart disease is the number one killer, why crime rates are out of control.

WE WILL explain how your family can be drawn together in love and harmony while the overwhelming majority of mankind is led in disaster.
NO COST, NO OBLIGATION

Do You Know The Bible Says

By Mrs. W. Myron

For God so loved the world, that He gave His only begotten Son, that whosoever believes in Him (Jesus) should not perish, but have eternal life. John 3:16. A parallel with today's greatest act of mercy.

The effect of Terry Fox has aroused the human spirit of all from coast to coast in Canada and the United States and I believe in most of the rest of the world. His act of courage for suffering humankind will go down in the records of history which also involved physical labor and suffering. A noble effort.

One who also was so concerned for the eternal as well as the physical welfare of the humanity of the whole world that He came a longer distance to suffer and die to bring about a healing for the body, soul and spirit, as well as the healing of the nation's trouble.

The record of which has also been kept and preserved down through the history of the world. Terry has done this for the temporary physical healing of the body, but Jesus for the eternal benefit of the never dying soul and spirit. The joy and satisfaction experienced by those who

recover from a cancer could be brought about by research will take place with this ten and a half million dollars. Will be great and wonderful. But, the joy and peace and satisfaction that vibrates every fibre of an individual being far exceeds the joy of recovery of the physical body.

How excited people are over Terry's resolute effort in the face of the odds because of his deep concern for the many who are afflicted with the disease of cancer. Cancer is dreaded like leprosy was before it was cured and found for it.

In those days it was thought to die, the inevitable disease of the soul and spirit. His will surely bring joy to the millions who are afflicted with the disease of cancer. He is born in sin, bound in sin, enslaved by sin and the only cure is by the cleansing blood of Jesus which flowed in Calvary.

The exciting thing about this is that it is true to all who will accept Jesus for the healing of their souls and dying soul. We are all lost sinners. Believe it, God's word says it and that is the truth. Why not become a devotee of Jesus instead of a doubter and experience the healing joy that never ends.

Prime Minister Pierre Trudeau, Lieut. Governor Frank Lynch-Staunton, and Premier Peter Lougheed enjoy the enthusiastic response of thousands of Albertans to the 75th Anniversary Program at the Legislature grounds on Labour Day.

A dance followed to the music of "Peters Stars" of Edmonton. The evening was super, catered to by the ladies of the parish was enjoyed by all.

Regarding all are sent to friends and former teachers in Holden and Bruden. The "Class" plans to meet again in another five years.

Anyone interested in a Craft Shop in Holden is invited to attend a meeting which will be held on Thursday, September 18th at 8 p.m. at Wendy Ann Fashion (Helen Tiedemann's place).

Parents, teacher, and members of the community are used as resources to give the children a full learning experience.

Every salad has its dressing. Mustard lends a hotdog nut. What we don't know has no guessing. What is right and which is best. Road closed on account of snow. Cold snap hits below the zero. Battery dead - car will not go. Do not come and be a hero. F. Goussier/ager

14' x 52', 2 bedroom mobile home on a 4 acre rented lot. Approx. 3 miles out of Viking.

Film Honoring Corrie Ten Boom To Be Shown

During World War II, Corrie and her family, residents of Haarlem, Holland, became involved in the Dutch Underground following the invasion of the Netherlands by Hitler's Nazi forces. They are credited with saving the lives of scores of Jews, by hiding them in a secret room in their home, and by arranging safe transport out of the country. For their efforts, they were arrested in a surprise raid, and sent to prison. Corrie was sent to Ravensbrück Concentration Camp, and in the last survivor of the immediate family.

Corrie's story has been shared with millions around the world through the radio and motion picture, *The Hiding Place*. A 1976 World Wide Pictures release, *The Hiding Place* has been dubbed into several foreign languages, and has been well received in England, Holland, and West Germany, as well as throughout the Far East.

Corrie: *The Love She's Touched* is a new picture from the Billy Graham Evangelistic Team, and features a number of surprise guests from Corrie's past, including her nephew, Peter van Wierden, who, as a youth, was also involved in the work of the Underground, and Dore Clark, who was in the concentration camp with Corrie.

Other guests on the program include Jeanette Galt, the actress who portrayed Corrie in *The Hiding Place*, and Tom Clark, an American Indian Chief who inducted Corrie into his tribe as an honorary member.

Music is featured throughout the one-hour program by Eric Turpin, George Beverly Shea, the Bill Gaither Trio, and the Todd Smith, pianist and composer of the film score for *The Hiding Place*.

According to the Reverend George Maclellan, pastor of the Viking United Church, the showing is free and open to the public.

A new color motion picture from World Wide Pictures

The Holden High School class of 1975 held their five year reunion on August 30, 1980 at St. Mary's Community Centre south of Holden. A delicious barbeque buffet

super, catered to by the ladies of the parish was enjoyed by all.

Regarding all are sent to friends and former teachers in Holden and Bruden. The "Class" plans to meet again in another five years.

Anyone interested in a Craft Shop in Holden is invited to attend a meeting which will be held on Thursday, September 18th at 8 p.m. at Wendy Ann Fashion (Helen Tiedemann's place).

A study (1978) using ten consecutive harvests were simulated on a computer using farm sizes of 800, 1000, and 1600 acres in the Edmonton area. The crops grown were wheat, oats, barley and rapeseed.

On the 1000 acre farm, the least costly combination was the 466 bushel-an-hour combine without a dryer. The cost was \$19.06 an acre. It was noted that using the 265 bushel-an-hour combine using a dryer, harvesting cost

figures reflected 1978 costs. The figures themselves may change, however, the principles involved can still be appreciated when deciding what size of combine you wish to purchase in the future.

The Dance-a-Thon, hosted by the Viking Child Development Society proved a success with many participants enjoying the great music and the challenge of dancing till the end.

A total of 6 couples danced from 12 noon till 12 midnight, tired, with sore feet, but the fest accomplished.

Participants, ranging in age from 2 and up received pledges totalling approximately \$1,300 towards the construction of a child development centre.

Music, provided by Jim Thompson (compliments of Bill Giroux), and a young local band, "Kitch" provided a variety of musical selections that were enjoyed by

Kitch - Darren Wlancura, Bob Rusicka, Gary Vitek, and Dan Volosh, started their band less than a year ago, and already have finished 13 hours concluded with such appreciation from the Wilding Child Development Society. We are proud of the young members of our community who gave their time and energies toward a project that will benefit society.

Don Masankowski, M.P. for Vegreville, recently expressed disappointment with the lack of progress in concluding negotiations for the construction of the Prince Rupert Class Train.

Mr. Masankewski has just returned from a fact-finding mission to the Soviet Union.

Mr. Manakowski commended the Consortium for its continued commitment and determination to get on with the job. He also praised the Alberta government for providing the necessary

He said "the grain Consortium is being frustrated by federal officials in the country providing \$200 million capital funding and a \$2.5 million grant for site preparation. He remarked, "the British Columbia government, too, has forged ahead calling for

business transactions and the negotiating process. As a result, initial site preparation which was to have started last June has been postponed once again, this time until late September, and maybe

Since March, progress

"It's time the federal government changed its attitude of obstruction and stalling, to one of facilitating and expediting, so this needed

An extensive land reclamation research and demonstration project is being conducted by McAllister Lumber Service Inc. of the Calgary for Fording Coal Company, Ltd. in the Crowsnest River project in the Crowsnest-River coal field where, to defer indefinitely development of a coal-fired power plant, the company is reclaiming the area.

Studies began in 1976 with the preparation of five topsoil profiles with various textures and combinations of overburden. The profiles were separated by 12-foot strips of undisturbed land, and two

thicknesses of growth material. In these rows needed for the study were 100 lb of gray hay mix, and each year crop yields and soil analysis are compared. A report on the results was published on the fourth year of this research.

It was anticipated that

surviving mine spoil will produce topsoil not consistently as good as the original topsoil reduced them in the first year, due to preventing growth of the topsoil preceding growth of the growth material.

In 1979, nutrient analysis of the hay crop shows the

An information evening will be held on Monday, September 30, at 7:00 p.m. at the Legion Hall. This is a must for seniors, secretary, present, helping professionals, those with aging parents and other interested people.

For more info for the program are being called from the Alberta Council on Aging and Brian Stephenson, from the Senior Citizens Bureau.

On the agenda for this evening is a talk with new developments for seniors in terms of grants, government policies etc., and are in the business of disseminating information.

Intensive and survey work conducted by the council in 1979, including the touch investigation and Pits 2 and 3. This to provide accurate information on the needs of seniors for long-term comparisons with the development in the demographic plate.

Plans are presently underway for the 75th Anniversary Celebrations to be held in Holden on Saturday, October 18 and Sunday, October 19 and served at the Holden Community Hall following the church service.

A program at noon with participation from all the

They have developed an information package including extended health care benefits, housing programs, grants and subsidies for individuals and couples and the

disports on each year. Findings are available either consumed or can also form to interested individuals or groups. The 1979 brochure will be distributed.

On Sunday people are invited to worship at the church of their choice, with all services happily to be held at about 9:30 a.m. A noonday breakfast will be

National Advertising
Representative:

The Post Office

We received a brief yet very interesting letter this past week from Mrs. C.E. Williams of Sherwood Park. Mrs. Williams asked that we delete her name from our list of subscribers. Following this request, Mrs. Williams continued: "Your weekly publication is of good quality; however, the mail service delays the paper to such an extent that the advertised events are often over before it is delivered".

This is not a new revelation for us at The Weekly Review. It seems that at regular intervals we get subscribers who lie outside the forty mile subscription area informing us that they do not get their newspaper on time, or even on a regular basis. When this type of information reached us in the beginning, we endeavored to ensure that the problem was not created from our end. After some careful scrutiny, we determined that any such problems did not lie with us. Our addressing and mailing is done accurately and our mail bags are placed in the Viking Post Office by 5:00 p.m. each Wednesday. The mail truck picks up these mail bags at about 5:30 p.m. the same day, thus putting that week's edition of The Weekly Review in the Edmonton central sorting depot on Wednesday evening, the same day as publication. The problem does not lie within the Viking Post Office because the local office does not handle our out-of-town papers - we sort and bag them ourselves. The problem lies elsewhere.

And elsewhere there will be with the major postal stations between us and our subscribers in the major centres. Subscribers in both B.C. and Alberta have complained about the slow delivery of our paper. All we can suggest is that you complain to your local post office.

For years we have heard horror stories of how it takes a letter a week to cross a city, or a week to get from a rural Alberta town to its city destination. In a time of such sophisticated technology, it is hard to understand that such a situation is allowed to exist. The changes which are necessary for a revamping of the Canadian postal service which will ensure better delivery are long overdue. It is time somebody moved to clean-up the mess!

Viking Lions Club members (left to right) Ralph Tiedemann, Clarence Orzechuk, and Bill Giroux on behalf of the Viking Child Development Society, conducted the draws for a microwave oven and gas barbecue, which were raffled this past Sunday after the Pygmy dinner. Staff Photo

Letter To The Editor

Dear Editor,
At a time when many, many disappointments from all levels of governments; and organizational frustrations have been found, it is very heartening and rewarding to receive so much community support. The Child Development Society held a fund raising campaign this past weekend with a dance-a-thon, pygmy dinner and rummage sale, all functions proved profitable thanks to the hard work and many volunteer hours by a lot of people. We would like to thank the following:

Deborah Taylor, P.E.S. Director, for all her organizational help and direction, and for selling the most raffle tickets.
Our officials at the dance-a-thon, Bill Giroux and Leah, for donating the cost of the dice, for their whole day of volunteer time and never ending support.

The many Lions Club members for their supervisory assistance, and all the other volunteers who acted as supervisors, all the construction volunteers, and all the nurses for their stand-by medical aid.

The many ladies who helped make pygmy, donated garden produce, rummage, Nellie Golas for her leadership and guidance.

and the ladies who sold rummage. The business who donated prizes and groceries: Country Way, Henry's Auto, Darcy's Jewellers, Coopers Pharmacy, Ted McCormick, The Top Men's Wear, Dora's Western Shop, Viking McDonalds, Viking Jewellers, A & W, Kentucky Fried Chicken, Carrouse Sports Shop, Grande Prairie Music, Viking N.A.D.P., Co-op, and I.G.A., Carrouse Salvage and Byers Florist.

The people who bought and sold tickets for our raffle. Prize winners are Diane Dobry - Microwave Oven, and Troy Coleman - Gas Barbecue.
"Kitch", who provided 5 hours of volunteer music, which was very good!

All the participants who danced far beyond our expectations, and all the piggy-backers.
Everyone who supported and helped at our pygmy dinner, and our own members who worked so hard.
Don Mazankowski and Laurie Rasmussen who attended and volunteered good advice.
We should be very, very proud of a community with this many people who are willing to give of their time for the betterment of our community.
The Viking Child Development Society appreciates you all very much!

Gymnastic Exhibition To Be Held In Holden

"Athletes On Tour", a gymnastic exhibition program, will be presented at the Holden School Gymnasium. The program, presented by the Holden School Gymnasium and Keep Fit Club, a newly formed organization, is sponsoring the exhibition to encourage participation and expose its members, their parents and the general public to the sport of gymnastics. The exhibition will be held on Saturday, September 20th at 7:00 p.m. There will be no admission charge and the general public is also invited to observe the Program. The program will be presented by Mr. John Smith, M.L.A. and Mayor O. Ryley will open the Exhibition which features Provincial A and B Class gymnasts from the Brandon Gym-Fit Club in Manitoba.

In conjunction with the Exhibition, a Development Clinic will be offered, Saturday, September 20th from 10:00 a.m. to 12:00 p.m.

The "Athletes On Tour" program is made possible by an Alberta Youth Development Committee Grant given to the Alberta Gymnastics Association.

Viking R.C.M.P. Detachment reports a relatively quiet week.

Police Officers issued 2 twenty-four hour license suspensions, one charge of illegal possession of alcohol and one narcotic charge.

The Detachment investigated a report of missing vehicle. The vehicle was subsequently recovered.

A missing person report was received by the Detachment. Investigating officers have clarified the situation.

Presently under investigation is a reported Theft of a Motor Vehicle. The vehicle was subsequently recovered. Subsequent investigation by the Detachment resulted in recovery of the vehicle. Charges have not been laid. The incident is still under investigation.

in slough and other waste areas.
WASBLE TREATMENT
Benefits obtained from numerous trials carried out over the past five years by Alberta Agriculture's urban and industrial wood control section show that Canada thistle, now thistle and timothy can be effectively controlled prior to a severe killing frost if they are sprayed with picloram.
Stan Powers, supervisor of the urban and industrial section, reports excellent thistle control was achieved with 4 to 6 ounces of picloram per acre. There was also controlled with 4 ounces of picloram, but consistently good control was achieved only when rates of 6 to 8 ounces were used. The spraying was done from September 18 to October 27 with identical results.
Mr. Powers says 2,2-D and dicamba were used in the trials, but that they did not provide effective control when applied late in the season.
In view of the above results, late fall is an ideal time for farmers to spray thistles and timothy along perimeters, fence lines and

Dr. Khan also reports that trials which he has conducted in Alberta show that treating cattle in October rather than in November produces much better results.
On this basis, if these animals had been pre-treated for 350 days before they were sent to the feedlot, they would have gained 34 extra pounds. It is not hard to calculate what time 34 extra pounds would be worth at today's prices.

Dr. Khan also reports that trials which he has conducted in Alberta show that treating cattle in October rather than in November produces much better results.

HEATING OIL AND PROPANE USERS
IT'S YOUR TURN
Natural gas users have enjoyed price protection for several years. Now the program's been expanded and... it's your turn. If you live in an area where natural gas is not available to you, you are eligible for a rebate of 35% on heating oil and propane purchased on or after October 1, 1980. Residents, small businesses and community halls may claim rebates on purchases up to 4,000 gallons (18,185 litres) of propane or 2,700 gallons (12,275 litres) of heating oil each year. You will be eligible for the rebate only until such time as natural gas becomes available to you.
The Remote Area Heating Allowance also applies if you live in a gas franchise area, but for some reason, cannot be supplied with natural gas at the present time. Application forms are available through heating oil and propane dealers and some government offices in your area. For further information write or phone the Rebates Branch, Alberta Utilities and Telephones 8th Floor, 12222 Stony Plain Road, Edmonton, Alberta T6N 3Y9 Telephone 427-0122

The Rise And Fall Of The Country Post Office

The old-time country post office has fallen victim to Alberta's rapid urbanization.

The country post office's heyday in Alberta was in the great settlement period from the late 1880's to the First World War. In 1908 Chief Postal Inspector J. Dore had travelled west to plan mail strategy for these

new settlers, moving west by the thousands. In a report, that year, he warned the Postmaster-General that lack of regular mail services would bring

"hardship to the new settlements, destruction to all kinds of businesses and general demoralization and complacency."

The fragility of mail delivery in those early days is hard for us to grasp now-days. In the 1880's, Western Canada's mail came from the East via Fort Garry, Manitoba, then to Fort Bu-

ton, Montana by U.S. railroads and then north, back into Canada.

By 1870 Canadian mail had "improved" in that the post office along the 800 mile route from Edmonton to Winnipeg got a regular mail delivery — once every three weeks.

As western Canada's communities developed, high in their agenda was the establishment of their own local post office. But locating and naming those important places was not always as easy task for the new settlers.

August 1908. A small community near Innisfail. A group of farmers had reached an impasse over naming their post office. Suddenly one of them looked out the window and saw Mart Craig "who was late in arriving for the meeting, riding up on his horse." The group not only had a compromise name for the post office, the named Mr. Craig became Craig Post Office's first postmaster (1908-1918).

Blomquist Prairie post office blossomed from 1908 to 1911 under the direction of its postmaster Fred Davies. (The village's name reflects local pride in the location of the spot, subsequently renamed Norval).

Postmaster Davies rode every Saturday morning to Fox Coulee (near the village of Minnema) to collect the mail, which had already come via train to Didsbury. He signposted or horns to Coulee and then on to Fox Coulee. Each Saturday afternoon, neighbors would ride over to the Davies's place for their share of the weekly mail.

Quiet harmony in recorded in the story of a 17 year old girl called Doris who became postmistress for the community of Leo in the Red Deer district in the closing years of World War One. "Twice a week Doris drove the team to the railroad at Gadsby to collect the mail, as her father (the previous postmaster) had done before her. One winter's day a sudden blizzard blew up as local children were heading for school. Sixteen children were missing when a count was taken. Young Doris organized a search party and was responsible for locating Edna Thayer and her little sister, under a ten-foot snowdrift.

New retired and living in California Edna Thayer says she'll always admire "the little girl who were the muscle of postmistress as young."

Leo post office, which opened some time around 1906 was officially closed down in 1987.

At Alberta Culture's Historic Sites Service Branch, the history of the province's old post offices found a new place in the heart of Marie Darway.

Safety In The Home Workshop

The worker is protected while on the job and by government agencies, employer safety programs and the worker's own common sense and consciousness of his fellow workers.

However, according to the Home Safety Commission of the Alberta Safety Council, more accidents happen in the home than on the job.

before beginning the operation.
10. Position yourself so that proper lighting and balance is maintained.
11. Keep electrical cords away from heat sources and away from grass and soil. Do not pull on cord when disconnecting. Keep cords in good condition and do not use as a handle to carry the tool.
12. Keep tools sharp, clean and lubricated.
13. Keep fingers away from switches when using any electrical power tool.
14. Keep children and visitors away from the work area until they have been

properly instructed in the use of the tools.
15. Be sure to keep the work area well lit.
16. Ensure that there are sufficient circuits to operate your power tools without blowing fuses and enough outlets to make multiple plugs unnecessary.
17. Ensure all switches and outlets have cover plates.
The Home Safety Commission urges you to make safety a part of your total environment, "on the job" or "off the job." Safety is "common sense," not just "dollars and cents."

THERE'S ENOUGH WORK TO BE DONE AROUND HERE TO KEEP A LOT OF BOBS, TEDS AND LINDAS BUSY FOR MONTHS.

A community is the a family. Just as most families have lists of jobs that need doing around the house, so every community in Canada has a list of priority projects that could and should be tackled. Projects ranging from the development and improvement of urban facilities to energy conservation and environmental programs. They have been getting postponed because it never seems to be the right time to start and because there's always someone to be something more important to do in the economy. Well right now, in this community, there's people ready to go to work. Men, women and teenagers, some with skills, training, experience and initiative, others with enthusiasm and energy. We're looking for projects for Canada Community Development Projects applications, local corporations and co-operation.

HELP WANTED BEFORE SEPTEMBER 29.

CANADA'S EMPLOYMENT PLANS WON'T WORK WITHOUT YOU.

New Mayor For Viking

Following the election on October 14th, Viding will have a new mayor. Present Mayor Selmer Hefso did not enter the race for the September 17th election. Mayor Hefso, 57, and Councilman J. M. Taylor and Will Ruskman, have entered the race for Hefso's position.

Selmer Hefso has been the mayor of King since 1966. He was elected for the March 1967 mayoral term for the two year period from October of 1966 to October of 1967. During this period, Dr. A. E. Caldwell held the position of mayor.

Mr. Hefso says election candidates best necessary, the nomination deadline was extended until 11 noon on Thursday, September 14th.

Wednesday afternoon and Thursday morning saw a great deal of canvassing of local residents to fill the last vacancy on Council. Two people took the challenge, thus allowing for an election on Wednesday, September 14th. The election will be held on October 14th.

Shir Arnett and Jenny Bird both filed nomination papers before the deadline last Thursday. This brought the number of candidates to six who will all appear for the

Education Representative
Two Viking residents entered the race for the position of Viking representative on the Board of Education of the County of Beaver.

Incumbent Leo Kelly has let his name stand for the education position. His opponent will come from Lew Josephson, present Viking Town Councillor who chooses not to seek re-election to the Town position due to his interests in the education system.

No Election In Holden

There will be no election for the Council of the Village of Haddon on October 18th.

Following nomination day last Wednesday, five Holden residents had entered their names for the five available positions of Village councilmen.

Gaining office by acclamation were three incumbents and two newcomers. Back for his third term is present Mayor Ole Shykora. Mr. Shykora served on the Village Council from 1966-71.

Back for his second term is John Louisa. Mr. Louisa is employed by Cargill Grain in Holden.

Also back for his second term is Councilor Theodor

Community Choir For Christmas?

There is the possibility of organising a Community Choir for Vikings!

Mr. George Lambert, of Edmonton, has offered to direct such a group. If there is enough interest, he would bring a pianist and supply the music. He is willing to come to Viking once a week for practice (probably Friday nights). Practices would last from 1½ to 2 hours session.

The choir will be for age - youth to seniors, male and female.

Anyone interested singing and having a good time, contact Pauline Wade at 326-2877 or P.E.S. 326-4254.

Please register by October 3, 1980.

Student Claims Four

Only One Incumbent Not In County Race

Only one incumbent has failed to file nomination papers for the position of Councillor of the County of Beaver. Walter Kropfinski, representing Division 4 did not file nomination papers.

And other incumbents except two face opposition in the October 18th election. In a by acclamation are Division 2 Councillor Gordon Maxwell and Division 8 Councillor Joseph J. Ryan. Division 1 incumbent Mr. J. J. Ryan is also a candidate for mayor.

Eight Nominated For Five Irma Seats

Eight Irwin residents have been nominated to fill the five positions on the Village Council. All five have entered the race, along with one non-resident.

Incumbent members of the Irwin Village Council are: John J. Barham, president, operator of the Iron Pool Hall, Ron Dempsey, owner of the Iron Pool Hall, and John J. Barham, owner of Barham and Building Supplies. Art Jachan, a grade operator

owner of Modern Automotive, and Postmaster Walter Littlejohn.

Barham has been a member of the Irwin Village Council since 1970. Mr. Barham has been on the Council since 1970. Mr. Littlejohn has been on the Council since 1970. Mr. Jachan was elected in December of 1970. Mr. Littlejohn has been on the Council since 1970. Mr. Jachan will be attempting to secure one of the immediate vacancies.

competing with Mr. Dewey Coffin, a school teacher, and a resident of Irwin.

Four Irwin area residents are running for the two positions available on the Board of the Waverly Springs Golf Course.

Mr. J.C. Barber and Mr. Don Lukens, incumbent members of the Board, are running for this office. They will be challenged by Judy Pomeroy.

Accident Claims Four

A single motor vehicle accident on Highway #14 claimed the lives of four teenagers on Friday night, September 19th.

The fatal accident occurred on a curved section of Highway approximately one and a half miles east of the Village of Haddon. It was

the hours of 11:00 p.m. and midnight.

Killed in the accident were Ernest Herbert, 17 years, Craig Komarski, 18 years, and Larry Wadsworth, also 18 years. All three youths were students at Bayly High School. Also killed in the accident was

Ralph Burgwin of Manning.

The car, which was owned by Larry Melmschney of apparently west Haddon, was on Highway #14 when it was involved in a serious left turn accident and hit a side-viewing sign. All four victims were thrown from the vehicle and injured.

Figure Skating Club Announces New Affiliation

The Viking Figure Skating Club, in a spring meeting voted to change affiliation from the ARBA (Alberta Recreational Skating Association) to the CFSA (Canadian Figure Skating Association).

This decision came about for the following reasons: 1. The CFSA is a Canadian Association with many years of experience and expertise in recreational and competitive skating. 2. A CFSA skater can transfer to any part of Canada that has a skating club. 3. Currently, in the ARBA program, a young talented skater can complete the last level by the age of 11. This is

too young to quit skating if the talent and desire is there to continue. 4. After the last level of the ARBA program has been completed, the skater must go to the CFSA to continue, which would mean travelling long distances.

The affiliation with the CFSA will mean the following changes: 1. For the first few years, the skaters will be working to complete 14 levels which are under the National Badge system. Under this system, the skaters progress as fast or as slow as their desire and ability dictates. It takes on the average, 4 to 5 years to complete these levels.

2. The skaters will be tested in such a way that there will not be a "Test day" with passes and fails. The skaters will progress from badge to badge as amateur judges which a class being taught and tested.

3. The mothers and fathers who are willing and able are encouraged to be direct by involved by attending workshops to become an instructor's helper and an amateur judge for the various levels. 4. Once the skater has passed the 14 levels the program becomes more individualized. The skaters work on a specific skill such as freestyle, dance or pair with a professional instructor. Only on these levels is a professional judge required to come and test.

5. A skater can also decide to skate in a competition or take precision skating.

We are pleased to be able to have as our instructor a local girl, Marie McLean. Marie has taught for four years in Viking from 1970-74, when Viking was a registered CFSA club. She has attended CFSA clinics in

the past, including power skating and has her 8th figure, silver in dance and ice. The Viking Figure Skating Club will be offering the following:

- teaching children to skate - boys and girls ages 3 and over.
- national badge testing program to the younger skaters.
- precision skating ages 5 and over.
- patch and figure.
- dance.
- freestyle.
- precision skating to girls and boys who would like to get back to skating just for fun - no age limit.

Our skaters will be held in October. Watch for notices as to the time and place.

For further information contact Ellen Lofgren at 336-2282.

On behalf of all the members of the Viking Figure Skating Club, we wish to express our appreciation to all those merchants whose generous co-operation made it possible for us to publish our book book.

VFS Executive

TOWN OF VIKING NOTICE THE PLANNING ACT R.S.A. 1977 AS AMENDED

Take notice that the Council of the Town of Viking proposes to pass an amending zoning by-law pursuant to section 135 of the Planning Act. The purpose of the proposed by-law No. 345 being the rezoning from Urban Reserve to R2-Residential that portion of land as shown on schedule B attached to and forming part of by-law No. 345.

A copy of the proposed by-law No. 345 may be seen at the Viking Town Office and may be inspected by the public at all reasonable hours.

At 6:45 p.m. on the 1st day of October, 1980 the Council of the Town of Viking will cause a Public Hearing to be held in the Town Council Chambers at which time objections to the proposed by-law may be made and discussed.

Dated at the Town of Viking this 16th day of September, 1980.

Lydia Hanson
Municipal Administrator

Infant Car Seats Now For Rent

In a recent head-on collision which killed the driver, a two-month-old infant survived - because a proper infant seat was securely strapped into the vehicle.

There were tremendous forces and extensive damage to the vehicle in the crash and there would have been little chance for the infant's survival had the child not been used, according to Alberta Transportation Safety Branch's investigation into the accident.

"It is another example of the effectiveness of using a proper infant restraint system when carrying children in motor vehicles," said Safety Branch director D.D. Kuchinski.

Both the Calgary and Edmonton Jayco's sponsor an Infant Seat Rental Program.

Transportation Minister Henry Kroeger lauds the program and the initiatives of the Jayco's organizations. "I stand fully behind this worthwhile program which the Jayco's have launched. It's been clearly demonstrated that use of proper infant seats can save lives, and I commend such efforts to lessen tragedy on our highways," Mr. Kroeger said. "I urge all drivers to use such seats for carrying infants."

"The infant restraint seats are available from the Edmonton Jayco's, 689-8142 and the Calgary Jayco's through the Calgary Safety Council, 360-8097.

The occupants of a single pair of rats would number more than 350 if unsmothered for three years.

Profile: Mac McDonald

Mac McDonald is a familiar face to the community, and a man who can be very proud of his accomplishments.

Mac was born and raised in Viking. He attended school in Viking, moved to Lethbridge as a teenager. While in Lethbridge, Mac became involved in several sports, and some became very accomplished roller skater and boxer.

In November of 1966, Mac set a new Canadian rethanking inspiration record of 80 hours and 2 minutes, a record which he thinks still stands for now. Mac says he would have skated longer, but he no longer had any competition. For his efforts, Mac was presented with a cash prize, a trophy, and a pair of roller skates.

While in Lethbridge, Mac belonged to the Y.M.C.A. Ice Club for a year, but dropped out as he found the sport quite rough. Mac also took up boxing as a teenager in Lethbridge, and in 1965 won the Golden Gloves boxing trophy in Edmonton. Unfortunately, an eye impairment forced Mac to retire from the sport of boxing.

While in Lethbridge, Mac worked in the Poultry Division of the Lethbridge Experimental Farm, and later at a woodworking factory in Lethbridge.

Mac then returned to Viking, and has lived here since. He now does maintenance and janitor work, as well as small handywork and repairs.

In his spare time, Mac has a number of hobbies that keep him busy.

The hobby Mac is proud of is his lighter collection. He presently has over 800 lighters, ranging from World War I "Bullet Lighters" to modern plastic

Mac McDonald

"Big" lighters. Mac said he needs approximately 800 more lighters to complete his collection. He eventually plans on passing the collection on to his nephew, Mac would like to thank every one who has given him lighters in the past, and would be happy to have any lighters people no longer have any use for. Mac would also like to invite anyone

who may be interested to come and take a look at his collection. Mac also does some leatherwork, copperwork and woodwork, often entering his projects in the fair. Although Mac lived in the city of Lethbridge for several years, he enjoys small town life, and the close-knit atmosphere Viking has to offer.

Vialta Lodge News

Our Anniversary Tea and Banquet will be held on Saturday, November 8th from 8 p.m. to 4 p.m. We will have quilts to be auctioned, bake table, sewing table, fish pond and miscellaneous table. We are hoping to see all of you again this time.

Our card party for September will be held on Tuesday evening the 30th at 8 p.m.

Mrs. Redwell returned home on Tuesday evening after spending two weeks in Calgary with her son and his family.

Greetings to Mr. Lindberg who is still a patient in the hospital.

Margaret and Reg Suddaby called on Mrs. Suddaby on Tuesday afternoon.

On Thursday afternoon Mrs. Elness, Mrs. Rager, Mr. Dilane and Mr. Mason visited at the Tidwell Lodge. Our thanks to the ladies who came to help us quilt on Tuesday. We will be quilting again this Thursday.

Marg and Reg Suddaby of Lethbridge are at the Lodge Tuesday.

July 25 - 27, 1980 was a weekend many of us will happily remember for years to come.
Such enthusiasm, Friday morning the registration committee arrived two hours early to find visitors already willing to register and get on to various interests.

Many people left to attend the 80th Anniversary Ranch Day at the University Ranch. Others stayed to have lunch in the Senior Citizens room, sign the guest books, look at or buy handcrafts and wander around the History Room. Still other people found a shady spot to sit and visit friends and neighbors of many years ago. Well used expressions of the weekend were "You must be..." and "What ever became of...?"

Supper time found everyone enjoying a best barbeque at the University Ranch provided and served by the University Animal Science Department and the Kinsella W.I. A bonfire and refreshments concluded the evening at the Ranch.

Back at the Memorial Hall there was dancing, visiting, lunch and refreshments. Volunteer entertainment was provided by Richard and Jeffry Kostera, Jenny Kjellgren, Ruth Makar, Bob and Michael, Debbie Orschmidt, Cliff Lancaster, Jackie Pederson, Bill Daugherty and Allan Pederson. George Louder was master of ceremonies for the evening.

There was also dancing in the school gymnasium for young and old. Two twenty a.m. saw almost everyone roll up the street for the first night.

Saturday morning a bright eyed group of Elks and Royal Purple members served an Anniversary Breakfast to well over six hundred people.

At the registration table there were more ideas ready and eager to join the fun and activities for the rest of the weekend.

Down on main street, everyone lined up to watch a wonderful little parade, complete with flag bearers, horses, clowns, music, colorful floats and hand carts for the kids.

Bus tours were offered throughout the day for all who wanted to see the "changes" in the districts. When one group visited the Cemetery, a gentleman cautiously asked if it was a "return trip".

The young people weren't forgotten. Races, games, potluck suppers and treats were enjoyed by all. The adults got in on Ann's "goodies" too.

Sunday morning found everyone smacking their lips over another delicious barbeque prepared and served by Rodino Country Club, Kinsella United Church Women and Women's Institute.

Following the barbeque Vance Shipley, on behalf of the Kinsella Senior Citizens, auctioned 18 miniature

schools, complete with name and number, representing former rural schools in this area.

The weatherman co-operated for the entire weekend, but he made an effort on Saturday night. Horrid orchestra provided excellent music for a street dance free to all who cared to join in. In the Memorial Hall refreshments were available and lunch was served by the Recreation Committee. Most people were still busy trying to visit with everyone they knew. The tired voices were showing the strain. Morning was a little closer when we closed the doors and hoped for a few hours of sleep.

Sunday morning found the Elks and Royal Purple back serving pancakes and sausage. Lack of sleep was telling on everyone as only three hundred people showed up for breakfast.

A commendation of church service was appreciated and enjoyed by all who

attended. The floral arrangements were beautiful. Earl Hardy, a former high school teacher in Kinsella, was a very welcome guest speaker.

Out at the sports grounds, the annual Elks and Order of the Royal Purple sports were shaping up with good football games for men and ladies, rides for the children,

food for all and still more visiting.

Longest took first place in the men's games and Hughes took first in the ladies games. The homecoming team probably created the most interest and enthusiasm, with players young and not so young, from Kinsella to Vancouver and California. Laurie Rasmussen, a familiar face, improved the Homecoming's games.

One and a half years of planning and work had gone into the Homecoming weekend, but no one was disappointed, unless it was the people who could not come. From Newfoundland, N.C., Ontario, California, Saskatchewan, Washington, N.W.T., Arizona, Scotland and many other places - we welcomed everyone.

All good things must come to an end and Sunday and Monday saw the victors heading for home. Those who were left took a deep breath, retuned all the borrowed goods and got back to

work. But it was fun - wasn't it?

Of special interest to everyone in the Community is the beautiful new plans purchased with with 75th Anniversary gift and placed in the Memorial Hall for the enjoyment of all.

Thank you very much, to the business places for their help and co-operation; to the County Office and the Department of Highways, who we kept answering; to the University of Alberta Department of Animal Science, who we kept answering; to the many organizations who contributed largely to the Homecoming's success. A special thank you to the individuals, who spent days and weeks helping wherever needed. We couldn't have done it without you.

Homecoming Committee
1980: Joe Makar - Pres.; Bill Armistage - Vice-Pres.; Frances Overbo - Sec. Treas.; Hjordis Armistage - Catering; Cliff Overbo - Financier; Mary Armistage; Hel-

ga Barker; Pearl Brown; Barbara Davis; Cammie Garvin; Bill Johnston; Pam Lynggaard; Nellie Tomsen; Virginia Welch.

Committees were as follows:

History Room - Ivett Miller, Patsy Malde, Pearl Brown, Mary Lancaster, Ruth Makar, Ruth Makar, Pam Lynggaard, Virginia Welch, Debbie Gile, and Anita French.

Accommodation - John Daugherty, Allan Barber, and Pete Moller.

Catering - Hjordis Armistage, Mary Armistage, Gwyn Daugherty, Betty Hall, Betty Oakes, Myrna Fulton, and Irene Findlay.

Souvenirs - Helga Barker, Jean McKie, Virginia Welch, Joanne Giffard, and Pat Riechelt.

Registration - Frances Overbo, Karen Overbo, Julie Makar, Judy McKie, Bill Gibb, and Kelly Overbo. Entertainment - Ruth Makar, Donna Simmons, Virginia Welch, and Cliff Overbo.

Tours - Bill Armistage, Jack Simmons, and Donna Simmons.

Publicity - Jack McKie, Tom Oakes.

Stage and Barbecue - Joe Makar and Joan Allers.

Sentimental - Jack Simmons. Tickets - Nick Pivovar and Karen Overbo.

Bar - Cliff Overbo, L.R. White, Wayne King, John Belyay, Bert Shale, and Kelly Overbo.

Plans - Cliff Overbo, Barbara Davis, Ruth Makar, Bill Daugherty, and Karen Fulton.

Children Games - Pam Lynggaard, George Louder, and Ann Louder.

Class Up - Art Retzlaff, Jack McKie, Charlie Treisman, Cliff Overbo, and Fire Dept.

Irma Royal Purple Resume Regular Meetings

Irma Lodge held its first regular meeting after the summer on Tuesday, September 16, at 8:00 p.m.

H.R. Lady Irma Guy opened the meeting. There were twenty-eight members present with all officers in attendance. We used the new version of "O Canada".

All officers present gave their charges as requested. The minutes, bills, communications and reports were read or given, discussed and

dealt with where necessary. We again decided to continue for the third. A motion was made and seconded to hold a Banquet, tea and bake sale at the Legion Hall on December 9, if possible.

Committee #6 were to look after the Traveling Carnival.

We are holding a special meeting on October 14 at 8 p.m. to vote on a new member and to practice for inspection which is to be

held at our next regular meeting. In the absence of our appointed delegate to the Convention, Lady Linda Pomeroy, and another member present, Lady Louise Pomeroy, gave a report of the convention held during July at Penicton.

Birthday greetings were sung to eleven ladies having birthdays during July, August and September.

Lady Ruby MacMillan won the raffish. H.R. Lady Irma Guy closed the meeting and a delicious lunch was enjoyed.

Dorcas Coffin, Sec. Sec.

MONEY SAVING TIP: Give the less familiar—and cheaper—cuts of meat a try. They are no less nutritious, and proper preparation makes them taste fine.

Nothing is particularly hard if you divide it into small jobs. Henry Ford

The Irma New Horizons Club held a meeting in the Drop-in Centre on Wednesday, September 17.

Five tables enjoyed wild and some members played scrabble. Winners of wild were men's high - J. Jackson, while Harry Riley qualified for men's low. Ladies high went to Elsie McRoberts while Elsie Sattre had the low score. Lunch was served and socializing was enjoyed.

The regular monthly business meeting of the new horizons club will be held on Wednesday, October 1 at 8 p.m.

Stanley Bacon, wife Lynn and baby girl from Nigeria, Saskatchewan called on Stan's mother, Alice Bacon on Sunday afternoon. Stan later continued on to Edmonton where he was scheduled to attend a hardware conference on Monday.

Bob Dand of Wainwright called on the Jim Jackson's on Saturday afternoon. Mrs. Dand is the daughter of the late of the Irma district, celebrates 70th birthday on Sunday, September 28.

Conversations this year from your many friends and neighbors.

We have noticed that Agnes and Gunar Larson are back home in Irma again.

Irma News And Views

by her Aunt and Uncle, Deane and Randy Johnson of Loughpud.

Mary Newton drove Alice Bacon to Edmonton for a check up on Monday.

Get well wishes were attended to Clair Lukens who is hospitalized in the Viking Hospital.

Congratulations are extended to a long time resident of the Irma district who now resides in Hardisty, Jimmie Bell, who was hospitalized at a party last week at the home of his son, Irvine and Doreen Bell, on his 90th birthday. Many happy returns.

The regular meeting of the Irma U.C.W. was held on Tuesday, August 19th at 8:00 p.m. in the United Church with Mrs. Georgina Eager presiding.

All were welcomed, after which we repeated the prayer, purpose, in union. Mrs. Louise Pomeroy led devotion, reading from Phil 4:8-18. Her topic being "It can be done and you can do it."

Roll call was answered by two members and one visitor. The minutes of the last meeting were read and approved as read. Mrs. Louise Pomeroy reported on the

work done at the union. Thank you to all who helped.

We were asked to remember that the "new to you sale" is being held on September 27 and the deadline to bring items is in Thursday, September 28th.

We are also to keep in mind that our annual bazaar, novelty sale, bake sale and tea is on Saturday, October 25th.

We closed with our theme prayer. Lunch followed, served by Dorcas Coffin. The next meeting is on September 28th. All are welcome.

H.J. Smallwood Sec. U.C.W.

Christina Bauer and Donna Holter took in a day of shopping in Edmonton.

Nervin Hunter has returned home from her bus tour in the U.S.A. reporting having had a wonderful time.

As the football season has gotten underway we find Shane Holter and Joe Holter putting on Wainwright uniforms and becoming part of the action.

Clarence Hunter and Kathy Haggie were visitors to the Williams home.

Victor Carter took in the chariot races held in Medicine Hat over the weekend. Congratulations on being in the money, Victor.

Several of the neighbors took in the Holter-Thompson wedding in Sedgebrook on Saturday.

Mr. and Mrs. Mike Mackorvick, Mr. and Mrs. Ernest Greenwood and Mr. and Mrs. Wes Bauer attended the Car Race held at Fabyan on Sunday.

Weekend visitors to the Pomeroy home were Mr. and Mrs. Mervyn Knoll and Karen and Mike Pomeroy who is attending school this year in Edmonton.

Claudia Williams attended a Designers Workshop held in Edmonton over the weekend.

Mr. and Mrs. Bruce Greenwood accompanied Mr. and Mrs. Roy Gifford of Kinleith to Camrose where they visited with Mr. and Mrs. Dave Greenwood.

after an extended holiday in Saskatchewan. They visited Prince Albert and other points throughout the province. Glad to have you back with us again.

75th Anniversary Quilt Contest

There are very few women who don't stand in awe of a beautiful hand-made quilt. Our pioneer mothers made them out of necessity. Their warmth was needed, and they were a handy way to use up scraps and bits of half-worn fabric.

As people settled and became more affluent, ladies were able to choose their colors and become more creative with their designs. Many long winter evenings were spent piecing hundreds of bits of material into quilts of incredible beauty.

Within the last few years, quilting has enjoyed a great resurgence in popularity. In May of 1978, a small group of ladies met to attempt to organize a quilt club. The following September some seventy ladies convened and formed the Edmonton and District Quilters Guild. Since then, monthly meet-

ings have been held at the Provincial Museum where ideas are exchanged and projects presented.

Our membership consists of more than 100 quilters of all ages, and we are particularly pleased that so many young women are taking an active interest in an art form that has been proven by time. With them, they are bringing new ideas and concepts which blossomed forth in clothing of all types, curtains, Christmas decorations - the list is endless.

As quilters, we are also proud of our craft's traditional background and take

great pleasure in preserving both the work and ideas of the past.

The Guild has been very busy putting on demonstrations and promoting quilting in all its facets. In 1979, a "dramatic plate" quilt was made and given to the Red Cross for sale. We are very proud to say that our quilt sold for \$100. We are now in the process of putting together another quilt, this is a maple leaf pattern, also to be given to the Red Cross.

As part of Alberta's 75th Anniversary celebrations and with funding from the Alberta 75th Anniversary Commission and New Horizons, the Guild is holding a

Province-wide quilt and block contest. Judges for this event will be Mary Conroy, Editor of "Canada Quilt" from Sudbury, Ontario; Beverly Reid from Christina Lake, B.C., and Kathy Fyres from Edmonton. To date, over 100 entries have been received from all parts of Alberta.

Quilts and blocks will be on display at the Executive House Inn, 10615 - 101 Street, Edmonton, from November 7 to 18, from 10:00 a.m. to 8:00 p.m. The Guild extends a most cordial invitation to all Albertans to visit us then and help us celebrate Alberta's 75th Anniversary.

4-H On The Move

By Ed Manson, Regional 4-H Specialist

4-H has different faces - it can do many things for many people. Let's look at some of these results of being a 4-H member.

Skills - by working with others in a 4-H club, a member gains understanding and skills in the project he works with, whether it is beef, clothing, automotive, phonics or any of the other twenty-nine projects 4-H offers. Books and some materials are provided to help the member when he is at home, and club leaders work closely with all the members at project meetings.

Responsibility - The 4-H motto is "Learn to Do by Doing", and in 4-H clubs this is exactly what happens. By trying new things on the way to completing a project, the members develop a sense of pride in their accomplishments and responsibility for seeing their work finished and ready to display on Achievement Day.

Social Growth - Because 4-H members work together in a club to accomplish many of their community projects, they learn how to relate to other youths and adults.

Through special programs and events across the Province, 4-H'ers are taught to think about their place in the world around them and often develop a lot of ability in talking and dealing with people.

Family Involvement - Very few clubs have only one

child of a family enter a 4-H club. When they see the fun and results of being a member, brothers and sisters want to join, and Mom and Dad find they get enthusiastic about 4-H too. The family can really become close through 4-H, and this is one of the big reasons for its popularity throughout Alberta.

If you want to know more about 4-H in your area or want to join or start a 4-H club, contact your District Home Economist with Alberta Agriculture.

Are you planning on attending these upcoming 4-H events?

Communications Festival, November 11 - 14, Camp Manitowish, Pipe Lake. Are you a senior 4-H member who is looking for an exciting fun-filled weekend. Join us for some fun if you want to improve your public speaking; you would like to learn about preparing and speaking on short notice, improving your listening skills; you would like to meet other senior 4-H members; you would like to build your self-confidence.

Past participants claim it's one of the greatest weeks they've ever had.

Enthusiasts? Get an application form from your local 4-H agent or send it to me by October 29, 1980.

Provincial 4-H Leader's Conference, Tuesday, November 25 - Thursday, November 27, 1980. This conference is for club leaders, assistant leaders and project leaders. Centered around the theme of "Effective Leadership", the conference will feature a number of sessions specifically designed to aid leaders in their work with 4-H youth. Deadline for application is October 15, 1980.

Nutrients From The Air

The ability of legume crops to draw nitrogen from the air benefits Canadian farmers by lowering fertilizer costs. Research at Agriculture Canada's Lethbridge Research Station could lead to even lower fertilizer bills in the future.

Bacteria contained in nodules on the roots of the plants draw nitrogen from the air in a process called nitrogen fixation. This ability can be enhanced by inoculating the crops with atmospheric bacteria.

Scientists at the Lethbridge station are selecting legume varieties and bacteria strains that together provide the best results in fixing nitrogen.

WAINWRIGHT SCHOOL DIVISION NO. 32 ELECTIONS 1980 INFORMATION TO VOTERS

QUALIFICATIONS OF A VOTER

A person is qualified to vote as an elector for a School Division Trustee if he or she is:

- 18 years of age or older
- a Canadian Citizen
- a resident of Alberta for the six consecutive months immediately preceding the polling date, October 15, 1980
- a resident of the subdivision on the day which the vote is to be held (October 15, 1980)

VOTERS LISTS - There will be no voters lists - Electors will be sworn in by Declaration stating that they are qualified to vote in this election, then they will be handed a ballot by the D.R.O. and allowed to vote.

RESIDENCE OF AN ELECTOR

- the residence of a person is the true fixed permanent home or lodging place to which, when he is absent, he has the intention of returning;
- a person does not lose his residence by leaving his home for a temporary purpose;
- if a person leaves a district or division with the intention of making his residence elsewhere, he loses his residence within the district or division;
- the place where a person's family resides shall be deemed to be his place of residence unless he takes up or continues his abode in some other place with the intention of remaining there;
- the residence of a single person is the place where he occupies a room as a regular lodger, or to which he habitually returns not having any other permanent lodging place;
- no other person shall be deemed to have residence in more than one district or division;

and in the event of a person maintaining residence in more than one district or division, he shall be required to elect one residence for the purpose of this Act.

NOTICE OF POLL POLLING BY ELECTORAL DIVISIONS (Section 82)

PUBLIC NOTICE is hereby given that an election will be held for a Councillor for Electoral Division No. 7 of the Municipal District of WAINWRIGHT NO. 61 for the year 1980 and the Polling will take place on Wednesday the 15th day of October 1980, from 10 o'clock in the forenoon until 8 o'clock in the afternoon.

Board Of Wainwright S.D. Meets

The regular meeting of the board of the Wainwright School Division #62 was held at the office of the Secretary-Treasurer on Wednesday, September 10th, 1980 commencing at 10:00 a.m.

Those present included J.C. Barber, Chairman, Helen Middleton, Vice-Chairman, Jack Worrall, John Mitchell, and Mel Nielson. Also present were Mr. Howard Johnson, Councillor M.D. of Wainwright #61, A.J. Birchall, Superintendent of School and J. N. Withnell, Secretary-Treasurer.

It was moved that the Board approve the minutes of the regular meeting held August 14th, 1980 recessed to August 27th, 1980.

It was moved that the Board approve the installation of a chain link fence at Chauvin School at a man-

ual cost of \$8,500.00. It was moved that the Board authorize payment of the final payment, Progress Certificate #12, the total backlog in the amount of \$119,600.44 to Crystal Contractors Ltd., for construction of Chauvin School.

It was moved that the Board approve the application from Mr. Alfred Biele of Wainwright to construct the Raspberry School bus route at Irma.

It was moved that the Board authorize payment of \$9,400.00 to Poulsen and Atkinson, payment in full for the painting contract at Irma School when the job has been completed.

It was moved that the Board approve the application from Mrs. Barbara Prosser, Irma for the position of Library Clerk at Irma.

It was moved that the Board approve the application from Mrs. Mary Ann Polak of Wainwright, Alberta for the position of teacher aide at the Wainwright Elementary School.

It was moved that the Board approve an application from Mrs. Cyron Grantman of Wainwright, for the position of Instructional Assistant at the Wainwright

Elementary School.

It was moved that the Board approve the pering of the Irma School bus delivery at Irma School.

It was moved that the Board approve the accounts payable for the month of August, 1980 in the amount of \$118,740.50.

It was moved that the Board accept the resignation from Mr. Joe Cameron, Industrial Arts Teacher at Irma School, effective September 10, 1980.

Mr. Birchall advised that the art classes in the division schools have submitted drawings for a suggested logo for the Division, a committee was appointed to make a selection for the most suitable logo. Helen Middleton was elected to act as the chairman.

Mr. Birchall reported that the Wainwright principals' association discussed the matter of presenting a committee to review the probation period of CUPE members.

Mr. Birchall reported the amount of student fees being charged at the 4 ECS centres in the Wainwright School Division: Chauvin - \$90.

per student per year; Edgar - \$15 per student per year; W.E.S. \$15 per student per year; Irma \$85 per student per year.

It was moved that the Board rescind motion #207/80 regarding the application to the Department of Education for Grade 12 Departmental Examinations.

Mr. Birchall asked the Board if it would be interested in holding a small committee meeting to discuss the role of the Superintendent in the Wainwright School Division. It was suggested that the Committee meet sometime after the 1980 elections.

There was discussion regarding a payment contract with Mrs. Lynette Lynch, Learning Disabilities Coordinator for the Wainwright School Division. The matter was referred to the committee.

Mr. Birchall reported that

A delegation of the WES Local Advisory Committee consisting of Linda Fletcher, Marie Bodunsky, Sharon Perkins, Cathy Pollard and Jim Cameron met with the Board to discuss the matter of preparation time for the two ECS teachers at the Wainwright Elementary School.

The delegation made a second request for an additional half time teacher aide for the second ECS teacher.

It was moved that this meeting be recessed to reconvene at the call of the chair.

the unofficial count of student enrollment in the Wainwright School Division as of September 18, 1980 is 1810 students.

It was moved that the Board approve the use of the novel "More Joy in Heaven" by Mervyn Collipin to be used in the Literature course to be taught at Chauvin School as an alternate to the recommended novel in that course.

Mr. Birchall advised that this information will be sent to the curriculum branch Department of Education.

The Secretary-Treasurer and any Trustee wishing to attend were authorized to attend the Annual Transportation Seminar in Edmonton on September 23 and 24, 1980.

It was moved that the Board approve the proposed subdivision as the following: land N.E. 24-24-4 M.D. of Wainwright #61, File #80D (7) #64; S.W. 24-24-4 M.D. of Wainwright #61, File #80D (7) #61; S.E. 10-45-10-4 M.D. of Wainwright #61, File #80D (7) #62 and that no school reserve will be required.

It was moved that the Board approve the sale of the Orbislands site on Pt. N.E. 21-47-4-4 to Mr. Ron Prior of Irma at a total price of \$750.00 providing that the title is amalgamated with the balance of the quarter section.

The secretary reported that there is a Building Maintenance Seminar being sponsored by G.H. Wood Ltd., in Camrose on October 2, 1980.

It was moved that Mr. Milton, Principal of Irma School, be requested to resubmit plans and estimated cost of the planned playing field at the Irma School which may be considered in the planned 1981 Wainwright School Division budget.

It was moved that the secretary-treasurer make preparation for the repair of the Irma School Sava 230 copying machine.

A delegation of the WES Local Advisory Committee consisting of Linda Fletcher, Marie Bodunsky, Sharon Perkins, Cathy Pollard and Jim Cameron met with the Board to discuss the matter of preparation time for the two ECS teachers at the Wainwright Elementary School.

The delegation made a second request for an additional half time teacher aide for the second ECS teacher.

It was moved that this meeting be recessed to reconvene at the call of the chair.

Hospital Memorial Funds Top \$36,000 Mark

The recent donations by the Eds and the O.R.P. have helped to push the Viking Hospital Memorial Fund to over \$36,000. A total of approximately \$36,000 is now being held in trust for use by the Hospital Board for purchase of necessities beyond the scope of government funding.

As well, the Viking Legion Memorial Fund for the Hospital has surpassed the \$10,000 mark, with that total equalling approximately \$10,000. This brings the total of the two funds to approximately \$46,000.

The Hospital Memorial funds were started a number of years ago to provide an opportunity for residents to contribute to the hospital in memory of a deceased friend or relative. This practice is followed in most hospital districts across the Province.

The funds have been used in the past to purchase pieces of equipment for the hospital, such as stethoscopes, equipment, bandages, supplies, T.V.'s and radios. With the announcement of the new plans for the Viking General Hospital two and a half years ago, donations to the funds increased.

Red Krpis, Administrator of the Viking General Hospital, said that the Board has never solicited funds from residents or organizations within the community. He said that the money has been voluntarily donated, and is a sign of good community spirit.

He said that the hospital belongs to the community and that ownership will lie with the Hospital District once construction is completed.

Hospital Nearing Completion

The new hospital moved another step towards reality as the Board of Trustees awarded the construction contract on September 22, 1980.

Vanderburg Contracting Ltd. was the successful contractor with a submitted bid of \$20,480,000. The work on site will begin immediately, with final completion depending on weather conditions in October and November.

Close co-ordination will be required between the building contractor and the landscaping contractor as both parties require access to the site at all times.

The contract has two main components: hard and soft landscaping. The hard landscaping consists of asphalt parking lots, curbs, signs, parking, curbs, signs, electrical for parking lots, walkway lighting and sign connection, pathways, stairs and irrigation system. The soft components include clean up of rough grade, topsoil, plant material and cobbles.

The interior of the building has all been completed to the point where there are being laid, kitchen, x-ray and laundry equipment are partially installed and final coats of paint are being applied in some areas. The mechanical package is receiving the final parts, and the space frame will have been glass applied within the next week.

Barring any major "hang ups" the patients and staff will be in the new building just ahead of the Christmas rush.

Holden Council Holds Organizational Meeting

An organizational meeting of the council of the Village of Holden was held on Wednesday, September 24.

Following the call to order, Administrator Christine Mackay explained the meeting's results. All councillors agreed their seats by unanimous vote.

All councillors were sworn into office.

Councillor Glen Shyrer, the being his third term in office, was re-elected as Mayor for the next year.

Shyrer's duties will include that of Chief Officer of the Municipality, Finance, Civic Commissioner, Supervisor of Employees, and the Hospital Board. Mr. Shyrer will also sit on the Village Management Board.

Councillor John Lembo was elected as Deputy Mayor. This is Mr. Lembo's second term in office, and

he has been given the responsibility of Public Works and Senior Citizens. Streets and lights, sidewalks, drainage, and the Beaver Foundation are all included in the new Hospital Memorial fund. The fund will also represent Council on the Rural Development Project No. 4.

Dennis Danahy, also serving his second term in office, has been placed in charge of Emergency Services and Tourism. This department includes Police, Fire, Ambulance, Village Garage, Emergency Services, and the Beaver Foundation. Danahy will also be Council representative on the Beaver Foundation.

Newcomer to council, Nick Shilinski, will represent the amount accumulated over a period of years from donations within the Hospital District.

An evening of fall entertainment, as well as a chance at prize money of \$100 and the Grand Prize of a Chevrolet Blazer are included in the series of \$100. Each ticket will admit two persons for the evening.

The Ball will follow the dinner established for the first Harvest Bonanza Ball, and will be the last of the series of \$100. The Ball will be accompanied by six highly accomplished musicians who will provide a variety of music for everyone in attendance.

The ticket price of \$100 will admit two persons for a full evening of entertainment, as well as a chance at a prize of \$100 and a chance of winning the Grand Prize.

Harvest Bonanza Ball October 25th

Immediately following the dinner, the first of four draws of \$100 tickets will take place. The first ticket drawn will win \$100, followed by the 25th ticket drawn also winning \$100. Every subsequent \$100 ticket drawn will also be awarded \$100.

The 1980 ticket draws from the draw will win \$100 and the 1980, or last, of the series of \$100. The draw will be the last of the series of \$100. The draw will be the last of the series of \$100.

All refreshments, the music, the dances and the chances on the prizes are included in the ticket price. Proceeds from the evening ball will go towards the Viking Centre.

Tickets are available from a number of community residents who have volunteered to sell with the project. (See advertisement in this edition for ticket sales).

Viking School Holds Annual Awards Night

The Annual Viking Junior and Senior High School Awards night was held in the school gymnasium last Friday evening. The program began at 7:30 p.m. with a nature film entitled "Springtime in Alberta".

The awards were presented on the basis of activities during the 1979-80 school year. The awards for Junior High School students consisted of "Citizenship", "Progress", and "Academic Standing" for grades 7 to 9. The grade 7 winners were Gerry Vink for citizenship, Bob Gotsch for progress, and Trudy Erickson for academic standing.

For grade 8, Leif Erickson won the Progress Award while Cobbe Thors took the Citizenship Award and Patti Ash and Charlene Kjelland shared the Academic prize.

Grade 9 winners were Blair Economy for Citizenship, Tim Lofel for Progress and Debbie Petrik for Academic. The grade 11 students won the most awards.

The grade twelve awards formed the major part of the evening as sixteen awards were presented by representatives of various organizations within the community.

The award for highest academic standing in matriculation, presented by the Viking Royal Purple, went to Karin Otto. This was followed by the Roesgaard Award for Highest in Matriculation in grade 10 went to Jaqueline Wilson. The award for Highest Diploma went to Karen Rucka.

For grade 11, Glen McGillicuddy won the award for academic achievement in the Matriculation pattern, while

Lois Lanning was the same award for Diploma. The Viking High School Art Award went to Doug Lanning, a grade 11 student.

An Election Forum

Someone once said that the best form of government is a democracy, but that that form of government tended toward mediocrity. If it is true that democracy is a mediocre form of government, the fault lies with the voters. In our democratic system, the responsibility for selecting those people who will make the decisions necessary for the efficient operation of our communities lies with us, the voters. The decisions which we make on voting day should be based on knowledge. The better informed we are as citizens, the better able we will be to make a good decision on voting day. It is the responsibility of every citizen of a democratic system to become knowledgeable about their candidates and the issues in order that they can make the best decision. One of the best ways to provide the opportunity for residents of a municipality to become better informed about their candidates and the possible issues is to hold a public election forum. A forum held in conjunction with municipal elections could provide the opportunity to each candidate to explain themselves as to why they were running for a particular office, and/or to give their viewpoints on any possible issues in their respective community. Some people suggest that there are no issues in municipal elections. However, in a community such as Viking, there are issues such as resident and commercial land development, recreational planning and facilities development, business and industry development, and so on. Candidates in municipal elections should at least be willing to express their viewpoints on such issues, and if possible, give their solutions to any such problems. At the least, candidates should be willing to express their reasons for running for office. Reasons they must have, otherwise they would not be running.

The other major reason for holding an election forum in our municipalities is to provide an opportunity for the electorate to better acquaint themselves with the candidates and their opinions on any issues which the voters might raise. Municipal election forums do not lend themselves to debates between candidates because there are generally too many candidates in one municipality running for elected office. It is nearly impossible to hold a meaningful debate among seven or eight candidates for office. However, such a forum could provide the opportunity for voters to ask questions of the candidates, either about the candidates or future plans. It is important to the democratic process that both the public and the candidates be allowed to be heard in public, so that both parties might learn from the other. A public election forum will allow the voters, those people who are big for the type of government which our municipalities will have for the next three years, to become more knowledgeable about the candidates, and therefore better able to make a decision on October 15th.

If such a forum is not well attended by either the candidates or the public, it does not diminish the importance of at least providing the opportunity for either to attend. Once the opportunity has been provided, no one can complain that they did not have the chance.

The executive of the Viking and District Chamber of Commerce rejected a suggestion last Thursday morning that they sponsor an election forum in Viking. As a non-political group in the community, the Chamber seems like the most likely organization to sponsor a political forum. Hopefully, some citizens will come forward and provide the opportunity for both candidates and voters to meet in public in Viking. And hopefully citizens of other constituencies in the midst of election campaigning will encourage such a forum in their area. It is important to the democratic process, for once we fail to provide the opportunity for voters to become better able to make a more knowledgeable decision on voting day, we tug at the very foundations of our system. An informed public is the basis of our system. If we don't care to inform or be informed, we might as well turn our powers and rights over to a dictator.

Annual Awards Night

Continued From Page 1

sent to Laura Simmons. The Viking Elks sponsored two awards, both presented by Mr. Jack Mattinson. The first was Second Highest in Matriculation which went to Melaine Mattinson. Betty Thomson was presented with the Elks Award for Third Highest in Matriculation.

The Viking Legion Award for Highest in Matriculation was won by Betty Thomson, with Mr. Ross Lyle making the presentation.

The Viking Lions Club sponsors the Award for School Service. Lane Carrington presented this Award to Renal with this Award. The Viking C.W.I. Award for Highest in Diploma was presented to Linda Erickson by Mrs. Maxine Josephine.

English 30, sponsored by the Eastern Star, was presented by Mrs. Edna Reddick to Melaine Mattinson. Karin Ote received the Beaver Award of the A.T.A. Award for Highest in Sciences from Mr. Dennis Watson.

Two Viking High School Students' Union Awards

were presented by R.U. President Gene McGladie, the Award for Fourth in Matriculation went to Brenda Petru, while the Second in Diploma went to Laura Simmons.

Melaine Mattinson was presented with the Bruce Agricultural Society Award in Humanities by Mr. Hank Field. This was followed by the Viking Elks Award for Highest in Mathematics which was presented to Karin Ote by Mrs. Olive Zwirchke.

Three All-Round Student Awards were during the evening. The first such Award was for All-Round Student with emphasis on Citizenship. This Award was presented to John Benham by Mr. Stan Zemanek.

The Brook Throat Award for All-Round Student with emphasis on Athletics was won by Darlene Lankley. The All-Round Student Award with emphasis on Academic, sponsored by the Viking School Board, was presented to Karin Ote by Mrs. Olive Zwirchke.

Letters To The Editor

Dear Sir,
 I trust you will give me space in your valuable paper to express a few comments and if possible explain my position.

I have enjoyed the editorial in last week's issue of the "Review" which was headed "Home town... Kill it... Dead". It showed the false economy of driving to the city to save it on a case of beans, or to save \$1.25 on an order of groceries. It could also have pointed out that, if and when a fire occurs in Viking, the volunteer fire fighters are expected to, and do, turn out to fight the fire at all hours and in all weather. This could be the home or property of the person or persons who had been contributing to the funding of the town by spending their money in the city.

I have a strong feeling that people should deal in their home towns when at all possible. I have operated a barber shop in Viking for the past twelve years and have always paid my taxes etc., until this year, when I refused to pay as I didn't feel that the community was equitable when compared to other businesses.

For instance, just to mention a few: Barber shop and Billiards, pin ball machines, soft drinks and cigarettes, etc. \$80.00. Beauty parlour and three Licensed hair dressers, also men's hair, sell toiletries, etc. \$80.00. Drug Store and gift shop, prescriptions, voluntary supplies, books, stationery and candy counter, etc. \$78.00. Funeral home.

Justice and equity are the basis of British Common law, on which our Community laws are based. Justice and Equity, like charity, should begin at home.

Yours truly
 Ann Barber Shop
 Editors note: The case noted above was discussed in the "Wainwright Court" for some time.

\$60.00, whereas I have only the barber shop with nothing for sale. I pointed out to the town administrator that the town of Sedgewick has neither a business tax of a license fee. On hearing this the administrator replied "Well, that's the place for you to go."

"Oh no, I do not want to leave Viking, but I can plainly see by your attitude that you want to have a few more buildings on main street boarded up. I could do it to be my home town, which already has far too many vacant premises on main street."

So, I was summoned to appear before a Justice at Wainwright. I did so, losing a day from my work, besides driving over 90 miles. The case was thrown out, dismissed.

A number of other Viking tax payers also were dissatisfied, and disputed their assessment, but evidently later capitulated and paid up.

A town can be killed by the residents paying it and dealing elsewhere, until it is completely dead.

Justice and equity are the basis of British Common law, on which our Community laws are based. Justice and Equity, like charity, should begin at home.

Yours truly
 Ann Barber Shop
 Editors note: The case noted above was discussed in the "Wainwright Court" for some time.

Dear Sir,
 Your editorial this week has prompted me to get out my pen.

I entirely agree with you on the facts of shopping in the city, where you might save a few dollars on a week's groceries. It is a hassle and frustration to put up with the traffic, the smog, the street noise of mud and water from cars, the numerous signs and lights, etc. to go from one side of Edmonton to the other, one shopping "mall" to another, shopping mall to another to find a bargain, or perhaps to find just the item you think you are looking for.

Believe me, I never could see what entices people to go to the city for relaxation or a day off. The cost of gas and time these days does not warrant such an excursion, nor can a person find that goods you are looking for. Choosing a dress or a pair of shoes tries anyone's patience. There are 15 to 20 racks of goods, and by the time you have looked them all over, you can't see the need for the dress, usually coming home without a thing.

I still admit there are a few things that we cannot purchase in Viking, but they do cost the major needs of the farming population (except of them, or their spouses, driving into the city or shopping in larger towns around us). Perhaps it would be better to "practice what they preach" and shop at home.

Kelly's Hardware has always been a country store, where one can get most things one needs.

I can recall one incident where we wanted to get a pair of heavy gauntlets and wool liners for farm chores. We happened to be in Edmonton, so the most common place to go for them, would be the famous Eaton's Store. The answer was that there was that they don't stock farmers' clothing. What happened to the Eaton's of yesterday? But, you can get them in Viking.

We have very good doctors, dentists, chiropractors and health facilities in Viking, and superb care in our hospital and homes. No one could wish for more clubs and organizations and activities. Why, we even have a Tire Playground. Oh, we have a swimming pool, but most people go to the lakes anyway, and everyone has a bathtub. There is plenty of food in the stores and a good assortment of gifts. A variety of reading material and enough churches. The school is great, if it had more discipline.

Let me tell you, the business men of this town could learn a lesson from your editorial of last week. Monday usually finds many of them, or their spouses, driving into the city or shopping in larger towns around us. Perhaps it would be better to "practice what they preach" and shop at home.

The Homemaker

By Maureen Bauman, District Home Economist

ORNAMENTAL GOURDS

Gourds are a decorative fruit, closely related to melons, pumpkins and squash. Ornamental gourds come in a wide variety of colors, sizes and shapes, thus can make attractive home decorations.

Harvest time is critical. If gourds are to last, if picked too soon, they will shrivel and decay, if left on the vine too long, frost damage occurs. Harvesting as late as

possible before a hard frost is best. Cut fruit off the vine with shears, leaving 4-6 cm of stem attached. Handle carefully to protect bruising. After harvesting, wash gourds in warm, soapy water and rinse in a strong solution of non-bleaching disinfectant, such as borax. Dry with a soft cloth and store in a well ventilated room for 4-6 weeks. For best color fix in hot water and air circulation the gourds should not be touching. If gourds are lying on a surface, turn occasionally so coloration is even. To hasten ripening, place both ends of the gourd with a drying nozzle. Check weekly and wash off any mold with a disinfectant solution and discard immature or soft gourds. The gourds are cured when they are thoroughly dry and have hard shells.

To prepare for use, soak cured fruit in hot water and scrub with steel wool, to remove this outer skin. When gourds have dried

they can be displayed in their natural state, or treated in one of the following ways:

- was with a paste or furniture wax, then buff with a soft cloth.
- shellac or varnish, after rubbing with a fine steel wool.
- paint with flat or enamel paint.

To display, put in a decorative bowl, or use a "charm string" by tying different colored gourds in a central string.

ASTRO-DESTINY

ARIES
Mar. 21 - Apr. 19

Don't push a romantic prospect. Nothing things could put a damper on the situation. Take things slow!

Taurus
Apr. 20 - May 20

Generally unfavorable week. Just plug along. It's the only solution for getting through.

GEMINI
May 21 - June 20

A large and pleasant surprise comes to you this week, although it doesn't seem to be a good week financial prospects are good.

CANCER
June 21 - July 20

Try to find that quiet spot and get some needed rest after the busy morning. It will do wonders.

LEO
July 21 - Aug. 20

While a relief to pay is things welcomed, this time a lot more than money is involved.

VIRGO
Aug. 21 - Sept. 20

Even that unfriendly neighbor finds you charming & pleasant. Maybe this is the time to close the act.

LIBRA
Sept. 21 - Oct. 20

There are certain times about this week. All you can do is sit with the punches.

SCORPIO
Oct. 21 - Nov. 20

A new job or possibly a new home could be in the future this week. Change over everywhere.

SAGITTARIUS
Nov. 21 - Dec. 20

Expenses are needed when you're faced with a major decision this week. Ask for help from trusted friends.

CAPRICORN
Dec. 21 - Jan. 19

It's useless to spend time brooding over a wrong decision. You'll think better before making that selfish's again!

AQUARIUS
Jan. 20 - Feb. 18

You give much joy to the older folks in your family. A little time to spend with them does wonders.

PISCES
Feb. 19 - Mar. 20

You'll be offered a promotion. It could be another opportunity if you decide to take some responsibility. It worth it.

Profile: Garry Howery

Garry Howery

Garry Howery, a probably one of the most colorful men around Viking, and one who has taken a keen interest in community affairs.

Garry was born in Hanna, Alberta in 1963. In 1980, the Howery family, including Garry's two sisters, Val and Debbie, moved to the Viking area.

Following graduation from Viking High School, Garry worked at a number of interesting jobs.

One of the first jobs he had after finishing school was Garry galloping through the rougher race horses. This job enabled Garry to see a lot of country, as he worked in the cities of Lethbridge, Edmonton, Calgary, Vancouver, and Seattle, Washington.

Although his business occupies most of his time, he rarely tries to find a day or two to do some fishing and hunting. Garry also enjoys a little car, when he's not doing any of the above, you'll probably find him with his horses, which he has numbered around thirty.

Garry is one of the young, up and coming business men in Viking who has helped make this town the progressive community it is today.

He worked with Northwesters Utilities in Edmonton, before receiving a transfer back to Viking. He worked with Northwesters Auto for three years, and then in 1977, he purchased the store (Howery's Auto

and Farm Supply), which he still owns and operates.

Garry states that one of his pleasures in his life was his marriage in March of 1979 to Colette. The couple now have two children, Marc, two, and Shawna, three.

Garry is actively involved in the Viking Chamber of Commerce, and the senior hockey program in Viking.

One of the accomplishments Garry is proud of was his help to establish senior hockey in Viking. Garry managed the Viking Old Kings for a number of years, and was one of those instrumental in making the winning team they are today.

Although his business occupies most of his time, he rarely tries to find a day or two to do some fishing and hunting. Garry also enjoys a little car, when he's not doing any of the above, you'll probably find him with his horses, which he has numbered around thirty.

Weekly Police Report

Corporal Duncan Will of the Viking R.C.M.P. Detachment has now advised that charges have been laid in connection with the September 3rd fire in the old Viking community hall. The suspect in the case has been charged with Arson and has been summoned to appear in Municipal Court in Viking on November 6th.

Viking police also report having investigated a theft in the Viking area as well as a break-in.

A single charge of illegal possession of narcotics was issued in connection with the Narcotic Control Act. One charge was issued for the illegal possession of alcohol and a total of nine \$4

hour suspensions were issued. A single charge under the Liquor Control Act was also issued.

During the past week police received a report of a smash causing bodily harm; charges are pending.

The police also report on a B.P. charge, a charge of Willful Damage and a single motor vehicle stopped which resulted when the vehicle struck a deer.

Child Development Moves To School

The Child Development Society has moved its programs to the school - in the room number 4, next to the Kindergarten.

At present, there are no preschool programs. There will be no such programs until arrangements can be made for another facility.

Day Care is the only program underway due to lack of space.

Full time staff member is Brenda Sauer. Brenda is assisted by mother volunteers.

Mothers are asked to refrain from calling the school for appointments or registrations for child care. Please drop down to the room, or call Brenda the evening before.

The Society are having workbooks distributed drawn up for their own facility, and hopefully in the near future will have more children.

Many different programs are planned, including mother's day-out, parenting course, as well as play school.

Society members were very pleased to receive a cheque in the amount of \$1000.00 from Nova, An Alberta Corporation, formerly Alberta Gas Trunkline.

This kind of support is very much appreciated, and certainly will assist in the building of our new facility.

Images in the public mind - socially deprived communities living under large slag heaps, noise and dust, black lung disease, lithium water courses and scattered land escapes - are largely of a bygone era, he said. The issues facing the industry today, he believes, are:

- the need to keep land in production as long as possible prior to mining and to restore productivity promptly after mining;

- to reclaim so that land productivity and water quality are comparable to pre-mining conditions;

- to control and treat mine drainage, minimize the impact of dust and noise; and

- recognition of the impact mine development has on local communities thus requiring community involvement in the planning process.

He said Alberta's Minister of the Environment, Jack Cookson, recently stated that the government was pleased with the environment has on the industry, and its responsibility toward environmental matters and reclamation.

Though the industry has learned a great deal in the

past 10 years, Mr. Smith said, it needs the professional skills of well specialists, wildlife biologists, geologists, pollution control engineers and many others. He said there is a desperate need for further research into the problems or consequences of land disturbance. The entire coal industry must continue to sponsor, contribute towards and implement field and laboratory research, and share their findings.

NOTICE

Winston A. Rushton

is one of the candidates for the office of W.R. as he is better known as the former Mayor of Viking in July, 1964 and states that time has been involved in the Town of Viking, W.R. and their three boys, Mark, Steven and the youngest, Michael.

In May of 1974 W.R. purchased the Viking and has run his business under the trade name Winston A. Rushton Equipment Ltd. since that time. Having been involved in community affairs since moving here, W.R. moved a short time with the Viking A. Rushton, was Chairman of the Provincial Road District Committee, Town Planning Committee, as well as a member of the 75th Anniversary Committee. W.R. is currently Chairman of the Viking Airport Committee and President of the Chamber of Commerce.

With his experience and the collection of a much needed change of the Town Government, W.R. has placed his candidacy for Mayor, and we ask for your support on October 15th.

Weekly Police Report

Corporal Duncan Will of the Viking R.C.M.P. Detachment has now advised that charges have been laid in connection with the September 3rd fire in the old Viking community hall. The suspect in the case has been charged with Arson and has been summoned to appear in Municipal Court in Viking on November 6th.

Viking police also report having investigated a theft in the Viking area as well as a break-in.

A single charge of illegal possession of narcotics was issued in connection with the Narcotic Control Act. One charge was issued for the illegal possession of alcohol and a total of nine \$4

hour suspensions were issued. A single charge under the Liquor Control Act was also issued.

During the past week police received a report of a smash causing bodily harm; charges are pending.

The police also report on a B.P. charge, a charge of Willful Damage and a single motor vehicle stopped which resulted when the vehicle struck a deer.

From The Ground Up

District Agriculturalists

Bill Bruce & Jerome Manchur

A few farmers have contacted us this spring concerning drift damage to their crops when neighboring land covers contain many applicators to spray their crop. Upon analysis of the affected plots, we found the damage was caused by chemical wash or decimbe, 2-4-D or MCPA. These farmers tried to contact the applicator responsible, but either were refused adequate compensation or the applicator would never contact the farmer when he left a message. One farmer sent a registered letter to an applicator who had temporarily moved to B.C., but was personally not accepted by the applicator since it was sent back to the farmer!

I contacted the Farmer's Advocate Office in Edmonton and discussed these situations with them. I was told that if an aerial applicator has a drift rider clause in his insurance, he is covered for such accidents where herbicide spray drifts onto neighboring fields. However, this drift rider clause is not mandatory for an applicator to obtain his Pesticide Applicators License allowing him to spray in Alberta. Some applicators have the standard P.L. and P.D. clause in their insurance policies so the only alternative to collect damages is to launch a civil suit against such an applicator or farmer who contracted the application. This route is costly and time consuming, but to consider the friction caused between two farmers.

In my opinion all applicators who wish to obtain subsequent Pesticide Applicators License should obtain proof of a performance bond or have a drift rider clause in their insurance contract so that if any complications

self and your neighbors, when hiring an applicator ask if he has a drift clause in his insurance and that he is covered for such damage that might occur while spraying. If you wish more information or wish to relate your experience concerning such instances, feel free to contact us.

The custom of dipping for apples is believed to be a remnant of divination practiced among the Druids.

Buffalo Coulee W.I. Hold September Meeting

The September meeting of the Buffalo Coulee W.I. was held at the home of Mrs. Jim Jones on Thursday the 18th. President Murray Hare opened the meeting in the usual manner, and welcomed 20 members and two visitors.

Correspondence was read and dealt with. Elton Prior received the Alberta Ladies' report book of 1979 and 80 to read and pass on to each member.

Some W.I. tea cloths were handed in, and the rest are to be finished for the October meeting.

Get well cards had been sent to the sick in the last two months. W.I. calendars were ordered for the tea on November 20.

A generous donation was made to the Terry Fox Cancer Research Fund, also to the Irma School Board.

A ball was discussed and each member is to bring an article to the October meeting for roll call. The tea

is to be held on the 29 of November. Two senior members, Grace Archibald and Mrs. Jim Chadek, having birthdays in July and September were presented with 1979 tea spoons and birthday cake by our president.

Barbara Fleming gave her handkerchief paper on Tuesday.

Record Entries For Farmfair '80

Northlands Farmfair '80 has attracted a record number of entries for its annual Livestock Show and Sale, November 4 - 17.

A total of 2,500 beef and dairy cattle, sheep and swine will be shown. And an additional 716 animals will be offered for sale. Last year 2,600 animals were shown and 710 offered for sale.

ing, and Mrs. Edith Gunn kindly demonstrated it for us, with two or three more here trying their hand at it. This brought the meeting to a close. The driver was won by Frances Prosser, the secretary.

The next meeting will be held at the home of Frances Prosser. This is United Nations month, and each mem-

ber is to bring a Foreign dish of some kind for lunch. Visitors are always welcome.

A lovely lunch was served by hostess Ann Jones and her daughters.

Future Promising For Seniors Games

A provincial sport event exclusively for senior citizens may become a permanent part of the sport and recreational scene in Alberta.

The success of the 1980 Anniversary Seniors Games held in Canmore this August has prompted discussion among organizing groups about establishing similar bi-annual events.

The 1980 Seniors Games

were held as a 75th Anniversary project, managed by Alberta Games Council and organized at the same or preliminary level by Alberta Senior Citizens Sport and Recreation Association.

Both groups are discussing requirements necessary to provide maximum participation in some play-offs leading up to the proposed Games.

One of the objectives of

the Alberta Games Council, organizers of the annual summer and winter games, is to encourage mass participation on the same level.

We're prepared to provide the administrative support to help the sport and recreation association get the ball rolling in the spring, says Max Gibb, managing director of the Games Council.

"It looks positive but we

have to know that the associations and other volunteer organizing bodies will provide the strong organizational support needed on the local, regional and national levels," Gibb adds.

To enhance the same movement, the Senior Citizens Sport and Recreation Association is preparing to have members interested in existing regional games, explains Ray Jensen,

president of the newly-founded association.

Plans are also on the drawing board to intensify their representation and promotions across the province by dividing the eight Games' zones into smaller districts.

"We also have hundreds of volunteers who attended the last Games, and there's always for us," Jensen says.

WAINWRIGHT SCHOOL DIVISION NO. 32 ELECTIONS 1980 INFORMATION TO VOTERS

QUALIFICATIONS OF A VOTER

A person is qualified to vote as an elector for a School Division Trustee if he or she is:

- 18 years of age or older
- a Canadian Citizen
- a resident of Alberta for the six consecutive months immediately preceding the polling date, October 15, 1980
- a resident of the subdivision on the day which the vote is to be held (October 15, 1980)

VOTERS LISTS - There will be no voters lists - Electors will be sworn in by Declaration stating that they are qualified to vote in this election, then they will be handed a ballot by the D.R.O. and allowed to vote.

RESIDENCE OF AN ELECTOR

- the residence of a person is the true fixed permanent home or lodging place to which, when he is absent, he has the intention of returning;
- a person does not lose his residence by leaving his home for a temporary purpose;
- if a person leaves a district or division with the intention of making his residence elsewhere, he loses his residence within the district or division;
- the place where a person's family resides shall be deemed to be his place of residence unless he takes up or continues his abode in some other place with the intention of remaining there;
- the residence of a single person is the place where he occupies a room as a regular lodger, or to which he habitually returns not having any other permanent lodging place;
- no other person shall be deemed to have residence in more than one district or division;

and in the event of a person maintaining residence in more than one district or division, he shall be required to elect one residence for the purpose of this Act.

J.H. Withnail
Returning Officer

Kinsella Rose Seniors Make Winter Plans

The Kinsella Rose Seniors had a very busy summer and are now planning for fall and winter.

We were kept very busy at the Kinsella Homescoming weekend in July, both in the booth selling coffee and lunches, and also selling tickets on the quilt and at our bazaar table. It was a very enjoyable weekend, even though we had very little time to visit with old friends.

We would like to thank all those who supported our club by buying raffle tickets on the quilt, bid on the miniature school house at our auction, or bought bazaar items.

Also, thank you to the ones who helped in other ways, and a special thanks to our "Auctioneer", Vance Shippy of Vernon, who did such a good job with the school house, and Clara Landon of Calgary, who

painted the board boards for us. Both of them are former Kinsella district residents.

We are now planning our card parties for the season. They will be held on the third Wednesday of each month the same as last year. Our first card party will be at the School at 8 p.m. on October 15, and remember this is for all card players, not just Senior citizens. Prizes will be awarded for

high and second score for men and ladies each night. The score cards will be kept and a prize awarded at the end of the season for highest total score in each.

Members please try to attend our October business meeting if possible, as we have quite a lot of business to deal with at this meeting. Our business meetings are always the second Wednesday of each month at 8 p.m.

which makes the date of the next one October 8. See you then.

The Senior Citizens Center is open at 8 p.m. every Wednesday, when Seniors either to play various games or just visit. We do have short business meetings when necessary at these gatherings. Visitors of Senior age (55 and over) are always welcome any Wednesday evening.

The playground area at Irma School are in the process of being upgraded. Underway is the task of preparing a suitable surface for a 200 metre track. Other improvements planned include the development of a soccer and football field.

Irma News And Views

There was great activity at last week in the new subdivision east of the village, where tractors and diggers and combine harrows have been busy digging in power and telephone lines. Last year's sewer and water lines were installed. Some we may see a start on construction of some residences.

On Sunday, September 14th, Minnie and Jim Johnson drove across country to Sedgewick to visit with Alma Harding. Her other visitors were son Allan, wife and son Jim from Camrose, Stephen and wife Bonnie of Sedgewick.

On the trip to Sedgewick, three combines were noticed picking up rape. There appears to be some more combining completed in the Sedgewick district than around Irma. Several large flocks of wild geese were also sighted.

Mr. and Mrs. Jim Cline, and Jack, had as visitors over the weekend Mr. and Mrs. Martin Magnesson from Timmins, Ont. The Magnesson's are brother and sister-in-law to Bert Cline, who lives at Alder.

Edith and Art Gies and Grandma Boudage visited.

Chacutenah Manor

Visitors with Mrs. Deer last week were her sister, Mrs. Laura Green, and also her nephew and his wife, Mr. and Mrs. Gene Gough, all of Athabasca.

Mrs. May Carter of Wainwright was a Sunday visitor with Mrs. Simmerman.

Mrs. Conkright is spending a week in Spruce Grove as a guest of her daughter and son-in-law, Mr. and Mrs. Durie.

Visitors during the past two weeks with Mrs. McLean were Mr. Russell White of Wainwright, Mr. and Mrs. Angus Smith of Vermilion, Mrs. Bennett and Children of Wainwright, and Mrs. C. Gerville of Edmonton.

Mr. Old Simmonson of Delta, B.C. spent Thursday with his sister, Mrs. Simmerman.

Mrs. Deer is visiting her sister, Mrs. Green, at Athabasca.

Big Goose Shoot At Irma

The geese are heading south, but at least a few of them will never reach their objective, the lower reaches of the Mississippi, or the rice fields of California's Mojave desert.

For instance, on Monday morning, a group of Irma geese hunters made contact with a huge flock of geese and were fortunate enough to bag 25 of them. Amongst the geese were greater and lesser Canada and flower geese. Pictures have been taken, and one should be available for a later issue of the "Review".

During the shoot a most unusual happening occurred.

One of the hunters, having fired one barrel at a high flying goose, was endeavouring to take sight with the other barrel, when he was struck on the chest by a falling goose and completely knocked out. Other hunters seeing him fall, and not knowing the cause, jumped to the conclusion that he had been accidentally shot.

They rushed to his aid, and were greatly surprised to find that he was starting to breath again.

The phenomenon is a closely guarded secret.

Jim Jackson

With Mrs. Gerlie Terry and Mrs. Barbara Holden at the Parkland Manor in Hardisty last Sunday.

Congratulations to Mrs. Ada Poon, who celebrated her 80th birthday at the home of her daughter and son-in-law, Mary and Bob Dempsey, on Sunday, September 28. Also present were Bonnie and Brian Cressy and family from Fabry, Graham and Pat Johnson and family from Irma, and Jim and Madge Davison from Sedgewick. Ada has made her home at the Butte River Lodge in Wainwright for some years. She still enjoys good health.

Visitors with Christine and Mark Russell over the weekend included son Terry and wife Melba, son Wayne and girl friend, as well as daughter Carol.

Lorna, Eddie and Howard Jackson drove in Wainwright on Sunday to visit with son Bob and daughter-in-law Gerlie, whose birthday they helped celebrate.

Soil Acidity A Serious Problem In Alberta

Soil acidity is a serious problem in Alberta. Excluding the Peace River region, approximately 9.5 million acres (15 percent) of the cultivated land in Alberta is sufficiently acidic to require the addition of lime to correct plant growth and yields.

Soil reaction, or the acidity or alkalinity of a soil, is expressed in pH units ranging from one to fourteen. A pH of seven is neutral in reaction, less than seven is acid, and greater than seven is alkaline. Optimum

growth for most crops occurs between pH six and pH eight, or near neutral. Below a pH of six, growth of acid sensitive crops is reduced and below pH of five, very little plant growth is possible.

The main cause of crop damage by soil acidity is the high solubility of aluminum and manganese that occurs when the soil conditions are present in large amounts in soluble form, both elements are toxic to plants. Low pH also reduces the productivity

of nitrate and other nutrients by affecting the nitrogen-fixing bacteria. Crops and even various weeds, grasses and legumes are quite sensitive; and legumes - especially alfalfa, are very sensitive. The use of acid tolerant crops is one way to minimize the effects of soil acidity. The application of lime will correct it.

Lime application will raise the pH of the soil and allow acid sensitive crops to be grown with improved yields. The lime, usually calcium carbonate or calcium magnesium carbonate, is applied to the soil surface and incorporated. The amount of

lime necessary to increase the pH will vary with the soil characteristics and liming material but usually ranges from one to two tonnes per acre. One application will usually last ten or more years.

The number of acres of land in Alberta with a pH less than six is large. Perhaps of equal importance is that there are another seven million acres of cultivated land in Alberta with a pH between six and six and a half, that while not yet limiting crop selection or yield, may be in the near term.

Mainly because of lack of awareness and lime availability, liming has not been practiced to any great extent in Alberta. Soil reasons are rapidly being removed as constraints.

Fall Rain And Winter Snow Still Needed

Although recent rains have hampered farmers' harvesting efforts, conditions at the end of August indicate that the adequacy of water supplies throughout the province will depend largely on fall and winter precipitation.

In Alberta, on-farm surface supplies of water are showing the stress of the light fall and dry spring. Dugout pumping equipment is in very heavy demand in the Hanna and Peace River districts with many outstanding requests for assistance in the latter district.

Dugout pumping is also active in many areas of Saskatchewan, particularly

in the eastern half of the province. Failure of shallow wells is prevalent in the Wainwright, Melfort, Rose town, Moose Jaw and Shaunavon districts.

Manitoba has made considerable progress due to the heavy rains, however surface supplies are still below normal and provincial dugout pumping equipment continues to be in heavy demand.

Although the cool, showery weather has reduced municipal demands, some communities of less than 2,000 population may experience drought-related problems.

New Feeder Cattle Classification Proposed

Agriculture Canada and the livestock industry are working on a new classification system for reporting feeder cattle marketing. The new system would replace the grades of Good, Medium, and Common

with body-type descriptions based on frame size and muscle thickness.

If the changes are adopted, there will be six new grades of thirty cattle and one inferior grade for un-healthy animals.

NOTICE TO VOTERS

Municipal District of Wainwright No. 61 Elections 1980

A person is qualified to vote as an Elector, for a Councillor and for a Hospital Board member if that person:

- is of the full age of 18 years.
- is a Canadian citizen.
- has resided in Alberta for the six consecutive months immediately preceding polling day and is resident in the Electoral Division or Ward on Polling Day.
- the ownership of property (in a Division or Ward) does NOT automatically give a person the right to vote in an election for Councillor or Board member; an elector in this election (1980), MUST RESIDE in the Division or Ward.

There will be NO Voters List - Voting will be done by "DECLARATION." EVERY Voter MUST sign the Declaration form, which in effect is an Oath, stating that she or he is eligible to cast a Ballot; they will then be given a Ballot and allowed to cast their vote.

THE MUTUAL LIFE OF CANADA

Parkland Nursing Home News

Mrs. Harris had a nice visit with her husband Tom Harris last Thursday.
Honey Curtis was in to see her brother, Charles Anburn.
On Friday afternoon, the ladies of the Alliance Church came in to help us celebrate our September birthdays. Celebrating birthdays were Mrs. Otto, Mrs. Harris, Mrs. Heberle, Charles Anburn, Mary Pansah, Mr. Starob, Mrs. Fredericks, Willie Downie, Mr. Larson and Harold White.

New Horizons Club Journeys To Mannville

On Tuesday, September 23, 58 members of the Irma New Horizons Club journeyed by car to Mannville, where they were invited by the Mannville Seniors to a pot luck dinner at 1 p.m.

The pot luck dinner proved to be a veritable feast with every imaginable dish to tempt the appetite. Chicken, roast and fried, stew, meat balls, casseroles of many varieties, perogies, and cold meats of different kinds, you name it and it was there. There were also many different kinds of dessert, including pie and ice cream as well as tea and coffee.

Dinner was followed by a rousing sing-song, which was led by our Peggy Fleming, and Mrs. Margaret May of Mannville. We then played about 15 games of cards during which many of the Irma members were winners. There was also pool and shuffle board, and it was nice information that some played darts.

The Mannville Seniors have two large rooms, a dining kitchen, and toilet.

There was almost a capacity crowd as the Minerva Seniors had also been invited.

It was a wonderful gathering, and there was much socializing. A beautiful lunch brought the day to a close at about 4:30 p.m.

Most of the Irma members were home at 9 p.m. or shortly after. Everyone enjoyed the outing. The Mannville club is to be congratulated on their splendid arrangements for the affair.

Following are some beautiful words written by a friend of Bud Starkey's, which were read at the funeral service.

We have gathered to pay our last respects to a man who touched our lives and whose sudden loss we sorely feel. Each of us has his own personal memories

Visiting Mr. Fred Ooster his past week were Mary and Stephen Mitchell, Mrs. Albert and Dell Jones, Joyce, Nicole and Courtney Bryson, Georgia Brown, and Mrs. Fredrick of T-

Do You Know The Bible Says

By Mrs. Myra... your life is worth too much to waste on useless aims, when Jesus is knocking out to take your hand and to be your Savior and Lord of your life. Even though we may have everything, if Jesus is left out we will lose our own souls.

For what shall it profit, if he shall gain the whole world and lose his own soul? For what shall it profit, if he shall give up his life and not have it? For what shall it profit, if he shall give up his life and not have it? For what shall it profit, if he shall give up his life and not have it?

Giving no thought to after effects or future years if they choose to live that time. Many people have told of how they sank to the very bottom in trying this or that, just for kicks, or worse things to help the over addition to drugs, until they got so bad they tried to end it all by suicide.

Then comes the better part of their own lives. Little did they realize that God was letting them see that the things of this world cannot satisfy the soul hunger. God only can do that. Well their minds failed and they prayed "Oh God, if you are alive and hear me, please help me". Their lives were directed providentially by God's Spirit into the ways that brought meaning to their lives. They realized that without God they were totally lost and confused and not knowing what to do to turn to, selling their soul for naught.

The Holy Spirit will not leave the world people to work by, for the Bible says "For you are not your thoughts, neither are your thoughts my thoughts," said the Lord. "For as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts higher than your thoughts. Young person, your soul is

A Tribute From A Friend

to cherish and console. As a friend and neighbor of Bud's I recall the qualities and characteristics that left an impression on me, and made him unique and special.

Bud had determination, a kind of raw and rugged determination in everything he did: a determination to get a job completed in spite of the order or the weather or weariness or pain. One full

when the days grew shorter and the snow was in Bud's mind, I saw him become a part of his machine: intense, determined, creating his every stress and limitation, until the harvest was complete.

Bud had a special feeling for the soil: for the land, a feeling that the soil itself was not to be robbed or polluted. Bud's effort and his energy

is written on his land. Bud had a deep feeling for his community and quietly supported its various activities. He held no office, but his support and help would be missed.

Bud had a special respect for his parents and his family that I could not help but notice and admire. When his life changed so radically with his marriage four years ago, Bud made up of the challenges to be the best husband and father to his new family with the same determination he had for his farming ventures.

Those of us who knew him well, saw a new Bud with a new happiness and sense of fulfillment. We marvelled at the love he had for all his family and the joy and pleasure we had to measure and give his passing. I think he was just remembered him. And this we promise: Bud - we will remember you!

A wise man once wrote in Ecclesiastes 8:13 and 18: I know there is nothing better for man than to be happy and to do good while they live. That every man may not end in death, and find satisfaction in all his toil - that is the gift of God.

Vialta Lodge News

one visited at the Lodge last Tuesday.
Lella and Shirley Cook of Edmonton called on Monday to see Mr. Ooster.

Bob and Sids Thimel of Cactus and grandson Ryan Brook called on Mr. and Mrs. Brook called on Mr. and Mrs. Lovenski.

George and Bernice Dagwood were Sunday visitors at the Lodge.
Mr. Linsberg is spending a few days of the firm with his family.

Greetings to Mrs. Ash at the present is beautiful. Blago for October will be held on Wednesday the 18th. Our Anniversary Tea and Banquet will be held on November 8th.

The regular meeting of the Council of the Village of Holden was held in the Village Office on September 17, 1980.

1980 ELECTIONS INFORMATION TO VOTERS

QUALIFICATION TO VOTE:

A person is qualified to vote as an elector for mayor and councillors at an election in a municipality if that person

- is of the full age of 18 years,
- is a Canadian citizen, and
- has resided in Alberta for the six consecutive months immediately preceding polling day and is resident in the municipality on polling day.

RULES OF RESIDENCE:

- the residence of a person is the true, fixed, permanent home or lodging place to which, when he is absent, he has the intention returning;
- a person does not lose his residence by leaving his home for a temporary purpose;
- if a person leaves the municipality or ward or electoral division with the intention of making his residence elsewhere, he loses his residence within the municipality or ward or electoral division;
- the place where a person's family resides shall be deemed to be his place of residence unless he takes up or continues his abode in some other place with the intention of remaining there;
- the residence of a single person is the place where he occupies a room as a regular lodger, or to which he habitually returns not having any other permanent lodging place;
- no person shall be deemed to have residence in more than one municipality or ward or electoral division;

and in the event of a person maintaining residences in more than one municipality or ward or electoral division he shall be required to elect one residence for the purpose of this Act.

VOTERS LIST:

There will be no voters lists. Electors will be sworn in by Declaration stating that they are qualified to vote in this election, then they will be handed a ballot by the D.R.O. and allowed to vote.

Ronald G. Pepper
Returning Officer

Holden Council Meets

In attendance for this meeting were Mayor Shykora, Councillors Lemko, Danilak, Giebelhaus and Stambaugh and Administrator Mackay. Also attending the business meeting were Lesley Prinsloo, Tolfield, Mercury, Bert Schweitzer and Wayne Hamblin representing the Holden Business Association, Ray Delson, Paul Shitka and Joe Komarski representing the Holden and District Agricultural Society and Constable MacKenzie representing the Tolfield R.C.M.P. Detachment.

Mayor Shykora called the meeting to order at 7:30 p.m. Councillor Giebelhaus moved that the minutes of the August 13 regular meeting be adopted as printed. Carried.

Councillor Stambaugh moved that payment of accounts in the amount of \$23,709.97 be ratified. Carried. Councillor Giebelhaus moved that the amount be adopted from discussion and voting.

Mayor Shykora moved that Council co-operate with the Holden and District Chapter of Commerce to convene a meeting with the R.C.M.P. and members of the general public to discuss areas of mutual concern. Carried.

Councillor Giebelhaus moved that the 1980 salary for the By-law Enforcement Officer be funded from Protective Services to whatever amount is left in the budget at year end, with the balance coming from Public Health and Welfare if there are no ambulance expenses or from Environmental Health Services. Carried.

The agreement the Holden Ten Club are required to sign prior to hall rental was discussed. The lawyer, St. Pierre is to be consulted regarding the amount of insurance required. The policy regarding driveway is to be discussed by the street committee. Councillor Danilak moved that if property owners desire remote control reading meters they can be purchased at cost with the property owner being responsible for installation. Carried.

Councillor Stambaugh moved that the price of Lot 18, Block 28 be set at \$3,700.00. Carried.

Councillor Stambaugh moved that Village owned black dirt be sold at a price of \$5.00 per yard with amounts sold to be transferred through the Village Office. Carried.

Councillor Danilak moved that the rate for supplying water to Canadian National Railway by the Fire Department be \$80.00. Carried.

Mayor Shykora moved that the Administrator supply information to C.F.C.W. for the Bulletin to Holden on October 31, 1980, and to Travel Alberta for the 1981 Events and Cultural Activities Calendar. Carried.

Councillor Stambaugh moved that there be no objection to Oliver Pressure Surveys Ltd. putting up a building on Block 28, Holden's property or Village of Holden Lots 18 and 20, Block 11. If it is feasible and conforms with the land use by-law. Carried.

The following correspondence was received by the Village of Holden:

1. Alberta Recreation and Parks re amended grant

regulation.
2. Vererville Health Unit water reports for August 19, 30, and September 5, 1980.
Councillor Danilak moved the monthly cash statement be adopted as presented. Carried.

Councillor Giebelhaus moved the minutes of the Management Group meeting of Northern River be received and filed. Carried.

Mayor Shykora moved that accounts paid in the amount of \$886.12 be ratified. Carried.

Mayor Shykora moved that accounts in the amount of \$355.40 be approved for payment. Carried.

Councillor Danilak moved the monthly cash statement be adopted as presented. Carried.

Mayor Shykora moved the Administrator bring together a committee to interview Arts Centre Manager candidates and make a recommendation to Council, and further that the committee consist of Councillor Giebelhaus, one member of the Holden Local Recreation Board, one member from the Beaverhill Players and one member from the Beaver Regional Arts Society. Carried.

Councillor Danilak moved that a holder for the Arts Centre be purchased in consultation with Councillor Giebelhaus. Carried.

By-law No. 10-1980 being a By-law of the Village of Holden in the Province of Alberta to authorize the execution of an agreement for the provision of ambulance services. Carried.

Councillor Danilak moved that the Tolfield R.C.M.P. Detachment attend the meeting at 8:00 p.m. to discuss the amount of insurance. Carried.

Councillor Danilak moved that all Village legal fees be transferred to the law firm of St. Pierre and Legg. Carried.

Councillor Lemko moved

that the following expenses be authorized:
1. C. Mackay \$160.00 registration plus expenses for Local Government Finance Course.

2. R. Schweitzer mileage to Village to attend Payroll Seminar.

3. D. Danilak expenses not covered by Alberta Disaster Service to attend exercises in Armprior, Ontario.

4. O. Shykora expenses to attend retirement of Deputy Minister of Municipal Affairs. Carried.

Councillor Danilak moved that Accounts Receivable and Sales and Machinery Insurance Coverage be purchased through Royal Shaw Bank. Carried.

Councillor Danilak moved that the approval report completed by Senala Appraisal Ltd. be submitted to Royal Shaw Bank Ltd. for a report back at the next meeting. Carried.

Discussion on the Agreement with Senala Appraisal Ltd. will be held at the next meeting. Ray Delson, President, Paul Shitka, and Joe Komarski, Director, representing the Holden and District Agricultural Society attended the meeting at 8:00 p.m. to discuss the amount of insurance. Carried.

The meeting resumed for coffee at 8:15 p.m. and resumed at 8:15 p.m. Constable MacKenzie from the Tolfield R.C.M.P. Detachment attended the meeting at 8:00 p.m. to discuss the amount of insurance. Carried.

Fourteen items of correspondence were received and filed.

Mayor Shykora extended thanks to Councillors Stambaugh and Giebelhaus for their support and for their contributions.

Councillor Stambaugh and Councillor Giebelhaus thanked Council members for their support.

Councillor Giebelhaus moved the meeting adjourned at 11:04 p.m. Carried.

Each office is independently owned and operated. ELUCATED THIS WEEKEND BY CENTURY 21 REAL ESTATE CORPORATION

INTRODUCING

THE NEW ALBERTA CORPORATE INCOME TAX ADMINISTRATION

What It Is

As part of a new Alberta business incentive system to be directed at stimulating economic growth, the Government of Alberta will administer its own corporate income tax as of January 1, 1981.

A provincial income tax for corporations in Alberta is not new. What is new is that corporations in Alberta will file tax returns and remit taxes to the province separate from their federal income taxes effective with taxation years starting after 1980.

Unincorporated businesses and individuals are not affected by this change. Alberta taxes will be handled by the new Corporate Tax Administration Branch of Alberta Treasury.

What To Do
This month, a package of material's including an "Alberta Corporate Income Tax Information Return" (Form AT-1) and its completion guide will be mailed to all corporations registered with the Corporate Branch of Alberta Consumer and Corporate Affairs.

The AT-7 is a simple, one-page form intended to provide Corporate Tax Administration with certain permanent information about companies in Alberta. Corporations are asked to

The following article was reprinted from comments of M.P. Don Macdonald.

Around a year ago Winnipeg analyst Peter Watkins of Herald Grain Ltd., described Canada's grain transportation system as a "National crime". Earlier this month he described the problems as "pretty well solved".

A good deal of the solution has had to do with the establishment of the new Grain Transportation Authority by Conservative Minister of Transport and Communications, Don Macdonald, and his appointment to the post of grain transportation coordinator.

Dr. Horner is a former Alberta deputy premier and minister of economic development and transport. He was given one legal authority - the power to allocate grain cars where they were needed. He brought along a silver tongue.

The difference is not less than a year is a considerable one. In the grain year before the one just ended - grain years end on July 31 - transportation systems were as rudimentary and neglected that the Canadian Rail Board was turning away export contracts at a rate of 80 million a day. "We can deliver only 40 per cent of what we grow," a board spokesman said last September.

Mr. Macdonald hoped that Dr. Horner would increase grain exports by 30 per cent in his first year. He almost made it. In 1979 - 79 Canada exported 15.2 metric tons of grain. In the year ending July 31, Canada exported \$1,788,400 tons of grain, an increase of 19.1 per cent.

"Now we've got an ironic situation," says Wheat Board's John Morris. "The transport system is in good shape but it won't have too much to do to decrease this year's crop as we had."

In pre-Horner days a great many problems had plagued the grain transport business - failed shippers, inadequate terminal capacity,

Spirit Of Co-operation

city, labor disputes, low freight rates which discouraged the railways from moving grain, complaints of conflict of interest - the Wheat Board moved grain as did private grain companies and the board had the power to allocate who got the railcars.

Most of these problems remain, but the attitude has changed. One week, Dr. Horner holds meetings in Winnipeg to divide the supply of grain cars; and people have been working together. "Right now," he says, "there is a real spirit of co-operation being displayed by everybody involved with the grain transportation system. In spite of the monetary problems, the railways have taken the position that they are going to show they

can move grain. The railcar fleet is now of sufficient size that most loading delays on main lines and branch lines have been cured. However, car switching arrangements at export terminals could be improved and we are working on that."

Dr. Horner does not take the credit for the expanded railcar fleet although he has been cheering the expansion on. The Wheat Board provided 200,000 new hopper cars, Manitoba leased 60,000 from the United States for use this summer, and Saskatchewan, Alberta and ON have each ordered 1,000 hopper cars from plants in Ontario, Quebec and Nova Scotia.

The bugs are not all out. Dr. Horner did not have to contend with labor problems

(no major grain industry negotiations came up before October 1st) but he did have to contend with forest fires blocking main rail lines, farmers hoarding grain in hopes of drought-increased prices, two terminals put out of operation for months when a ship smashed a bridge at Vancouver's Second Narrows, and a need for six more Great Lakes vessels (one is being built). And if Canada is to reach the federal goal of 80 million tons of exports by 1986, we are going to need that Prince Rupert, B.C. terminal on which Ottawa has been dragging its feet.

But it is remarkable what common sense can achieve in spite of little physical changes. The Macdonald Transport ministry will be remembered.

Kinsella O.O.R.P. Holds Meeting

Kinsella O.O.R.P. Lodge #1846 conducted their regular meeting on September 29, 1980.

It was decided to hold our annual Tea and Banquet on November 1, 1980, to be co-chaired by Ladies Shaver, Michael, Ivy Muller, Vivian Pirkin and Ann Gervin.

H.R.L. Shirley Orzechowski, with the assistance of Group 1, will converse Sunday Day on November 10, for the St. Paul Protectors' Fall Festival to be held in the Kinsella School.

Our two 1980 quilts are to be entered in the Alberta Anniversary Contest to be held in Edmonton this October. Lady Margaret Smith is to look after arrangements.

Ladies are reminded that we will have a table at the "Flea Market" to be held in the Kinsella Memorial Hall, November 29, 1980.

During Good of the Order, 30 year pins were presented to PERLA Ivy Muller, Pearl Bowers, Shirley Hawrick and Lady Hilda Barker. Well

Don Ladell! As well HAPPY Birthday was sung to PERRY Barbara Fardick, who also was Good of the Order. District Deputy Franco

Overbo will conduct inspection at our next regular meeting on October 30 at 8 p.m. A practice will be held on October 27 at 8 p.m.

Holmes High School Students Union chair officers pose before planning the year's activities. Seated left to right: Betty MacKay, President and Secretary, and other members of the union.

ALFALFA PELLETS

Order Dehydrated Alfalfa Pellets now for your winter feeding program before we make export commitments on our 1980 crop.

Recreation Board Offers Fall Courses

Viking Recreation Board is pleased to announce that the following courses will be offered in Viking: photography, Ukrainian cooking, social dance, and more.

Sports involved in the program are: basketball, hockey, badminton, tennis, cross-country skiing.

An Arena Management Workshop has been scheduled. This workshop is for arena and curling rink operators and managers. This workshop will provide information on redistribution, just maintenance, no making (natural and artificial), snowing, building maintenance, management, more conservation etc.

The workshop is to be held at St. Paul in the Recreation Centre on October 3rd from 8:00 a.m. to 10:00 p.m. and October 4th from 8:00 a.m. to 10:00 p.m. Anyone interested in registering by giving Vern

at call at 386-7748.

Special offers are available at times to express our migratory bird reserves," says Nell Maki, special representative with the Fish and Wildlife Division.

One of the more successful "goose shoots" reported in this area occurred last Tuesday morning September 22nd when 20 birds (3 White and 17 Lesser Canada geese) were shot north of Viking. Members of the hunting party were (left to right): Irvin Arndt, Ross Fitzmaurice, Roy Hansen and Eric Rattray.

Patrols To Enforce Regulations

Continued field personnel comprised of the Fish and Wildlife Division of Alberta Energy and Natural Resources, the Royal Canadian Mounted Police and the Canadian Wildlife Service will be working together this fall to ensure that sportspersons use good manners in their hunting practices.

The group will be conducting combined patrols to enforce the Migratory Birds Convention Act and Regulations. Equally important will be their task in maintaining surveillance over other protected species such as owls and raptors, at times shot by people who don't realize their importance.

In addition to their enforcement duties, the three agencies will help hunters by responding to regulation enquiries and seeking better co-operation in fire arm safety, respect of private property and general hunting etiquette.

"Special offers are available at times to express our migratory bird reserves," says Nell Maki, special representative with the Fish and Wildlife Division.

One problem which Mr. Maki - and his counterparts, especially John Shaver of the Canadian Wildlife Service are concerned with, is hunters trespassing on private property. "The game may not be aware that over 90 per cent of migratory birds are hunted on private land," says Mr. Shaver. "Hunters must obtain permission from landowners before they go hunting on private land. We strongly recommend and encourage hunters to consider the utmost courtesy to their host, the landowner, for the privilege of hunting on his property. This action will help other hunters enjoy similar privileges in the future. If they hunt on private land without permission, hunters are in violation of the Alberta Wildlife Act, but also commit a serious breach of hunting etiquette."

Along with increases in the number of people hunting, other outdoor recreation activities are becoming more numerous. "More and more people are calling and asking us where they can go to photograph or observe wildlife," Shaver says. "We're also getting a lot more calls from birdwatchers. We want the public to know we're trying to promote the management of wildlife for everyone's interests."

"Officers are not there just to enforce regulations but also are the agencies' liaison team maintaining contact with the hunting and non-hunting public to provide advice, information and regulation interpretation relative to hunting interests."

Bernard Rob Linstead of the RCMP, K Division Edmonton feels the Forest's main concern is that hunters respect hunting regulations and handle firearms in a safe manner. "Loaded firearms in vehicles is an offense frequently encountered by our officers," says Linstead. "The practice is both dangerous and illegal."

One problem which Mr. Maki - and his counterparts, especially John Shaver of the Canadian Wildlife Service are concerned with, is hunters trespassing on private property. Entries Open For Regional History Competition

First prize for the 1980 Regional History Award, sponsored by Alberta Culture, has increased substantially to \$1,000.00. Entries are now invited.

The annual competition, in its eighth year, recognizes the best regional history by an individual Alberta author or group and published in the Calendar Year 1980. The award was established to encourage the

highest quality of writing in local histories, commented John Patrick Gilless, Director, Alberta Culture, Film and Literary Arts.

A distinguished panel of adjudicators, judges each submission on the basis of readability, human interest, and factual and literary excellence. Entries may take the form of personalized accounts of life in Alberta or the history of a community or settlement. Submissions must be in the English language, and not less than 25,000 words in length. Entries are requested to submit two copies of each entry.

Submissions for this competition must be received no later than December 31, 1980 and should be addressed to: Alberta Culture, Film and Literary Arts, 127th and CN Tower, Edmonton, Alberta, Attn: Regional History Award Committee.

Disappointing Turn Out For Blood Donor Clinic

Sixty-six donors appeared at the Red Cross Blood Donor Clinic held in Viking on Wednesday, October 1st. Of this number, ten were deferred, making a net total of fifty-six.

Although the late harvest season would necessarily affect the public response this was a very disappointing number for a town the size of Viking with a population of over 1500.

In the United States when blood is required, it must be paid for either by reciprocal plate of blood by the family or by cash and the price per unit is considerable.

In Canada this service is free. The importance of this service by the Red Cross was recognized by at least one young farmer, who left his combine in the field and came to the clinic to give his 86th donation of blood. Also, a newcomer to Viking from England, now employed here, gave his 20th donation of blood. In addition one 5-year old and two 10-year olds were awarded.

The planning committee for the Blood Donor Clinic is very grateful to all who donated to the lunch or helped in any way.

Viking Council Upset With Calgary Power

The Viking Town Council, at its last regular meeting held on the October 1st election, decided to write to Calgary Power concerning the condition of the street lighting throughout the town.

The problem of slow repair of the street lights after they fail to work has been an on-going problem for some time. At a meeting with a Calgary Power representative to discuss the new street lighting for Viking last year, Council expressed its displeasure with the company for its tardiness in making repairs to the system.

The failure of the new lighting on Main Street to work properly since its installation, plus a number of complaints from town residents concerning the lights in their neighborhood, prompted the Council to decide to write a strongly worded letter to Calgary Power expressing their concern about the lack of adequate service for the town. At present, a number of lights around the town, as well as several of the new

lights on Main Street are out of order. The company has promised that this situation be rectified as soon as possible.

In other Council business, Mr. Ross Fitzmaurice has been appointed the new Past Control Officer for Viking. The appointment of this position came as a request from the Alberta Environment Department.

A letter from the Canadian Transport Commission informed Council that they have approved the installation of automatic signals at the C.N. crossing just west of Viking. The letter stated that a town committee of the signals must now be completed and that all parties to the agreement for the signal would have to agree to the costs involved. The C.T.C. has a cost-sharing formula, which calls for designated percentages to be paid by C.N., the County of Beaver, and the government. As well, the County

will be responsible for 80 percent of the minimum costs once the signals have been installed.

Council also received a letter from Alberta Municipal Affairs stating that the site plan for the Roddick subdivision has been approved by the Department.

The Council decided to meet the bell from the Senior Citizens' Hall to be held at the Legion Hall on September 28, 1980. Rain falls from the bell is built. Council decided that the bell would be more appropriate located in the new fire hall.

Council also received a letter from W.B. Mattinson, on behalf of Imperial Oil Co. Ltd., requesting information on the availability of land in the East Industrial Park. Imperial Oil wishes to place an oil storage tank at the location in the Park as soon as possible.

Third and final reading was given to By-law 848, a by-law to amend the Land Use By-law 828, changing the land between the 18th playground on 57th Avenue and the W.B. Mattinson residence from Urban Reserve to Residential 3 property.

O'Leary Sends Display

As most Viking residents have heard, O'Leary, P.E.I. is our "twin town". The twinning program was started by the Council on Canada Unity to make Canadians more aware of other parts of Canada.

Twinning can involve a variety of activities and exchanges. To date, a number of Viking groups have been in touch with, or sent something to O'Leary in the form of a display, scrapbooks, picture, brochures, etc. O'Leary has also been given a 75th Anniversary

flag, and our Council sent greetings.

The Junior High and High school will be having an "O'Leary Day" to challenge the towns from O'Leary. The younger grades have planned project exchange.

We hope the various children and adults groups would like to become involved in some special activity. We would also like to send a picture map display - if you have pictures or are interested, please contact Debra at the P.S.S. know.

We have just received information and articles for display from O'Leary and would like all residents to have an opportunity to see them. They will be on display in the Public Agencies office.

Many of the groups from O'Leary would like to be in touch with similar groups in Viking. If you group is interested, or if you, as an individual, would like more information, or to become involved, please contact Debra at the P.S.S. office - 386-4084.

Although the number of donors didn't equal that of previous clinics held in Viking, the sponsor group and the Canadian Red Cross are grateful to those who donated "the gift of life" at the clinic held last Wednesday night at the Viking Catholic Church.

Staff Photo

Seniors Information Evening A Success

An evening session of information pertinent to the Senior Citizens was held at the Legion Hall on September 28, 1980. Rain falls from the bell is built. Council decided that the bell would be more appropriate located in the new fire hall.

Information books titled "Programs for Seniors" are available at the P.S.S. office. If anyone has questions about benefits, programs, or information for seniors, feel welcome to drop by the office, or call 386-4084.

A forum to discuss needs and possibilities for seniors in Viking will be held on October 30th. Further information will be available next week.

Salmer Haffo of Viking officiates at his last regular Town Council meeting, following a speech of 21 out of the last 23 years in the mayor's chair. Town Administrator, Lydia Hanson, sits on the right.

1111 Today I'll write something on the new Feed Freight Assistance Program which was announced September 1st by Alberta's Minister of Agriculture, Dallas Schmidt. The main points of the program are:

1. Freight Assistance is restricted to the maintenance of basic herds and flocks and does not cover finishing livestock.
2. The assistance applies to the movement of: Forage - Silage, Hay and straw baled, loose or processed.
3. The program is operative in The County of Beaver.
4. Application for assistance by farmers must be completed before April 30, 1981.
5. Payments will be made in respect of forage delivered July 1, 1980, March 31, 1981.
6. Freight Assistance is as follows: For forage movement - Hay or Straw - \$0.15 per ton per mile, Silage - \$0.05 per ton per mile.
7. The maximum assistance to one operator or partnership or corporation is limited to \$5,000.00.
8. Application for assistance must be made by completing the application form and statutory declaration at the District Agriculturist Office and providing a duly receipted invoice indicating the following details: For forage movement:
 - a) Type and quantity of forage purchased.
 - b) Price per unit and total price of purchase.
 - c) Date of purchase and delivery.
 - d) Date of forage movement.
 - e) Full name and address of vendor and purchaser.
9. It's good to see such a program. It will help your feed shortage if you have one. Forms for the program are available at the District Agriculturist Office.

GOOD NEWS PARTY LINE

The rummage sale in the Anglican Hall will continue on Saturday, October 10, from 10:00 to 12:00 p.m. and October 11 from 12:00 to 2:00 p.m.

We Do Sleep Better

This week is Fire Prevention Week in Alberta. This week is set aside to remind all of us of the tremendous dangers inherent in unwanted and uncontrolled fires. Every year, a large number of lives and property valued in the millions of dollars goes up in smoke. The greatest cause of these unwanted fires is the negligence and lack of concern of people.

We often take for granted the fact that fire can destroy everyone and everything that we hold dear. We fail to carry out adequate inspections of our residences for dirty furnaces or heating ducts, for bare electrical cables or wires, or for overused electrical outlets. As well, we often practice poor safety habits when it comes to the storing of flammable materials. When fires occur due to one of these causes, they are often labelled "accidental". Yet most of these fires could have been prevented if we had taken a little more care and attention to details concerning possible fire hazards. It only takes a small amount of time and perhaps a small outlay of money, but we should all endeavour to ensure that our homes, farms and

business premises are as safe from fire as they possibly can be.

And yet, no matter how safe and/or careful we are in handling fire, we will undoubtedly experience this destructive force. Once a fire gets underway, only a concerted effort on the part of concerned people, be they members of the fire departments or neighbours, can prevent a terrible tragedy or loss. And yet, at times, even these efforts will be in vain. But this does not diminish the overall importance of our volunteer fire departments to the safety of our communities, our homes and our families. We all are able to rest much easier at night and work and play much easier during the days knowing that our community will respond to our communities fire siren if it is sounded.

Fire Prevention Week is a time for reflecting on how we can best work to prevent fires. But at the same time, we should remember those people in our communities who volunteer their services to make our communities better and safer places in which to live. A tip of the old proverbial hat to our Fire Fighters during Fire Prevention Week.

Weekly Police Report

The Viking Detachment of the R.C.M.P. report an extremely quiet week, with the stricture mainly to the busy harvest season.

One charge of driving while under a license suspension was issued. Also one driver was charged with impaired driving.

Two separate motor vehicle accident reports were received with no injuries

sustained in either incident. One conviction for possession of alcohol was issued. A single charge of blurring was also laid.

Since the detachment received and investigated a number of minor complaints they were pleased to report a lessening of activity.

Community Directory Now Available

The Community Directory listing service clubs, organizations, recreational activities, health care, and business is now available from the P.S.S. Office for \$2.00 per copy. These directories should be

of interest to all community members.

If you notice that a club or organization has been missed, please let P.S.S. know, so it can be included on an update page.

Protect Yourself Against Glaucoma

Could you have glaucoma, right now, today? Some 20 million Americans have this disease, a major cause of blindness, and half don't know it. It's the cause of one out of every seven cases of blindness in the U.S.

Often a "silent" disease with no pain or other symptoms, glaucoma can't be reversed but it can be treated and vision saved if treated in time.

Sometimes glaucoma may give one of these warning signs:

- inability to adjust eyes to darkness
- loss of side vision
- frequent changes of glasses, none of which is satisfactory
- blurred or foggy vision
- rainbow-colored rings around lights

Viking's "twin town", O'Leary, P.E.I., is depicted in pictorial form for the enjoyment and interest of Viking residents. The display can be viewed at Ritchie Agencies on Main Street. Pamphlets and additional information can be seen at the P.S.S. Office. A similar display has been forwarded to O'Leary, highlighting Viking and district.

Safety Council Offers Defensive Driving Tips

They say that an ounce of prevention is worth a pound of cure...or is it metric... 28.35 grams of prevention are worth 45.36 kilograms of cure. The defensive driving course teaches good drivers to be better and helps them prevent accidents.

Become a safer driver by contacting the Alberta Safety Council in Edmonton at 10036 Jasper Avenue for

information as to where this course can be taken in your area.

There were 79,146 vehicle accidents reported in Alberta during 1979, with property damage of approximately 70 million dollars.

There is a way to reduce our accident rate and that is by taking the defensive driving course.

Every one must capable driver can benefit from the safe driving concepts developed by professional safety experts.

Professional men and women continually keep abreast of the latest developments in their field. Can you as a driver afford not to be informed about the latest traffic accident prevention?

Can you as a driver afford not to be informed about the latest traffic accident prevention?

W.R. (BILL) TAYLOR - FOR MAYOR

WORKING FROM EXPERIENCE

TO THE PEOPLE OF VIKING

During the six years that I have been a member of Viking Town Council, a number of major projects have been undertaken. A new sewer system has been completed. A new water system has been initiated. Residential, Commercial and Industrial Land has been annexed to the Town.

At present plans for development of this land are being finalized. Also the agreement to purchase land from the Loughlin family has been completed. This land was purchased for residential development. All of these steps have been undertaken so that Viking will be better able to grow in the future and meet the needs of the residents.

If elected Mayor on October 15th I will endeavour to utilize my past experience to work towards the goal of future industrial, commercial and residential development for Viking, as well as all other related development. We must move forward so that we become a more viable community.

With plans being finalized for the leasing of my business premises I feel that I will have the time necessary to properly handle Town business at this important period in Viking's development. Viking needs a Mayor with experience!

Parkland

Ernie and Al Auburn visited with Charlie Auburn.

Lloyd and Walter Campbell called on "Mom" Campbell last Tuesday.

Terry Luuk visited with Lene Rittland.

Honey Curtis was in to see Charlie Auburn.

Visiting Mrs. Panak and Pearl Tchir were Diane and Lori Burdard and Pearl Lawrin of Edmonton.

Pat, Rhonda and Lynette Rabby of Sherwood Park visited with Mr. Zemanak and Mrs. Brock.

Ann Ombak called on Fred Ombak.

Ray and Jean Fuder of Ottawa were in visiting friends.

Visiting Mrs. Maggie Harris were Benjak Oulund and Brenda Halgand of Ryley.

Steve and Ella Ombak of Edmonton called on Fred Ombak.

Please vote for councillor George W. Blakie

GENERAL EDUCATIONAL DEVELOPMENT (GED) TESTS

The GED Tests provide an opportunity for adults to earn High School Equivalency standing which may assist them in qualifying for better jobs, for promotions within their own organizations and for admission to post-secondary educational institutions. Some people may simply wish to take the tests for personal satisfaction.

Any person who is a resident of the Lakeland College area and who is NINETEEN (19) years of age or over may apply to write the tests.

All GED Testing will be held at the Lakeland College of Education in your area.

WAINWRIGHT: October 21 & 22, 1980 - 6:30 p.m. to 9:30 p.m. both nights

March 9 & 10, 1981 - 6:30 p.m. to 9:30 p.m. both nights

LYNDEN: November 5 & 6, 1980 - 7:00 p.m. to 10:00 p.m. both nights

February 27 & 28, 1980 - 7:00 p.m. to 10:00 p.m. & 9:00 a.m. to 12:00 noon

VERMILION: November 17 & 18, 1980 - 7:00 p.m. to 10:00 p.m. both nights

February 13 & 14, 1980 - 7:00 p.m. to 10:00 p.m. both nights

GRAND CENTRAL: November 25 & 26, 1980 - 6:30 p.m. to 9:30 p.m. both nights

*Anyone interested in writing the GED Tests must apply and pay a \$4.00 registration fee AT LEAST ONE WEEK BEFORE THE TESTS.

APPLY AT THE TIME. Contact the Lakeland College Office in your area for forms and more information.

Refresher Course For Nurses Offered

EVERY THURSDAY 3:30 P.M. COMMUNITY HALL VIKING WEEKLY VOLUNTEER WORK Jean McNeary

Lakeland College is delivering a Refresher Course for nurses who are presently unable to accept nursing positions.

"Those who have not been actively nursing for five years, or who have worked less than 180 shifts during the past five years, cannot return to active nursing unless they first take a refresher course," says Pam King, Co-ordinator of the Course.

"With the recent hand-some increases in a nurse's pay and with a further increase (already negotiated) to be added soon, nurses can contribute substantially

to a family's cost of living," she adds.

The course begins on October 8, 1980, and ends ten weeks later on December 15, 1980. Student will alternate one week of theory and classroom demonstrations, with a week of observations.

Nurses will be able to have their clinical sessions in an accredited hospital near to, or where they may expect to be employed.

Emphasis will be on the medical and surgical care of the adult patient, but other important aspects of patient care and treatment will be included.

Those who may be interested, should apply as soon as possible. "About half of the spaces in the course are already filled," says Pam.

It is through programs such as the Nurses' Refresher Program that Lakeland College strives to meet the needs of the people of this vast region.

Contact Mrs. Pamela King, Co-ordinator of the Nurses' Refresher Program, at 663-5971, for further information or application forms.

Defence Against Weeds

Herbicides are the first line of defense against weeds but agricultural scientists are making new efforts to reduce farmers' dependence on chemical weed control.

Canada's Expert Committee on Weeds, representing federal and provincial governments, industry and universities is promoting increased use of cultural and biological control methods.

The committee says farmers should try to integrate chemical control with other means of weed control wherever possible.

"Even more exciting to many, than the higher income to be had as some of the other negotiated benefits, such as the guaranteed week-end off every three weeks."

Pam says that employment opportunities are somewhat "especially throughout the rural areas." She adds "It would appear that only the cost of the training could present a problem."

Because of the current nursing shortage, some financial assistance may be available. Contact the nearest Canada Employment Centre for further information.

The tuition fee for the Nurses' Refresher Course is \$15.00. Tuition cost about \$50.00. Meals are readily available in the College dining room and accommodation in the residence is available on a first-come first-served basis.

"Top flight instruction and excellent opportunities for clinical experience have been built into the course," says Pam. The course has the approval of both the AARN and the SRNA.

Given under my hand at VIKING this 25th day of SEPTEMBER... 1980...

M. C. H. H. H.
Returning Officer

Profile: Dan Nash

Dan Nash

Over the past few years, Dan Nash, 31, has become one of the top school bands in east-central Alberta. The man who can claim credit for this accomplishment is Dan Nash.

Dan was born in Wainwright, Alberta, but as his father worked in the bank, he spent his earlier years in a number of different communities including Fort St. John, Peace River, and Medicine Hat.

Dan graduated from high school in Medicine Hat, and in addition to music, Dan also teaches Social Studies and Biology in Irma.

One of Dan's greatest accomplishments since he arrived in Irma has been the development of the music program. Dan explained that the band is divided into three groups - the beginners (grade 7), grades 8 and 9, and grades 10, 11, and 12. Although music is compulsory only in grade 7, Dan is pleased to report that many of his students continue the program through to grade 12.

The marching band, which enters a number of parades and concert performances throughout the year, is a combination of the two senior groups.

Dan said he would like to express his thanks to the community of Irma for all the support they have given the band in the past. He explained that community support has been fantastic, and the band's success wouldn't be possible without this support.

Dan enjoys small town life, and when not teaching, he enjoys photography, and he likes to do some photography, and in the winter he enjoys the chance to play some recreational hockey.

A NEW IDEA IN CARPET SALES

Mrs. Anastasia Crotty celebrated her 80th birthday on June 29th, 1980. A family reunion was held in her honour on the same day, in the Bruce Community Centre. Mrs. Crotty celebrated another joyous occasion, on the arrival of her first great-grandchild, Rhonda Hansen. Pictured above from left to right are: William eldest son of Anastasia Crotty, great grandfather, Donna Mac Jackson eldest daughter of William Crotty, grandmother, Brenda Hansen daughter of Donna Mac, Mother, Anastasia Crotty, great, great grandmother, holding baby, Rhonda Marie, Mrs. Crotty is the wife of the late Thomas Crotty who resided in the Viking area up until his passing in 1955.

Holden News

Welding Contractors Ltd. of Camrose were awarded the contract to build the Senior Citizen's 44 unit Lodge in Holden. According to village administrator Christine Mackay, construction is to begin today.

Holden will be holding its 75th Anniversary celebrations on October 18 and 19.

Mr. and Mrs. W.L. Mai, rose, formerly of Salmon Arm, B.C., have moved to North View Manor in Holden. Other people living at the Manor are Mrs. Sizer and Mr. and Mrs. W.B. Laaksky.

The Bruce Women's Institute monthly meeting was hosted by Ellen Dorio on Thursday afternoon, October 2. Members planned to go to International Day in Viking on October 14 and reviewed the handicraft list for the spring conference.

Marion and Malcolm Dorio and children of Vegreville spent the weekend with Malcolm's parents, Ellen and Ernie Dorio. Malcolm was helping his dad put some new siding on the house.

There will be a Social Dance Class in Bruce starting on October 15. This course will run every Wednesday for 7 weeks. Each class will be from 8 - 10:30 p.m. Instructors are Allan and Olive Zierkeles. A minimum of 10 couples is required. Phone Evelyn Zierkeles at 688-2515 or George Hobbitt at 688-2970 for further information and registration.

4-H On The Move

By Ed Masson, Regional 4-H Specialist

The 4-H Club is a group of local young people interested in one or more project areas, along with the adults who help the members learn the skills that go along with their projects.

Most 4-H Clubs meet once or twice a month in a school room, hall or in a members' home. Here members, leaders and parents get together to plan and discuss club business, talk and learn different aspects of the project, give demonstrations, plan recreational and social activities and discuss community projects and fund raising efforts.

The club members are the ones who run these meetings. They elect an executive of a president, vice president, secretary, treasurer, club reporter and parliamentarian. Through holding these positions and taking part in club meetings, members learn Parliamentary procedure and the mechanics of running business meetings. This skill is invaluable later in life when

the ex-4-H'er becomes an active member of adult organizations and associations. The club leaders and adults at the 4-H meetings assist the members where necessary. They try to remember that the 4-H motto "Learn to do by Doing" and let the members do most of their own planning and discussing. It is the adults who offer their skills and experience to teach the project material and to help the 4-H club become a strong organization for its community as well as its own members.

Kinsella News

An open house celebration was held in Kinsella on September 18, marking the 40th Wedding Anniversary of Merlin and Phyllis McBride. Attending were their four children and their families, and many relatives and friends from near and far. Conrad Ingraham and orchestra provided dancing

and listening music, along with some congratulatory messages throughout the evening. A humorous skit added much to the entertainment. A beautiful bouquet of red roses, candles, and a large decorated anniversary cake graced the head table. After the cutting of the cake, everyone joined in the singing of "For They Are Jolly Good Fellows" and everyone enjoyed some visiting and a beautiful lunch.

Congratulations Merlin and Phyllis! Jack and Jean McKin recently returned home from a holiday in Sparwood, B.C. with their son Fraser and his family. Bruce and Barbara Davis attended the wedding of their grandson, Gary Davis of Red Deer, and Nancy Veer of Vilna, which took place in Vilna on Saturday, October 4.

Hints for HOMEMAKERS

The eclectic approach to home decor—that is, the intermingling of various styles or periods of furnishings—is more popular than ever. The key to successful selection is to keep the same general feeling throughout the room. Mix formal style together with informal ones. And choose furnishings predominantly in the same scale.

A bountiful harvest was enjoyed by most area gardeners this season. While "rounding up" the produce, Eileen McIntosh couldn't resist the urge to "baize" this one and drive into town. The unique potato weighed 5 pounds 8 ounces.

Workshop To Help Retailers Understand Customers

Understanding the customer of the 1980's is a key element in any retailer's future - ask any customer. Values are changing; more working women have more money to spend; yet inflation is sharpening individual purchasing decisions.

The problem is one of the subjects to be tackled in a three-day intensive workshop on Management Skills for Retailers. The workshop runs November 8 through 10 at the Chateau Lacombe, Edmonton.

Sponsor is the Retail Council of Canada, the national trade association which speaks for, and works to solve the problems of, retailers from coast to coast.

"Management in any business environment is a learned skill and a profession," says Tony Andrijevich, who will lead the workshop. Management in retailing requires additional skills because it is the most people oriented of all businesses, and, and relationships between people are particularly complex. Retailers need operational skills for their

work, but they need people most of all - ask any customer.

The workshop covers all aspects of customer relations, service and satisfaction. In addition, the workshop includes sessions on merchandising, advertising, sales productivity, staff hiring, development and scheduling.

Registration fee for the workshop is \$450 for members of the Retail Council; \$600 for non-members. The three-day course has application for proprietors and senior managers of independent stores as well as for people in supervisory and management positions with chain stores, food companies and department stores.

THE HOME OF FINE BUILDING PRODUCTS

A Message From The Alberta Fire Commissioner

Fire!
If it broke out in your
home today, tonight, would
you know what to do? Would
your family?

Heroes are built on tales
of strength of love and body.

and daring dashes back into
flaming houses to save family
members. But far more
common are tales of tragedy
... of trapped victims and
the agony of horrified, help-
less bystanders.

Many tragedies could
have been prevented if
someone had known how to
react. Unless you've taken
the time to sit down and plan
what to do if fire strikes, you
or a member of your family
could become another Albe-
rtan statistic.

The basis for a fire escape
plan is simple - get out
fastest, even seconds
count. Here's how to formu-
late an escape plan.

Make a list of all possible
exits from your home, and
be sure that each bedroom
has two ways out.

Draw a floor plan of your
home, including all win-
dows, doors, and outdoor
features. It's important to
know if you can climb out on
a roof, or if a tree can be
reached from a window.

Indicate primary and
alternative exits from every
room on your floor plan.

Locate a fire alarm box
or neighbor's house for call-
ing the fire department.

Go over the entire plan
with every member of your
family.

Train every child in your
home to follow the plan.

Conduct a fire drill at
least once every six months.

As your family works out
and runs through its escape
routine, vary the drill by
calling out different hazards
and different sources. After
the drill, gather the family
to discuss what took place,
and how to improve perfor-

mance. Practice your plan
until it becomes a habit.
Then in a real fire, you
won't waste precious min-
utes trying to figure out how
you'll escape ... you'll already
know.

W.D. MacKay
Fire Commissioner

William D. MacKay
Alberta Fire Commissioner

A Message From Viking's Fire Chief

Fire Chief Bill Kamphuis reminds you that October 5 to 11 has been designated as Fire Prevention Week. During this particular time we become aware of one of the basic requirements of any community - the need of adequate equipment and trained fire fighters.

The Town of Viking has a single equipped unit avail-
able for use in combating "in town" fires as well as the use of the County owned fire truck. In the case of a rural fire, only the County owned vehicle is used. A new County truck was purchased in November of 1979.

The Viking Volunteer Fire Fighters have answered 33 calls since January of 1980. Of these, 6 were "in town" calls with one proving to be a false alarm. Nineteen calls were received from rural residents.

Although our firemen are volunteer workers, not employed to perform this service, the Town of Viking does provide a nominal payment of \$6 for each practice attended. Also a fee of \$10.00 per hour is allocated for time spent fire fighting with the Town of Viking providing funds for "in town" fires and the County of Beaver responsible, should the call be a rural one.

Although Viking is fortunate in having at least seven of their 14 members in attendance for most practices, this is not always the case when fire breaks out. A couple of the volunteers are employed outside of Viking during the week. Also, we must remember that these men are volunteers and cannot be expected to remain in Viking at all times in case of an emergency, which often leaves only two or three of the original team available at any given time.

The Viking Fire Chief would therefore like to see as many Viking residents as possible join the Viking Volunteer Fire Department, in order that enough trained men would be available even during the summer holiday season, or special holiday weekends. The fire department meets every Thursday evening during the summer, and every second Thursday evening during the winter months.

The fire department requests that individuals not burn their garbage, especially at this time of the year when people like to burn the garden material.

The department also requests the citizens of Viking to remain off the road when the siren is sounded, so that the fire men and vehicles will be able to go directly to the fire without dodging cars and human beings.

The fire department this year held a poster contest at school for grades 1 through 6, and the posters are displayed in the business area of the town. The winner of the poster contest will be given \$5 for first prize, and \$3 for second prize. The winner will be announced in next week's paper. At this time we would like to thank all the students who participated.

The Viking Firemen leave you with this thought: "Fire always happens to someone else. Remember to others, YOU are someone else."

Fire Prevention Week
October 5 - 11

• YOU can help prevent fires •

**Practice
Fire-Safe
Habits
All-Year**

**Fire
Prevention October 5 - 11
Week**

The citizens and the administrative staff of The Town of Viking wish to pay tribute to the members of the Viking Fire Department for the fine job they do in safe-guarding our town!

- Do not smoke in bed, or while watching TV when you are tired.
- Check appliances for proper & safe wiring.
- Keep matches out of reach of small children.
- Clean Up — remove rags, trash, papers, in & around the home.
- Pre-plan an easy escape exit from your home and know how to call your fire department.

STOP FIRES

Fire Is Deadly!

Careless, unthinking, haphazard habits can become a way of life that can be dangerous. Practice good fire-safe habits all year.

Fire Prevention Week is
October 5 - 11

We salute the members of
volunteer fire departments
everywhere for helping to make
our communities safer places to
live in!

Insurance Plays Dual Role On Fire Scene

The basic idea of an organized society sharing to offset a major loss suffered within the community goes back as far as ancient Babylon and Assyria.

There, officials were empowered to levy contributions for a common fund to

pay damages for calamities. Marine insurance (ships and cargo) was probably the earliest form of insurance.

The advent of modern fire insurance is considered an outgrowth of the 1686 Great Fire of London, which destroyed a major portion of the

city. This included more than 10,000 buildings and over 600 acres.

Prior to the Great Fire of London, fire victims had to depend upon the traditional system of collecting donations from neighbours, friends and other sympathetic community members to restore their losses. In most cases, this practice was satisfactory.

However, for London fire victims, the collections did not begin to compensate for the losses. From this experience the first fire insurance companies were formed. The idea soon spread to the American colonies, but early attempts to set up fire insurance companies failed.

Benjamin Franklin is credited with forming the first successful fire insurance

company in America. Established in 1752, the company is still in business today, operating under the name Mutual in Hazard.

Several other insurance companies followed closely in its footsteps, gradually building in numbers and popularity to the vast network and far-reaching coverage found today.

Since those early beginnings, fire insurance companies have played an important role in the fight for fire prevention. With their vested interest, they have had a hand in the development of fire standards and regulations, improvements in structural conditions, in increased safety in industrial processes, improvements in public fire protection, and the installation of built-in fire protection features and systems.

Fire And Your Unattended Child

How many times have you left a young child alone in your home? Just long enough to run next door to borrow an egg. To dash down the street to hunt up a crying or missing brother or sister. To take out the garbage and stop for a chat with a neighbour.

Many children who die or are burned in fires were left alone ... unattended. It takes only a short time for fire to destroy a home, and only minutes to destroy a child's life.

Unfortunately, fire is no respecter of age, time or intentions. It consumes the innocent and the helpless. It often strikes when you least expect it, and its initial

signal of smoke can kill before the alert brings out side help.

Being a parent in a big job is a 24-hour-a-day job. Arrangements for the support and help of a friend or neighbour for moments of need. Postpone the errand, or bundle up and take along your youngster if you must go out.

Even in another room, a preschooler is, at most, only partially attended. Remove all fire hazards. Clothing or hair burns quickly, by the time you're warned, your child may be seriously hurt.

Planning and precaution are keys to fire safety, but with small children vigilance is also critical.

GET IN
ON THE FIRE PREVENTION ACT

Don't Let Fire Take Your Babysitter By Surprise

Children are a most precious gift. Yet, as a parent you undoubtedly entrust their care to a babysitter from time to time.

It is most important that these temporary guardians know how to protect your children should a fire occur while they are in charge. A thorough briefing on fire

safety and emergencies should be a part of your routine information and instructions.

Of course, you'll be leaving phone numbers for the police and fire departments, the name, address and phone number of where you can be reached as well as those of your family doctor

and a helpful neighbour or two.

In addition, show a first-aid kit around the entire house or apartment. Clearly point out exits and stairways. Carefully explain the escape routes drawn up for your home and family. If the layout is at all complex or the children are young, have

a practice run of the escape plan.

Stress that if there is any reason to think the house is on fire, the children are to be taken out of the house immediately; not to bother about dressing if they are asleep, or costs if the weather is bad; to head for the nearest neighbour and call the fire department from there. Explain that the same precautions apply in case of a gas leak.

Double check on matches, lighters, candles, fireplace, space heaters and other sources of potential fire. Don't bank on your sitter to cover for your carelessness or forgetfulness.

Show the babysitter how to regulate heat, use the stove and operate any other appliances which may be required.

Ask the sitter to limit the number and length of phone calls, and to make hourly tours around the rooms to ensure that everything is OK.

And, do remember, smoke alarms are valuable allies in helping to protect your family and home against fire. Providing they are properly placed, tested and maintained, they may well make the difference between an orderly, safe escape or panic ... even no escape.

Fire is an awesome and relentless foe. Your children and babysitter need and deserve every advantage you can give. Take the time ... make the efforts. You may not get a second chance.

The Homemaker

By Maureen Bauman, District Home Economist

time had some interesting days - but none so busy as the few days by the women who model Alberta Women's week this year. Held at Okla-He, the theme of W.W. 30 was "Celebrate 7 years" many enjoyed the guest speakers such as: Dr.

reworked masterfully - you can feel it! and Yvonne McChug who gave tips on Looking Good and Feeling Good.

The ladies participated in learning sessions which varied from Gardening topics to Women and Investments to Drying Foods and much more. With such a wide variety of short courses they found a lot of helpful information and a lot of interesting things not often heard about at home.

There were lots of other things going on too, such as Heritage Night, Singing, Chapel Reflections, and a Childrens Program for the children. There was plenty

to do, yet Women's Week provided a break from the regular routine of home.

Many ladies had a good chance to meet a few of Alberta Agriculture's Home Economists and learn a bit about them and their jobs in evaluating Alberta Women's Week, many ladies said that they felt better about themselves and have new information to use in everyday living.

Alberta Agriculture hopes to provide women who attend Women's Week with information and stimulation to encourage the daily growth that life offers us. Can we hope to see you there next year?

Kinsella Recreation Board Meets

The Kinsella Culture and Recreation Association held this month's meeting on Wednesday evening, October 1st in the Kinsella School.

Among items discussed and decided upon was a masquerade dance to be held at the Kinsella Memorial Hall on October 31. Prizes will be offered for the best costumes.

A request was received from the senior citizen group to utilize one of the rooms in the school. It was decided to rent one of the rooms in the school to the senior citizen

group. The seniors plan to use the room for woodwork and crafts.

Linda Welsh was present at the meeting. Linda will be our Further Education representative from this district.

Anyone with ideas or requests for classes which they would like to have offered to our community are asked to give Linda a call at 338-8888.

Also discussed was the matter of rent for the use of the school for the homecoming weekend. The meeting adjourned on a smile.

VIKING NEEDS NEW ADMINISTRATION FOR THE 80's! WINSTON A. RUSHTON

IS CONCERNED!

With his experience and the realization of a much needed change at the local government level he is prepared to offer Viking:

- Progressive Minded Leadership.
- Personal dedication to the concerns and problems which exist in Viking today.
- An open minded approach for growth and development in the future.

★★★★★★★★★★★★★★★★

IT'S TIME TO MAKE THE RIGHT CHOICE
On October 15th, 1980

VOTE WINSTON A. RUSHTON

FOR MAYOR

Submitted by the Winston A. Rushton for Mayor Committee

Administrator Wins Scholarship

Christine Mackay, Village Administrator, has been successful in her application for an Ernest Newman memorial scholarship. Newman memorial scholarships are awarded to promote opportunities for professional continuing education among practicing Alberta administrators. It should be noted that scholarship selections are finalized with attention to those candidates whose meritorious performance and future promise differentiates them

from other applicants. In short, the award is made in recognition of merit as well as need.

To date, Mackay has taken courses in Accounting, Fundamentals and Local Government Accounting. Shortly she will be enrolling in Local Government Finance. Courses taken lead to a Certificate in Local Government and provide communities with qualified public servants.

Holden Prepares For Celebrations

The Village of Holden will hold their Alberta 75th Birthday celebrations during the weekend of October 18th and 19th.

Quite a number of interesting features and attractions have been scheduled for the celebration and include the Antique Car Show which is being held at the Holden Complex at 12:15 p.m. until 4:30 p.m. with free admission.

Highlight of the activities for the younger set will be the guest appearance of the Great Rock Bear at the Complex from 12 noon until 3:00 p.m. on Saturday.

A free children's movie will be shown at the Complex at 1:00 p.m. featuring as all time favorite - Walt Disney production. From 1:00 p.m. until 3:00 p.m. there will be an open house at the Senior Citizens' Drop-In Centre from 2:00 to 4:30 p.m.

An Anniversary Supper and Dance has been planned as well with supper commencing at 6:00 p.m. and dancing to the music of the Phoenixes following.

On Sunday, October 19th you are invited to worship at the church of your choice with regular service held at the Greek Catholic Church, Holden United Church, Holden Lutheran Church, Roman Catholic Church and the Evangelical Church.

An Anniversary Pancake Breakfast will be held between the hours of 10:30 a.m. and 12 noon. The breakfast is part of the anniversary celebration and there is no charge, so come on out and join your neighbors.

An interesting part of the ceremonies on Sunday will include the recognition of Holden and District residents who were born in the year 1905 or earlier.

A street repair project carried out by a crew from Camrose was completed Monday evening, prior to the first snow fall. The application of hot asphalt on the cold road surface developed the crew in time. The crew was working on 3rd Avenue in Viking. *Staff Photo*

Communities Get Anniversary Trees

A 75th Anniversary Tree Planting Beautification Project which encompassed communities right across the province has been completed by the Battle River Tourist Association.

All Battle River Tourist Association municipal members were invited to apply for a tree Shrublet Cherry Tree - the official Alberta 75th Anniversary tree.

Although Battle River Tourist Association had only a six hundred dollar budget for the entire program, through the co-operation of Battle Country Gardens, Camrose, Battle River Tourist Association was able to

purchase a 15 - 18 foot Shrublet Cherry Tree for each of the eighteen communities which replied to the invitation.

The trees, along with 350 two-foot pine and oak seedlings, donated from the Government Nurseries, were delivered and presented to the communities by Battle River Tourist Association President Robert Brown of Leduc, and Manager Sylvia Clemens of Camrose.

The trees were presented on a two-day, 1,400 km junket into the following communities: Bashaw, Breton, Chaviv, Consort, Carr, Dayland, Devon, Edgerton, Fernie, Hardisty, Holden, Leduc, New Sarepta, Sedgewick, Stettler, Strome, Viking and Warburg.

President Brown stated "It was a very worthwhile and lasting project, and the

communities which requested trees are to be highly complimented for the various park projects of which the Anniversary Trees will become a part."

The tree planting project was one of five 75th Anniversary Projects which Battle River Tourist Association, in conjunction with the Travel Industry Association of Alberta, carried out this summer.

Rural Rescue Service Introduced

The Rural Safety Committee of Alberta Safety Council is introducing a new program called "Rural Rescue Service".

The main objective of this program is to reduce the severity of injuries resulting from farm-related accidents, by providing rescue equipment to aid in the extraction of the victims.

This equipment may also play a major role in other rescue operations.

Municipalities have been invited to submit applications to the Alberta Safety Council for up to five pieces of rescue equipment.

A special committee will be reviewing each application and one important criterion for consideration will be the equipment which municipalities presently have available, including a rescue vehicle.

"It is intended that Rural Rescue Service, including transportation, will be provided as a free service to the public. The organizations selected will also be expected to promote additional education through public awareness programs," added Nov-Buff.

"It is intended that Rural Rescue Service, including transportation, will be provided as a free service to the public. The organizations selected will also be expected to promote additional education through public awareness programs," added Nov-Buff.

Rollerskating Weekend Planned

Friday, Saturday, and Sunday, October 10 to 12, will be a weekend of family fun for all those who are interested in coming out to enjoy rollerskating.

Evening sessions from 9 to 11 p.m. are for those of high school age and older. Other sessions are open to all ages. We look forward to seeing Home and Dad, grandparents and young couples, as well as children and teenagers.

One hundred and fifty pairs of skates of various sizes will be used. These are being rented from Camrose.

Progressive Social Services is sponsoring the rollerskating. The Viking Students Union is assisting with some of the organizing and volunteering.

This weekend will be a trial run. We are looking at the feasibility of having rollerskating running throughout the summer.

Hope to see you there!

Thursday, September 25th held the Irma School grounds set up for an old time threshing demonstration. A 1930 Red River Thresher owned by Eddie Jackson of Irma was in full operation. *J. Jackson Photo*

A Harvest Special

Another year has rolled around, harvest is pretty well completed in this area, and most area farmers are pleased with the fruits of their efforts. Yields have been very good in most areas, and the weather co-operated long enough during the harvest to allow for the greatest majority of the crop to be taken off. This harvest should be considered a 'bonanza'.

And speaking of 'bonanzas', this time of year also brings with it the Harvest Bonanza Ball sponsored by the Viking and District Agriculture Society. In terms of fund raising projects, this effort is of crucial importance to the foundations of many, many activities in Viking. Everything from wedding dances to music concerts to club banquets to meetings occur in the Community Hall. And sports and recreational activities from tennis to hockey to figure skating to roller skating occur in the Carina. Both of these structures are supported by the proceeds from this major undertaking.

This year's Harvest Bonanza Ball is the 3rd in what hopefully is a long series of such events. The original idea was devised so that patrons of Ag. Society events would not be ten or twenty dollars to death. Rather than asking for donations, or holding a number of smaller functions, in competition with the many other fund raising activities in the community, the Ag. Society decided to offer the people of the Viking area an evening of quality entertainment, as well as a good chance of winning a prize, for the money they were spending. Over the past two years, the vast majority of people who have attended the Harvest Bonanza have thoroughly enjoyed themselves and have felt

that it was money well spent in support of their community.

One of the sad things about the Ball is that quite often it is people from communities quite distant from Viking that purchase tickets for the event. They realize that it is a good deal for the dollar, even though they have no direct need to support the community. This is sad only in that many residents who can well afford to support their community by purchasing a ticket to the Ball refuse to do so. Every year ticket sellers hear "excuses" such as "I don't like the entertainment", or "I heard the food wasn't too good", or "I won't win the car anyway so why should I go", or cetera, et cetera, et cetera. And yet what most of them are really saying is that they simply don't want to support the operation of these two buildings in 'their' community. People who genuinely can't afford to attend the evening have a valid excuse for not attending. But there are many people in the community of Viking who have to search every year for an excuse which they feel is justifiable to their friends. This is perhaps due to a slightly guilty conscience.

The Harvest Bonanza Ball is "the" major fund-raising project which supports the operation of the buildings which provide a space for other fund-raising projects. We should all keep that in mind, for where would "our" pet fund-raising project be without the Hall? And where would a tremendous number of our youth spend their evenings and afternoons if it weren't for the Carina? And where would our Seniors play hockey, and provide us with many evenings of entertainment, if it weren't for the Carina? Think about it! Then buy a ticket!

Trucking Agreement Signed

An agreement which becomes effective in Alberta, on April 1, 1981 was recently signed. Alberta Transportation Minister Roy Kruger was among nine provincial transportation ministers who signed a commercial vehicle license reciprocity agreement in early October at the annual convention of the Road Transport Association of Canada.

Previously, provincial license fees for commercial carriers were based on weight of loads. Under the new agreement, license fees levied by participating provinces will be approximately based on the annual mileage of commercial vehicles within each jurisdiction.

This province system will eliminate duplication of some provincial license fees, thereby reducing carrier costs and making it easier for those from other provinces not participating in the reciprocity

Letter To The Editor

Dear Sir,

Local schoolchildren in grades one to nine will soon be taking part in the Read-a-lot, an innovative motivational program implemented by the Multiple Sclerosis Society of Canada. Local youngsters who participate will be joining students throughout the province and across Canada in this national program which has the enthusiastic cooperation of school superintendents, principals, teachers,

librarians, parents and the children themselves.

We would be most grateful for the support of the local students and all those interested in sponsoring their reading endeavors. Here's hoping that you can help us as we embark on this twin venture: helping to raise the reading levels of youth while fighting M.S. at the same time.

Sincerely,
Gayle Haring
Read-a-lot Coordinator

Weekly Police Report

The report received from the Viking R.C.M.P. Detachment reveals quite a number of serious charges and complaints over the past week.

A complaint of Theft of a Motor Vehicle has been received and is currently under police investigation. A report of a door being "shot out of season" was received. Upon investigation the complainant, the Detachment determined that the charge was unfounded. A complaint of Theft Under \$200.00 was received and is still under investigation.

Charges are pending in regard to a complaint received of the passing of a fraudulent cheque. A complaint of a Disturbance at the Elite Cafe was received and investigated. However, no charges were

An Edmonton man had his driver's license suspended for a period of twenty-four hours. A local resident was charged with Possession of Narcotics.

Two separate charges of illegal possession of alcohol were issued.

A Viking youth received a number of charges following an incident while occurring on main street, Viking on Saturday night. The charges included: Assault of a Peace Officer, Assault of a Peace Officer, Willful Damage, Impaired Driving; Refusing the Breathalyzer.

The local detachment also investigated four motor vehicle accidents. One sustained injuries while property damage was the result of the other three.

Also investigated was a complaint of Assault causing bodily harm. No charges will be laid in connection with the incident.

In addition to the above the detachment was called in regard to other minor incidents.

Senior Citizens Forum To Be Held

Monday, October 20 at the 55 and up age bracket.

1:30 p.m. a Forum to deal with issues for Senior Citizens will be held at the Viking Community Hall. The main focus will be to discuss the particular issues in Viking which are of concern to seniors. This will be held at the Viking Community Hall, Viking, Alberta.

There will be a number of topics discussed including: geriatric, service clubs and what are the needs; what services should be developed for seniors in Viking; many people out there need specific discussion on a ride, please contact the issues such as transportation, P.S.S. office at 336-4024.

Two speakers from the Senior Citizens Bureau, Mary Engelman and Earl Beck will be talking about pension issues and "what it could be like".

The Forum will be directed primarily towards Senior Citizens, but we include a special welcome to those in the community.

Reciprocity was approved in principle at the 1979 Council conference in Quebec City. The Canadian Conference of Motor Transport Administrators has worked towards establishing uniform procedures since then.

In Alberta the commercial carrier industry is regulated by the Motor Transport Board and the Motor Transport Association.

Prince Edward Island is the only province not participating in the reciprocity

agreement.

THE HOMEMAKER
By Maureen Bauman, District Home Economist

KEEP THE HEAT IN
Whether or not we want to admit it, cold weather is not far off. Now is a good time to "retrofit" your home.

Retrofitting means upgrading your home so warm air is kept inside and cold air left outside. This is done by adding insulation, weatherstripping, storm windows and some of our energy saving habits.

It is important to retrofit for several reasons. Saving on fuel bills is one of the most important. Buying materials to upgrade will cost, but is paid back through fuel savings.

Another reason to retrofit is, comfort. A well-insulated home is a comfortable home. Floors and walls are warmer and drafts are cut down. Finally retrofitting will help to reduce our valuable energy resources.

Where to start? Take a look at existing insulation in your home. The recommended level of insulation is as follows: ceiling - R20, walls - R12, fully exposed basement walls - R12, floors over unheated basements - R12. To achieve a value of R20, you would need 6 inches of fiberglass batt insulation or 4 inches of loose insulation.

Some types of housing construction may prevent you from achieving these levels. By going as far as you can, results will still be noticeable.

Applying weatherstripping and caulking around windows and doors will go a long way in cutting down drafts. When buying materials, such as caulking, look for a good quality product.

Old-Timers Show How It Was Done

As an added attraction to the Irma Homecoming celebration, Bob Thompson, Gerry Archibald and Eddie Jackson planned to put on an old time threshing demonstration on Monday, August 4. However, on account of the inclement weather, the demonstration had to be cancelled for the time being.

However, due to inquiries and requests from many quarters, a decision was made to put on the demonstration on the Irma School grounds on Thursday, September 25, for the benefit of students, teachers and other interested parties.

So, at lunch time that day, with advice and some

aid from old old timers, the outfit was set up. The outfit consisted of the old Red River thresher of 1900 that which is owned by Eddie Jackson and the McCormick-Dewar 16-30 tractor owned by Gary Archibald (purchased in 1906 by Gary's dad, the late Charlie Archibald). The Jag

of out-bushes were donated by Ben Adams. Two old timers, who indicated that they both had the thresh on fork handles back in 1900 many years ago, Bob Dempsey and Jim Jackson, insisted on forcing the handles into the feeder. They go so carried away, by the presence of so many interested spectators, teachers, students, and others, that they slugged the unfortunate machine.

While the machine was being unplugged, the two Irishmen explained to the curious spectators that this was the way they did it. The threshers could get a few minutes of a breathing spell in the old days when they first pitched bundles at Sedgewick 65 years ago. The straw was blown into a big truck with stock racks on, and the oats went into an old wagon box mounted on an old high wheeled wagon. A unique event indeed!

J. Jackson

Bob Dempsey (left) and Jim Jackson fork bundles into the vintage equipment during a harvest demonstration at Irma.

Irma New Horizons Hold Monthly Meeting

The regular monthly business meeting of the Irma Horizons Club was held in the Drop-In Centre on Wednesday, October 1. The meeting was called to order at 2 p.m. The minutes

of the previous meeting were read and approved. Correspondence was dealt with and the Treasurer's report was given, accepted and filed.

There was a discussion

regarding inviting other clubs to visit ours. The Secretary was authorized to write and invite the Manville and Kinross clubs to visit the Irma club at certain dates.

A few other items of business were discussed and decided.

The business meeting was adjourned, after which four tables played whist, one table played scrabble, and others played crib.

Winners for whist were: Mer's high score - Harry Riley, low - George Foreman. Ladies high - Agnes Larson, low - Mildred Smith. Ashley Murray won the prize for scrabble. Lunch was then served and socializing was enjoyed.

Irma Village Council Meets

The Council of the Village of Irma met in regular session at the Irma Village Office on Monday, October 6, 1980.

Present were Councilors Dempsey, Jackson, Larson and Littlewood. Also present was administrator D.D. Cooney.

Mayor Larson presiding called the meeting to order at the hour of 7:00 p.m. It was moved that the minutes from the September 2, 1980 regular meeting be accepted as circulated. Carried.

Moved that the accounts for the month of September be presented by approved for payment. Carried. Moved that the month and cash statement be accepted. Carried.

Moved that correspondence from the Minburn Valley Health Unit relating to water samples be received and filed. Carried.

Moved that correspondence from the County of Flagstaff No. 29 relative to

its 1980 Alberta 75th Anniversary Plan be received and filed. Carried.

Moved that correspondence from Advanced Education and Manpower relative to a Technology and Trade Institute in the City of Regina be received and filed. Carried.

Moved that correspondence from the Board of Health be received and filed. Carried.

Moved that correspondence from D.A.S.T. relative to the housing for handicapped be received and filed. Carried.

Correspondence was received from Alberta Planning relative to its Annual Conference. Moved that no action be taken in this regard. Carried.

Moved that the monthly newsletter from Battle River Tourist Association be received and filed. Carried.

Correspondence was received from Municipal Affairs advising that a general assessment of the village will be

undertaken in the year 1981 for assessment and taxation purposes in the year 1982, as required by Council. Moved that this correspondence be received and filed. Carried.

Correspondence was received from Walnwright School Division relating to the Board of Health be received and filed. Carried.

Moved that this matter be taken until the next regular Council meeting. Carried.

Correspondence was received from the Canadian National Railways acknowledging Council's claim for expenses incurred in controlling fires which originated along its right-of-way. Moved that this correspondence be filed for future reference. Carried.

Correspondence was received from the Irma and District Chamber of Commerce relative to the A.I.M.A. Annual Convention be held until after October 15, 1980. Carried.

A discussion ensued relative to the organization of Crime Watch within the Village to co-operate with the R.C.M.P. especially in the area of traffic control. Moved that this matter be tabled until the next regular meeting of Council. Carried.

The foregoing concludes business before Council and the meeting was moved adjourned. Carried.

Echo Rodino News

Mr. and Mrs. Glen McAllister and daughter Tanya of Lloydminster were weekend guests at Mr. and Mrs. Tom Greenwood's.

Wayne Welch and sons Lucien and Justin accompanied by Doug White of White-water were visiting the Bruce Greenwood farm.

Mr. and Mrs. Dave Manington and family of Calgary spent the weekend of a family gathering at the home of Mr. and Mrs. Norbert Bauer and family, Mr. and Mrs. Fred Bauer, Mr. and Mrs. Marshall Miskew, all of Viking, and Mrs. Diane Bjerkman of Wilton dropped in.

Weekend guests at the Mackowski farm were Mr. and Mrs. Larry Ferguson of Edmonton and Mr. and Mrs. Jim Lewis and family of Irma.

The administrative committee has advised that a lease agreement be presented to the Village and the curling club is required by the various agencies in order to present grant applications. A lease agreement for a site west of the arena, on the Fairgrounds was presented for approval. Moved that the lease agreement be presented to the Village and be approved and executed under the Village Seal. Carried unanimously.

Moved that the statement as presented setting out in detail the 1980 street program be accepted and filed. Carried unanimously.

The Administrator advised that various complaints have been received of gas line fumes from the sanitary sewer system. An investigation was carried out by the Department of the Environment. However, no definite solution as to the origin of the problem was made. The problem persists and the department has been contacted and asked to investigate the matter further. This matter will be presented and the necessary

action taken to correct the problem.

It was moved that the stock piling of mud and soil for sanding streets during the winter months be postponed. Carried unanimously.

A discussion ensued relative to both water sales and it was agreed that both water sales should be drawn from the same source as a means of helping to maintain a circulation and maintain a low bacteria count. Moved that the rate for both water sales be revised to 2 cents per gallon, with a minimum charge of \$15.00. Carried unanimously.

It was moved that building permit applications by R. Dempsey, Lot 4, Block 21, Plan 1460 M.C. be approved subject to the requirements as set out in the Building Code. Carried.

Mini-bulk goes metric-but the savings are still as great!

Now in 900 kg size

You want to take advantage of POOL's fertilizer savings, but you don't have bulk storage facilities. Your problems solved with POOL's mini-bulk fertilizer! 900 kg mini-bulk bags are easy to store in your gunmetal c-machine shed and can even be stored outside under a specially supplied cover - there's no fear of contamination. Mini-bulk can save you time. Too! You only have one bag to handle and it's easy to move with a front end loader.

Mini-bulk fertilizer is available

Growing better together

POOL's mini-bulk fertilizer - an easy way to save, an easy way to fertilize.

The minimum retail price of a litre was increased by 8 cents a litre since January 1, 1980. Of this total increase 6 cents has gone to the dairy farmer and 2 cents to processor/distributor to meet increased cost of production.

The rising cost of energy is regularly pushing up the price of fertilizer. So talk to your POOL Manager soon about how you can save on next year's total fertilizer requirements by purchasing now before prices rise again.

POOL's mini-bulk fertilizer - an easy way to save, an easy way to fertilize.

The minimum retail price of a litre was increased by 8 cents a litre since January 1, 1980. Of this total increase 6 cents has gone to the dairy farmer and 2 cents to processor/distributor to meet increased cost of production.

Nature adds a little humor to the tedious task of digging potatoes. The "oddy" shown above was grown by Mrs. Anne Pyke of Viking.

New Initiatives For PSS Discussed

New initiatives for Preventive Social Services (PSS) were discussed at a meeting recently in Edmonton by Bob Bogle, Minister of Social Services and Community Health, and representatives of Local Preventive Social Services Boards from across the province.

At the meeting the minister announced that an additional \$1 per capita would be available to all municipalities participating in Preventive Social Services for the last six months of the present fiscal year. The principle of the present 80 per cent/Municipal cost sharing arrangement, which was affirmed by all three review committees on Preventive Social Services, will be adhered to, said Mr. Bogle.

The Minister further announced decentralization of the decision making process, allowing Municipalities to access funding quickly and

with a minimum of red tape. The guidelines to be followed by the municipalities are:

1. That the funding be available for projects and not administration, and
2. That priority be given to volunteer group projects or municipally operated budgets.

Mr. Bogle first announced a major review of Preventive Social Services Programs at the annual meeting of the Provincial Preventive Social Services Association in Red Deer on October 26, 1979. On February 1, 1980 the M.L.A. committee, community committee and departmental committee were appointed to independently review the history of the program, current practices and make recommendations for the future. The three committee reports were completed and given to the Minister by July 1 of this year. They were made public at that time and the Provincial Preventive Social Services Association has made its recommendations.

The Minister said, "The long-term initiatives will be

financed and announced by February 1, 1981.

From The Ground Up

District Agriculturalist
Bill Bruce & Jerome Manchur

will stop the flow of salts to the soil and salts to a discharge area.

Great clover - a deep-rooted, biennial and the most salt tolerant of the legumes.

Sainfoin - a deep-rooted, non-bloating legume that does well in the more sandy soils of southern Alberta.

Parialand Alfalfa - a deep-rooted, long-lived perennial wild prairie plant that does an excellent job of using excess water. It is also quite salt tolerant.

Thin Wheatgrass - probably the most salt-tolerant forage crop available - long-lived, easily established and can stand up to three weeks of flooding.

Slender Wheatgrass - approaches tall wheatgrass in salt tolerance but is less palatable to cattle than tall wheatgrass. However, because it is not as deep-rooted as tall wheatgrass, it is not as effective in using water that is moving to discharge areas. It can stand flooding for four to five weeks.

The above forages are also recommended for seedling areas where there have been saline, providing that the salts have not accumulated to high, draining or flooding the soil with water may be the answer. Since the incorporation of organic matter like manure increases the water holding capacity of soil, it will dilute the salt concentration.

Hereford Testing To Aid Cattlemen

The Alberta Hereford Association is sponsoring an innovative sire group test at Bassano to measure genetic traits which are valuable to the commercial industry.

This new program will be an extension of the Association's Sire Evaluation Program.

The bulls will be fed in pens of 20 on a corn-basedilage ration. Next April, a sale of the better-indexed bulls will be held. Bassano seedstock and commercial cattle producers will have an opportunity to purchase superior bloodlines based on this test.

Dr. Zane Block, a key organizer, says, "We are going to test sire progeny groups of five bulls each, from sires enrolled on the Sire Evaluation Program and other leading Hereford sires within the industry. The testing of growth traits in 24 sire groups will start on October 22 and continue for 140 days."

In addition, the steer progeny from the Alberta Sire

"The purpose of the program is to identify sire lines within the Hereford breed that will benefit the commercial cattleman," says Doug Fraser, co-ordinator.

"Bassano has been selected as the site because of its proximity to the commercial cattle industry."

The new test facility is owned by Prairie Feeders (Bassano) Ltd., a new company specializing in feeding services. It is owned and operated by Dr. Ed Moss of Bassano.

NOTICE

Due to the fact Halloween falls on Friday, October 31st, the Viking I.G.A. will be open until 9:00 p.m. Thursday evening October 30th and will close at 8:00 p.m. on Friday the 31st.

Some of the activities that went on at the Viking High School initiation was the Wagon Pulling Contest. This is just one of many that were put on.

Canada Career Week In Alberta

Options are a wonderful thing. Today, there are over 20,000 ways to make a living. A variety of innovative programs create new work opportunities for women, minorities, and the handicapped. New work patterns make it possible for men and women to have meaningful involvement in both home and work. Leisure time can be of vital concern and choices must be made from among the many available options.

The Ministers of Alberta Labour, Alberta Advanced Education and Manpower, and Alberta Education recognize and endorse the importance of providing career planning assistance to students in the province's educational institutions.

Career education strives to help students understand the options available to them in the training provided by schools, colleges, universities, business, industry, armed forces, etc., and select personally satisfying choices from these many options.

Schools throughout the province will celebrate Canada Career Week November 2 to November 8, 1980. The purpose of Canada Career Week is to focus public attention on the career education activities which are an integral part of the educational experience throughout the year.

A variety of activities will take place on schools and will involve students and teachers at the elementary, secondary and post-secondary levels as well as parents, community agencies and service clubs.

Canada Career Week was initiated and is jointly sponsored nationally by the Canadian Guidance and Counselling Association and the University and College Placement Association in Alberta. Canada Career Week is sponsored by the Alberta Teachers' Association Guidance Council, Advanced Education and Manpower, Alberta Education, the Society for Promotion and Advancement of Career Education (SPACE) and Post Secondary Institutions.

Large Crowds Enjoy Rollerskating Weekend

An overwhelming success! That's the only way to describe the weekend of rollerskating which occurred this past weekend at the Viking Carara.

Organized and operated by the Viking P.S.S. in conjunction with the Viking High School Students' Union, the rollerskating weekend proved entertaining for a large number of people of all ages during the three days it was in operation.

The weekend of rollerskating was divided into seven sessions, 7 to 9 and 9 to 11 on Friday evening, 1 to 3, 3 to 5, 5 to 9, and 9 to 11 on Saturday, and 1 to 4 on Sunday afternoon. The early sessions were for all age groups while the late evening sessions were reserved for people of high school age and over.

The weekend began with Bill Groux and Dale Stevens picking up the 180 pairs of rollerskates which had been rented from the Camrose Recreation Complex.

The Viking High School Students' Union took on the responsibility of running the skates bar for the weekend with all profits going to the operation of the Carara. A number of the Students' Council, Kevin Stephenson, was in charge of the music for the skating sessions. He was aided in this task by a number of other students, many of whom brought their own tapes and records to be played on the sound system loaned by Dale Stevens.

Many, many volunteers, both adults and teens, were involved in different aspects of the weekend, from selling tickets to handing out skates to supervising and cleaning the skates to general supervision and cleanup. They all worked hard to make the weekend a success.

Many spectators spent time watching the large groups trying their hand at this recreational activity - and many of these spectators ended up trying it for themselves, with not too many bumps and bruises.

Throughout the weekend, the rules set up for the rollerskating were well adhered to and there were no discipline problems.

For all of the sessions, line-ups started well ahead of the appointed starting time, often an hour before. During the seven sessions, the 180 pairs of skates were rented a total of 1082 times. Many people were there for one or more sessions, with some being at all seven sessions.

Sunday afternoon saw some skates rented to 8 or 9 different people over the 8 hour period, as some people tried their hand at the activity, then returned the skates so that others could use them. Over 180 pairs of skates were on the surface on Sunday afternoon. Most people during the weekend were well accommodated by the organizers, with there being only a very few people who could not be fitted for skates during a particular session. Most of these people returned and were fitted at a later session.

Deborah Taylor, P.S.S. Director, expressed her appreciation to the Students' Union for their participation in the weekend and for the help she thanks to the Camrose Management Board for the loan of the skates.

Club and all the individual volunteers. She said that such a successful weekend could not be organized without the considerable time and effort put in by dedicated volunteers who expressed her appreciation to Viking Revestates and Sunny Days-Sun for donating the rug ends used to gain access to the skating surface.

Suggestions have already been received that more rollerskating weekends be held next spring and summer. With the success of this past weekend, this seems like a definite possibility.

Most County Incumbents Returned

All but one of the incumbent County councillors involved in the last week's election were returned to office. Only Charlie Sears, representing Division 7 in the last County Council, was not re-elected.

In Division 1, incumbent Hjordis Armagide defeated challenger Rusty McLean. Mrs. Armagide received 194 votes while Mr. McLean polled 117.

With incumbent Walter Kropielnicki not seeking re-election, Division 4 was up for grabs. Victor Romanuk received 57 and Mr. Grinde 58.

In Division 6, Eugene Dawaski once again received the nod from the voters. Mr. Dawaski defeated George Neil in a close race by a vote count of 110 to 100.

In Division 8, George Knudsen, present Beaver of the County of Beaver, defeated Ole Phillips by 18 votes. Mr. Knudsen got 102 votes while Mr. Phillips received 88.

As mentioned earlier, incumbent Charlie Sears went down to defeat in Division 7. John Warner defeated both Mr. Sears and Harold Ray in the Division 7 seat. Mr. Warner received 110 votes to Mr. Sears' 81 and Mr. Ray's 66.

With the acclamation of the Division 2 and Division 3 candidates following the September 17th nomination day, the County of Beaver Council will consist of Hjordis Armagide from Division 1, Gordon Holmes from Division 2, Victor Romanuk from Division 4, Eugene Dawaski from Division 6, George Knudsen from Division 8, and John Warner from Division 7.

Two In, Two Out In Irma

With eight candidates in the running for five Irma Council seats, and all five incumbents in the race, the election held last Wednesday had to be interesting. And interesting it was.

Three of the five incumbents were returned to office, while two of the incumbents went down to defeat. Incumbents Richard Larson, Walter Littlewood, and Don Dempsey were re-elected to the Council for another three year term. Joining them will be new-comeers Doug Coffin and Barbara Preland. Mr. Coffin and Mrs. Preland will be replacing Arthur Jackson and Harold Barber, the two incumbents who were defeated last Wednesday.

Also defeated in the election was John Smallwood. Richard Larson topped the polls with 145 votes, followed by Doug Coffin with 144. The two other incumbents followed closely with Walter Littlewood getting 107 votes and Don Dempsey picking up 106.

The final elected council, Barbara Preland, received 101 votes.

Arthur Jackson was next in total vote with 71, followed by John Smallwood with 68.

The new Irma Council will be meeting before October 29 so that they can elect a Mayor and determine committee responsibilities.

In the Watnwright School Division races in Subdivisions 1 and 2 around Irma, one incumbent was re-elected while one incumbent was defeated.

In Subdivision 1, incumbent Donald Lohman defeated challenger Joseph Holt by a vote count of 149 to 68. In Subdivision 2, Pauline courted incumbent J.C. Barber by 180 votes to 121 votes.

Other candidates elected to the Watnwright School Division on October 18th were Terry Murray in Subdivision 3 and Patricia Manson and Helen Middleton in Subdivision 6.

Rushton New Viking Mayor

Will Rushton has been elected as the new mayor of Viking in the municipal election held last Wednesday. Mr. Rushton defeated Councillor Bill Taylor for the office.

This was Mr. Rushton's second attempt to capture the top municipal position in Viking. He won by a 119 vote margin as Mr. Taylor gained 81.

In the race for Town Councillor, all three incumbent councillors, Bob Evans, Maurice Stephens, and Ken Midbo were re-elected. Joining these three on the Council for the next year will be new-comeers Peter Cumming, George Ritchie, and Jenette Birt.

In the vote count, Maurice Stephens led all candidates with 404 votes, followed by Ken Midbo with 402. Next was Peter Cumming with 380, then incumbent Bob Evans with 378.

George Ritchie received the votes of 378 Viking voters. He was followed by Maurice Stephens with 370 votes, and Ken Midbo with 368 votes.

The new Viking Council will be meeting on October 29th for its initial organizational meeting.

NOTICE
Due to the fact Halloween falls on Friday, October 31st, the Viking I.G.A. will be open until 9:00 p.m. Thursday evening October 30th and will close at 6:00 p.m. on Friday the 31st.

One of the biggest problems in reading instruction today, is finding ways to motivate students to read. Reasons for reading that students consider interesting and worthwhile.

M.S. Read-A-Thon - A Good Motivator

A fund raising program developed by the Multiple Sclerosis Society has proven itself to be an answer. Last year in Alberta, 70 Years of Education approved the program and saw over 20,000 students participating. School children read 98,485 books and raised over

\$115,000.00 for Multiple Sclerosis research. During an M.S. Read-A-Thon, children in grades one through nine who wish to participate, commit themselves to reading library books at or above their present level of reading, for a period of one month. From family and close friends, children recruit sponsors who pledge a certain amount of money to the M.S. Society for each book read. Books are verified by parents or teachers. When the Read-A-Thon is over, children collect pledges and the money is turned over to Multiple Sclerosis.

A random prize draw is held awarding prizes to the children who complete the program. Among the advantages of Read-A-Thon as a fund-raising activity are the following:

- the program stimulates interest in and encourages reading
- children can take part at their own level - younger children read picture books, older children more difficult material
- children who are learning disabled, emotionally disturbed, physically handicapped, or even blind can participate - something they can do in a walk-a-thon or bike-a-thon

Youngsters are urged to "read for the needs of others" by well known personalities including Buck Rogers (Gil Grissell), William Shatner of Star Trek, Wayne Gretzky, Guy Lafleur and many others.

Looking Back ...

Bruce News

The regular monthly meeting of the Bruce Senior Citizens' Club was held on October 15. The eleven members present decided to hold what drives on Wednesday evenings at 8:00 p.m. The first one will be held on Wednesday, October 22, and members would be pleased to see you there to support them.

Welcome to Bea and Robert McMoran who last weekend moved to the former Stelmach farm just southwest of Bruce. The McMorans are not strangers, for they farmed for a few years northeast of Bruce where Morris Erickson now lives.

Isabelle and Marlin Lund spent the Thanksgiving weekend at Red Deer with their son Arnold and his family. Evelyn and Harold Hest moved last week to their new home on an acreage in the Ardrossan area. Both Evelyn and Harold will be missed as they were always willing to help with community activities and were active members of Immanuel Lutheran Church.

Attendance at the Thanksgiving Turkey Bingo on Wednesday night, October 15, was somewhat smaller than usual, probably because of the good weather. Members of the Family Club held a bake sale prior to the Bingo and sold coffee during the evening. Following is a list of the winners:

Lillian Siegel - Bruce, Jessie Cwhula - Holden, Wanda Chomik - Viking, Albert Whitford - Viking, Marilyn Shykora - Holden, Mary Hammermaster - Bruce, Cathy Gabelhaus - Holden, Rose Foral - Viking, Frances Laakso - Holden, Vernon Pratt - Bruce, Elsie Simonsen - Viking, Myrna Curtis - Bruce, Dennis Coyle - Holden, Robert Stevens - Viking and Margaret Christensen - Holden.

The door prize was won by Rodney Tacey and the mini-bonanza was split three ways. Rita Lovig - Irma, Anne Sather - Holden and Gladys Kadatz - Bruce, shared the prize money.

The Bruce Agricultural Society would like to thank all those who attended.

The period of 1919-1920 is strongly embedded in the memory of many seniors: a severe feed shortage caused havoc in the area. The above photo shows teams lined up from the C.N. Station as far back as the hospital area, waiting for feed to arrive by rail car.

Bruce Holds Successful Reunion

Following Dr. Kulha's interesting address, Melvin Michas from the class of '32, proposed a toast to the teachers. Stuart Iverson, principal, Waterwright School, responded to the toast. Iverson recalled his arrival in Bruce on September 1, 1907 to teach grade 8, and spoke of his warm association with the students of the Bruce School. He was given a standing ovation at the conclusion of his speech.

The reunion began on Saturday afternoon with a tour of the school and light refreshments. Dr. John Kulha was an impressive display of information, pictures, trophies, etc., much of which has been donated to the Bruce Agricultural Society.

At 6:30 guests gathered for a cocktail hour which preceded the turkey and ham supper served by a group of ladies from the Bruce Agricultural Society.

Rudolph Mantz, a member of the 1960 graduating class, said guests were served the table was presided over by master of ceremonies Ben Lutz who did his usual excellent job. Dwellings from the community were extended by Hank Flak, president of the Bruce Agricultural Society, who was also a bus driver for a number of years.

Dr. John Kulha, Director of School Buildings Administration for the Province of Alberta, who served as principal of the Bruce School from 1968 until 1980, spoke to the gathering. Dr. Kulha touched briefly on Alberta's history and gave also a short history of the Bruce School.

In the 1920's the school had only two rooms: dormitory and a dance hall. In the 1980's the school once again sports a dance hall; thus we have come the full circle. Dr. Kulha related a few facts about the 1900's to his class. A former Bruce High School graduate Milton McGinnis, a retired teacher who is at present doing some work for his department. He had also collected some copies of "The Echo", the school newspaper put out in the 1940's while Mr. J.R. Hemphill was principal.

Schmidt Heads Holden Beef

Sharon Schmidt was elected President of the Holden 4-H Beef Club at their organizational meeting held on October 15 at the Holden School.

First on the agenda for the meeting was any old business. After the minutes of the previous meeting and treasurer's report, Mr. Don Hultsheim announced the winners for the best record books.

The winners are as follows: Senior Division - Kevin Dewar, first; Michael Lutz, second. Junior Division - Cheryl Giebelhaus, first; Dale Lutz, second.

New Manager For Holden Arts Centre

Barry Walker of Barhood is expected to sign a contract in the near future as manager of the Holden Regional Arts Centre. Barry attended the University of Lethbridge for 3 years. He will receive a Bachelor of Arts Degree from the U. of L. next spring. He also attended the University of Alberta for 8 years taking courses in Management. Barry visited Holden recently on several occasions, looking for living quarters and viewing the Arts Centre. Barry has stated that the Holden Arts Centre is one of the finest around. He also has many suggestions and ideas for the Arts Centre and is looking forward to starting his new position here.

Mrs. Helen Laue has been in the Viking Hospital for the past week. Mrs. Laue's family from Calgary and Edmonton have been visiting her in hospital, as well as her family and friends from Holden.

Holden's 77th Anniversary Celebrations held last weekend were a great success. Some 600 people attended the supper on Saturday night. Many people view the antique car show and the movie for the children. Barry's celebrations ended with a dance. Sunday celebrations were also a great success. The day began with regular church services in all Holden churches. An Anniversary Pancake breakfast was then served, complete with corn, ham, and sausage. The 77th Anniversary concluded with a community service in recognition of Holden and District residents born in 1903 or earlier.

Services Held For Gail Gustafson

Gail Gustafson was born on August 4, 1902 to Albert and Hannah Gustafson who had immigrated to the West from Sweden. She was the youngest of five children.

Gail was united in marriage to Archie Gustafson on May 30, 1922. To this union four children were born: Mabel, Hannah, Edward and George. Gail spent her early life enjoying her family and working on the farm.

She moved to her farm north of Viking in 1940 and in 1961 moved into her dream home in Viking where she resided until her death in 1970 and 1976 and since then has spent nearly five years in Parkland Nursing Home.

Gail was active in the Quinze Women's Institute and in the Lutheran Church for a number of years. She took great pride in making many quilts and doing much needlework. She will be sadly missed by her loving family and friends.

Gail Gustafson died on October 8, 9:30 A.M. 1980, in the Viking Hospital, after a lengthy illness.

She leaves to mourn her passing: Mabel Sarasin, with three sons and their families (Bryan and Bryan Jr.; Rod and his family; Cheryl, Ray and his family); Edward and Dorcas with two sons (Robert and Rodney) and four step children (Betty Jane, Ellen, and Susan, all married, and Terri at home); George and Dorcas of Drayton Valley with two married daughters (Doris Ann Stuk, her husband...

She has two surviving children with their families and grandchildren and great grandchildren. Little Ray, the oldest child, died in infancy. There are numerous nieces and nephews and great nieces and nephews in the United States.

Funeral services will be held in the Kinsella United Church with Rev. J.E. Bennett officiating. Pallbearers were: Les Petras, John Heslop, Walter Garvie, Fred Johnston, John Daugherty and Wayne Lyngard. Honorary Pallbearers were: Ed Evans, Jack McKie, Del Anderson, Pete Moller, Bill Johnston, and Camille Garvie.

He was laid to rest in the Gode's Acre Cemetery on October 10, 1980. Rosang's Funeral Service was in charge of arrangements.

Unique Communications Service Available In 1981

A unique communications service is scheduled to be available throughout Alberta by early 1981.

The overall plan is to provide telephone service to and from aircraft flying anywhere in the province, announced Honorable Dr. Neil Webber, Associate Minister of Telephones.

"Alberta will be the first province in Canada to have total air-to-ground mobile telephone communications," said Dr. Webber. AGT is introduced this service one year ago in approximately half the province.

The meeting was opened with the W.I. crowd. The secretary and treasurer then gave their reports.

The September visiting committee which consisted of members Angela Johnston and Mary Leck, gave their report. The members who are on our visiting committee for the month of October, are Edna Maass-towski and Harriet Newby.

There were two birthday box draws. The winners were Lois Crouse for the first draw and Lili Evans for the second draw.

Adjustment was moved by Betty Denant. The evening was concluded with coffee and lunch.

The September visiting committee which consisted of members Angela Johnston and Mary Leck, gave their report. The members who are on our visiting committee for the month of October, are Edna Maass-towski and Harriet Newby.

AN IMPORTANT REMINDER

TO ALBERTA CORPORATIONS REGARDING THE NEW ALBERTA CORPORATE INCOME TAX ACT

HAS YOUR COMPANY SENT BACK ITS INFORMATION RETURN?

In September, each corporation registered with Alberta Consumer and Corporate Affairs Companies Branch was mailed information on the new provincial corporate income tax system, including an "Alberta Corporate Income Tax Information Return" (Form AT-7).

The completion and prompt return of this form is needed to facilitate the smooth transition of corporations to the new provincial system, which takes effect next January.

If your company's "Information Return" has not yet arrived, or if you need help in completing it, please contact Alberta Treasury as soon as possible at the address of telephone number below.

Please direct all enquiries to:

Card of Thanks

I'd like to thank all my friends and family for the letters, cards, gifts, and flowers I received while a patient in the hospital. I have felt for some time that women should have a voice and our town council, so will endeavor to justify your trust. Thank you again. Jeanie Bird 37c

Old Age Security Payments Rise

Increases in the Old Age Security pension, Guaranteed Income Supplement and Spouse's Allowance, were announced recently by the Minister of National Health and Welfare, Monique Bégin.

The basic Old Age Security pension will rise to \$106.55 from the present \$101.25.

The maximum Guaranteed Income Supplement for a single person, or a married person whose spouse is not a pensioner and is not receiving a Spouse's Allowance, will increase to \$197.60 from its current \$192.00. Added to the basic pension, this gives a person receiving both the OAS and the maximum GIS a monthly total of \$304.15.

The maximum Guaranteed Income Supplement for

a married couple, both pensioners, will increase to \$192.36 each from \$188.07. Added to the basic pension, this will give each married pensioner receiving the maximum GIS a total of \$349.19, or \$698.38 for the couple.

The Guaranteed Income Supplement is paid to pensioners whose income, apart from the Old Age Security pension, is limited. The amount of the supplement varies in relation to income.

The maximum Spouse's Allowance will increase to \$49.19 from \$39.85. The maximum Spouse's Allowance is made up of an amount equivalent to the basic Old Age Security pension and the maximum GIS at the married rate and is paid to persons between 60 and 65 years of age who are married to OAS pensioners

and meet residence requirements. Entitlement to a Spouse's Allowance, and the amount paid, is based on yearly income.

Where the pensioner spouse dies the surviving spouse may be eligible for the continuation of the allowance to age 65 or remarriage if that person has no income or a limited amount of income.

Increases in Old Age Security pension and Guaranteed Income Supplement payments are calculated quarterly based on the cost of living.

Committee Formed To Study Vertebrate Pests

A new expert committee has been formed to study the problem of bird and animal damage to agricultural crops.

Crop losses to vertebrate pests, such as the red-wing blackbird, can be extensive

every year. And controlling them can be more difficult than dealing with insects and weeds.

The committee, made up of representatives from both agriculture and wildlife services, will look for effective ways to reduce the damage.

Recreation Board Review Park Plan

The Viking Recreation Board would like to remind you that photography, social dance and Ukrainian cooking courses will be offered in Viking. Anyone who is interested in these or has ideas for other courses please contact Phyllis Leford at 386-2297.

To register for the ladies jax exercise course which will be held Monday afternoons, starting this month, see Georgia Nordstrom at 386-2154 as soon as possible.

A ladies volleyball team is needed for Viking. This will be for competitive play only and requires travelling to other towns. Please Phyllis Leford at 386-2297 if interested.

A coaches congress will be held in Edmonton on November 28, 29, and 30th for both new and experienced coaches. The theory session will cover teaching methods

and skill acquisition, psychological skill training, sport delivery systems, etc. for the following sports: basketball, badminton, hockey, baseball, soccer, track and field and cross country skiing.

A \$50.00 travel incentive will be provided for those outside of Edmonton. For further details on this congress or if interested in coaching any of the sports mentioned above, contact Vern Hefco at 386-4778.

Preliminary drawings of the Viking Recreation Board Park Plan have been looked over by the Recreation Board and the final draft will be out in the near future. A red jacket and purse have been found in the Recreation Office, adjacent to the Fire Hall. The owner may claim these by phoning Shelia Thomas at 386-4871 and describing the contents of the purse.

Safety Council Hopes For Safe Halloween

"Halloween will be a highlight on every child's list of activities, and a safe one too, if parents plan and assist their child's activity with safety as well as fun in mind," proclaims the Alberta Safety Council.

1. Use make-up rather than masks on your child to permit clear visibility.

2. Insure that your child stays within your own neighbourhood.

3. Caution children to visit only houses that are well lighted on the outside. Avoid darkened houses.

4. Suggest children walk in small groups.

5. Keep your own walks and steps free of obstacles to prevent tripping and falls.

6. For the child who will be proceeding from door to door, the Council suggests that:

1. Pre-schoolers should always be accompanied by an adult or an older responsible child while Halloweening.

2. Use retro-reflective

Hockey Time Is Skating Time

It is that time of year again...time to start planning and preparing for the coming season, in Minor Hockey. It is also that time of year when many young stars will start their annual dream of becoming an NHL great.

Many will dream but few will make it. Most have the dream, may the desire, but few have the ability to make the Others they will have to keep going back to basics. Back to skating. Working that, all the want and what in the world is not going to get them there.

You have probably seen yourself, a visiting team with one great player. May be even two but seldom three. The chances are your team might even be that. It is he really a "great player" or is he just a better skater than the average?

The Alberta Recreation Skating Association has had a "Power Skating" program for years. In recent years they were fortunate enough to have very dedicated and talented young men in charge of this program. He spent many hours studying the skaters and the program and the needs of the skaters.

As a result improvements were made, along with many changes and in the areas that were found lacking he revised not only the content but the methods and only with the end result in mind.

but also the means used to gain the end result, making it a more valuable and beneficial program for its participants.

There are five levels, each consisting of a ten week course. ARSA judges test the skaters at each of the levels, after completion of the lesson. It is not intended to teach just one move at a time, rather proper moves in combination with correct methods. It is going to do no good whatever, if you have to stop and regain your balance before you can get back into the play.

The program teaches you to skate equally well in all directions with more use and awareness of muscles that the average untrained skater does not use. Balance, consistency, agility and speed are the aims.

Anyone who is a member of ARSA can take this course and you can become a member by paying a nominal fee, having your courses trained by the organization. We are not only concerned with the skaters and the program and the needs of the skaters.

A "Power Skating" program will be offered in Viking again this year. For further information you can contact Shirley Volter at 386-2284.

WARBLERS ARE EXPENSIVE BOARDERS

The average Alberta cattle producer could save up to \$6,000 in a single year simply by spending \$100 per year to treat warblers.

Pestures and cattle free of warblers produce:

- up to 50 pounds more weaned; all
- up to 70 more pounds of weaning beef off pasture
- safely when gain up to 30 more pounds; less feed
- carcasses and hide value increased \$20-\$40 per head
- no damage to stock and less loss resulting from warblers
- neighbors who approve all your efforts to keep a warbler-free herd.

Treatment
 • Treat in the fall with application of 100 cc of 2% organotin line
 • Treat all but milking dairy animals
 • Early treatment after the first frost
 • Warblers winter in
 • rough pasture, after grain and silage
 • Warblers

Use a 100 cc of 2% organotin line
 • 100 cc of 2% organotin line
 • 100 cc of 2% organotin line

Thanks Farmers

Throughout the year we have a number of "weeks" dedicated to some special group or cause. Perhaps the "week" which is being observed at this time is the one that is recognized at the most appropriate time of the year. "Agriculture Week" is the one week observed that comes at a period when the industry being honored has most recently been in the spotlight. It is most appropriate that all residents of Alberta are asked to focus on the agriculture industry immediately after harvest.

The risks faced by farmers today are immense. Droughts, floods, confront those who work in the agriculture industry on a monthly basis. A recent psychological study indicated that farmers face one of the highest levels of stress in comparison to other occupations. The constant uncertainty which they face in their lives causes severe stress in many cases. And yet, as in other occupations, many people accept this situation as simply part of their job and continue on in their occupation because they enjoy it.

And we find that most farmers enjoy their work. With heavy demands on their time and energy at times, and some other times of lessened demand, farming provides a variety in lifestyle not enjoyed by many. Today farming requires a great deal of work and business sense to make it pay. And yet the enjoyment that many people

gain from this occupation makes it all worthwhile.

Farmers can be extremely proud of the tremendous role that they play in the economy of this area, this province and this country. A tremendous number of jobs are either directly or indirectly related to the agriculture industry. Without the farmers, many jobs would require that we import products so that they could survive. The fact that we produce so many agricultural products in Alberta improves the chances of jobs being created and maintained in Canada. As well, their success often determines the success and/or failure of many businesses. In rural Alberta communities such as ours, if the farmers have a bad year, everyone can expect to have a bad year. And when they prosper, often the entire community prospers. It becomes a chain of reliance that begins with the farmer and rises through many types of business and industry.

The importance of this week is most greatly felt in our rural communities. At times we take the whole of the agriculture industry for granted, expecting that everything will turn out alright. Yet there have been times when it hasn't. This year was an especially fruitful one for most farmers in our area. Their successes should be recognized and appreciated by all of us. They are the foundation of our area and communities.

Trick or Treat

Once again Hallowe'en is upon us. This Friday, ghosts and goblins of many ages will be out with the intentions of either tricking or treating most strongly on their minds. Some concerns always arise at this time of year about the nature of the "tricks" which will be played on people this Friday.

Hallowe'en is most appropriate a time for the youngsters. Dressing up in costumes and working their way around the towns and villages trick or treating is a great childhood experience. Most of us think of those days with fond memories. From this stage, most of us moved to the "tricking" time of our childhood. The key to this time of our lives lies in the ability to have fun without doing harm to persons or property. Many, many tricks can be fun without having any element of danger to others.

These are the kinds of "tricks" which should be played on Hallowe'en. These are the kinds of "tricks" which most people do not mind.

And yet as sure as there will be Hallowe'en on Friday, there will be some "fools" who will undertake "tricks" of a nature such that someone or something will be harmed, destroyed, or face significant danger. For this reason, police detachments and other concerned citizens will be on the lookout for any and all who endeavor to do such acts so that they are stopped before anyone or anything will be harmed.

Hallowe'en will not go away, as some people would wish. All we can do is make the best of it. Encourage everyone to have fun on Friday night without doing anyone or anything any harm.

Viking Agricultural Society president Gus Quastak (right) presents Archie and Helen Nourling with the keys to the new car which they won at the Bazaar Ball held in Viking this past weekend. Staff Photo

CANNED SALMON TOPS JIFFY INDIVIDUAL PIZZAS

Newfoundland is known for the first trans-Atlantic cable connecting it to Ireland in 1858 and the first wireless message received, from England, in 1901.

In The Weekly Review
Advertising Doesn't Cost - It Pays!

Looking for a new and interesting luncheon idea? Jiffy Salmon Pizzas will fill the bill, making a hit with young and old alike. Ready to serve in just minutes, these individual pizzas are especially tasty and loaded with good nutrition.

Halved English muffins are spread with tomato sauce seasoned with garlic salt, instant minced onion and Italian herbs. Over the top goes a layer of flaked canned salmon, then each pizza is sprinkled generously with a mixture of grated Swiss and Parmesan cheese. Chopped mince-stuffed olives and green onion garnish the top.

Convenient canned salmon is an excellent ingredient for quick and easy menus. It is waste-free and ready to enjoy, whether eaten right from the can or combined with other ingredients in a variety of delicious entrees.

JIFFY SALMON PIZZAS

- 1 can (7-8 1/4 oz.) salmon
- 1 can (8 oz.) tomato sauce
- 1/4 teaspoon garlic salt
- 1-1/2 teaspoons instant minced onion
- 1/4 teaspoon Italian herbs
- 4 English muffins, halved
- 3/4 cup grated Swiss cheese
- 1 tablespoon grated Parmesan cheese
- 8 pimiento-stuffed olives, chopped
- 1 green onion, chopped

Drain salmon and flake, reserving liquid. Combine reserved salmon liquid with tomato sauce, garlic salt, onion and Italian herbs in a small saucepan; simmer 5 minutes. Spoon tomato mixture evenly over muffins; spread with flaked salmon. Combine cheese and sprinkle over salmon. Garnish with chopped olives and green onion. Place pizzas on baking sheet and bake at 400°F. 8 minutes. Makes 8 individual pizzas.

The organizational meeting of the newly elected council for the town of Viking was held last Wednesday, October 22, 1980. Members of Council are: (left to right) Councillor - Jenny Bird, Councillor - Pete Cunningham, Councillor - Ken Midbo, Mayor - Will Rushman, Town Administrator - Lydia Hanson, Councillor Maurice Stephenson, Councillor - George Ritchie, Councillor - Bob Evans.

"Child Abuse Hot Line" To Come Into Service

The Honourable Bob Bogue, Minister of Social Services and Community Health, today announced increased emphasis on child abuse

intervention for Alberta with the establishment of a new "child abuse hot line."

"We will have a 24-hour-a-day, seven-day-a-week child abuse unit staffed by trained social workers in place by early December to respond directly to allegations of abuse and/or neglect of children," said Mr. Bogue.

As part of the new system, a unique number for all of Alberta will be introduced so that calls coming from all points in the province will be handled on an emergency basis at a centralized location.

"By having trained social workers answer concerns directly from the public, and on a 24-hour-a-day basis, we are significantly strengthening

our ability to respond quickly and decisively on an intervention and prevention basis."

The improved approach will be modeled after a recently announced and implemented program in British Columbia, said Mr. Bogue. He continued, "The Honourable Grace McCarthy, Minister of Human Resources in British Columbia, provided valuable information towards this development during the joint cabinet meetings of our two provinces."

In addition to the creation of the new "Child abuse hot line" increased emphasis will be placed on training of existing staff across the province in child abuse and

neglect intervention and prevention. In total, 30 new positions will be created for these two programs. The new child abuse hot line and the special province-wide toll free number will become well known to the citizens of Alberta through an extensive public awareness campaign.

Alberta's average farm is better than 100 acres in size and represents an average investment of \$30,000. Today's farmers produce enough to feed about 56 people - 5 times as many people as he could have fed in 1921. This puts Alberta in the forefront of farm productivity anywhere in the world.

"Two Edmonton residents, Mrs. Jerry Law and her son John Clarke, have taken out membership in the Alberta Safety Council's 'Saved By The Belt Club' reports Fred Allen, President of the Alberta Safety Council. They join twenty-eight other Albertans who have now received official club membership certification."

Stockade Round-Up Entries Increase

Three years ago the Stockade Round-Up in 1978 was the last time the exhibition was held in the city.

"We hope some of the people attend, interested in filling their deep freezers," says Berlie to the sale.

The other breed exhibitors considered considerable increase in entries in the Lincoln. At last report, 127 entries were received, up from 54 in 1979.

"We're expecting buyers from across the Province and northern United States for the Lincoln sale," says Dick.

The Lincoln Show gets underway Friday afternoon with the sale following at about 5 p.m.

Breaking down the entries, so far Dick Jones has entered 25 Aberdeen Angus, 75 Charolais, 82 horned Hereford, 145 Friesian, 127 Lincoln, 86 Maine Anjou, 23 Short Horn, 101 Simmental, and 44 stags.

Although Stockade Round-Up is attracting exhibitors from the three Prairie provinces, the majority of the entries are coming from a 100 mile radius.

"I think that is a pretty fair indication of the strength of the beef industry in this area," says Berlie Payne.

The Exhibition Association is expecting upwards of 800 exhibitors alone to be in the Stockade Round-Up, and close a number of reasons for the increased interest.

"We now have the facilities to handle a show of this size, and our dates fit nicely with Brandon's and Edmonton's," he said.

"Mainly though," he added, "Exhibitors have been pleased with Stockade Round-Ups in '78 and '79, building a solid reputation in the beef industry."

Nearly all breeds in the show have experienced substantial increase in entries, but two stand out.

"Our entries in Shires have more than doubled this year from 17 to 44," says Dick.

"And judging from the exhibitors, the majority of the animals will constitute a good representation of the industry."

The Steer Show will be at the

Seat Belt - Positive Proof

Mrs. Law recounted a recent accident in Edmonton where a car, after it had been struck in the rear by another vehicle, rolled over onto its roof and side out of control, scuttling and then rolling over the top of her car.

The other vehicle involved in the initial collision then struck the left side of her car broadside.

"The seat belt held me firmly in place, preventing my smacking into the steering wheel and door post," said Mrs. Law.

"My seat belt prevented them from flying over towards my side of the car," Mrs. Law added.

This testimonial from Mrs. Law is similar to the others received by the Alberta Safety Council, and we are very encouraged by the number of individuals who have come forward thus far.

Each one tells a story of how seat belts prevented death or serious injury in a traffic accident," said President Allen.

Launched in June of this year, the "Saved By The Belt Club" is aimed at increasing public awareness of the life-saving benefits of seat belt use.

Membership is open to any Alberta resident who has been involved in a traffic accident and who feels that he or she was protected from death or serious injury by using seat belts.

Members receive a certificate for training, a color seal for the interior or rear bumper of their vehicle and a lapel pin.

"The effects of wearing seat belts are very positive," said Allen. For example, Transportation Minister Henry Krueger announced last January that nearly half of Alberta's 1978 traffic fatalities in 1978 could have been avoided had the victims worn seat belts.

In the first half of 1980 traffic accidents claimed 296 lives. A high percentage of these people would be alive today had seat belts been worn.

"The Alberta Safety Council congratulates the thirty members of the 'Saved By The Belt Club' for their foresight in deciding to make regular seat belt use a part of their daily routine. If more people followed this practice, there would be much less human suffering and financial loss from traffic accidents," said President Allen.

Applications for membership in the Club are available at the Alberta, Edmonton and Calgary Safety Council offices, Commercial Driving Schools, R.C.M. Police and Municipal Police offices, Alberta Motor Association offices and from member agencies of the Insurance Agents Association of Alberta.

An opportunity to express
your opinions on

alberta
colleges

Alberta colleges, including the role of the college within the community, will be the topic under discussion at the November meetings of a minister's advisory committee in Grand Centre, Bonnyville and Vermilion. Public input is invited on policy matters and specific issues, from those directly or indirectly concerned: college students and staff, prospective students, parents, employers, community groups. The Minister's Advisory Committee on College Affairs gathers information and makes recommendations to Jim Horan, Minister of Alberta Advanced Education and Manpower. Composed of college students and public members representing all areas of the province, the committee visits the various regions to obtain on-site reading of existing projects and a first-hand report of local views.

You are invited to present your views at meetings held at:
GRAND CENTRE
Thursday, November 13
Provincial Court Building
8:30 a.m. to 10:30 a.m.

Campaign To Raise \$2 Million For Goldeye

Goldeye Foundation has launched a campaign to raise \$2 million for renovations and expansion of its youth training facility at Goldeye Lake west of Rocky Mountain House.

Howard Falkenberg, Chairman of the Foundation Board, said the capital expansion is necessary to meet the ever-increasing demand for a continuing education centre in the province.

Major renovations and new construction are planned to upgrade the centre over a five-year period. Among developments planned are a new sewer and water system, renovations to the main pavilion, a new dining hall, additional dormitories, staff housing and auxiliary buildings.

Campaign Co-ordinator Mrs. Jacque Jevne of Mill, a former program supervisor with REDA, said she expected to focus on the middle levels of funding that included Government, general farm organizations, including marketing boards.

and consultants; and agriculture, including co-operatives, food processors, lending agencies, farm supply companies and a number of others. Individual contributions from interested persons will be encouraged and appreciated.

Goldeye Centre, established in 1958, has grown steadily over the years and now hosts about 2,000 people each year, many of them youngsters who attend youth seminars conducted each summer by Rural Education and Development Association (REDA), which is also responsible for management and operation of the camp.

With the completion of the main pavilion and a few cabins in 1980, the centre became operational and five programs were conducted during the first year with 258 participants. It became apparent to the three heads of funding that additional financial assistance would be required to continue development and the major Alberta co-operatives became

involved in projects of capital development. At that time a staff house, seminar building and garage-workshop were erected; power installed; the kitchen adequately equipped and furnishings installed.

Construction continued into the 1970's along with rising registration for programs which reached a peak of 2,300 young Albertans in 1977. Because most of the buildings were not winterized, programming was restricted to four or five months and facilities were strained to the limit.

Again faced with the need for additional construction to meet development requirements, Uniform, which had succeeded the Farmers' Union of Alberta as owner of the centre, relinquished its ownership in 1979 in favor of the broader representation obtained through creation of the foundation.

Besides Mr. Falkenberg, the foundation board is composed of Norman White of

Bruce News

Carol and Bernie Bruch of Whitcroft announce the arrival of their baby girl on October 20, a sister for David and third grandchild for Kate and Stanley Bruch.

On Friday evening, October 24, members of Immigration at Laramie Church had a farewell gathering for Evelyn and Harold Hissett in the Sunday School room. Bud Hammermaster with his cardigan and Ernie Hammermaster on guitar provided music for a lively singing, and visiting continued over lunch. Normas Babitz, on behalf of the church members, presented Ery and Harold with a wooden chest bearing the inscription "God Bless Our Home". Pastor and Mrs. Tim Rumsch of Vegreville were also present. The Hissetts are now living on an acreage in the Ardross area.

The 4-H club is in the process of getting organized and any girls who are 18 years old or over are welcome to join. If you are interested, call Paulette Ericksen at 688-2281.

4-H Light Horse Club Holds Organizational Meeting

The first 4-H light horse club meeting was held on October 16. The staging of O'Canada and the playing of the pledge was held next.

Then decided to have the committee of Judy Letz, Tracy Letz, Sandra Letz and Clayton Letz to organize the campaign. Sheryl McClements then thanked the old officers for doing such a great job last year.

The new officers are as follows: President - Holly Royland; Vice President - Clayton Rasmussen; Secretary - Veronica Sevel; Treasurer - Marilyn Ash, Club Reporter - Tammy Johnston; Entertainment Committee - Sheryl McClements, Sheri McClements, and Betty Ash; Lunch Committee - Rhonda Shipley, Sheryl McClements, and Betty Ash; and the new officers are as follows: President - Holly Royland; Vice President - Clayton Rasmussen; Secretary - Veronica Sevel; Treasurer - Marilyn Ash, Club Reporter - Tammy Johnston; Entertainment Committee - Sheryl McClements, Sheri McClements, and Betty Ash; Lunch Committee - Rhonda Shipley, Sheryl McClements, and Betty Ash.

Marilyn Ash was elected for the County Representative. The phoning committee is Sandra Otis, Sheryl Shipley, Wendy Darling and Mary Newby.

Following that was the decision that November 21 is the deadline for any new members to join. The membership dues were \$2.80 last year. It was moved by Wendy Darling that we leave the dues the same as last year. Seconded by Mary Newby. All were in favor.

Clayton Rasmussen moved that we have our meetings on the first and third Thursday of every month. Seconded by Gordy Runkla. All were in favor. Tammy Johnston moved we hold our meetings

after a brief illness. Mrs. Leanne came to Canada with her family in 1964, settling on a farm in the Brown. Her husband, professional her in 1962. Mrs. Leanne was very active in the Holden Lutheran Church, as well as in her home.

She is survived by 2 sons, 3 daughters, 10 grandchildren, and 2 great grandchildren.

Funeral services were held on October 26 at 2 p.m. at the Holden Lutheran Church. Interment followed at the Bruce Cemetery.

Holden, Alberta

at 9 p.m. Seconded by Wendy Darling. All were in favor.

Marilyn Ash motioned that the President, Treasurer, and Secretary be elected. We met at the Youth Club Board Meeting. Seconded by Judy Letz and seconded by Wendy Darling that we get Mrs. McClements to type out our agenda this year. Mrs. McClements agreed that she would. All were in favor.

Marilyn Ash motioned that we accept. Pao was named. Seconded by Richard Volter. All were in favor.

As there was no more business to discuss, Janet Volter moved the meeting be adjourned. Seconded by Sheryl McClements.

NOTICE

THE IRMA VILLAGE COUNCIL

Provides for the appointment of a Representative on the Irma Recreation Area Council, to represent the Electors of the Village. This representative is in addition to the elected representatives.

Persons interested in serving in this capacity should submit an application on or before November 28, 1980.

Applications will be received at the Village office.

D.D. Cressy,
Municipal Administrator
Village of Irma

Irma News And Views

Quite a number of Irma and district people attended the annual U.C.W. turkey supper in Kinsdale, which was patronized as usual by a large crowd from a wide radius. It was a sumptuous meal, turkey with all the trimmings, and plus a variety.

Many of the Irma people stayed after supper for the Elks Bingo. Amongst them who were Betty McNeil, Ed Hansen, Jim Jackson, Minnie Jackson. The jack pot (really a consolation prize) was won by a lady visitor from the U.S.A.

Alfred Walker from Capella, Queensland, Australia, is at present visiting with Minnie and Jim Jackson, and meeting and renewing acquaintances with many old neighbors and friends.

Alfred is a brother to Minnie Hurst, and the late Charlie Walker, who farmed for a number of years in the Strawberry Plains district. Their Dad, the late W.E. Walker, homesteaded north of Irma in 1908. His homestead is now farmed by Philip Larsen. Alfred arrived at Sydney, Australia in 1940, where the temperature was 104 degrees. It was 30 below when he left Canada. Alfred expressed surprise at all the changes which have taken place during the forty years he was away. He was particularly struck at our good hard surfaced highways, and the slick old streets and avenues in the village. Alfred still plays

the violin.

We are glad to welcome Jimmie Pond home again after a major operation and several weeks in the University Hospital in Edmonton. Dennis Pond spent the weekend with his parents in Irma.

The ground was white on Sunday morning from a snow flurry over night which left about two inches of soft snow.

However, by Sunday night it was pretty well all gone. We have been told that Edmonton had six or more inches of snow.

Our last manager, the popular Mrs. Gwen Seip, has been transferred to Myram. Best of luck to Gwen.

It is interesting to note that a youth group, the

which made street very slippery and resulted in many accidents. Many highways were also in poor driving condition, which also caused many accidents and a number of fatalities.

We hereby extend a hearty welcome to the new manager of the Bank of Montreal, Mr. Bob Fournier, who was transferred here from Yorkville.

Our last manager, the popular Mrs. Gwen Seip, has been transferred to Myram. Best of luck to Gwen.

Irma U.C.W. Meet

The regular meeting of the Irma U.C.W. was held in the United Church on Tuesday evening, September 23, commencing at 8 p.m., with Mrs. Margaret Foster presiding.

A welcome was extended to all after which we repeated our Prayer Purpose in union. Devotions were given by Mrs. Irene Larsen. Scripture lesson was from Romans 9:8-14. Exhortation was read from the Observer on our new United Church minister, Dr. Lois Wilson. She closed with prayer.

Mrs. Georgina Enger gave the program reading about Anna, who is mentioned in 3 verses in the Bible.

Mrs. Marjorie Fletcher reported for the visiting committee.

After some discussion, it was moved that we have a "get acquainted" tea on Thursday, October 9, at 3 p.m.

Last minute arrangements were made regarding the Fall Bazaar on Saturday, October 25 at 3 p.m.

Lunch is to be served buffet-style for the U.C.W. Executive meeting in the United Church on Tuesday, October 21.

Roll call was answered by 15 members and there was one visitor present. There were 40 cards sent, 16 visits made and 14 units of Literature read.

We closed with Theme Prayers.

R.C.S.C. - Royal Canadian Sea Cadets "Coryn" based in Wainwright, will be in attendance at an Armistice Church Service at the Irma United Church on Sunday, November 9th at 11 a.m.

The group draws young men and women from Irma, Wainwright, Coar, and Hughenden.

"Coryn" has a marching band which will give a short service demonstration at 12 noon following the church service, before they depart to perform in an Armistice Service at Coar in the afternoon.

It is interesting to note that a youth group, the

"Hire-A-Student" Sponsoring Contest

Alberta Hire-A-Student is sponsoring a provincial poster contest. The contest opened October 15 and submissions will be accepted until January 23, 1981. Two prize-winning entries will be chosen. First prize is \$750 and second prize is \$250. Submissions will be judged by a five-member panel. The judges will be looking for a dynamic graphic design. It should contain a slogan and illustration in such a way as to most

successfully convey the Hire-A-Student message to prospective employers. The winning entry will be printed and posted in Hire-A-Student offices and may also be used as an advertisement in Alberta newspapers. The contest is open to all Alberta secondary and post-secondary students. For additional information contact: Alberta Hire-A-Student Resource Office, Parkside Office Building, 1066 - 119 Street, Edmonton, Alberta, T5H 0Y6.

Alberta Hire-A-Student involves cooperation and active support within the community — students, community leaders and business people working together. This year, 181 students were employed in Hire-A-Student offices throughout Alberta. They worked hard to find jobs for 24,000 students in everything from farming to factory work to mid jobs or running their own business. Local communities of volunteers from various occupations and backgrounds initially organized the office and continue to serve as resource persons for the student staff.

Agriculture Week

October 27 - 31

Land Use: Urban Growth Or Food Production?

Canada is a huge country: 2.5 billion acres in total. However, only 11 per cent is suitable for agriculture, and of the land less than one-half of one per cent is prime agricultural land. The largest part of the one-half per cent is located in Ontario and will produce a broader range of crops (soy beans, corn, wheat, grain, corn, vegetables and tobacco) than the best of the land of the land in the prairie provinces, which is generally limited to grain, clover and root crops.

If you locate the best agricultural land on a map and identify the areas of major population concentrations on the same map, you will find that the two occupy the same area. Urban centers were located on high quality lands to ensure a constant supply of food for a growing population and were usually near large rivers, which were necessary for both crop production and as an efficient system of transportation. The land use policies of Environment Canada recently recommended the quality of land surrounding urban centers. It was found that 28.5 per cent of Canada's Class 1 land is located within a 50-mile radius of Canadian metropolitan areas. However, this same radius contains

28.5 per cent of Canada's Class 1 land, and 28 per cent of its Class 2 land. It was found in 1971 that 44 per cent of Canada's agricultural production was harvested from land that lies within a 50-mile radius of 19 major metropolitan centers.

This relationship between good land and settlement is normal, but is becoming an issue of concern in a country such as Canada with its potential for a strong agricultural base.

Furthermore, it is evident that the influence of urban centers goes beyond the relatively small size of the area occupied. Demand for urban residences in rural areas, hobby farms, golf courses, vacation homes and industry has increased and all require more available land. This has the effect of raising prices for land to an urban scale. It also tends to increase the number of abandoned farms and lands left idle while under speculation. Many farmers conclude that with high prices available for urban land use, it is not economically feasible to continue farming the land.

Often good lands around large cities have restricted use because urban farming practices as the keeping of "sanity" or safety animals, growing nursery and nurseries, growing farm vehicles on roads

been shown, however, that in 80 years, if the trends continue, we will need all available agricultural lands to merely supply our domestic needs.

The phenomenon of growing populations and decreasing farmland is a universal situation. In the future, a country with a self-sufficient and exporting agricultural base may well find important economic power. To continue to allow urban

growth on our best agricultural land through faulty planning is shortsighted. It will cost us more to eat, and decrease our agricultural productivity just as these food supplies are becoming critical to a hungry world.

44 per cent of agricultural production takes place within 10 miles of any major urban centers. An agricultural land is lost.

A MESSAGE TO THE CITIZENS OF ALBERTA:

Agriculture Week in October 27-31.

As more of our citizens gather to live in urban centres and other issues demand our attention, we tend to lose sight of AGRICULTURE — OUR RENEWABLE RESOURCE.

A firm agricultural base is the backbone of a prosperous society and will increasingly determine the well being of ourselves and our children.

It is our responsibility to maintain an awareness of agriculture — its importance, potentials, and constraints — in order to respond effectively to the issues which face agriculture today and in the future.

During Agriculture Week and throughout the year, please join with us by showing an interest in and support for AGRICULTURE — OUR RENEWABLE RESOURCE.

Yours sincerely,

Dallas W. Schmidt
Dallas W. Schmidt
Minister of Agriculture

Marketing Boards: Good Or Bad?

Talk to a farmer who came through the 1970s and he'll tell you he was grieved by some of the private grain companies. Talk to him and you'll find a staunch supporter of the Canadian Wheat Board, one of the granddaddies in the realm of agricultural marketing boards.

On the other hand, later to day in the outskirts of several segments of the grain industry and you'll hear complaints that the Canadian Wheat Board is a stranglehold on the marketing of grain and that it's doing a poor job.

The Canadian Wheat Board is only one of the many agricultural marketing boards. There are boards that market milk, eggs, pork, vegetables — every variety of agricultural product. And each board has its own powers, its own individual method of operating. What seems to be common to all marketing boards, however, is the diverse reaction producers and consumers alike have toward them. Boards have their staunch defenders and their dedicated critics.

Marketing boards provide producers with an opportunity to collectively market their product. They are formed in the belief that there is strength in numbers as a group, farmers can be more successful than each acting in an individual capacity. All marketing boards are operated within the bounds

of federal or provincial legislation. There is a great diversity in the powers and activities of the 18 provincial marketing boards and committees in Alberta. At one end of the spectrum are the boards which only collect fees to sponsor promotional programs, at the other end are marketing boards like the dairy and poultry boards which have the power to establish prices and control supply. Not surprisingly, it seems to be those boards with the most power that elicit the most criticism.

It's also those boards which provide their members with the greatest economic benefits. The proponents of marketing boards point to their advantages. Income of producers are stabilized, and in many instances improved, giving incentives to the farmer to stay in business. There is equity among the producers, assuring that each producer will share in the growth of the industry according to his ability to produce. With the resulting stabilization of the industry, the consumer is assured of a steady supply of the commodity.

Opponents of marketing boards aren't convinced these arguments are valid. Consumers charge that marketing boards have a monopoly which results in higher prices for agricultural products. Within the agricultural industry, there are those who argue marketing boards encourage inefficiency.

It is in the whole realm of supply control marketing boards that the greatest controversy exists. Certainly those producers belonging to marketing boards with the power to control supply

gain the greatest economic benefits. Typically, quotes are usually assigned according to a producer's historic production level. For farmers who were in the industry when the board was established, prices are an advantage. The problem with quotas, however, says the critics, is that they restrict entry into the industry and that they discourage efficiency by restricting the farmer who wishes to increase his production.

Michelle Veeman, an economist in the department of rural economy at the University of Alberta, sums up the dilemma of supply management marketing boards by calling it a trade-off. Quotas reduce risks for the individual producer but they also reduce incentives.

Dr. Veeman acknowledges the problem associated with supply management. But, she says, even if quotas do present problems, supply management boards aren't going to go away. The approach she recommends is one of more stringent supervision and reporting requirements for this group of boards, of requiring consumer representation on the boards, and of limiting their powers to restrict market supplies. In short, she feels marketing boards need to be monitored and improved.

Marketing boards are a powerful marketing tool that can do much to further agriculture in general and the economic position of individual producers in particular. But boards have their strengths and weaknesses. They have their defenders and their critics. Whether, on balance, they are a good or a bad thing depends up to being a matter of opinion.

Micronutrients' Critical Role

Micronutrients in the soil, such as boron and molybdenum, can play an important part in crop development.

Research at Agriculture Canada's Charlottetown Research Station has shown that boron deficiency in the soil causes problems such as

yellowing of alfalfa tops and brown heart in rutabagas. These are common disorders in Atlantic Canada.

Molybdenum deficiency can stunt plant growth, but farmers can usually prevent this by adding lime to the soil.

The Alberta Food Processors Association

Have you heard of the Alberta Food Processors Association? Do you know what its purpose is? Have you heard of the logo "Better Buy Alberta"?

The Alberta Food Processors Association is a national organization, registered under the Societies Act of Alberta, which promotes Alberta products. It is made up of provincial food and beverage producers and processors who produce and use only Alberta products, and it is governed by an elected board of directors. They include representatives from industry and three members appointed by Alberta Agriculture.

The collective aim of the 80 members of the association is to create consumer awareness of Alberta food products and to support the marketing programs of Alberta food and beverage companies in their efforts to sell more products in Alberta, Canada, and the world.

The association identifies individual member's products to consumers by advertising and promotion programs, which are linked together by the logo "Better Buy Alberta". Each member can take advantage of any sector of the program which suits his needs.

Members use TV, radio, newspaper and magazine advertisements, etc. to promote their products. And the money they spend on advertisements and other promotional activities is matched dollar for dollar by Alberta Agriculture through an annual grant.

The Alberta Food Processors Association came into being in 1974 at a meeting of industry, producer and government representatives.

The board of directors that were elected at that first time the association needed to formulate ways of emphasizing and establishing Alberta's agricultural products to retailers and consumers. It also investigated ways of creating more awareness of the identity and value of Alberta products. At that time the association was called "Agri Prom".

Its early efforts were mainly directed towards shipping mail promotions. Artists and marketing people were asked to help the association devise appealing consumer concepts for in-store displays. It was felt that this type of advertising would help to generate more members as well as promote the products of existing members.

The phrase used at that time was "Naturally Better Taste From Alberta's Good Earth" which was accompanied by an Agri Prom lady as a logo. The logo was applied to buttons, shelf labels, product labels, in-store banners and aisle display posters as well as being carried in Alberta weekly and daily newspaper advertisements.

The in-store promotion program continued throughout 1975, but it was not considered to be very successful. The main reasons were the limited financial and human resources and the lack of retail management interest. The latter was believed to be due to the disinterest on the part of consumers based on the awareness of Alberta products.

The following year an intensive media exposure program involving TV, an

in-store bag contest, and exhibits in Calgary's Chinook Mall and at Edmonton's Kinsmen Days was adopted. Following the exposure of 1174 television commercials, 10,560 mailed in responses to the 6.5 million Agri Prom contest bags and exposure to almost half a million people in the Chinook Mall and at Kinsmen Days, the Alberta Food Processors Association came of age.

A very significant change in its structure occurred

in 1977-78 when the association adopted the user-pay concept. Members were required to pay a membership fee of \$850 and a grant of \$125,940 was allotted to Alberta Agriculture. In 1979 the association adopted the logo "Better Buy Alberta", which has worked well in getting the message across to consumers to support their provincial industry, and the name Agri Prom was changed to the Alberta Food Processors Association.

Tending with care

Our farmers are the stewards of a magnificent legacy — our soil. This trust is not taken lightly by the men and women who till the land to provide us with the high standard of food and nutrition we enjoy. We have faith in the ability and desire of modern families to preserve this heritage.

We're Happy To Assist Such A Dedicated Group

Being involved with such hard working, enterprising farmers is very gratifying. Thanks to your efforts, our community eats nutritiously. You're a vital part of our lives!

Biological Pest Control Gaining Prominence

Wanted: an insect that eats only this, and likes them so well that thistles will cease to be a problem.

This idea isn't in the slightest far-fetched. In fact, it has already happened with a certain type of thistle, the nodding thistle, in Saskatchewan. It's a fine example of how biological pest control works.

The whole idea of biological pest control, controlling weeds or insects by introducing natural enemies, is gaining prominence in western Canada. There are now success stories to be told, and several promising results are on the horizon.

The problem with many agricultural pests, especially weeds, is that they have been introduced into our country. Weed seeds are brought in inadvertently, and in the absence of their natural enemies, the weed flourishes and becomes a serious competitor with other plants in its environment.

A good example is the nodding thistle, a weed that became a particular problem in the rangelands in Saskatchewan. The weed can reach a height of six feet, produces large quantities of seed and is capable of invading native rangeland.

Over the years, researchers have been looking for safe ways to introduce natural enemies of the weed. The answer proved to be a seed-feeding beetle which eats the seed in the thistle head. The first of these beetles were released in 1968 after extensive testing had shown the beetle to be host specific and not harmful to other plants. It took several years for the beetle population to build up to the point that it could control the nodding thistle. Now, in some areas, the weed has been reduced to 10 per cent of its previous density.

"We can live at that level," says Peter Harris, head of the biological control program for weeds at Agriculture Canada's research station in Regina.

Dr. Harris reports progress is now being made in developing and distributing two species of seed-feeding flies that attack spittlebugs

diffuse knapweed, two introduced weeds that are making inroads into Alberta. These weeds are currently a severe problem in British Columbia where 30,000 to 40,000 hectares are infested. There, seed production of the weeds has been cut by 10 per cent since the flies have been released. "That's a big step toward control," Dr. Harris concludes.

In the southwestern corner of Alberta, leafy spurge is spreading into cropland and agriculturalists are fearful it will get into the irrigation systems through the waters of St. Mary River. Since the only chemical control for the weed is spraying with herbicides, the weed is a serious pest of sugar beets and cabbage, the weed getting into irrigated areas is of special concern.

A beetle which burrows down the stem of the plant into the root system may well come to the rescue. The beetle has been released in the past two years and it will take several years for the beetle population to build up. "It looks promising," says Dr. Harris. "We're hoping for a reduction of 50 to 60 per cent in the leafy spurge population."

Alberta Agriculture's weed control branch puts a high priority on biological weed control research. Fern Leavitt, supervisor of weed research and development, reports the department is in its third year of supporting a research program through the Commonwealth Institute in Biological Control in Switzerland. As Mr. Leavitt explains, since so many of our weeds originate in Europe, it is necessary to go to Europe to find the weeds' natural enemies.

The Canada thistle, for example, contrary to what its name implies, is native to Europe. A few insects which attack the thistle have been isolated and are now being tested. Mr. Leavitt is optimistic about the results. The introduction of three or four effective insects against Canada thistle could significantly reduce Canada thistle infestation on wasteland and thus reduce the potential for spread to valuable cultivated land."

Biological control is being developed for insect pests, as well. News that should cheer anyone who has been attacked by hordes of mosquitoes is coming out of Agriculture Canada's Lethbridge research station. A fungus parasite which kills mosquito larvae is fairly well established in parts of southern Alberta. Research scientists are continuing studies to find ways to further spread the parasite.

While it is only one common species of the mosquito that is affected, it is an exciting step in the right direction. Another parasite fungus has been found to destroy the young adults of the species of black flies. The fungus seems to be well established in parts of central Alberta where it seems

to be suppressing black fly populations. Lethbridge research scientists feel the fungus has great potential as a biological control agent.

Development of biological control agents tends to be a time-consuming, costly process. Before an agent can be released, it must be thoroughly tested and screened to determine that it will not be harmful to any other plant or animal in the environment.

The beauty of biological control agents is that once they are introduced and established, they go on controlling their host pest year after year. Unlike chemicals which must be re-applied at regular intervals, the biological agents or fungi just go on doing their job, taking care of themselves.

Canola Oil Gains Popularity

Canola oil accounts for more than 40 per cent of the vegetable oil consumption in Canada. All of this oil is produced in Canada.

Did you know that canola oil (formerly called rapeseed oil) is Canada's leading vegetable oil - that Alberta produces about 60 per cent of Canada's canola crop and that the dollar value of this crop is second only to wheat.

Before World War II, the only main grown in Canada was in small test plots at research stations. Now it accounts for about 2.5 million acres. The main growing area in Alberta is in the Peace River region where more than 60 per cent of the province's canola is produced.

The rest is grown in an

area that stretches east of Edmonton to the Saskatchewan border and in a belt that extends south from Camrose to just north of Calgary. Very little canola is grown in southern Alberta because of the dollar value of this crop is second only to wheat.

When in bloom, a canola crop has vibrant yellow blossoms which can be seen for miles in those areas of the province where it is grown. When harvested, canola yields vary from yellow to dark brown, depending on the

variety. The seed is sold to a country elevator or to a

crushing plant. At the present time canola is only crushed in Western Canada, and Alberta has five of the west's eight crushing plants. The function of a crushing plant is to separate canola into vegetable oil and protein meal. Canola contains about 60 per cent oil, by weight and 40 per cent meal. The meal is used in livestock feed supplements. The annual largest source of vegetable oil in Canada is soybeans, which yield about 18 per cent oil.

Canola oil is obtained by rolling or flaking the seed to fracture its coat and to rupture the oil cells. Any oil that remains in the seed is extracted with a solvent called hexane. All the solvent is later recovered from the oil and reused. At this point the canola oil is described as crude oil. It then has to be refined to remove substances which would give it an unpleasant flavor or color and which would shorten its shelf life. The end product is an edible, light colored oil that has a bland flavor and that remains clear when refrigerated.

Farming of the best is a trying occupation which requires lots of stamina, confidence and faith in nature. Congratulations to our farmers for their dedicated contribution to all of us.

FARMER OWNED

The Canola Connecti strengthens Alberta's Agriculture

Alberta's grain farmers grow more oilseed than their counterparts in any other province... a quarter billion dollars worth.

Alberta's oilseed crushers—at Fort Saskatchewan, Lethbridge, Lloydminster, Red Deer and Sexsmith—produce 6200 million of canola oil and canola meal.

Alberta's livestock and poultry producers who use high protein canola meal in their rations save hundreds of thousands of Canadian dollars support local industry and ensure a market outlet for Alberta canola growers.

Alberta's food nutritionists benefit nutritionally with canola products in their diets. Alberta industry and farms profit from their wise shopping.

Palliser Asks For Market-Oriented Policy

In a meeting with a Saskatchewan cabinet committee, Palliser Wheat Growers President George Fletcher urged the government to recognize agriculture as a major growth industry, and to place a high priority on the need for a fundamental re-direction of agricultural policy so that industry can respond to present market opportunities.

Fletcher said Saskatchewan has the good fortune to be benefitting from the present world resources boom and this is bringing an unprecedented balance and depth to the Province's economy. But in presenting the Palliser brief, he urged government to recognize that agriculture is still Saskatchewan's major industry.

"Canada's grain industry has suffered a disaster in recent years," said Fletcher. "World grain exports have gone through unprecedented

to use more fertilizers and farm chemicals and other techniques to boost total output."

that led to cutbacks in summerfall—against the livestock food and meat packing and processing industries in Saskatchewan.

that led to reduction in our grain carryover, because over the past 9 crop years our grain carryover was 54.5 per cent of production while that of the U.S. was 44.1 per cent.

He urged the Saskatchewan Government to support Crown reform that leads to an expansion-oriented agricultural policy based on the ingenuity and resourcefulness and initiative of farmers themselves and others in the food chain.

The brief noted that one reason the U.S. transportation system has been able to handle increasing volumes of grain is the competition between railways and trucks. Trucks have been exempted from Federal regulation when moving grain, and this helps them compete with railways. It urged the government to bring in policies in Saskatchewan freeing up trucks to compete with railroads, so farmers can benefit.

The Palliser President said the time is overdue for all groups involved in Saskatchewan agriculture policy to recognize the inherent strength of our agriculture.

"This industry comprises many educated people; it has access to the best technology in the world in producing and marketing crops; Saskatchewan has a climate and soil that are well adapted to grain and livestock production; there are adequate energy supplies here; there is a strong tradition of farming among the people; and there are many young people who understand farming and want to commit their lives to this industry. But the time has come for a fundamental change in policy. We've missed out on the greatest expansion in world grain markets in history. Government should realistically appraise our production capacity, and develop policy to free up farmers and

agribusiness people to fully exploit today's markets."

People sometimes forget. Medicine labels never do.

It's easy to forget even the simplest things, like a birthday or a phone number.

And usually it doesn't matter. But with medicine—how much to take, how often, even when not to take—it really matters if you forget.

That's why all medicines—prescription and non-prescription alike—have their directions on the label to help you make sure you're taking it right—so it's yours right for you. That's too important to trust to your memory—or to anyone else's. Read the label instead.

Don't trust your memory. Read the label.

From The Ground Up

District Agriculturalists

Bill Bress & Jerome Mancher are scheduled to take over a period of time. Sticky paper strips, while effective, often are scarce and hard to come by. Tightly fitting screen windows and well closing doors keep these insects out—where they belong.

Among chemicals, fly baits are effective. Care must be taken to keep them out of the reach of children and pets. Moxidipin (described household grade) may be applied where flies congregate. The residual action of this insecticide will kill them slowly as it is absorbed through the skin.

The "No Pest Strips" are effective when used as directed. These may be hung into garages, outbuildings, sties and other areas not continuously occupied by pets and people. Finally, pyrethrin, sold in premixed cans are effective in providing a quick "knock down".

Remember: Pesticides Are Poisons—or they would not kill. This article by U/I Stockholm, Entomologist, Alberta Horticultural Research Center, Brooks.

A dairy cow gives enough milk to furnish 9 families with one-half gallon of milk every day.

And ... every milk to make about 3 pounds of cheese every day.

In Other Words ...

One cow is pretty important and that makes the farmer who raises that cow pretty important. Agriculture Week pays tribute to these farmers who provide us with one of the highest standards of living in the world. This is one week to show appreciation to the Alberta Farmer.

Bees Important To Northern Agriculture

The honey bee is a small insect, but it plays a large role in the agriculture of the Peace River region of northern Alberta and British Columbia.

The beekeeping industry in the region has expanded in the last quarter century to an annual production of 11 million pounds of honey, about 17 per cent of total Canadian honey production.

The honey bees are also important in the Peace River area because they pollinate crops such as rapeseed and forage seeds.

At Agriculture Canada's Beaverlodge, Alta., Research Station, scientists are

studying the relationship between bees and the expansion of the seed crop industry.

Farmers' Markets Enjoy Popularity

Have you ever thought how lucky we are in Alberta where we can be sure of finding high quality products from the farm, the garden and the kitchen plus a warm friendly welcome?

Alberta's 80 farmers' markets have met with unparalleled success in the last few years. In addition to a great variety of high quality products, they provide consumers with an opportunity to come face to face with the people who produce our food, to get to know them

prices, and the purchaser is assured that the product she buys for eating, cooking or freezing is of the highest quality and at the peak of freshness.

Most farmers' markets in Alberta sell chickens, turkeys, ducks, geese, hatched chicks, honey, berries - when in season, and vegetables.

A large number also sell house plants and greenhouse plants as well as craft items like baby clothes, stuffed animals, photographs, wood carvings, basketry items, jewelry, copper etched ornaments, jars, vases, etc., made of pottery and so on. Some markets even sell antique furniture.

A number of markets also have special features such as a fishpond to entertain the children while their mothers are shopping. For 10 cents, a child may pull a string of his choosing and find a surprise package attached to its end. Other markets give away toy trees to children on a special day every year. Still others have light snack tables sponsored by a local group, where shoppers can

and to understand that problems. Farmers' markets eliminate the middleman. Short the selection of products at these markets is very large, consumers are able to choose and compare products and prices. The selection of what is available at the market stand and what will be available in succeeding weeks makes this type of shopping both stimulating and exciting.

Farmers' markets also make it possible for consumers to try local products that are in season at great

refresh themselves with a drink and a snack for 10 to 20 cents, as well as a friend or a new acquaintance. These light snack tables have proved very popular in these markets which have them.

Then there are farmers' markets which put on weekly demonstrations to teach anyone who is interested how to make ice cream, how to grind grain, home baking, weaving, knitting, crocheting, etc., and how to make a terrarium.

Local district home economists give demonstrations on preparing nutritious meals at some markets as well as demonstrations on cooking some of the less familiar vegetables like asparagus, egg plant, kohlrabi, and on the use of raw vegetables with various dips.

Alberta Agriculture provides farmers' markets in the province with brochures on different ways of preparing all garden vegetables. These brochures, which are free, and the demonstrations are very popular with people who like to serve something new.

Alberta's average farm is better than 800 acres in size and represents an average investment of \$885,000. Today's farmer produces enough to feed about 86 people - 8 times as many people as he could have fed in 1961. This puts Alberta in the forefront of farm productivity anywhere in the world. Agriculture ... Our renewable resource.

FARMING FOR THE FUTURE

Agricultural Research Council of Alberta

Farming for the Future is a commitment of the Alberta Government through the Alberta Heritage Savings Trust Fund to support agricultural research of benefit to Alberta.

Financial assistance is available for studies having the potential to lead to increased agricultural productivity and improvement of net farm income as well as the long-term viability of agriculture in Alberta.

Eligible research includes programs which have the potential to meet these goals and which would not likely be undertaken without support. Significance to northern agriculture is of major importance. Competence to carry out a proposed program and commitment to complete the program must be demonstrated.

Deadline for submission of applications for grants is December 1, 1980.

For further information, contact:

Agricultural Research Council of Alberta

On the average, across Canada, 70 per cent of farm women are active in the labor force. This includes helping without pay in a family business or farm, a minimum of 20 hours per week. Twenty-eight per cent of the survey respondents reported working for pay in the outside labor force. Full-time work averages 44 hours per week, part-time 21.7 hours.

In Alberta, 85.5 per cent of the unemployed rural women stated that they would like to work and are looking for employment in the outside labor force. Forty-one per cent of the women participating in the outside labor force, or who are interested in participating, cite working as a means to satisfy personal needs.

SATISFACTION WITH TAXES AND TIME ALLOCATION

Sixty-three per cent of Alberta rural women expressed being satisfied with the home as a place to work, although different tasks gave different degrees of satisfaction. The tasks which give women the greatest satisfaction are special care of house, food management, financial management and developmental activities with children. The task which is the least satisfying is clothing and textile care.

Husband help is minimal, with at least 80 per cent offering no assistance. As a result, often the working rural woman is carrying a double work load. Help from husbands do give occurs frequently in the area of household management.

Women with children, women who work long hours and those who participate in the outside work force expressed the greatest amount of dissatisfaction with the amount of leisure time they have. Over 41 per cent felt they had far too little leisure time.

INVOLVEMENT IN THE COMMUNITY

One-third of Alberta rural women surveyed were dissatisfied with their level of community involvement. However, 41 per cent of rural women participate in church groups and 31 per cent belong to Women's Institutes. Participation in other community organizations especially those concerned with economic development was usually lacking.

This lack of involvement is based upon lack of time and the absence of adequate support services such as child care facilities and transportation. As a result, there is an absence of the woman's perspective in policy decision making which applies to the rural community life.

A survey determines that the average rural woman in Alberta spends 53.3 hours per week on housework and 29 hours per week working in the family enterprise.

During Agriculture Week we salute ...
-The Farm Wife-

Today, the roles of women in agriculture may have changed somewhat, but their contributions are equally important. Farm wives still can be found at their husband's sides, in the fields and behind the wheels of sophisticated machinery. Both partners also devote a considerable amount of time today in civic work to better their communities.

Treasury Branches Salute Alberta's Farmers

Agriculture Week
October 27 - 31

Alberta's farmers meet the enormous challenge of providing Canadians with their 'daily bread'. The Treasury Branches of Alberta join in saying 'thank you' to the dedicated people of our Agriculture Industry.

Treasury Branches 

We Salute Alberta's Farmers & Stockmen On the occasion of Agriculture Week

Look around Alberta. We're an abundant and prosperous land. And just about everything we need to live and eat starts on the farm! Our Alberta farmers are the world's greatest providers of food and fibre. Feed, fertilizer, chemicals, machinery and men ... all join to make our agri-industry what it is today.

That's why we set aside a whole week every fall to honor one of Alberta's most important in-

dustries ... for helping to feed and cloth our nation and the world ... creating jobs in all areas ... and providing a vital strength to our Alberta economy. Their contribution is one that we greatly appreciate and proudly acknowledge. Agriculture Week is their week to stand up and be counted ... and our week to say "thank you" to farmers, stockmen and all people involved in this fine industry.

Although there are a number of sports oriented organizations for young boys in Viking, the Scout Movement provides an alternative program. Yet, this organization may be on the verge of shutting down.

Following registrations in the Scout Movement, in each of the programs - Scouts, Cubs, and Beavers, the Group Committee now find they do not have a volunteer working in the capacity of

Scout Master or as a Beaver Colony Leader. Although there are a number of people willing to work with each of the above groups no one has stepped forward to take over the responsibilities of the "top" positions.

The urgency to acquire a leader for the Beaver Colony is compounded by the fact that most boys, having completed the Beaver program advance to Cubs then on to Scouts. Therefore the dis-

continuation of the Beaver program would seriously have an adverse effect on all three levels.

The Scout program which was discontinued for a number of years was revived last fall - much to the benefit of the youth in the 11 - 14 year age group.

There are numerous benefits to be acquired for each individual involved in the scouting movement. Through a variety of projects, events, and meetings the program aims at building in the development of responsible, competent, reliable and benevolent citizens.

Approximately 40 young boys have shown their interest by registering in the above program. What initiatives can you suggest should this organization have?

Anyone interested in volunteering on contact George Haddad or Rod Krize or for further information you may contact Bob Leander Brian Anderson, Marlene Petrucci, Gary Holland or Glenn Gieson.

Scouting Movement In Viking May Fold

Vegreville M.L.A. John Bialik presents an Alberta flag and a ceremonial plaque to Mrs. Clara Sizer on behalf of the provincial government at the official opening of Northview Manor in Holden on Friday, October 31, 1980. Residents of the new manor are: Mrs. Clara Sizer, Mr. and Mrs. William Lemko and Mr. and Mrs. William Melman.

Staff Photo

Northview Manor Officially Opened

Northview Manor, an eight unit senior citizens self-contained residence in Holden was officially opened on Friday, October 31, 1980.

Master of Ceremonies for the occasion was Christine Mackay who is also the Manager of Northview Manor. Following the singing of the O'Canada special guests were then introduced. These included Mr. John Bialik, M.L.A. Vegreville, Mayor of Holden, Mr. Osh Shykora; Peter Sheehan, Assistant Manager, Canada Mortgage and Housing Corporation, Edmonton Branch; Don Hutten, Project Manager, Alberta Housing Corporation; John Lemko, Village of Holden; Rev. Lawson Brown, Emmanuel Evangelical Church and Mrs. Clara Sizer, resident of Northview Manor as well as a representative of the County of Beaver and a representative from Handy Andy Construction.

Mr. John Bialik brought greetings on behalf of the provincial government and also handed the official unveiling of the ceremonial plaque and followed with a presentation of the Alberta flag to Mrs. Clara Sizer.

Mrs. Sizer capably replied on behalf of the residents of Northview Manor.

Following the official opening ceremony, guests

were invited to remain for refreshments and to tour the residence.

Northview Manor is an Alberta Housing Corporation project. The unit is situated three blocks from

the downtown core of Holden. The north side of the residence is especially scenic as the suites face the open countryside.

Financing of the project was provided exclusively by

Seniors Call For Second Forum

Due to the tremendous interest and response at the First Senior Citizens Forum in Viking, a second such Forum will be held on November 17th. The Forum, sponsored by the Viking P.R.S., will be held in the Viking United Church starting at 1:30 p.m.

The Forum will be an extension of the first Forum held on October 30th. At that Forum, the seniors discussed a number of issues and ideas concerning their lives in Viking. Due to the initial response, the second Forum will endeavour to go into the issues in more detail, than the first possible provisions for future developments.

At the October 30th Forum, a number of concerns were raised. One of these was transportation for seniors within Viking. The major concern revolved around the need for a transportation system to aid seniors in attending desired appointments, or getting to seniors' activities. A number of suggestions were made as to the type of services and an expected cost.

Another issue discussed was the need for a Home-maker-Handyman service. The lack of family in close proximity, as well as a need for help with some tasks, caused some seniors to call for the establishment of such a service.

The range of services for such a program ranged from light housekeeping duties to heavy chores and light repairs.

Housing was also a concern discussed by those in attendance at the first meeting. The major concern in this area was that there were few alternatives to moving into the Lodge or the Nursing Home once a senior was not able to maintain their own home. A concern was also expressed about the lack of nursing home accommodation for seniors.

Suggestions for possible recreational activities for seniors were also discussed on October 30th. A number of alternative activities were mentioned, as well as suggestions for the construction and/or use of present facilities for more seniors' recreational activities.

Meals on Wheels also enjoyed some scrutiny by the seniors in attendance. Frequency of service and cost were the two major issues discussed in this matter.

A number of other items were discussed at the Forum on October 30th. These concerns and others will be further delved into on November 17th. Everyone is interested in any issue dealing with the seniors in Viking are urged to attend this meeting so that priorities can be set for seniors programs in Viking.

Receipts will be issued and your donation will be income tax deductible.

All proceeds go to the hospital to enable them to buy extras which are not funded by the government. Helping our hospital is a community concern. Your support will be greatly appreciated.

Your donation may be left with Isabel Borras at the Viking Veterinary Clinic or fax. Deadline for names to appear in the Christmas issue will be December 19.

On Friday afternoon, prior to an evening's Hallows 'on trick or treating', the hallways of the Viking School were filled with ghosts, goblins, monsters and other assorted personages as the elementary students displayed their costumes to the rest of the school.

The Lougheed Response

Last Thursday evening, Premier Lougheed presented the Alberta government's response to the federal budget which has been introduced into the House of Commons in Ottawa. That budget appears to single out one specific industry, the oil industry, for special attention. And in the process, the Liberals singled out the resource which presently has the greatest single impact on the economy of Alberta. The specific short term and long term effects of the Liberal proposals will be difficult to determine at this time. However, the Alberta government has taken a strong position against the oil provisions in the Liberal budget.

Premier Lougheed must be commended on the position which he took last Thursday, and on the manner in which he delivered his message to Albertans. Alberta has been placed in the position of having to defend its right to determine how, when and where its natural resources will be used. This right was given to Alberta 50 years ago. However, at that time, it was also determined that the federal government could take control of any natural resource if it could be shown that such a move was imperative to the health and/or survival of the nation. This fact Premier Lougheed has recognized. He finds himself in the position of having to try to achieve his point concerning his government's stand on oil pricing and supply. And he is using the very best means available to him.

Unlike some Albertans who are suggesting moves such as burning off the oil, separating, or joining

the United States, Premier Lougheed recognizes the power of the federal government and has taken an intelligent stance on the issue. No drum beating. No provincial emotionalism. Just a sound, reasoned approach to the problem. By cutting back the supply of oil to a maximum of 15 percent, he will most likely create problems for the rest of Canada without creating an emergency situation. He stated that no Canadian would go short of oil. He is simply forcing the rest of Canada to purchase oil at the world price which is about \$20 per barrel more. This then should put a tremendous strain on the federal budget, as the federal government subsidizes all foreign oil that comes across Canada so that prices across Canada can be relatively the same. This should force the federal government into re-opening the oil pricing negotiations, and could possibly cause them to amend their budgetary proposals as they now stand.

As a laborer who has nothing to withhold but his labor when it comes to contract negotiations, Premier Lougheed has been placed in a similar position. The Alberta government will be withholding oil to the extent that the federal government cannot prove that a state of emergency exists in Canada. He is the joint partner in the negotiations, for the ultimate power still lies with the federal government. Yet he is displaying a maturity which will gain him a lot of respect in Alberta. As long as he is willing to maintain the openness to negotiate, which at times seems lacking in the federal Liberals, he will do himself and his party nothing but good.

Remembrance Day

Next Tuesday is Remembrance Day. At the eleventh hour of the eleventh day of the eleventh month of each and every year, Canadians are asked to pay tribute to those people who contributed to our nation in the wars in which we have participated. Although not numerous, much to the credit of Canada and Canadians, those in which we have participated have been major endeavours. And in each, Canada stood in the forefront when it came to our contributions to the efforts.

Our Canadian forces have in recent years been involved in "peacekeeping" missions rather

than war. This is probably the most honorable task that any person could undertake. It takes a great deal more effort and patience to maintain peace than it does to make war. Thankfully, those wars in which Canada has been involved have not been instigated by Canada. Hopefully this will never happen.

Canada's significant efforts in war were only possible due to the many men and women who placed themselves in the service of our nation. They did what had to be done. And they did it with pride and honor. Remember them on November 11th.

Letters To The Editor

Dear Sir:
 Kenora, Ontario will mark its 100th anniversary in 1980 and preparations for the historic occasion are well underway.

Just one of the many functions planned for that year will be "Homecoming" designated for the period July 23rd to August 2nd inclusive, as the Centennial Committee is now in the process of establishing a register of persons who formerly resided in the town of Kenora.

Through the courtesy of your newspaper, we would ask ex-Kenoraites in your area to send their names and addresses to us so they may be placed on our mailing list. Such correspondence should be addressed to the: Kenora Centennial Committee, P.O. Box 1982-3, Kenora, Ontario P9N 2X5.

Mr. Frank Townsend
 Chairman 1982 Kenora
 Centennial Committee

Dear Sir:
 The Anniversary Committee of our school is trying to locate all students of the school for the last 50 years. Do you attend Moose Jaw Technical High School, Tech O'ford-Collegiate or A.E. Prescott Technical High School?

We want you to attend your 50th Anniversary

July 9 - 12, 1981. This "welcome home" is planned for all former teachers and students. For further details please send your name and address and those of your friends and relatives for A.E. Prescott Technical

High School, Anniversary Committee, 140 Rose Street, East, Moose Jaw, Saskatchewan, S6H 0G5.

Canfarm Services Offered

"We're confident that farmers who use our services for one year will want to become lifetime customers. That's why we're giving all new customers who sign up in 1980 the chance to use our services at half the normal price for the first year."

This statement by Canfarm's Western Regional Manager, marks the start of a new promotional program for Canfarm.

The program we've developed will work for both farmers and our agencies. Canfarm has been steadily building the number of accountants and consultants who have joined as Agencies for the Canfarm service.

These accountants are firmly committed to the agricultural industry. They realize the complexities of the farm business and are dedicating themselves to

helping farmers manage the financial business side of their operations. The agency and its services through some selected farm consultants and the many accountants and bookkeepers who are playing an increasingly important role in the farm business.

The program is a team effort between Canfarm and the agencies, to offer farmers a complete farm management and record keeping service under the best computer technology.

Canfarm is now in its second year of operation as a farm co-operative. For more information, contact your information, contact your agency or Bob Funk, Alberta Service Manager, IIDA, 1120 - 53 Ave. N.E., Calgary, Alberta or telephone 274-5881, Calgary.

4-H On The Move

By Ed Mason, Regional 4-H Specialist

Today I would like to think of you as 4-H leaders. 4-H leaders are those people, either parents or interested adults, who volunteer their time to work with 4-H members. These people are very important to the future of 4-H, therefore they volunteer their time to help. They may be general club leaders, which require the majority of their time. But, they are interested in and committed to the future of 4-H, therefore they volunteer their time to help. They may be general club leaders, which require the majority of their time. But, they are interested in and committed to the future of 4-H, therefore they volunteer their time to help.

On Saturday, October 25, 21 interested leaders, members and alumni gathered at St. Paul to attend an Alberta Wheat Pool Special Event. Sponsored by the Wheat Pool the program centered around a theme of "4-H is the Righter". Participants discussed questions such as "What changes and trends can we anticipate in the 1980's?", "How will rural life and agriculture change?" and "Considering these changes, what skills will young people need as 4-H members and as citizens to deal with life in the 80's?"

Participants felt the day was very worthwhile and made some of the following recommendations:

...that 4-H membership is decreasing, therefore 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

...that 4-H should focus on short term projects so people don't have to commit themselves for long periods of time.

CHAPTER VII

Recent Parishes and Missions ALONG THE C.T.P.

A HISTORY OF THE CATHOLIC CHURCH IN VIKING

The first parish in the district was established in 1874. It was named St. Mary's and was the first of many parishes established in the district. The parish was named after the Virgin Mary, the mother of Jesus Christ.

The first priest in the district was Rev. Father F. X. Tink. He was born in Ireland and came to the district in 1874. He was the first of many priests who served the district.

Rev. Father F. X. Tink was the first priest in the district. He was born in Ireland and came to the district in 1874. He was the first of many priests who served the district. He was a very good priest and was loved by all who knew him.

The first church in the district was built in 1874. It was a small wooden church and was the first of many churches built in the district.

The first school in the district was established in 1874. It was a small wooden school and was the first of many schools established in the district.

The first cemetery in the district was established in 1874. It was a small wooden cemetery and was the first of many cemeteries established in the district.

The first hospital in the district was established in 1874. It was a small wooden hospital and was the first of many hospitals established in the district.

The first library in the district was established in 1874. It was a small wooden library and was the first of many libraries established in the district.

The first newspaper in the district was established in 1874. It was a small wooden newspaper and was the first of many newspapers established in the district.

The above page is taken from a book on The History Of The Catholic Church in Central Alberta which was compiled by Bishop Legal in approximately 1914. This page deals with the history of the Viking Parish and settling missions.

Vialta Lodge News

Mrs. Evans enjoyed a visit from her son and family of Kelowna, B.C. - Barry, Gladys, Barry and Susan Evans.

Mrs. Nellie Lank and Shirley Lank of Kamloops called on Mrs. Evans. Also visiting was her granddaughter Mrs. Terry Lank and Mr. Balder who took her out for the weekend.

Guests to our guests in hospital: Mrs. Hest in the University in Edmonton, Mrs. E. Johnson, Mr. C. Woder, Mr. Walters and Mr. Taylor who are all in our local hospital.

Visitors from home to see Mr. G. Allen and Mr. Mason were Mrs. and Mrs. Lamb.

Also calling on Mr. Mason was Adelaide Denton and Mary Newton.

Barley Growers Concerned With Marketing System

The Western Barley Growers Association is very concerned with the present state of the Canadian barley marketing system. All indications point to a program to force down or at least hold down prices paid to western barley producers.

Statistics Canada's September 5, 1980 crop report estimates barley production on the prairies at 647 million bushels, compared with 1979 production of 587 million bushels.

Despite this, the Canadian Wheat Board (CWB) has

been instructed to issue permits for export to all ports of U.S. barley. At the same time there has been a dramatic reduction of export prices this year (to Sept. 10, 1980) at 171,500 tonnes, compared to 680,100 tonnes for the same period.

While western barley producers are forced to sell in eastern Canada at its soft corn-competitive pricing formula that is some \$80 to \$40 per tonne below export prices, Ontario producers are being allowed to export barley (perhaps purchased from the prairies) at the stronger export price.

At the same time, prairie producers are prohibited by the CWB from exporting their own production, even to the U.S.A.

The Western Barley Growers Association feels that it is time that the prairie producers must be allowed the same freedom to also export their own production.

Uniform To Hold Forums

Uniform, Alberta's largest general farm organization, will again conduct a series of farm forums throughout the province this fall.

Adverse harvesting conditions delayed the start of the series which is now expected to be completed by mid-December.

Forums will be held in most of Uniform's 67 districts with the primary objective of providing individual producers with the opportunity of contributing to

policy changes that may be effected at the annual convention.

The forums are intended to facilitate a flow of information from producers to the executive level those who are responsible for implementing action and policy which reflects the wishes of the majority of the farm community.

All farmers and ranchers, members and non-members alike, are invited to attend and take part in discussions on current agricultural mat-

ters and to assist in setting the organization's course for the coming year.

The organization is hopeful that many non-members will take advantage of the opportunity to learn how and why Uniform functions, and to what end.

Senior elected officials will be present at all forums and along with Uniform regional and district representatives, will answer questions and take part in discussions on any topic related to the agricultural industry.

Forums are open to any topic, but to provide a base for discussions, papers have been prepared on a number of subjects that include land use, surface rights, membership and agriculture in

today's economy. Declining membership has been a problem in recent years and it is also hoped that those attending forums will be able to add new ideas to plans for a general canvass for membership which will take place early next spring.

As well as Uniform officials, representatives of commodity associations and co-operatives will also be invited to attend and participate in plans for a general canvass for membership which will take place early next spring.

Dandelions In The North

Dandelions are a nuisance to many Canadian homeowners but to farmers in the Peace River region of Alberta and British Columbia used herbicide on dandelions, 2,4-D has a very

serious performance against the weed in the Peace River area.

To help overcome this problem, Agriculture Canada scientists at Beaverlodge, Alberta, are testing the effect of soil moisture levels on herbicide applications. The scientists expect that soil moisture is a critical factor in the year weed control.

When complaining to store or manufacturer doesn't work, you should send a copy of your letter to the Better Business Bureau, which will get in touch with the firm.

"Hire-A-Student" Releases Final Statistics

The Alberta Hire-A-Student Program placed 34,274 students in a variety of jobs throughout the province this summer. The 48,064 students reg-

istered with Alberta Hire-A-Student employment offices represent an increase of seven per cent over 1979. However, actual job placements were four per cent less this year.

Primary reasons for the lower number of placements were the drop in residential construction activity throughout the province and the levelling off of activities in the service industry. Large amounts of rainfall in August may have reduced the number of outdoor jobs available.

Figures and details are contained in the program's final statistics released by Jim Hoffman, minister of Alberta Advanced Education and Manpower, and Lloyd Aswerthy, minister of Employment and Immigration Canada.

Hire-A-Student is a summer youth employment program sponsored by local community groups, the Alberta Chamber of Commerce and the federal and provincial governments. The program assists students in finding summer jobs by providing information on effective job search techniques, encouraging employers to hire during the summer months, and matching suitable students with existing employment vacancies.

Increased funding to the 1980 Alberta Hire-A-Student program allowed the opening of six additional offices and the hiring of 18 new staff. This was done to improve the quality of service offered to employers and registered students.

The 1980 Hire-A-Student program operated out of 59 offices staffed by 181 students throughout the province. A Hire-A-Student Advisory Council composed of representatives from the three sponsoring agencies co-ordinates the work of these offices and serves as a communications link and advisory resource for local communities.

In September, E. Bill Smith, chairman of the Advisory Council announced the expansion of the council from five to nine members. This increase improves the regional representation of the Chamber of Commerce members. The objectives of this council include promoting the Hire-A-Student program on a year round basis, assessing the program and recommending changes.

Both ministers praised the cooperation shown by the private sector in hiring students. They agreed that a key factor in the continuing success of the Alberta program is the support given by the local Chambers of Commerce, other community groups, and the public at large.

Strawberry Plains W.I. Notes

The Strawberry Plains W.I. held the regular meeting on Wednesday, October 18, at the Paxton home. The president - Betty Paster called the meeting to order at 8:45 p.m. The meeting was held in the usual and opened with the reading of the minutes of the last meeting.

A letter was donated to a victim of a recent house fire in Iran.

For further information, contact Gloria Leraand, Home Care Co-ordinator, Vegreville Health Unit (632-3331, collect).

The meeting adjourned and a delicious treat was served by Betty King.

Irma Minor Hockey To Hold Registration

The meeting to recognize hockey for women was held in the arena on October 29th. There were some of the highlights from that meeting.

Minor Hockey will open to the youth again this season. Evelyn Larson has generously consented to act as purchasing agent. Evelyn would like to have a general

clean-up of the book on registration day, November 17th. Members please keep this in mind when you pick up your child at the arena, plan to help clean the book well.

Coaches for the new season are pretty well the same as for the previous year.

There will be a swap sale on Registration Day for

those who wish to trade equipment.

The Minor Hockey executive for the coming year are as follows: President - Charlie Sney, Vice-President - John Gault and Jerry Mark, Secretary - Treasurer - Margaret Burr. We are all looking forward to meeting their active and happy hockey season.

AGRICULTURE WEEK

As most of you probably know, Agriculture Week was last week, October 27 to 31. It's nice to have some time set aside to honor and remember those involved in agriculture. Apparently one farmer now leads about seventy people. Now that should make the farmer feel mighty important.

The purpose of Agriculture Week is two-fold: to increase the awareness of our city friends of the im-

portance of agriculture and its potential and consumers in the production of food and to provide producers with information that will better equip them to effectively communicate the importance of agriculture in the economy.

The five main goals of Agriculture Week are: 1. to focus public attention on the importance of agriculture; 2. to foster educational programming that will create an appreciation of agriculture; 3. to build an agricultural industry resource; 4. to recognize achievement in agriculture; 5. to involve education, agencies, organizations, institutions, and the media in promoting agriculture.

Agriculture is certainly changing fast. But a lot of farmers survive year after year. It's not hard to believe that agriculture in 1980 differs from 1960 agriculture. More and more can barely believe how agriculture in 1980 differs from 1960 agriculture. More and more can barely believe how agriculture in 1980 differs from 1960 agriculture. More and more can barely believe how agriculture in 1980 differs from 1960 agriculture.

Irma Students Receive Awards

Home and School President, Della Nilson welcomed family and friends to the annual awards presentation.

Principal Dick Mitten introduced each member of the Irma teaching staff. He then gave a summary of the awards to be presented.

Following is a list of the winners in each category:

Miss Laseur handled the presentations at the grade seven level and presented the subject award to both Doug Hollinger and Robbie Pelan.

Highest Academic Achievement went to Rhonda Levig while the Most Effort and Consistency award was captured by Linda Larson.

Rhonda Levig also was presented with the Citizenship award. Ronnie Boomhower and Darcy Lehoux both received the spec-

ial award for Perfect Attendance.

In the grade eight section we had Mr. Jamison presenting Kirby Prior with the subject award - Math.

Highest Academic Achievement was awarded to Sylvia Rasmak.

Lyndon Idlings received the award for the Most Effort and Consistency while Vicki Nilson was selected for the grade eight Citizenship honors.

Perfect Attendance records were presented to Martin and Ransley Boomhower.

In grade nine we find the following selected for awards:

Cammie Lien - Math; Carrie Lien - Highest Academic Achievement; Sherry Fuder - Most Effort and Consistency; Lella Glasgow -

Citizenship; Carrie Lien - Leonard Laseur Memorial Award - 1980.

Mr. Allen presented the preceding awards to the grade nine students.

Following up with the grade ten students we had Mrs. McRoberts making the presentations to Dawn Koller - subject award - Typing 10;

Highest Academic Achievement - Carolyn Erickson;

Most Effort and Consistency - Karen Newton; Citizenship - Carolyn Erickson;

Perfect Attendance - Leigha Glasgow.

Grade eleven found Kim Olson receiving the subject award for French 20, while Paul Idlings received the Highest Academic Achie-

Mrs. McRoberts presents Terri Moore Memorial Trophy to Bob Allen. L. Jones Photo

ment award and Sherry Fischer received the Citizenship honors.

The presentations of the grade eleven students were handled by Mr. Nash.

Mr. Mitten, Principal of Irma School presented the Grade twelve subject award to Lynn McKee - Chemistry 20.

The citizenship award was presented to Lori Prior on behalf of the entire grade twelve class.

Miss Laseur presented Students Union Awards for Most Contribution to Lori Prior and Lynette Barnes.

Mrs. Jamison made recognition to Sherry Fischer, Kim Olson and Susan Ho for work well done on the year handbook and yearbook.

Mr. Hector and Miss Debbie Laseur presented Judy Clever, Darren Archibald and Mrs. Ruth Jamison with plaques for the successful completion of their Irma to Edmonton run.

1979-80 Music Awards were presented to Karen Newton - a plaque for outstanding contribution from senior band member.

The Aletha Glasgow Memorial Award to Bob Allen.

Outstanding Achievement for Junior Band member went to Sylvia Rasmak.

The Heather Crabb Memorial Drama trophies were presented to Kim Olson for best actress and best actor went to Bob Allen.

The William Walker memorial math award was won

by Barbara Smith.

Our Pioneer Memorial trophy to Robert Hall and Robbie Pelan.

Sportsmanship Awards were presented to Vicky Nilson and Elaine Levig for their high boys.

Senior high Sportsmanship Awards went to Charlene Landmark for girls and Bob Allen for the boys.

The Terri Moore Memorial Award for being a good sport went to Bob Allen and was presented by Mrs. McRoberts.

Mrs. McRoberts made special note that each and every student in the Irma School deserves recognition for without their efforts and regular attendance, it would not be possible for these people to gain the recognition they have.

Mrs. McRoberts (right) presents Heather Crabb memorial awards to (right to left) Kim Olson - best actress and Bob Allen - best actor and nominees Lori Prior and Carrie Archibald at the Awards Night held in Irma on October 27th. L. Jones Photo

Mr. Mitten (right) of Irma School gymnasium (teacher presents sportsmanship awards to: (right to left) Carrie Lien - nominee, Vicki Nilson - winner, Ian Dumber - nominee, Elaine Levig - winner. L. Jones Photo

Mr. Allen (left) and Grade 9 nominees and award winners: (left to right) Mona McKay, Sherry Fuder, Cammie Lien, Tracy Fletcher, Carrie Lien, Cathy Craschinski, Steven Rasmak, Lella Glasgow, Blake Prior of Irma School. L. Jones Photo

Mr. Mitten (left) presents the Grade 12 awards to (left to right) Lori Prior, Lynn McKee, Kim Burton, Bob Allen, Mrs. Cressy accepting for Susan Cressy, and Mrs. Lockhart accepting for Sharon Lockhart. Miss Laseur was also present for the ceremonies which took place at the Irma School on October 27th. L. Jones Photo

This past week in the Legislature has been an eventful one for Albertans. On Monday, October 27, Mr. Lougheed read into the record a letter that he delivered to the Prime Minister dated October 17.

Mr. Lougheed was concerned about the state of the energy negotiations and said that he would have been prepared to fly to Ottawa within hours' notice to attempt to reach an agreement. On October 28, Mr. Lougheed received a telephone reply from the Prime Minister, which stated that there was no room for negotiation and the budget was locked up.

Earlier this week, Hon.

M.L.A. Report

by Tom Lyons

D.W. Schmidt, Minister of Agriculture, announced that the week of October 27 through to the 31st, was designated agriculture week in Alberta. The purpose of this week was to increase Albertans' awareness of the importance of agriculture.

The Federal Budget was brought down on Tuesday, October 28th, and has affected Alberta tremendously. On Thursday, October 30, Premier Lougheed gave a speech on Alberta's response to the Federal Budget. He stated that the budget was an outright attempt to take over Alberta's natural resources and further strengthen Ottawa's dominance over Provincial

rights.

The Federal Budget would have severe repercussions for the people of Alberta in the curtailment of jobs, in exploration and in ownership interests. Mr. Lougheed has responded to the Budget in three important ways. They are as follows:

1. Alberta will reduce the rate of production of petroleum to 50 per cent of capacity.

2. If there is a shortage in any part of Canada, Alberta will supply the necessary oil or natural gas.

3. The Oilands and other new projects will be held in abeyance until further notice.

(b) the initial limitation be approximately 60,000 barrels per day and the maximum limitation be approximately 100,000 barrels per day; and

(c) the limitation of production be in effect only during such time as the Lieutenant Governor in Council is satisfied that replacement barrels of oil can be purchased by the Federal Government, its boards or agencies or anyone on its behalf in the international oil market.

My constituency office in Vermilion is open weekdays from 10:00 to 12:00 noon and from 1:00 to 5:00 p.m., and I am available by telephone in 583-4302. Shirley DeWitt is in charge there.

Chacutenah Manor News

Mr. Dennis Burke of Education, spent several days last week with his grandmother, Mrs. Cook.

Mr. Don Simmenauer of Ottawa is visiting with his mother.

We are having eight "Trick or Treaters" on hand.

Echo Rodino News

On Awards Night at the Irma School Mary Ann Holt received three awards: highest mark in English 10, highest mark in French 10 and highest Academic Achievement while her brother Jon received the highest mark in Social 20.

Dorcen Proulx made a welcome trip to Edmonton during the week.

Dr. and Mrs. B. Johnson and Dr. and Mrs. Jack Swinton of Everett, Washington, were supper guests at the Holt Ranch.

Yvonne and Teresa Greenwood took a day of shopping in Calgary.

While hunting in the area Errol Beckett and Carl Lang of Wainwright visited

against the people of Alberta in the Federal Budget and the proposed energy program of October 28, 1980 the Legislative Assembly of Alberta recommended to the Lieutenant Governor in Council that it is in the public interest to make regulations pursuant to the Mines and Minerals Act fixing the maximum amount of petroleum that may be produced under Company agreements and recommending that:

(a) any limitation on the maximum amount of production of petroleum be only implemented after a minimum of three months' notice and

(b) the initial limitation be approximately 60,000 barrels per day and the maximum limitation be approximately 100,000 barrels per day; and

(c) the limitation of production be in effect only during such time as the Lieutenant Governor in Council is satisfied that replacement barrels of oil can be purchased by the Federal Government, its boards or agencies or anyone on its behalf in the international oil market.

My constituency office in Vermilion is open weekdays from 10:00 to 12:00 noon and from 1:00 to 5:00 p.m., and I am available by telephone in 583-4302. Shirley DeWitt is in charge there.

Irma Seniors Entertain Mannville Seniors

On Wednesday, October 29th, approximately sixty senior citizens from Mannville responded to an invitation from Irma New Horizons Club and attended a pot luck dinner at the Irma

Drop in Centre. There was a good turnout from Irma - in fact it was a full house.

The President - Georgia Egan welcomed the visitors and after dinner her and Edith Cockcroft conducted a sing-song. Following the sing-song, Phyllis Craig gave a showing of the slides of her and Adelaide Dunsen's trip last year to Australia and Tasmania. These were very interesting and much enjoyed.

Phyllis had a map and before showing the slides, traced the route they travelled and the places at which they had stopped. During the showing of the slides she gave an interesting commentary.

Lunch was served and the visitors expressed their appreciation for the enjoyable afternoon.

"Start Saving on Your Energy Dollars!"

These days it makes more sense than ever to shop wisely for natural gas and energy. And the best place to start is in your own home. Our Home Guide to Energy Efficiency points out expensive energy wasters both inside and outside your home. It's a complete energy-saver's kit containing this useful information:

- Energy Efficient Living
- Hiring an Insulation Contractor
- Maintaining an Efficient Heating System
- Weather-Proofing Your Home
- To receive your Home Guide to Energy Efficiency, simply fill out and mail this coupon. Don't delay. The sooner you send yours, the sooner you start saving!

Lenora Golka Laid To Rest

Mrs. Lenora Golka, 68, Edmonton, formerly of Viking passed away September 12, 1980, at the Royal Alexandra Hospital.

Mrs. Lenora Golka was born October 23, 1912 at Pailin, Nebraska. U.S.A. She was married in marriage to John N. Golka of Ord, Nebraska.

In 1918 the couple emigrated to Canada with their two children, Floyd and Alvin, and upon settling in the south of Viking in the Pragma district. Here the family of 8 children and always took an active part in the community and church affairs. Mrs. Golka was the first President of the Pragma Catholic Women League of Canada.

Four years after the death of her husband John in 1940, Mrs. Golka left the farm and operated the Tumble Inn Cafe in Viking for 5 years. She moved to Edmonton in 1961 and was involved in a successful enterprise as - Strathern Ladies Wear, sales and representative for Avon and Stanley Products and others.

Mrs. Golka was a member of Immediate Heart Catholic Church and Holy Rosary Parish Church, Edmonton. She was a member of the Catholic Women's League of Canada for 45 years and was awarded with an Honorary School in 1976 for 40 years of faithful service. Mrs. Golka was active in establishing the founding of Pragma Cemetery Fund.

She leaves to mourn her passing her son Floyd and wife Sally of Mesa, Arizona, son Alvin and wife Elaine of Viking, daughter-in-law Nellie Golka, Viking, daughter Clara Grudinski and husband Benito of Edmonton, son Louis and wife Charlotte of Hardisty, son Ernie and wife Kay of Viking, daughter-in-law Karen of Hardisty, 28 grandchildren and 19 great-grandchildren.

Lenora Golka Laid To Rest

Funeral services for Mrs. Lenora Golka will be held at 10:00 a.m. on Monday, September 15, at the Royal Alexandra Hospital. The Rev. Father MacNeil will officiate. Burial will be in the Holy Sepulchre Cemetery.

Prayer services and visitation will be held at 10:00 a.m. on Monday, September 15, at the Holy Sepulchre Cemetery. The Rev. Father MacNeil will officiate.

Canada Council Opens Competition

The Canada council today announced the opening of the 1981 competition for the book award program. The program, established in 1972, provides lists of Canadian books in English or French to be reviewed by groups and organizations in Canada. Twelve hundred copies of books are available in French. Applicants may choose from three types of books: fiction, non-fiction, or poetry. The competition is open to all Canadians. The deadline for entries is December 31, 1980.

Missionary To Speak In Irma And Viking

Church leadership training is a priority, reports Rev. James McKeithan, who will be speaking at the annual missionary conference of the Irma Alliance Church and the Viking Alliance Church. The public is invited to attend all sessions. Services at Irma will be held at 7:30 p.m. on November 11 and 12, and at 7:30 p.m. on November 13. Mr. McKeithan, with the Christian and Missionary Alliance in Peru since 1968, will speak about leadership training at the Alliance Theological Institute in Lima, Peru.

Mr. McKeithan is a graduate of Seattle Pacific College, Seattle, Washington (B.A. degree) and of Fuller Theological Seminary, Pasadena, California (M.Div. degree). He also attended Prairie Bible Institute, Alberta, and Alliance Theological Seminary, New York, New York.

Founded in 1887, the Christian and Missionary Alliance is an evangelical denomination with over 10,000 churches and an inclusive membership of more than one million in 47 countries, with an overseas missionary staff of 978.

To be eligible to receive a book list, the group must have a minimum of 10 members. The books available to the public are those that do not have the books. Groups which have received books in the past are eligible to receive more books. The books are available in French. Applicants may choose from three types of books: fiction, non-fiction, or poetry. The competition is open to all Canadians. The deadline for entries is December 31, 1980.

Learn about the Children who need you

Alberta children who need foster homes aren't far away; they are all somewhere else in the province; in fact, right now some of the children whose greatest need is for a stable, caring home environment are here in our own area.

The homes they need may be temporary in some cases, in others a longlasting period of fostering will be necessary. Perhaps you have considered becoming a foster parent to children like these, but you may not have had encouragement to do anything about it. But now, because the need is so great and the opportunity is so personal, you may want to learn more about what is involved in being a foster parent.

If so, please join us for the following evening of information-sharing and discussion on the subject of foster care. Everyone is welcome.

Wednesday, November 12

Mazankowski Urges Extension Of Program

The Honourable Don Mazankowski, M.P. for Vegreville, has called on the government to extend the Small Business Development Bank's program for a minimum of one year past the December 31, 1980 deadline.

With interest rates continuing at high levels, the small and medium-sized business in Canada continues to suffer the most.

In a letter to Finance Minister MacLaren urging that the program be extended to the December 31, 1981 deadline, Mr. Mazankowski noted that the Progressive Conservative government first implemented this policy in its Budget last December. The Budget's deficit and subsequent election caused significant delays in the implementation of the program. The result is that much of the S.B.D.B.'s potential benefit for the small business sector will be wasted unless they are allowed to continue.

The Vegreville M.P. pointed out that a number of firms in his riding have cancelled expansion plans

Registration For Minor Hockey Extended

The annual meeting of the Viking Minor Hockey Association was held on Saturday afternoon, November 1st.

Registration for Minor Hockey members was held previous to the meeting, during the hours of 1-4 p.m., with approximately 80 registrations completed.

Although the above figure indicates a definite decrease in membership, it is felt that

this is not a true picture. There have been a number of inquiries regarding late registration.

The president of Minor Hockey, Gordon Bodnar, has advised that registration forms are available from his office at the U.C.I. elevator and must be completed and returned to the executive or the appropriate coach, complete with fees before the player is

allowed to take part in practice. It is hoped to begin action for some level will commence on the 15th of November.

The executive for 1980-81 remains unchanged with the same last year with Gordon Bodnar and Brian Weisbach as president and secretary.

Treasurer respectively, George Ritchie will fill the position of vice-president.

The year 1912 and today have a total membership of over 50,000. They have a national charity objective - the Elks Purple Cross Fund.

This fund is a joint undertaking by the B.P.O. Elks of Canada and their auxiliary the Order of the Royal Purple Cross.

The Elks Purple Cross Fund aids any child under the age of 19 for any reason whatsoever provided there is a demonstrable financial need. In recent years, this fund has expanded to encompass the Elks Dual Detection and Development Program.

This is a national program focusing on the earliest possible identification and intervention of hearing impairment.

A spokesman for the Wateringbury R.C.M.P. reported a very quiet week.

Police received a number of minor complaints, and investigated 5 minor motor vehicle accidents last week.

No injuries were sustained in the accidents, although motor vehicle damage was extensive in some cases.

R.C.M.P. reported a very quiet Halloween in the Viking area, receiving only two complaints.

The Tofield R.C.M.P. detachment also reported receiving no major complaints.

The Viking R.C.M.P. detachment was instituted in 1946 and today has a membership of 40.

Irma Volunteers Respond To Fire Call

At about 3 p.m. on Sunday afternoon, the fire alarm sounded and as usual, within a very few minutes the fire alarm fire engine, with volunteer crew were on their way to fight the fire north of the C.N.R. right-of-way south of the Stuart Fenton buildings.

After getting the blame under control, which took quite some time, the engine returned to Irma to tank up and refill.

While this was in progress, the alarm wailed again and word was received that

fire was burning east of the Hawkins road on Section 10. So, the engine and crew were away again. This time the most of the fire had to be fought by hand as parts of it were inaccessible to the fire engine. Finally at about 6 p.m. the engine and crew arrived back at the Village and reported the fire had at last been extinguished.

It was assumed that the fire was started by a hot box on a passing train. A fire in the same general area a few weeks ago destroyed some pasture and took several hours to control.

Viking Group Proposes Land Development

At the November 5th meeting of the Viking Council, Vegreville lawyer Lowell M. Starke presented a proposal for the development of the industrial/commercial land presently owned by the Roddicks. Mr. Starke made the presentation on behalf of a group of Viking residents. Mr. Starke did not disclose the names of his clients, as he said that they wish to remain anonymous at this time.

The brief proposes a joint development undertaking by the "group" and the Town. The major division of the responsibilities in the development calls for the "group" to purchase survey and grade the lots, as well as market them, while the Town would be responsible for providing all services to and within the development. The brief designates the area as 11.75 hectares, with 30 lots slated for development. There would be 9 highway commercial lots and 24 light industrial or secondary commercial lots. No residential lots would be developed in the area in keeping with the Viking Town Plan.

The brief calls for partial development of the area now to meet immediate needs, with more development when deemed necessary. The brief states that the "group" wants a development agreement with the Town which would allow for development in stages. The brief asks that the Town construct all utilities and to provide the service road to the area. It also asks that the Town relocate the water drainage ditch which comes from the southwest area. The "group" asks that gravel roads be built and that the curb and gutter would not be necessary at this time.

The brief states that "one of the prime desires of the owners would be to develop the land on a competitive basis to promote development within the Town of Viking."

Types of uses suggested for the land would be a welding shop, a body shop, car wash, a machinery dealer, a carpet store, a truck terminal as well as a number of other such commercial outlets.

The brief states that the location of the land at the intersection of Highways 14 and 36 was very advantageous to its development. It also notes the proximity of the rail line for possible spur line to the industry. The possibility of improvements to Highway 36 were also noted.

The "group" sees a number of advantages to the development. There would be 9 highway commercial lots and 24 light industrial or secondary commercial lots. No residential lots would be developed in the area in keeping with the Viking Town Plan.

Viking Council Hears Pipeline Report

The Town received notification from Ous-Am Services Ltd. of Edmonton that the legal survey of the Longhills land has been completed and that the subdivision plan for the area has been submitted to Alberta Municipal Affairs. From there, the plan will go to the Director of Surveys and then to Land Titles Office for final registration.

A request by the Haman, who to receive two lots in their subdivisions from R-1 or R-2 was also placed before Council. The Haman, who had been a demand for single family residential lots while multi-family lots are not in demand. The remaining would allow for single family units to be built on these two lots.

Council also received a letter from the owners of the other R-1 lot in the parcel stating that they were against any rezoning. They felt that rezoning would decrease the value of their lot at this time.

Council decided to table the matter until the next meeting so that information could be gathered as to actual demand for lots and the construction time frame on the R-1 lot where it was noted. Council considered the single family lots were in demand, but that this may lead to a housing mix which contradicted the Town Plan.

Council was not able to complete the large agenda which had been on the first meeting, thus necessitating a second November meeting on the 19th. Viking residents are reminded that these meetings are open to the public.

Remembrance Day Services Held

On November 11, the Viking Branch of the Royal Canadian Legion held their annual Remembrance Day Service. Legion members, along with members of several Viking youth groups gathered at the Legion Hall and marched to the Community Hall where the services were held.

The service began with the playing of "O Canada," followed by a Prayer of Invocation and The Lord's Prayer, which was led by Pastor The Reverend of God.

Following the service, the Honor roll was read, and several groups held wreaths in memory of those who gave their lives for our country.

Three stonemasons then passed for the traditional two minutes silence. This was followed by the playing of "The Last Post."

The hymn "Lead On, O King Eternal" was then sung. The service ended with the benediction by Rev. Bennett, and the singing of "God Save The Queen."

At the first regular meeting of the newly elected Viking Town Council, Doug Thorburn of Olson Engineering was on hand to discuss the new water pipeline and parking stalls for the two Town parking lots.

Mr. Thorburn reported to Council that the pipeline is progressing well, with two large backhoes working simultaneously. He noted that all easement agreements have been finalized except for one, which hopefully will be signed before the right-of-way is needed.

Mr. Thorburn also presented estimates for the placement of pre-cast concrete abutments to be placed in the parking lots beside the Civic Centre and at the end of Main Street. The installed price of the curbs for the Council parking design was \$2,600. Uninstalled price was about \$1,650.

The parking design for the lot at the end of Main Street proved unsatisfactory to the Council. The design mainly accommodated cars, while the Council felt that this lot should provide adequate parking for farm vehicles. Council also expressed concern about problems with snow removal if the concrete curbs were used.

The Council decided that the lots should be fenced to provide adequate snow protection, and that lines should be painted on the lot for parking spaces. They rejected the idea that the lot by the Civic Centre building should be lighted. Council was determined the cost of a few, fluorescent lighting fixtures for these lots.

VEGREVILLE HEALTH UNIT

is seeking

INTERESTED PERSONS

to serve as members of the

HOME CARE MANAGEMENT COMMITTEE

This committee acts in an advisory capacity to the Health Unit Board regarding development, policies and operating guidelines for the Home Care Program.

The Coordinated Home Care Program is still relatively new and rapidly expanding. Community input is important in developing a vital program which will meet the needs of local residents and co-ordinate available services for people receiving rehabilitative and/or nursing care at home.

The committee consists of 10 - 12 members from various parts of the Health Unit.

Interested clubs, organizations or individuals please submit nominations in writing to the Chairman, Vegreville Health Unit Board, Box 99, Vegreville, Alberta T0B 4L0 Attention: Home Care. **DEADLINE: NOVEMBER 24, 1980.**

For further information, contact Gloria Leraand, Home Care Co-ordinator, Vegreville Health Unit (632-3331, collect).

VEGREVILLE HEALTH UNIT

Goals of Home Care:

- *To provide nursing and rehabilitation services to people in their homes, under supervision of their doctor.
- *To provide liaison between health and service agencies so people can obtain appropriate care and support services.
- *To provide continuity of care following hospital discharge, where needed.
- *To relieve undue strain or assist people in caring for a family member.

From The Ground Up

District Agriculturist
Bill Brass & Jerome Manchur

Did you know that the air in the average home in Alberta is too dry to please most plants? Except for cacti and succulents, plants require a fairly moist environment to function at their peak.

Humidity levels of 40 to 60 per cent are ideal for human comfort and health, but tropical foliage plant experts have shown that plants are at their best when

the relative humidity is close to 70 per cent. However, certain plants such as cacti, sansevieria, the bromeliads, philodendrons and schefflers will survive in a relative humidity that is as low as 35 per cent.

When plants do not have enough moisture in the air, their leaves are dull and have brown tips. These plants usually grow slowly. Hot, dry air also provides a perfect environment for red spider mites, thrips, and scale insects.

Alberta Agriculturist's horticultural specialist, Chris Campbell, suggests the following alternatives for increasing the humidity around your plants.

Use a large humidifier and adjust it to provide a humidity that will suit your plants. Cover the bottom of a shallow tray with gravel or pebbles and fill it with water. Then put your plant pots on the gravel, making sure that they do not touch the water.

Spray your plants regularly with a fine mist of water. You can get a special

mistifier from a garden center or you can use a squirt bottle like those used to disperse window cleaners.

Place your plants close together. This is a simple way of raising the humidity around them. Each plant will benefit from the moisture given off by the others.

Put your plants in a laundry room, bathroom or a room where the humidity is high. These areas all have high levels of humidity.

Use a terrarium or hotbed garden, both of which provide a moist environment.

Plants also need ventilation to be healthy. A small fan is an inexpensive way of providing ventilation for a large collection of plants. The amount of ventilation required by each plant species is often stated in plant catalogues.

Ventilation can also be provided by opening a window, but make sure your plant or plants will not be in a draft. Most house plants will wilt or shed their leaves if they are exposed to cold air or a draft. This is the reason that plants near doorways or in passageways often become ragged looking. Only hardy types such as sansevieria, schefflers and the bromeliads should be used in these locations.

Plants also need ventilation to be healthy. A small fan is an inexpensive way of providing ventilation for a large collection of plants. The amount of ventilation required by each plant species is often stated in plant catalogues.

Tax On Natural Gas Causes Rate Increase

The Federal Government, in its recent budget, announced a new tax on natural gas. As a result of the budget, Northwestern Utilities Limited is required to pay the Federal Government the following amounts for all natural gas received after the dates indicated: 30 cents per gigajoule (3.96 cents per Therms) - October 31, 1980; 42 cents per gigajoule (4.48 cents per Therms) - June 30, 1981; 56 cents per gigajoule (5.90 cents per Therms) - December 31, 1981; 70 cents per gigajoule (7.38 cents per Therms) - December 31, 1982.

The Alberta Public Utilities Board has approved increased rates for Northwestern Utilities to recover the cost of the Excise Tax from its customers. Therefore, Northwestern has increased its rates effective with November consumption by 2.95 cents per Therm. Each customer's bill

will include the lower rate for the days billed in October and the higher rate for the days billed in November.

Northern Utilities expects to sell about 2.2 billion Therms during 1981. Therefore, the Excise Tax paid to the Federal Government is estimated to be more than \$80 million during the year. Residential customers using 1975 Therms per year will see their 1981 gas bill increase by about \$70 as a result of the Excise Tax.

The monthly Budget Plan has been adjusted to reflect the higher rates resulting from the Federal Excise Tax. The payments are being increased so that the amount will balance by the end of the current Budget Plan period in April 1981.

Based on projected consumption in the six-month period remaining until the end of April, the increase in budget payments amounts to 28 per cent.

The Homemaker

By Maurine Bannan, District Home Economist
Lamb combines well with such spices as thyme, rosemary, mint, garlic, oregano, dry mustard, ginger, curry and nutmeg. Try combining lamb with tomatoes, green peas, onions, lima beans, squash and carrots.

TENDER LAMB - YOU'LL LIKE IT!

Fresh Alberta Lamb is a real treat anytime. Have you given it a try?

Alberta lamb, available at the grocery store, has a delicate delicious flavor and can be cooked in a variety of ways.

If you have never cooked or tasted lamb, you may be uncertain as to how to introduce lamb into family meals. Pick a favorite beef recipe and substitute lamb for the beef.

Like pork and beef, lamb is an excellent source of high quality protein. A 3 oz. serving of lean roast leg of lamb contains 300 calories, slightly lower than a similar serving of roast beef or pork.

Once you've introduced

lamb into family meals, you'll be enthusiastic about preparing and serving lamb in different ways.

Some of the topics to be

covered include: Do You Run Your Home or Does It Run You? Homesteading On the Horizon and What's Your Hangup?

The seminar begins at 10:00 a.m. on November 23. A fee of \$10.00 will be charged and lunch will be available at the College for a nominal fee.

So gather some friends together and venture out to the Vermilion for a rewarding day. If you would like more information on a registration form, please give us a call at 682-2654.

Lions Golden Manor Officially Opened

Opened on Thursday, October 30, Tom Chambers, Minister of Housing and Public Works announced recently.

Planned guests included: John Bialik, M.L.A., Vegreville; Harvey George Kuchel, County of Beaver 3; Mayor Larry Andrusch, Village of Ryley; Peter Shook, an Assistant Manager, Canada Mortgage and Housing Corporation, Edmonton Branch; Don Hutton, Project Manager, Alberta Housing Corporation; Rev. Dan Newell, Ryley United Church; Gordon Tunks, Minister of Ceremonies and President, Ryley Lions Club and Al Anders, Resident, Lions Golden Manor. There was also representation from the Ryley Lions Club and Handy Andy Construction Ltd.

Lions Golden Manor is an Alberta Housing Corporation project and is managed by the Ryley Lions Club. Architecturally designed

by AHC's own in-house architect, the one-story structure is comprised of eight duplexes, each with one-bedroom suite. Common amenities include a furnished lounge area, laundry facilities and tenant parking.

Alberta Housing Corporation is exclusively responsible for financing the project. Operating deficits are shared jointly by the Federal and Provincial governments.

The residence was built by Handy Andy Construction Ltd. of Edmonton, at a cost of \$282,500.

The official opening was held at the Ryley Community Hall and the general public was invited to remain for refreshments and to tour the residence following the ceremonies.

New Potential For Alfalfa Production

There are more than two million hectares of land in western Canada where alfalfa production is limited because the soil is too acidic.

But a research program at Agriculture Canada's Beaverbridge, Alta., Research Station could soon change this. Scientists there have

developed new strains of bacteria that can survive in acidic soils and help the alfalfa plants fix nitrogen from the soil.

Western farmers should be able to buy inoculants of the new bacteria strains in next year's alfalfa seed.

Holden Chamber Meets

The Holden and District Chamber of Commerce held their regular meeting on November 4. There were 14 people attending. President Kevin Stanborough chaired the meeting. Councillor Anna Scherchke introduced Barry Walker the new manager of the Regional Arts Center. Barry Walker reported that he had several ideas, and will soon book various activities at the Arts Centre. Barry welcomed anyone who may have ideas for the centre to visit him.

The finishing touches are being put to the four sheets of ice at the Viking Carling Rink this week in preparation for the upcoming humpal this weekend.

Two Break-Ins At Bruce

A number of local people attended the wedding reception in honor of Connie Triska and Neil Dewar which was held in the National Hall at Vegreville.

Two break-ins were reported over the weekend. Early Sunday morning Ken's Garage was entered by smashing a window and a small amount of cash was taken.

The Bruce Hardware also reported some missing items after entry was gained by forcing a merchandise door and breaking an office window.

Lillian Tunks, Gladys Doran and Grant Fredericks were in Kitchissippi on Thursday to attend the funeral of their son Lavin Gray who passed away on November 4.

They were accompanied by Ben Fredericks of Edmonton and Mrs. L. Fredericks of the Parkland Nursing Home. Mrs. Fredericks and Mrs. Gray who were twins, had celebrated their 96th birthday on September 17th.

Anyone interested in cutting is asked to attend a meeting on Tuesday, November 18 at 8:00 p.m. in the Recreation Centre. Bring along your good ideas.

The date for the Christmas Turkey Bingo has been tentatively set for December 12.

Vialta Lodge Celebrates 20th Anniversary

On Saturday, November 8th, Vialta Lodge in Viking celebrated the 20th Anniversary of its official opening.

Vialta Lodge held their anniversary celebrations in conjunction with their annual bazaar.

Quite a large crowd were in attendance for the occasion and for many the highlight of the afternoon was the "Annual Quilt Auction" which once again was headed by the familiar voice of Mike Zovutuk of Holden on behalf of Zovutuk, Sheeta and Hutchinson Auction Services.

The quilt auction is made possible through the efforts of some of the residents and other ladies from the Viking district who meet throughout the year for quilting sessions.

Visitors to Vialta on Saturday purchased quilts, baking, aprons, slippers and many other items. These handmade items keep busy during the months from one bazaar to the next.

The freshly baked pies, bread and cookies for the bazaar table are baked by cooks at the lodge with some being donated by staff members, families and friends.

The fish pond - rummage is always a popular attraction.

Many books of tickets were sold for the raffle this year with the lucky winners being Myrna Mackay and Stan Sorenson who received

the quilt and cushion respectively.
 The tables were always

occupied with many friends enjoying lunch and visiting. Everyone connected with

Vialta Lodge can be proud of the achievement of this very rewarding day.

Mr. Selmer A. Haaso (centre), Miss Kathleen Borthwick (right) and Mrs. Alice Holmes (left) took part in the celebrations at the Vialta Lodge on November 8. All three have been associated in various capacities with Vialta Lodge for the past 20 consecutive years, since it was opened in September of 1960.

Quinte W.I. Resume Card Parties

The last meeting of the Quinte W.I. was held on October 23rd at the home of Alice Holmes, at 8 p.m. with 11 members and one guest present.

The meeting began with the reading of the W.I. creed. The Secretary's and the Treasurer's reports were given next.

The old and new business was then dealt with. Included was the discussion of our card parties which will start on Saturday, November 16th. The second one is set for Saturday, January 10th, with one to be held every third Saturday after that. The card parties will be held at the Youth Centre and will begin at 8 p.m.

Lillian Arnett, Lois Crouse, Gloria Darling and Betty Dennett are on the first committee for the first card party.

The correspondence was dealt with next. The Quinter visiting committee of Harriet Newby and Ethel Macdonald gave their report. Rita Seiler and Lillian Arnett are on the November visiting committee.

Lillian Evans then gave a paper on Education. The birthday box draw was then made. Gloria Darling was the winner this month.

For Roll Call this month, we took of "Something I learned about shopping". The meeting was adjourned by Lois Crouse. The meeting ended with coffee and lunch.

Irma News And Views

There were many surprises and much laughter. Last night's head has always been noted as a place where people had fun.

On Friday afternoon, November 7, Hans Swanson and daughter, Gail McDermott, from Loughheed and had tea with Minnie and Jim Jackson.

On Thursday afternoon, Minnie and Jim Jackson visited Mrs. Dolly

Heard, who is recovering satisfactorily from injuries received in a fall on the sidewalk about ten days ago.

Yoga classes begin on Monday, November 10th, at 10 a.m. in the Drop-In Centre at Irma and continue for ten sessions. These sessions will be held on Monday and Thursday, with the same instructor as last year, Mrs. Mary Maguire. Those wishing to take part are asked to give their names to the secretary.

Optometrist Dr. D.A. Matheson & Associates, 200-Imperial Oil Building, 10025 Jasper Avenue, Edmonton, Alberta DR. B.C. NOLT will be in Viking at Medical Clinic Tuesday, November 18 for appointment.

Irma Royal Purple News

The Irma Order of the Royal Purple met for a special meeting on October 14 to vote on a new member and to have a practice for inspection at our next regular meeting.

Our H.R.L. Irma Guy opened the meeting in regular form. We had twenty-five members present including all officers.

Correspondence included a letter from the Chamber of Commerce regarding a donation for the Terry Fox Fund and a letter from Irma and District Business Assistance Fund requesting a donation to carry on this worthwhile project. These letters were dealt with and a donation of \$75 was given to the Terry Fox Fund, and a generous donation of \$500 given to Students' Assistance Fund.

We then voted on our new candidate, Marlene Kunkel, and also to attend our initiation at our next regular meeting. We then practiced our drills for initiation.

It was decided to contact Legion and offer to buy donators for lights in the hall.

H.R.L. Irma Guy then closed the meeting in regular manner, and all enjoyed fellowship over coffee cups.

Our regular O.R.P. meeting was held October 21, at 4 p.m. with H.R.L. Irma Guy in the chair. There were 27 members present.

We were honored by a visit from our District Deputy, Francis Overbo of Kinross.

All officers present gave their charges as requested. The minutes, bills, communications and reports were read, discussed and dealt with where necessary.

Our new member was then initiated and welcomed.

When complaining to a store or manufacturer doesn't work, you should send a copy of your letter to the Better Business Bureau, which will get in touch with the firm.

NOTICE

THE IRMA VILLAGE COUNCIL

Provides for the appointment of a Representative on the Irma Recreation Area Council, to represent the Electors of the Village. This representative is in addition to the elected representatives.

Persons interested in serving in this capacity should submit an application on or before November 28, 1980.

Applications will be received at the Village office.

D.D. Cressy,
Municipal Administrator
Village of Irma

THANK YOU!

The Management & Staff of the KINSELLA HOTEL

would like to thank George and Jean Klotz - Farmers Meat Market, Viking and Barker and Oakes Service Garage, Kinsella for the flowers and best wishes!

Thanks are also extended to all those who dropped in for our Grand Opening.

Special Services Planned For Irma United Church

There are many new programs and special services being planned at the Irma United Church.

November is our Anniversary Month, and we hope many will join in the celebrations.

November 30th, the children will be taking part in the service. December 7th is our Anniversary Sunday.

Our guest speaker is Dr. Gordon B. Turner, who is head of Evangelism for the United Church of Canada.

There will be a pot luck lunch following the service, as well as displays on the history of our Church and the children's crafts. November 24th is our Anniversary Supper.

In December the children will be taking part in the services on December 21. There will be a service of cards and lessons on Christmas Eve by candle light. Everyone is invited to celebrate the Christmas Season.

The New Year's Study Young Women's Study Group at the Kinsella, Corner Kinsella and 10th, and happily the youth groups will be meeting by then.

invite everyone to join with us for these special events. Thank you for your encouragement and interest.

Rev. Anna Gossau

New Horizons Hold Regular Meeting

Irma New Horizons regular monthly business meeting was held in the Drop-In Centre on Wednesday, November 13, at 2 p.m.

The meeting was called to order at 2:10 p.m. by the president, George E. Zager.

The minutes were read by Secretary Cyril Deed. The minutes were discussed and finally adopted as read.

Matters arising from the minutes were taken care of. The treasurer's report was given, received and filed. Committee reports were given and accepted.

A nominating committee was chosen to nominate a slate of officers for 1981. A date was chosen for the Christmas party.

An invitation from the Wainwright Seniors was accepted to visit them for dinner on Monday, November 17.

It was agreed that dining would take place on Friday afternoon, November 16th. These visitors to take part give their vote to Mrs. O. Zager.

Many other matters were discussed and decided. At the conclusion of the business meeting, cards (white), scrabble and Primrose were enjoyed. Elaine Tomlinson was the ladies high scorer in white, while Elaine Betsy was the low scorer. Max's high went to Alma Zager (playing as a man), and men's low to Jim Jackson. Ashley Murray won the scrabble.

Lunch was served and socializing enjoyed.

There are at least ten large craters on the earth's surface known to have been caused by meteorite explosions.

Use Of School Gym

Continued From Page 1

teaching today's teenager. Gifts portraying him providing insight into some of the situations and problems of today's young adults and music and singing sessions are other suggested activities.

Accompanying the written presentation was a list of terms or guidelines as prepared by the P.S.S. office. The guidelines included: see to the gymnasium only

through the gym door, gym should be worn by all, no smoking, eating, drinking or drugs, adult supervision at all times, parent involvement in program, supervision, and responsibility for clean up etc, following each session to be met by the users.

Correspondence was also read from Dennis Watson, principal of Viking School, indicating his support of the

proposed use of the gym facilities. Following a short discussion of the positive community response to activities supervised and carried through under the guidance of the P.S.S. director, the Board passed a motion allowing use of the Viking School gym as specified. This approval has been granted on a three month trial basis.

Increased Enrollment In Power Program

Registration for instruction under the Viking Power Skating Program was initially held on November 1st with only twenty-one registrations confirmed.

On the afternoon of November 17th, additional reg-

istrations were completed and instruction commenced with a total of 51 registered.

The positive aspect of this program can be seen through the improved attitude of the skaters as well as the marked increase in mem-

bership. During Viking's first year as members of the Alberta Recreational Skating Association Power Program only 21 memberships were completed. Last year a total of 29 members joined the Power Skating Club. Registration for this year's program has been extended until the end of December and it is felt that 100-150 membership will double from last season.

The senior levels of Viking's Power Skating Program will be instructed by Billy Hanson. Billy has recently completed an extensive three week training program and is well qualified to instruct the local skaters.

The learn to skate and beginner levels are being handled by a Viking Gold Graduate of the Canadian Skating Association, Joanne Wiscorn of Viking. The chairman of the Viking Power Club would like to clarify any misunderstanding which may have occurred over the "Rent a Skate and Total" program. This program was referred to as "Rent a Skate" for lack of a better name. Any woman or man, with or without a lot, wanting to learn to skate, improve their ability or just participate in a weekly skating session is welcome to join.

Shirley Volmer, chairman of the club took her first skating lesson on Monday afternoon despite the fact that her family laughed and teased following the announcement of her intention. She reports that it wasn't half bad and in fact found it was a great change and a great way to exercise and invites anyone else who is hesitant to come out and give it a try.

8. Total Net Income (7-1)		959,000	634,000

* Statistics Canada Estimates

Despite the effects of inflation and a widening North American recession, sharp improvements in grain markets and high livestock prices are transforming 1980 into a year farmers will eventually remember as a good year.

The basis for that statement is an analysis recently completed by my department on farm cash receipts and net income. It is the first comprehensive report on realized net income in 1980 will exceed \$900 million for a substantial 12% improvement over last year.

Above are the total figures arrived at during the analysis. Below are some of the details I consider to be noteworthy.

Farm Cash Receipts - Grain

Farm cash receipts (FCR's) for both wheat and barley will set records in 1980. Wheat FCR's are projected at \$666 million, up 40% from 1979. Combined with higher movements, the increase in the Canadian Wheat Board's Initial Payment from \$4.37/m bushel in 1974-05 to \$5.14/06 will result in barley FCR's reaching \$333 million in 1980, a 35% increase from 1979.

International and domestic prices for wheat have fluctuated, but the average price for this year is well expected to be significantly higher than 1979. It should remain strong in 1981.

Wheat deliveries at the last January-July period were 67% higher than in the same period a year ago. Delivery and harvest should be minimal throughout most of 1981.

Alberta farmers reduced seeded corn acreage by over one-third this year. Although yields are high,

recovered from the low levels experienced during the first quarter, the average annual price will still be \$20.30/bushel, almost double the 1979 level.

FCR's are projected to be \$292 million, down \$50 million from last year.

Projected 1980 farm cash receipts for corn at \$23 million, and flaxseed at \$24 million, will be up 77% and 17% over the respective 1979 totals. Deliveries were up 10% over last year.

Due to a significant increase in the world price for soybeans, the average price expected to reach \$41 million from 1979.

Farm Cash Receipts - Livestock

1980 farm cash receipts from cattle and calves are projected at \$1,174 million, down slightly from \$1,181 million in 1979. Slaughter prices for cattle have recovered from a second-quarter decline and are now strong in 1981. Total annual receipts should be similar to those achieved in 1979, and the average annual price should be up 10% from 1979.

The outlook for hog prices is grey over the next few months to lower supply, which results in a sharp price drop, are expected to be higher than last year's. Hog marketing have also been higher than expected combined with somewhat higher prices.

Alberta farmers reduced seeded corn acreage by over one-third this year. Although yields are high,

Community Development

Following the presentation of the brief by the lawyer for a group of Viking area residents who are interested in developing the Roddick land, the Viking Council held an "in camera" session last Tuesday to deal with the matter. The closed session was called so that the totally frank and open discussion about all of the possible options and repercussions concerning the development could be aired by Council before they had to officially go on record with a decision on the land development. In essence, what occurred at the meeting was the realization of a need for further information about the development so that the best possible decision will be reached. That the Council acted so quickly is to be commended. And that they acted "in camera" at this stage of this potentially major issue is definitely understandable.

At times, in the atmosphere of a total Council meeting, our elected representatives must have the opportunity to express themselves freely without the fear of public knowledge. Realistically, we all know that many decisions are basically arrived at over coffee, or in the back rooms of a business. But this sometimes leads to the alienation of some councillors. With an issue as potentially important to Viking as the development of the Roddick land, an "in camera" meeting was a necessity.

The final decisions from such meetings will always become public. It is nearly impossible for them not to become public, as a motion on any and all development must be entered into the records of a municipality. And these records are open to public scrutiny. This helps to limit the number of such "in camera" meetings, for only a number of important decisions from such "in camera" meetings would be tolerated by the public before they became concerned. And yet, at times, they are necessary.

Hopefully, the group of residents who desire to develop the land in conjunction with the Town will be able to reach an agreement with the Council. It is a

very complicated situation, for the determination of financial commitment and responsibility in such an endeavour is a major task. On the one hand, the private citizens are desirous to develop the land for the good of the Town as well as to make a profit. On the other hand, the Town is desirous to develop the land for the good of the Town, but they must act very wisely when spending the large sum which will be necessary to develop this land. Debenture borrowing from the provincial government is possible in this type of situation, but when dealing with public funds, the Council must act with care. The loss, if any occurs, will be born by the taxpayers for years to come.

In spite of the caution inherent in the decision by the Council, a decision to develop the land must be taken if Viking is to survive as a viable community. The Town has not grown over the last few years, and with the consolidation of farming operations, the rural community is not growing in size either. What is needed is the acquisition of a small industry or two to provide an economic and social boost to the community. Towns such as Viking often reach the stage where they have a number of activities going on, yet lack the people necessary to want to take an active part in these activities. Smaller communities often realize that they must rely on each other in order for anything to happen. Often the size of the land figures arrived at during the analysis. Below are some of the details I consider to be noteworthy.

If the community is to be viable, Viking needs more people. People require jobs. Businesses and industries require land on which to build. The development of this land is imperative. Whether the two groups go together, the Town goes it alone, or private citizens go it alone, the risk must be taken if we are going to be able to support the many programs and facilities which the people in and around Viking presently enjoy.

Viking Signs Joint Use Agreement With County

Official acceptance of the Joint Use Agreement between the Town of Viking and the County of Beaver Board of Education, signed by the Board of Education, was received at the November meeting held in Ryeley last Thursday. The Town of Viking is the first to complete the agreement.

Program Launched To Encourage Participation

Calgary Power Ltd., has launched another program in its continuing province-wide effort to encourage increased participation by Albertans in this Province's development and prosperity.

The 90 per cent Canadian investor-owned electricity utility recently announced an issue of Convertible Preferred Shares to raise \$100 million as partial fulfillment of the Company's anticipated capital requirements of \$500 million. The awareness program is a continuation of previous efforts which resulted in a large number of Albertans directly owning shares in the company.

H.G. Schaefer, Senior Vice-President, Finance & Corporate Planning, said the demand for electricity and the growth of companies which supply it are essential to Alberta's current and future economic strength.

"Because we are an Alberta Company and our business is conducted by and for Albertans, it is our obligation to encourage their participation in the company's growth."

The company's continuing need for capital is satisfied through security issued such as the recently announced \$100 million convertible Preferred Shares, as well as other means.

Mr. Schaefer said the company's AAA (Triple A) credit rating is the highest compliment to the utility's financial strength and is a significant contributing factor in minimizing the cost of capital.

As with past security issues, Calgary Power will continue to encourage Alberta participation.

Mainstream Canada

Where are the workers?

By W. Roger Worth

Across Canada, people operating independent businesses come to the fore. They find workers, particularly skilled trades people.

At the same time, there are 700,000 or so unemployed Canadians.

Why does this paradox exist?

The basic reason: expensive government programs remain the jobs that have failed.

Just ask the 50,000 members of the Canadian Federation of Independent Business.

Roger Worth is Director, Public Affairs, Canadian Federation of Independent Business.

They raise shortages of manpower among their basic problems.

Instead of creating simple, no-fee job training schemes, the federal and provincial governments have opted for "institutionalized" programs.

It's time Canada's training "experts" took a long look at what's happening in the rest of the world.

While it may take a while to change the system and develop job-training programs that work, it's worth the effort.

One skilled job, for example, results in the creation of five unskilled jobs.

Canada's unemployed do serve a crucial role in the economy. They are fast becoming available. Importing more and more skilled manpower from other countries is just not good enough.

Profile: Bill and Irene Young

Irene and Bill Young

This past summer and fall, wedding bells rang for a number of residents and former residents of the Village. One of the most recent, newlywed couples were Bill and Irene Young.

Bill was born in Montana in 1904, but his family came to the Village district in 1906. The family, including Bill's two brothers and one sister, lived in the barber-

ing business in 1908, but quit two years later. He worked for McIntyre's between 1944 and 1959 in the oil business.

In 1959, Bill purchased the barber shop which he still owns and operates from Hill McLeod. Bill has no immediate plans for retirement, and he hopes to continue working as long as possible.

Bill started in the barber-

ing business in 1908, but quit two years later. He worked for McIntyre's between 1944 and 1959 in the oil business.

Home And School Present Safe Driving Film

Following discussion of the regular business at the last meeting of the Irma Home and School Association, anyone who is interested in taking part in a Deliberate Driving Course please contact Solveig Rodack at 784-2887 or Della Nilson at 784-2814 before the end of November. A minimum of 10 is required and a maximum of 35 will be allowed.

The program part of our meeting consisted of the safe driving film and national

driving test. The film proved very interesting and informative. Thank you to our program committee for making it available to us as well as Gordon Lancaster, Irma Home and School Reporter Lynda Jones

Although a little difficult to recognize, the face behind all the whipped cream is that of Dan Nash who volunteered as one of the targets for the pie throwing contest which was part of "Fall Fun Fair" sponsored by the Irma High School Students Union. Staff Photo

Irma W.I. Survey Student Employment

The regular meeting of the Irma W.I. was held at the home of Mrs. A. Deot-

A donation of \$100 was made to the Student Assistance Fund, and plans were made to pack clothing, quilts, etc. for the U.I.R. This will be done at the home of Mrs. Peggy Fleming on November 20.

On behalf of Mrs. Jennie Barber, Mrs. Edith Guan

read a paper on the survey made in 1978 on employment outcomes for graduates.

The report shows that by May 1979, female graduates were typically earning 88 per cent of men's median salary.

There are now signs of change, but it was evident that job-oriented male-dominated fields had the best employment outcomes in employ-

ment, high rates of pay, and employment outcomes relatedness and satisfaction. The traffic donated by Mrs. Keller, was won by Mrs. Nilson. The December 4 meeting will be at the home of Mrs. Betty Parsons, hostesses are Mrs. Deot and Mrs. Parsons. Roll call will be Christmas Cheer, and Mrs. Keller will be in charge of the raffie.

On Saturday, November 15, a very successful tea and bazaar was held in the Legion Hall. The delicious baked goods quickly disappeared and a good crowd enjoyed the plentiful refreshments. Winners of the draw prizes were: chocolate dollie, Mrs. Jean Hart, Christmas Candle, Mrs. Edith Guan. P.E. Craig

Irma U.C.W. News

The regular meeting of the Irma U.C.W. was held in the United Church on Tuesday, October 28th at 8:00 p.m.

The president Mrs. Georgia Elger welcomed one and all and then the prayer purpose was repeated in union.

Devotions were given by Mrs. Georgia Elger. Her topic being "Faith Can Lift You Up". The scripture reading was Matt. 17:20. The

closed with prayer and we read hymn No. 271 in union.

Mrs. Jenny Barber, for her program read the story of Solomon from the book "All the Women of the Bible".

Minutes from the previous meeting were read, and approved as read. The treasurer's report showed that our bazaar and sale of home baking in conjunction with our tea, held on Saturday October 28th, was quite successful!

Several items of business were discussed and settled.

Parkland Nursing Home News

Our tea and bazaar was a great success this year. We will be able to purchase the P.A. system we were aiming for. Thank you to all who came, helped and donated. Mr. Mike Forsal won the macramé hanging table, and Mr. Carl Weder won the ceramic Christmas Tree. Alma Kelly won the cake, decorated and donated. Mrs. Joe Kowalik, Cindy Elgie won a stuffed turtle. Thank you everyone.

In visiting Mrs. Mabel Ward were the Ted family of Fort Saskatchewan and Kay Ward of Edmonton. Visiting Mr. Lamb were Mrs. Annie Lamb and Rose, Sima, Kathy and Laurie Lamb of Hilda.

Welcome to our home

Mr. Gordon Lancaster and Mr. Bob Anderson. Jim, Harriet, Marcy and Linda Newby were in to see Gordon Lancaster. Denise Wesley and Jimmy called on Grandma Kowalik.

Green and Violet Lancaster visited with Gordon. Bruce and Faye Campbell of Heister called on Mrs. Edna Campbell. Visiting Mrs. Cartwright on Remembrance Day were Anne and Armand Cartwright and family. Thank you to Christine McKay, Mary Benzelich and Helen Slys of Hilda who came with the cart on Tuesday.

Ernie and Olive Good

James Lusk called on Lars Rikland. Visiting Charlie Auburn were Helen, Curtis and Elsie Auburn. Visiting Mike Pivrow were Mr. L. L. Loid, Joe and Kay Kowalik.

called on Mrs. Kowalik. Lillian Teale and Gladys Durin visited with Mrs. Pivrow. Mrs. Joan Schenning of Gibsons called in on Sunday to say Hello to everyone.

Their Sacrifice

(Myra Gilpin) 1949

I wept last night - oh tell me could I help it. If my heart cried out for aid, none but my own? I sighed last night as I lay awake and wondered, What boyish dreams was I's fearful wrath condemned. Can we measure the cost, the price they've paid to save us? Can we fathom the depth, of their glorious strength and pride? Dare we question the faith;

the courage; the unparalleled wisdom. With which they fought; and our treacherous foe defied? Let us each learn a lesson, from the prime of our youth and manhood, For every Johnny who's grown old, young, for our sake Let us pray for the genuine heartfelt understanding. That the rebuilding of shattered dreams and lives will take

Kinsella Elks Hold Installation Of Officers

The Kinsella Elks open Installation of Officers was held on November 15.

D.D.G.E.R. Bro. Geo. Krosser, with the assistance of the Ladies of the Royal Purple installed the following officers:

Exalted Ruler - Bro. L.R. White, Past Exalted Ruler - Bro. H.G. Smith, Chaplain - Bro. John Bobak, Esquire - Bro. Harlan Paul, Inner Guard - Bro. Ed Bobak, Tyler - Bro. Lyle Driskill.

We were pleased to have 21 Brothers from Chauvin presented with the "Traveling Gavel".

Kinsella Elks will take the "Traveling Gavel" to Wainwright on November 28.

The Degree Team will conduct initiation at both Chauvin and Edmonton before Christmas.

The Grand Champion Shorthorn Bull at the Calgary Stampede's Round-Up '80 was Scottyman Frank Bolder 21L, shown by Raynor and Kester Short Farms, Vilhag, Alberta, on November 14th.

M.L.A. Report by Tom Lyons

The past week in the Legislature was shorter than usual due to the Remembrance Day holiday. With this, members of the Legislative Assembly were able to take Monday off to get back to their constituencies. We are now past

the halfway point of the session and still have many bills to debate. This session has been very exciting and very important as it may determine the future of Alberta.

On Wednesday, November 13th, Mr. Crawford, Attorney General, informed the Legislature that Alberta intends to make a legal challenge to proposed by the federal government. An Order-in-Council was issued on Wednesday to commence the necessary legal proceedings and to bring the question of the export tax on natural gas to the Alberta Court of Appeal for a decision. The amendment considered by the Court of Appeal relates to the commercial production of natural gas from a well drilled in Southern Alberta last September by the provincial government. The Court of Appeal will be asked to decide whether or not the export tax imposed in the circumstances of this case can be imposed legally by the federal government. Under the constitution the province has sole ownership of the mines and minerals, including the natural gas at the site of the well. The natural gas is transported via a pipeline widely situated within Alberta. Sole ownership of the natural gas is maintained until it is delivered to a purchaser on the Montana side of the Alberta/Montana border.

We are testing this export tax on gas at the well. It was a few cents a barrel. Now it is over \$20.00 per barrel. This

is money that comes right out of our pockets as we as Albertans are the owners of the resources.

On Thursday, November 14th, David King, Minister of Education, announced a policy for the evaluation of student achievement in Alberta. The policy has six major components: the high school diploma, comprehensive education certificate, achievement tests, progress testing, and an administration division. Mr. King noted that this is only the first phase of a policy which will eventually include an evaluation of teachers, school systems and programs.

During the past two weeks I have been meeting with a constituency group discussing the federal budget and the constitutional proposal. As this is a very sensitive topic these days, I would like to offer my views to my group regarding the Alberta position. Please contact me directly at the Legislature at (403) 297-1888 (collect), or at my constituency office.

My constituency office in Vermilion is open five days a week from 10:00 - 12:00 noon and from 1:00 - 5:00 p.m. My office is in charge and the phone number is 688-4282.

Weekly Police Report

During the period commencing Monday, November 18th to Monday, November 17th, the Vilhag Detachment handled a total of thirteen liquor related offences; illegal possession or conveyance. One charge of possession of narcotics was also issued.

Four individuals were charged with impaired driving. Three of these were issued within the Town of Vilhag while the fourth was issued in the rural district.

Five 24 hour roadside licence suspensions were issued.

In general, the Detachment reports a quiet week with regard to complaints received, allowing them for self-generated police work.

When the Araks conquered Algonquin, they are said to have burned the 700,000 books in the library to keep up the fires in the city's 4,000 public houses.

Irma News And Views

After Rae and Ben Dares from Edmonton spent the weekend with Alma's parents, Jean and Ernie Rae. Visitors for dinner with Lorna and Eddie Jackson on Sunday November 16th included the following: Mr. Charles (R.C.M.P. constable) and wife Caroline from Langenburg, Sask., son Bob and wife Geraldine from Westwain, Arthur, Marilyn, Barbara, Lorne and Lorraine, Eddie's sister Isabel Bartholow from Dundee.

Albert, Roy and Neil Jackson from Edmonton, Terry Jones and Linda Connell, also from Edmonton, Edna's Mom and Dad (Mildred and Jim), Dan, Olga and Ronald from Warburg, John Jackson from Edmonton, and Lorna's mother, Grace Archibald, George and George's father from Irma. Work is proceeding steadily on the new curing rack, with volunteer labour, working under the supervision

of a man from Wainwright, whose name I didn't mention in my posting. Good work boys, just a moving along.

Everyone seems to be happy with the delightful Indian summer we have been enjoying. We are all glad that the ground is still bare, while the grass is still green at Manville, and other points in the area. Everybody hopes for at least two more weeks. Some would like it to continue until Christmas, and then warm up. The possible exception being the snowmobile enthusiasts, some of whom would welcome snow immediately.

Preparations are going ahead for the Irma New Horizons Christmas Party on Wednesday, December 8. The entertainment committee

are struggling for a program of entertainment. Irma New Horizons members have been invited by Wainwright Seniors to a Pot Luck Dinner at Wainwright on Monday, December 1st at 1 p.m.

Mrs. Isabel Bartholow from Dundee is staying with her daughter Joyce in Irma. Joyce is recuperating after having minor surgery in Edmonton hospital recently. While here, Isabel has been visiting other relatives and friends.

Congratulations to Jim and Phyllis Craig on the birth of their granddaughter, Stacy Leigh, 7 lb. 11 oz., daughter of Donna and Michael Crocker. This is their seventh grandchild, and the 10th grandchild from Mrs. Nellie Thurston. Mrs. Craig has returned home after helping at the Center house in Edmonton.

Three candidates sought the office of vice-president vacated by Mrs. Rude with Jean Bell of Blackfalds winning out over Olga Manderson of Ryley and Phyllis McMillan of Red Deer. At a board meeting following the convention Mrs. Sigrid Hanson of Maybrough was elected to serve as executive member for the next year. In her acceptance speech, Mrs. Rude said she looked forward to the challenges ahead, adding that with the help of members, Women of Uniform will continue to strive forward to further successes in the future.

Study projects by locals during the next twelve months will be based on the "Year of the Handicapped" to be observed in 1981. Locals throughout the province will also begin preparing handicraft items for use during the 1980 conference of Associated Women.

Two Bills To Amend Labour Act

Two bills to amend labour legislation in the Alberta Labour Act, 1975 have been introduced by Labour Minister Lou Young. The Employment Standards Act and the Labour Relations Act, restate the changing needs of the province's labour force and employers. Many provisions of the 1975 act remained unchanged and are distributed between the two separate pieces of legislation.

The Employment Standards Act introduces the following changes and additions to Alberta's Labour Laws:

1. More flexible hours of work will be permitted in recognition of the growing importance of arrangements tailored to current needs of individuals and employers. Overtime will remain payable after eight hours per week, but the daily limit, subject to safety and health considerations, will be twelve hours. These limits may be exceeded only when a legitimate emergency exists or where a permit has been obtained from the Director of Labour Standards.

Irma Village Council Minutes

The Irma Village Council met in regular meeting in the Irma Village Office on Tuesday, November 4th.

Present were Councillors: Coffin, Dempsey, Proland, Larson and Littlewood. Also in attendance was Municipal Administrator D. Cressy and M.D. Wainwright No. 61 Councillor Willettson and Meyers.

Mayor Larson called the meeting to order and it was moved that the minutes from the October 8th meeting be adopted as circulated.

It was moved that the minutes from the organizational meeting of Council held on October 29th, be adopted as circulated. Carried.

Councillor Coffin opened a discussion relative to Council representative on the Regional Resources No. 4 Board, and he suggested that it would be advantageous to re-appoint Council representative to the Board.

It was moved and carried that the correspondence from Municipal Affairs relating to the proposed revision of the Regional Resources No. 4 Board and that Councillor Coffin be named as alternative representative. Carried.

It was moved that the accounts for the month of October as presented be approved and paid. Carried.

It was moved that the month and cash statement as presented be approved. Carried.

It was moved and carried that correspondence from Recreation Parks and Wildlife be received and filed.

It was moved that correspondence from the Battle River Tourist Association relevant to its Annual Meeting be received and filed.

It was moved and carried that correspondence from the Battle River Tourist Association relevant to its Annual Meeting be received and filed.

It was moved and carried that correspondence from the Battle River Tourist Association relevant to its Annual Meeting be received and filed.

discussed were: 1. Utility line to the new M.D. shed. 2. The Fire Truck and the joint operational agreement. 3. The dump grounds.

The utility line to the M.D. Great Shed was reviewed in detail and Council advised that its decision as stated at the January 2, 1980 meeting will stand. C. Willettson advised that he was placed an order for a new fire truck for this area, however, delivery date is not known but is expected early in the new year. It was agreed that the operational expenditures warrant review. A lengthy discussion ensued relative to the dump grounds, however no action was decided upon. Alternative method of disposal will be looked into and evaluated during the winter months.

Correspondence was received from the Honourable David King, Minister of Education advising that the department will be looking into the matter of acquiring a copy of the Board meeting minutes from the Wainwright School Division as requested by Councillor Coffin. This correspondence was received and filed.

It was moved and carried that the correspondence from Municipal Affairs relating to the proposed revision of the Regional Resources No. 4 Board and that Councillor Coffin be named as alternative representative. Carried.

Correspondence was received from Alberta Tourism and Small Business advising of a meeting scheduled to be held in Wainwright on November 4, 1980 to discuss economic issues and government involvement in small business matters. Administrator D. Cressy attended this meeting and submitted a report on the matters discussed. It was moved that this report be accepted.

D. D. Councillor, Willettson and Meyer were present at this time to discuss matters of mutual interest between the two municipal authorities. Major topics discussed were:

1. Utility line to the new M.D. shed. 2. The Fire Truck and the joint operational agreement. 3. The dump grounds.

Manpower Stages Handicap Workshop

A three day workshop aimed at identifying priorities and directions for training staff to work with the handicapped will be held in Red Deer beginning November 15, 1980. The workshop is co-sponsored by the Program Services division of Alberta Advanced Education and Manpower and Alberta Social Services and Community Health.

Representatives from early childhood, educational, vocational, residential, recreational, and rehabilitation programs and institutions will discuss manpower requirements, staff preparation and delivery of services. The objective of the workshop is to give those who train staff to work with the handicapped, and those who hire them, an opportunity to make recommendations regarding the supply, demand and quality of current and future staff.

The conference will also identify sources of personnel for agencies and give universities and colleges first hand knowledge of their needs.

Friday afternoon will be given over to small group workshops, structured to identify the issues and make recommendations in each service area.

Dr. Robert Gall, University of Lethbridge educational psychologist, will be the theme speaker at the Friday evening dinner, November 14, 1980. His topic will be Human Services Professionals: Shortcomings and Emerging Challenges.

Another highlight of the program will be a presentation by Dr. Richard Short, Director of Services for the Handicapped, and Dr. Jack Church, Director of Special Education Services, on "Factors Affecting Current and Projected Manpower Supply and Demand." Closing comments will be made by Marcel Arsenault, Assistant Deputy Minister of Rehabilitation Services, Social Services and Community Health, and Des Berghofer, Assistant Deputy Minister of Program Services, Alberta Advanced Education and Manpower.

Saturday morning a summary of the proceedings will be presented and participants will give feedback to a panel of the HURB Committee. The committee, which acts as advisor to the Program Services division of Alberta Advanced Education and Manpower, will use the results of the conference as a guide.

As 1981 will be the International Year of Disabled Persons, the workshop will be paid to the insights and recommendations articulated at the conference.

Shortage Of Nurses Major Cause Of Concern

"More Registered Nurses must become available if we are to meet the health needs of Albertans," says Jeanette Pick, President of the Alberta Association of Registered Nurses.

At present, with 117 out of a total of 186 active treatment hospitals, special hospitals completing the A.A.R.N. vacancy survey, there are 692 positions whether vacant or anticipated to become vacant by the end of 1980.

This figure, although down from the 700 vacancies reported in May of 1980, still reflects a substantial increase over this time last year. Reported vacancies in September, 1979, were 648 and for September of 1978, they were 611.

Jeanette Pick states, "These vacancies are causing significant concern in the work situation, and the problems can only become worse as when one considers the expansion of hospital beds planned for this decade."

In an attempt to rectify the staffing situation, the A.A.R.N. is encouraging educational and health agencies to make more refresher programs available across the province. These refresher programs, approved by the A.A.R.N., are required by nurses who have been out of the practice of nursing for 5 years and wish to reactivate their registration. For 1980/81, sixteen programs will be offered across the province compared to seven in 1979-80.

Recognizing that traditional methods of delivery of refresher programs, i.e., classroom and clinical components, do not meet the needs of many nurses who have family responsibilities, a cooperative effort on the part of agencies and the A.A.R.N. is allowing for the development of alternate delivery mechanisms.

At present the Royal Alexandra Hospital in Edmonton, and Grant MacEwan Community College are involved in offering a condensed package which allows for home study followed by clinical experience. Distance delivery packages are also available to a limited number of nurses and this method of delivery is being examined still further by the Refresher Review Committee of the A.A.R.N. If maximum quotas are met approximately 200 nurses will return to the work force following completion of a refresher program in 1980/81.

The A.A.R.N. has recommended to Boards of Schools of Nursing that they consider increasing their program quotas, to help meet the nursing requirements. In an effort to increase the number of applicants to Schools of Nursing, the A.A.R.N. has stepped up its career information program which includes providing resources to the high schools in Alberta as well as disseminating information to the public at large.

"In conclusion," states Jeanette Pick, the shortage situation is evident not only in Alberta, but all across Canada, the U.S.A. and many other countries. Even if reciprocal applications can meet the requirements for registration, the supply is insufficient to meet the needs of Alberta over the next decade. Also, our Association questions the recruitment of nurses from areas that already are experiencing a shortage situation.

What is needed now are incentives and mechanisms for nurses who are presently outside nursing, whether at home or in other employment, to be recruited back into the profession."

Echo Rodino News

Gladie Manning of Calgary has returned home after a visit at the Williams farm.

Norine Hunter returned to Calgary with her car and phone on a trip out to B.C. later to visit relatives.

Ray Johnston travelled to Edmonton on business and spent an evening with Ken and Mary Ann.

Several neighbours took in the Harvest Ball held at Albert Community Centre. A good time was had by all according to reports.

Mr. and Mrs. Allan Faulkner called in for a short visit with Harriet Faulkner.

Rita Greenwood of Edmonton and Brenda Hall of Viking were Sunday visitors to the Bruce Greenwood family.

Viking Hosts First Spiel Of The Season

During this past weekend, November 14-15, the Viking Curling Club hosted a mixed spiel to kick off the 1980-81 curling season.

Entries were low, with only eleven risks competing in the spiel. The lawn and excellent weather we have been having kept many people from curling.

Those who did participate in the spiel were treated to excellent ice conditions and the curling club gave a vote of thanks to the volunteers who helped put on the ice this season.

The John Andrusk risk of Viking defeated the Gary Lester risk of Viking in an extra end of play to win the first event.

The second event was won by the Dean Cumming risk of Viking, who also went into an extra end of play before defeating the Don Hefso risk.

Third event honors went to the Lorenza Toward risk of Viking, when they defeated the Pat Amundson risk.

The curling club would like to thank everyone who volunteered their time during the spiel and also to the ladies for items donated to the snack bar.

Alberta Agriculture

TODAY & TOMORROW

Slightly more than three years ago, this province had no opportunity to help keep its agriculture vibrant and viable.

The agricultural research program we subsequently created was unlike anything previously attempted by this Province.

Considering start-up time, Farming for the Future has been actively underway for just over two years. In that time the program has received more than 600 project proposals, representing total funding requests exceeding \$40 million.

Of submitted applications, \$8 have been approved. By last March 31, total allocations had reached \$5.3 of the \$10 million committed to this program from the Alberta Heritage Savings Trust Fund.

I think it's important to note that while Farming for the Future was designed to be a relatively short-term program, agricultural research is not a short-term effort. Broadening of our new crop variety, from crop to crop, is a long-term process, taking at least a decade.

Development costs for that variety may easily exceed \$10 million.

The final improvement may even seem all that significant — seed you, check the marketplace. If average corn yields could be increased by one bushel per acre, that production increase would have represented in 1990 an additional \$15 million for Alberta producers.

Of course, that example is only hypothetical. To date Farming for the Future program has been under way for more than two years. Past problems are just becoming better understood, and it will take time, maybe years, maybe even decades, to develop solutions to some problems.

Often, we expect no single answer will be sufficient. Minor changes in a way of getting may enhance use of a particular variety in one year, reduce it in another. New would be forever being introduced, most adapted to new crops, and animal health can always be improved.

These types of problems led to Farming for the Future. University and the federal government had always held the prime responsibility for agricultural research. Until the development of the Alberta Agriculture Research Trust in 1987, the province's research program was generally limited to an extension role where farmers were urged to use the developments of research.

In the 1970's Alberta Agriculture took a much more active research interest. Indeed, testing of all types, has been our most consistent function.

but primary research has also received ever-growing emphasis, especially in the area of crops.

During this period, the tightening pursestrings of the federal government also led us to feel agricultural research was not receiving the best efforts possible in the province. While our prime research institutions had adequate talent and facilities to undertake new projects, adequate funding was not available to cover everyday project costs.

Introducing Farming for the Future was our answer. Its role — to supplement at existing research institutions research activities of benefit to Alberta producers and agribusiness.

Of course, this has not meant that any one has gone to the University of Alberta and to Agriculture Canada research stations which remain the most important research institutions in the province.

However, we need to remember that many Farming for the Future projects are allowed to expire before solutions are found.

Still, still require time to obtain solutions. Some solutions in livestock, agro-chemicals, crop production, and crop processing — work into these problems cannot be allowed to expire before solutions are found.

Meanwhile, research costs have risen. Many pieces of needed equipment are imported. Labor has become more expensive. More than 52% of Farming for the Future funding goes toward manpower support, and that total excludes the salaries of most professional researchers who are paid not by Farming for the Future but by their employing institutions.

As Farming for the Future's administrator, the Agricultural Research Council of Alberta has proven that additional research funding in this province can be used wisely. There is very active competition for the research dollars available, and performance obtained with those dollars has been good.

Therefore, I am pleased to announce that we intend to increase our support to Farming for the Future. In addition to the \$10 million now available over five years, an additional \$15 million from the Heritage Savings Trust Fund will be allocated to Farming for the Future, starting next April.

To accommodate this increased funding, the program will also have a new five-year mandate starting next spring.

Farming for the Future has given agricultural research a

new profile in Alberta. By definition, research is not stagnant, but an ongoing search for the information and knowledge that lead to innovation and development. With this additional support from our Heritage Savings Trust Fund, we will be continuing the Future with successful continuation to help maintain agriculture as Alberta's most important renewable resource.

It's Absurd

During the first week of December, MLA Tom Lyons will be in attendance at the Viking School to personally present 75th Anniversary Medallions to every student in the school. This is part of the Provincial government's Anniversary celebrations. And it is absolutely absurd.

How do we justify the expenditure of public funds on souvenir trinkets, most of which will very probably get lost or destroyed. When the government announced that they would be supplying each resident over 75 years of age with a medallion, many seniors and seniors' organizations in the Province rejected the project as a waste of money. They felt that the money could be better spent elsewhere. And yet, the medallion program has to have much more significance to the seniors than it possibly could to the youth.

The importance of an anniversary lies in the history of those particular years. The memories, both good and bad, which go together to make a particular era unique to an individual, a couple, or a province. And yet, of what memorable value will these medallions have to our youth? To think that they may, in their lifetimes, have any value is nonsense. When so many will be turned out, the only hope is that our youth can somehow preserve the medallion for another 25, 50 or 75 years so that their medallion will have some meaning, some significance to their lives. Yet this most likely will not happen, as a good guess is that most of the medallions will be lost or destroyed or forgotten within a very short period.

In this edition of the paper, there are two pictures of presentations to the Viking Hospital Board that so furnishings or other necessities could be purchased for the hospital. In light of this latest example of government spending,

i.e. the student medallions, we must seriously ask ourselves if any more money should be going towards the new hospital from this or the surrounding communities. The inference in the giving of the funds to the hospital is that the Board needs the funds to supply items not provided for by the Alberta government. It seems that the only reason that they need funds from the community is that our Provincial government has no concept of responsible spending, or the setting of priorities.

The appearance of our MLA to present these medallions should be met with disgust. This government, with all "our" billions, had the nerve to suggest that there is a possibility that our taxes would have to go up in the next fiscal year. And yet they have the audacity to throw away a good percentage of the nearly \$75 billion dollars which they budgeted for the Anniversary on projects such as these medallions. All of the government MLA's have been scurrying about their constituencies handed out 75th Anniversary "goodies" in an attempt to get as much public exposure as possible. They are, as politicians will, milking Alberta's 75th Anniversary to the fullest. We have to wonder if these events and projects were put on for the people of Alberta, or if they were a public relations scheme by our present government on behalf of their own members.

All of the money presently in the provincial coffers is there in spite of the present government, definitely not because of them. Their use of our money is often disgustingly wasteful. It seems that because they control so much money, they think that they do not have to spend it wisely. Hopefully we can get a message to them before they waste much

Irma News And Views

Mr. and Mrs. Jack Hest-chase from Concord had tea with Minnie and Jim Jackson on Friday afternoon, November 21.

A reminder that the Irma New Horizons Christmas party is scheduled for Wednesday evening, December 3 in the Drop In Centre. It is understood that single members are entitled to bring one guest.

Mr. Oliver Pugh (nee Thurston) from Hope Valley, drove her mother Mrs. Nellie Thurston to Irma on Thursday, November 20. They spent the day visiting with Minnie and Jim Jackson.

As usual on the third Wednesday of the month which was November 19, there was what at the Drop In Centre. Three tables played what and two played scrabble. Winners were as follows: Mush high - Harry Riley, Mrs. low - George Foreman, Ladies high - Elsie Skiles. The consolation went to Mildred Smith. Winnie Riley was the prize runner.

On Sunday, November 23, Isabel Bartholomew from Sundre, who has been staying

with her daughter Joyce, since the latter underwent surgery ten days ago, took her mother Minnie Jackson for a drive. They spent the afternoon and evening with Betty and Clifton Hest-chase.

During the past week, work on the new cutting rink made astonishing progress. The ends were closed in and much of the roof was covered with plywood. If work continued at the same rate next week, it should all be covered in, so some heat can be put in, and work can continue inside.

Major Expansion Of Employment Counselling Announced

Dr. Henry Kolesar, deputy minister of Alberta Advanced Education and Manpower recently announced the major expansion of the Employment Counselling and Relocation Services program.

"The number of homes, currently under construction or being intended, will

double our capacity by this spring. More than \$8 million has been allocated this fiscal year by the government, through the Alberta Housing Corporation, for the home construction.

"Since its creation in 1972, the program has assisted over 250 isolated northern families in geographic and social relocation to centres with employment opportunities. By 1986, we expect to be operational in 15 northern communities, with over 1100 homes being provided to an estimated 6000 family members."

Dr. Kolesar made the announcement during his address to participants attending the Northern Alberta Development Council Conference, Alberta, November 19-20, in the 8th, in Grande Prairie.

Currently operating in Slave Lake, Fort McMurray, Grande Prairie, Peace River and Denbysville, the program has an exceptionally high rate of success. This has been attributed to the selection process and the continuing support and counselling services. The involvement of both native and non-native organizations in the receiving communities

Larson. The cake was made in the shape of two bells and topped with white icing and red ribbons and white doves.

A gift was given by their five children and their families.

Mr. and Mrs. Dennis Barson and family have been visiting in the Irma district for the past two weeks. Mr. and Mrs. Warren Fuder of Peace River accompanied Mr. and Mrs. Barson on a trip to Montana, Minnesota and the Dakotas. They report the weather was very good.

Strawberry Plains W.I. Notes

Betty Foster, President of the Strawberry Plains W.I., called the meeting to order at 8:10 p.m. on Wednesday, November 20.

The meeting was opened by singing the new version of "O Canada", and repeating the creed.

Betty welcomed the visitors. The treasurer's report was given by Betty Foster.

Minutes were read by the secretary Ester Cressy.

Plans for our Christmas Party were moved or less discussed.

The next meeting will be held at the home of Bernice Long on December 15. Bernice will also be the hostess.

The November raffle was won by Alberta Tomlinson. Prizes for friendship were: "Don't let the wintry winds get your goat. Pay in November the other 12, your cost."

At the next meeting, Bette will be exchange of Christmas gifts.

The meeting was adjourned and a delicious lunch was served by Alberta.

Increase In Allowance For Foster Parents

Honourable Bob Hoyle, Minister of Social Services and Community Health, spoke at the annual meeting of the Alberta Foster Parents Association, Saturday, November 9, at the Hotel MacDonald in Edmonton and announced increased monthly allowances and an advance payment system for foster parents.

In making the announcement of a 10 per cent increase in monthly payments to foster parents, effective November 1, 1980, Mr. Hoyle praised the parents on their previous work and said he felt the challenges of being a foster parent is much greater today than ever before.

Mr. Hoyle said the advance payment system, which will take effect January 1, 1981, has been arranged to ensure you (foster parent) don't have to do into your own pockets to cover a much needed service. He described this system as "a bold step...a step I hope will

most your needs." Foster parents will have the choice whether they wish to receive the two-month advance payment.

The Minister also referred to the voucher system currently in use to cover a variety of expenses incurred by foster parents. He said he hoped the concerns of foster parents about the use of vouchers, and if there is any possible way of eliminating the voucher system, it will be done.

Five of the six positions set up in the regions across the province, which were created to help with foster parent recruiting and training, have now been filled, he said.

The number of native foster homes has increased from 180 in 1976 to 470 in 1980, Mr. Hoyle said, referring to it as a challenge for the future, a major goal for his department and the association would be to recruit more native foster homes.

Recreation Board "Fired"

On Friday, November 28, P.S.S. Director Deborah Taylor received a cheque for \$400.00 from the Viking High School Students Union. Making the presentation on behalf of the Students Union was President, Lisa McGinlay. The money will be used to help fund P.S.S. sponsored youth activities. Staff Photo

A special meeting of the Viking Town Council held last Tuesday evening, November 26th, has led to the firing of the members of the Recreation Board. The special meeting resulted from a concern by Council members about the work of the Board, spokesman for the Viking Town Council said that there was the need for a change in the present Board. Council made the change by drafting a by-law which establishes a seven member Board, down from the previous nine member Board.

The basic reason for the new by-law was dissatisfaction with the old Board. The spokesman said that a lack of involvement of some Board members, he said, and that a couple of Board members were doing a good job, but that others were not. When questioned why the entire Board was removed, the spokesman said that it was easier to remove the entire Board.

The spokesman also said that the entire Board had to be changed so that people in the community felt that a real change was occurring in the Recreation Board. He said that some groups in the community felt that they had little input into the Board. He said that the appearance of change was important in this case.

When contacted, a member of the old Recreation Board said that he had no idea that Council was dissatisfied with their work. He expressed concern over the lack of discussion about the matter, as he felt that some people on the Board were working hard and in the best interests of the entire community.

The former Recreation Board Chairman, Vern Hulse, said that he was surprised that the Board was fired. He said that he had been told that the Board was doing a good job, but that others were not. He said that he had been told that the Board was doing a good job, but that others were not.

Mr. Hulse said that he had never been brought to his attention. Mr. Hulse was informed that the old Recreation Board by-law 1981, gave the Chairman of the Board the responsibility for informing Council of Board business. However, this stipulation was not contained in By-law 1981.

Mr. Hulse said that he had never been brought to his attention. Mr. Hulse was informed that the old Recreation Board by-law 1981, gave the Chairman of the Board the responsibility for informing Council of Board business. However, this stipulation was not contained in By-law 1981.

Cattle Commission Seeks Approval Of Transportation Policy

The Board of the Alberta Cattle Commission considers that resolution of the Crow's Nest Pass rate issue is vital to the future of the cattle feeding industry in Alberta.

At the annual meeting of the Commission delegates being held in Calgary, the Board recommended adoption of a policy that would retain benefits of the Crow's Nest Pass rates for grain producers but would take the impact of the rates out of the domestic pricing system for feedgrains.

Brian Horner, Chairman of the Feedgrain Commission, said that the new policy, said that the issue was basic to any discussion of the livestock feeding and packing industries in Alberta. Referring to the recent appointment of Dr. Hugh Horner to investigate the Province's livestock industry, he said that it was essential that Dr. Horner address himself to the future

Jackson Family Honored

At the last Irma and District Chamber of Commerce meeting held on Tuesday, November 18th, the Jackson family - Eddie, Lorne, Charlie and Howard - were honored as the Farm Family for 1980.

This prestigious award is made by the Chamber each year to provide recognition to members of our rural community who have shown a commitment and dedication to their community. In presenting the Award, Dick McRoberts congratulated the Jacksons on their participation in many of our organizations in Irma over a long period of time.

The trophy, donated by Ron Thurston, is held for one year, and is being with the year, a wonderful 75th Anniversary plaque was presented by the Chamber for them to keep.

Our congratulations to the Jackson family.

On November 18, the Irma and District Chamber of Commerce honored the Howard Jackson family as the Farm Family for 1980. Pictured above are (left to right) Eddie, Howard and Lorne Jackson.

There Are Many Questions

After several discussions with Viking Town Councilors and former Viking Recreation Board members, the decision taken by the Council in dismissing the old Recreation Board is unjustified. Too many questions of fact and ethics seem to have been bypassed by the Council in their haste to make changes early in the life of the new administration. One of the major reasons stated by the Council for the "firings" was a lack of communication with the Council. How much time did the new Council have in association with the Recreation Board to make such a conclusion valid? One month is scarcely enough time on which to base such a conclusion. And the lack of communication with the community as a reason seems to be invalid in light of the Recreation Board meeting of November 18th, one week before Council took action. Even if the Board seemed to be ignoring the people of Viking, we must ask why the Council did not or nothing to communicate their concerns to the Board?

The lack of effort by some members of the Board should have been handled directly. If one Councilor fails to perform to the standards set by the community, should all of the Councilors be asked to resign? Such a move would be absurd. And yet Councilors act to act in such a manner. As well, on the nine member board, only six positions were presently filled, and one other member of the Board indicated that he would like to be replaced. This left at minimum four positions which could have been filled by new Council appointees. One of these would have been a Councilor to complete the two-Councilor requirement of the old By-law. Wasn't this a sufficient number of changes to the Board? The Council could have put in five of "their" choices, thus being able to determine both the Chairman and the outcome of the major decisions. Was this the kind of change which was desired? It seems that with the positions available, it was totally unnecessary to "embarrass" the members of the old Board by dismissing them without any prior dialogue about Council concerns. It is hard enough to get volunteers for many positions in Viking and the lack of respect for the feelings of the volunteers on the old Rec. Board which was shown by the

Council bodes poorly for acquiring volunteers in the future. Does it mean that those people just selected to the new Rec. Board may also be "dismissed" without prior discussion or warning? Hopefully not.

The lack of progress on a new facility is partly the fault of the Council, if fairly it is to be placed on the Council. Little appears to have been done in the way of directing the Board to actually proceed with the new facility. Some confusion appears to exist as to exactly whose responsibility it was to initiate a project of this magnitude. The funding need not necessarily have come from the Town, but when a facility is going to cost in the \$1 million range, the Town would have to be directly involved.

The ultimate responsibility for the operation of the Recreation Board in Viking lies with the Town Council. The decision to make changes in the Board structure or the fact that the Board members lie with the Council. The enthusiasm of the present Council to see things happen in this community is commendable. But they should be careful that they consider all of the facts and the feelings of those people with whom they deal. They must also be willing to confront the various boards and committees in the community that fall under their guidance to ensure that the job is being done. But they can't allow themselves to be simply dismissed and replace boards or board members without first allowing for adequate discussion between the parties. This was not done in this case, and that is what makes the action taken by the Council so wrong. To remove good working volunteers from such a Board to ensure that people feel that changes are being made is not a responsible move. It has to raise questions in the minds of all residents as to the ethics of small town politics. If the Council felt the Board was not functioning adequately, they should have expressed this concern to the Board. "Firing" them was uncalled for.

We must all work "together" if the community is to prosper. Council should endeavour to display this position by reconsidering their decision of November 25th, and then opening a constructive dialogue with the old Board. They will earn much respect from this than from the action which was taken.

Letter To The Editor

Dear Sir,
The 1980-81 hockey season has begun for another year, and with this also begins the problems and chores of many people. I could just like to remind the people that it takes a lot of personnel to make something as large as the hockey season successful. Each year, we have to have people who will look after the admission booth. We also need people who will officiate the games. There are also needed in the least, book, and last but not least, we need personnel who will take part in driving these hockey players to and from games. The last couple of seasons you see the same people in the Area doing the above mentioned chores. It's time that more people volunteered their services and pitched in for hockey to make it as successful as it has in the past.

Too many people are reluctant to get involved because they figure "Why should I do it when someone else will?" This type of attitude is going to lead to the downfall and end of hockey in this community. Oh sure, you can say that "won't happen, that those few" people will keep it going, and maybe, just maybe, you're right. But just how long do you think this can continue? If we get total involvement and cooperation from everybody, be it at the ticket booth, as an official, in the snack booth or just a vehicle for the players to go to the games in, then just keep hockey functioning at the high level it has operated at. As parents, just remember that you can have a part in either making sure that Viking has a successful hockey season, or you can do nothing and in turn take

part in letting the hockey system fall apart. I think it's time every parent, and every person who could or should be involved took a long, day look at him or herself and just thought about it and how much they are really contributing towards this sport that keeps our young people involved and off the streets. It would be a shame to see this winter sport, which can be enjoyable, gradually fade away. It would also be a shame to see the hockey system, that has brought Viking many championships and proud moments, go to waste. This hockey system was started by hard working devoted individuals, and there is no reason why many people can't get off their "butts" and keep it continuing.
C. Woloshin

Service Pins Awarded To Elks Members

A regular meeting of the Viking Elks was held on Tuesday, November 18, 1980.

The first order of business was presenting the district deputy Grand Exalted Ruler, George Crocker, to the lodge, plus four other members from the Hardy Lodge who handled the installation of officers. The installation of officers was also assisted by the drill team of the Elks of the Royal Purple.

Officers for the coming year are: Exalted Ruler - Wm. Mattinson, Leading Knight - Bro. Ralph Thode, Royal Knight - Bro. W.D. Place, Leo Schuller, Arl

Knights: Bro. Will Ladd, Trustees: One year - Bro. Wm. J. Taylor, Bro. Ralph Chidi; Two year - Bro. Hines Grady, Exalted Ruler - Bro. Harry Hayden, Historian - Bro. Bert M. Hill, Publicity Director - Bro. Al Wilson, Chaplain - Bro. Peter Petroskey, Secretary Treasurer - Bro. Bert P. Hill, Inner Guard - Bro. Gerald Wadley, Tyler - Bro. Frank Fornal.

Service pins were then presented to members of the Viking Elks. These receiving pins were as follows: Thirty Five Year Pins - E.K. Young, L.C. McIntyre; Thirty Year Pins - W.D. Place, Leo Schuller, Arl

Elk Island Park To Reduce Elk And Moose Population

To prevent the possible starvation deaths this winter of many large ungulates, Elk Island National Park must reduce its population of elk and moose. Park managers have thoroughly checked the vegetation available and the inescapable conclusion is that we have to implement the reduction program. The reduction program will be carried out in two separate operations. The moose population will be reduced by slaughter, and the elk will be live trapped and relocated to other areas in the park.

Elk is a broad park and we have no natural predators to control the population in a natural way. Park rangers have thoroughly checked the vegetation available and the inescapable conclusion is that we have to implement the reduction program. The reduction program will be carried out in two separate operations. The moose population will be reduced by slaughter, and the elk will be live trapped and relocated to other areas in the park.

Preparations For Survey Commencing

A complete survey of Viking and area citizens 18 and over will be conducted in the new year. This will be conducted by P.S.S. with a number of interested volunteers involved in developing the survey, contacting people, and doing the actual interviewing.

The survey will serve a number of purposes - helping P.S.S. determine development priorities; information on people's needs for programs and services (e.g., home support, recreation, transportation); developing a profile of the skills, talents and interests of people employed, and a general awareness of the community.

P.S.S. will be involved in setting up volunteer training sessions, organizing the volunteers, and the overall survey. A person will be hired for a 12 week period to coordinate this program.

Therefore, in the next while, people in Viking who are 18 and over may be approached to indicate their name, address, and phone number. We would appreciate your cooperation, as we

know exactly who to survey, when the time comes. More information will be published at a later time.

If you have questions, or are interested in being involved, please contact Deborah Taylor at 336-3040, or drop into P.S.S.

P.S.S. Directors from various communities in the region met on November 28 in Viking to discuss concerns, ideas for the future, and guidelines of Preventive Social Services. As the review process is being completed, some changes in the existing regulations are anticipated. These will be announced by Hon. Bob Inglis on February 1, 1981.

Parkland Nursing Home News

Get well wishes to Mrs. Maggie Harris in hospital. Ruthen, Raymond and Albie Howland, visited with Paul Fisher. Visiting Mrs. Roth and Mr. Piewner were Hans and Marshall Mader. Greenwood called on Harold Whidden and Gordon Lancaster. Gwen and Edridge Freeman visited with Herb Freeman.

Terry Look visited with Lars Rikland. On Wednesday, November 26th, Mr. and Mrs. Arthur Overby celebrated their fifty-sixth wedding anniversary. Many friends and relatives came in to help them celebrate. Tom Mathison and friends entertained and Elsie Marie played the piano. A lovely afternoon was had by all. Honey Curtis and Ernie Auburn visited with Charlie

Auburn. Violet Lancaster and Lorraine Culbert called on Gordon Lancaster. Mr. and Mrs. E. Danilich of Leduc called on Lars Rikland. Our monthly birthday party was held on Sunday with the Kinross W.I. entertaining and serving cake and ice cream. Celebrating birthdays were: Arthur Moss, Rod Henderson, Pearl Kowalski, Mike Piwowar, Roy Harris, and Tom Johnston.

Vialta Lodge News

Calling on Mr. Ziegler this past week were Jack and Hazel Shaw of Saskatchewan. Molly Cooper visited with Mrs. Sorensen. Mrs. Elisee enjoyed a

visit with her sister, Julia Johnson of Camrose. Bob and Belle Thomsen and Ryan Brook called in to see Mom and Dad Lowenthal. Terry Look called in on Grandma Crowe. Ida Hunka of Rydal visited with Helmer and Martha Holmen.

HOTSPOTS IN GRAIN
 One of the worst surprises in the world is to go out one morning to load a truck and discover the bin was heated.

Now is the time to be watching out for hotspots and preventing hotspots. Hotspots can be caused by any number of things. The

most common are insects and molds. However, there is only one way if the grain is damp or tough and the temperature is high enough.

Grain must be at least 15 degrees Celsius (50 F) or lower to kill insects. Any temperature higher than this is unsuitable for heating. At approximately 21 degrees Celsius (70 F) most insects come to this province will start breeding and growing. Once they start breeding more heat is produced and this combined with moisture from the insects can create a crust on the grain. In severe heating, grain spreads can be met.

A metal pipe inserted in the grain at as many locations as possible for about 10 minutes is one of the best ways to detect hotspots. Signs are cracking, steam rising out of the bin and sometimes a tell-tale smell. At this point, the producer has already lost some profits.

Some ways to prevent hotspots are:
 Use a grain spreader on the auger when augering grain into the bin. This will spread the weed seeds and other foreign material more evenly throughout the bin.
 Try to keep the grain moisture level at 13 per cent or lower and the grain temperature at 4 degrees Celsius (40 F) or lower.
 Sweep out all bins before filling them with new grain. Make sure bins are water-proof.
 Clean up all spilled grain. Check your grain often. If you leave on a winter vacation, have a neighbour check for you.
 If you do discover a hot-spot, auger the grain around as soon as possible, preferably on a cold day. If necessary, dry the grain down to an acceptable level.

When hotspots are detected early, generally moving the grain around will cool it off. The few minutes spent checking for hotspots will certainly pay big dividends. There is nothing more frustrating than losing your grain to heating. With a little bit of extra time, heating can be prevented.

On Friday, November 28, Glen McGinnis, President of the Viking High School Students Union, presented Mr. George Ritchie of the Viking Recreation Board with a cheque for \$300.00. Assisting in the presentation was principal of the Viking School, Mr. Dennis Watson. The money will be used for additions to the current recreation pad which was constructed on the school grounds.
